JOHN N. GALLAGHER, Proprietor.

JOHN F. BRISBANE, City Editor.

PHILADELPHIA, WED'Y, APRIL 13, 1892.

A VERY interesting book, containing a history of the development of the American Portland Cement manufacture, has been issued by Lesley & Trinkle, 220 South Third Street, this city. Besides containing a vast amount of information on this valuable subject, the work is beautifully illustrated, with pictures of structures into which Portland cement has entered as an important factor. The most interesting of the number, and the one which will appeal most strongly to all, is a fine picture of the now-celebrated bridge at Johnstown, Pa., which, on the fatal day of May 31, 1890, withstood the terrible flood that overwhelmed the Conemaugh Valley. Such an example of strength and durability speaks for itself and needs no comment.

Architects' Notes.

Frank Miles Day, architect, 925 Chestnut Street has completed plans for adding two stories to the J. B. Ellison cloth house, at Sixth and Minor Streets. These will be in keeping with the present structure, making it seven stories in all.

Will H. Decker, architect, Hale Building, Chestnut and Juniper Streets, has been directed to incorporate in his plans, provision for an additional three stories upon the John F. Betz Building, at Broad and Penn Square. These will be in conformity with the general features of the structure.

Rose and Stone, architects, 111 Broadway, New York City, have prepared elaborate plans for the "Brokaw Memorial Building," to be erected at Princeton College, Princeton, N. J. The drawings contemplate a handsome stone structure, with slate roof, heated by steam, electric work, and all the modern improvements and comforts introduced.

Angus S. Wade, architect, 20 South Broad Street, has completed plans for a fine residence for James M. Kelly, to be erected at Fortieth Street and Westminster Avenue. To be of brick and stone, three stories high, fitted on interior with hardwood work and best sanitary plumbing, electric work, in fact, all the latest improvements will be introduced. Cost about \$15,000.

It is more than probable that the Building Committee of the Bourse will during the current week arrange the conditions under which plans for the construction of the building will be competed for. It is understood that no limit will be placed as to the maximum number to be offered, but from these a limited number will be chosen from which a selection will subsequently be made by the committee, assisted by Prof. Ware, of Columbia College.

Daniel S. Beale, architect, 1328 Chestnut Street, has made plans for alteration to a house on Forty-first Street, near Girard Avenue. These contemplate a handsome front brownstone and light and dark tinted brick. To be three stories high, tin roof, wrought iron grill work on doors and cellar windows. A large bay window will be placed in front on second story, with ornaments of iron and stained panel glass. Inside will be in hard wood, with mantels, tile work in vestibule and bathroom, plate and stained glass in doors and windows, electric work and best sanitary plumbing.

Wm. B. Regan, architect, Lawrence, Mass., has prepared the plans for a parochial school to be attached to the Roman Catholic Church of the Sacred Heart at Third and Reed Streets. The structure will be four stories high, first being of brown stone and remainder of brick work. The ground floor will be divided into toilet, cloak and teachers' rooms, whilst all of the rest of the building will be devoted to teaching and class purposes. No contracts have been let, but estimates will likely be invited within the next ten days, as the plans have been approved of by the board of building inspectors. The parish is in charge of Rev. John Ward, who resides adjacent the church above named.

Thomas P. Lonsdale, architect, Manhattan Life Building, Fourth and Walnut Streets, has made complete plans for the new Temperance Hall, to be erected by Friendship Division Sons of Temperance No. 19. It will be erected at 1609-11 Columbia Avenue. The plans contemplate a three-story structure of ornamental front, to be of buff brick and terra cotta work with stores on first floor. The main entrance to the upper floors will have a fancy wrought iron gate and ornamental archway with insignia of the order over head, galvanized iron cornice and tin roofing and metal ceilings. The interior will be mainly in hard woods. Iron girders, beams and columns will be used, steam heat, electric bells and light, best of plumbing for toilet rooms, janitor's quarters, stores and kitchen together with all modern conveniences. Estimates are being made.

M. Fielding, architect, 110 South Fourth Street, has made complete plans for a residence for W. W. Justice, corner of Clapier and McKean avenue, Germantown. To be of buff brick, shingle roof, structure to be three stories high, furnished with electric work, hardwood finish on interior, and all modern conveniences. Also plans for a house for J. A. Scheidt, Esq., to be erected on McCallum avenue, Germantown. To be stone exterior, pebble dashed, shingle roof, hot air heat, hardwood finish, and all modern conveniences. Also, plans for a large bank building to be erected at Bluefield, Va., to be in Italian Renaissance, cut stone

and Pompeian brick, terra cotta trimmings, wrought iron ornamental work. It will contain banking rooms and business offices, and will be heated by steam. A Masonic lodge room will be placed in third story, with all furnishings for the purpose. Also, plans by same architect, for residence for Mr. Morris, Tyrone, Pa. To be of local stone, three stories high. Estimates will be invited at an early day.

Supervising Architect W. J. Edbrooke, of the United States Treasury Department, has prepared the plans for the new City Post-office Building which will be erected in the national capital, on the block bounded by Pennsylvania Avenue and D Street on the north, C Street on the south, Eleventh Street on the east and Twelfth Street on the west. The building will have a frontage of 200 feet on Pennsylvania Avenue, and will run back about 300 feet to C Street. One of the features of the new post-office which certainly will attract attention is the massive clock tower, the top of which will be about 300 feet from the sidewalk. The tower will be forty feet wide, and the diameter of the clock faces twenty feet each. The clock will be plainly visible from nearly every portion of the city. The main entrance of the new post-office will be on Pennsylvania Avenue, and the recessing of the central portion of each facade above the second story will be particularly conspicuous on the Pennsylvania Avenue side. The C Street entrance will be used entirely by the post-office department for receiving and dispatching the mails. The Eleventh and Twelfth Street entrances will be employed principally by persons on official business and those who wish to reach the offices in the upper stories by means of the elevators. With the exception of the first floor, which will be entirely covered over and all the space utilized, the general plan of the building is a hollow square upon which the offices open, thus admitting ample light and air. Balconies on each floor will render communication between the occupants of the offices convenient in the extreme. The open space or court will be roofed over with glass skylights, supported by iron trusses of ornate design. The interior of the building will be made bright by the use of glass tiling for the flooring of the corridors. It is expected that the entire exterior of the building will be of granite, which will be embellished with the coat of arms of the United States and various allegorical designs in bas-relief. Modern Romanesque is the style of architecture which has been decided upon. The new Post-office Building will be symmetrical, though somewhat massive in appearance, and it is certain to be regarded, when finished, as one of the sights of Washington. It will cost an enormous sum of money.

Building and Real Estate Notes.

H. Barraclough, builder, 3231 North Front Street will at once build eleven two story-houses on west side of Hope, north of Westmoreland Street, press brick fronts and good accommodations on interior.

William Provost, carpenter, of Chester, Pa., has received the contract to erect the Moyamensing Fire Company's house at Chester, Pa. S. Hall Day, architect, drew the plans. Work will begin at an early day.

It is the intention of the Bijou Theatre proprietors, during the coming summer, to make considerable alteration and additions to the house. New seating capacity as well as decoration will be some of the features introduced.

Pemberton & Co., Drexel Building, will at once begin an operation of twelve fine three-story houses on the south side of Thomazine Street, between Thirty-second and Natrona, all to be of the same material as others erected by them in that vicinity.

James W. Hamilton, builder, 1402 Bainbridge Street, will start the erection of seventeen two story houses on north side of Tasker Street west of Point Breeze Avenue. These will be of the same material as others in the vicinity and same accommodations.

A. S. L. Shields, a prominent lawyer, has just purchased an old property on South Penn Square, west of Broad Street, from Pauline C. Biddle, and it is understood to be his intention to remodel it entirely for office purposes. \$48,000 was the amount of purchase money.

Stokes Bros. & Co., lumber dealers, will at once begin the erection of ten handsome dwellings on the corner of Forty-second and Chestnut Streets. These will be of brick with considerable stone work. Interiors to be well finished, and fitted with all modern conveniences.

The Committee on Superintendence of Police and Park, of the Park Commissioners, on the 7th instant directed the engineer to lay an underground electrical cable for lighting purposes from Green Street entrance as far as could be done for \$1000, the amount set aside for the work.

The Trustees of the Wissahickon Methodist Episcopal Church have appointed a committee to consider the feasibility of erecting a new two-story structure on the lot owned by them fronting on Terrace Street. This would give them the use of the present chapel for class room purposes.

Ellwood Allen, lumber dealer Frankford, has bought a piece of land lying close to the proposed line of the new branch of the Reading Railroad, which will touch at Frankford, upon which his son William B. Allen will erect quite a number of dwellings and business houses. Mr. Allen will begin operation at an early day.

John R. Wiggins, contractor, 1536 Seybert Street, has been awarded the contract to build the new store of George W. Allen, at 1214 Chestnut Street. The plans were prepared by Frank R. Watson, architect, 518 Walnut Street, who will supervise the work. These were fully noted in a previous issue of this journal.

Harry Gill, contractor, has been awarded the contract to erect the new Shaw Building, on Vine Street, north side, east of Eighth, for which plans were prepared by Isaac Pursell, architect, 119 South Fourth Street, and who will supervise the work of construction. These have been fully described in a previous number of this journal.

John Loughran, builder, 1331 York Street, will begin at once the erection of sixty-six dwellings on east and west sides of Willington, between Huntingdon and Cumberland Streets, and seven dwellings and stores on Cumberland, west of Bancroft Street. These are to be of press brick stone trimmings and good interior accommodations.

Estimates are being offered on the construction of the Hotel Metropole to be erected by John M. Sharp, on Broad Street, south of Locust. The plans for the structure were prepared some months ago by Angus S. Wade, architect, 20 South Broad Street, who also prepared the drawings for the Empire Theatre in the immediate vicinity.

C. B. Prettyman, builder, 25 North Juniper Street, will at once begin operation of building sixteen two story houses at Fourth and Thayer Streets, nine three story at Fourth and Master

Streets, and seven more of the same size at Lawrence and Master Streets. All to be of press brick, stone facings of marble and brownstone, and best interior fittings.

William C. Merritt, builder, Fortieth and Poplar Streets, will at once start work on an operation of twelve fine three-story residences, west side of Forty-First between Poplar and Eaglesfield Streets. These will be quite ornamental in front, with porches, and the interior finished in best style, hard wood mantels, electric bells, best sanitary work in plumbing and drainage and all modern conveniences.

McCoach and Johnson, contractors, 1607 Sansom Street, will at once erect six fine three-story stone and brick dwellings on southeast side of Windsor Avenue, east of Forty-eighth Street. These will be 24 x 55 feet and fitted with bay windows in front and hardwood finish on interior as well as all modern conveniences. The same contractors will build four similar houses on Springfield Avenue, west of Forty-eighth Street.

At Frankford, Mr. Allen will erect a row of three-story stores adjoining Music Hall. The Oakland Country Club has leased the grounds and building of the Frankford Base Ball Club at Frankford Junction, and will fit up the same for the accommodation of the club. A syndicate of Frankford capitalists contemplate the erection of a number of dwellings at Mulberry and Gillingham Streets. The work will be begun at an early day.

In addition to the great morocco factory now being constructed for R. H. Foederer, at Wheat-sheaf Lane and Frankford Road, on the main line of the Pennsylvania Railroad, George Kessler, the contractor, has been directed by the proprietor to erect about one hundred houses for accommodation of those who are engaged in labor on the premises. These are to be five and seven roomed houses, and made comfortable with all modern conveniences.

The new North Baptist Church, of Camden, N. J., will erect a new church at an early day, fronting on Linden Street, and capable of seating 1000 persons. It is desired by the congregation to adopt all the modern improvements for a baptistery, dressing room and general features of a modern church. It is understood that no definite contract has been given for architectural plans as yet. A building committee has been appointed from the Building Alliance.

About two years since City Councils passed an ordinance widening Chestnut between Seventh and Eighth Streets, and provided also an appropriation to indemnify those whose properties were damaged thereby. The matter is now being agitated and pressed by the city, and many of the holders of stores and places of business on the south side of the thoroughfare are having plans prepared, and considering ways and means to carry the law into effect as it does not affect the north side at all.

The Quaker City Bank officers have had a handsome sketch prepared by the well-known architect Willis G. Hale, 1524 Chestnut Street, which presents a massive granite front of beauty, strength and durability, about four stories high, and which if erected will be in keeping with the Singlerly Building opposite and others in the vicinity. The operation will extend from the western side of the Press Building to the east side of Eighth Street, and each structure would be compelled to recede about four feet from the present line. This action will necessitate considerable work which must benefit architect and builder alike.

William Reynolds, contractor, of Woodbury, N. J., has been awarded the contract to erect the Masonic Temple and Theatre at Camden, N. J., plans for which were prepared by Angus S. Wade, architect, 20 South Broad Street, and who will supervise the construction. The above contract does not include plumbing, steam plant,

electric plant and wiring, or decorations. It is desired to lay the corner-stone about the 15th of May next with considerable ceremony by the Grand Lodge of Masons of New Jersey and invited guests.

The Quaker City Mortar Company, to manufacture mortar by machinery, has been organized under its charter just granted and a capitalization of \$200,000, and in less than three months will be in operation at Twenty-third and Filbert Streets. The officers elected are as follow: W. H. Albertson, president; E. T. Warner, vice-president; Ralph Peverly, secretary and treasurer; and the following directors: W. H. Albertson, William B. Irvine, Henry C. Butcher, S. E. Moore, E. L. Hall, E. T. Warner, Ralph Peverly, Amos R. Little, A. G. Bouvinger and Allen B. Rorke.

Estimates are being made upon the plans for a house at Ambler for Charles W. Bergner, from plans drawn by Frank Miles Day, architect, 925 Chestnut Street. The estimated cost will be about \$65,000, and perhaps may exceed that limit, as it will be furnished in the most complete manner with all comforts and conveniences, steam heat, electric light and bells, best of sanitary plumbing and culinary arrangements, speaking tubes and dumb waiters, plate and stained glass, slate roof, etc. A full description was given in architectural notes of a previous number.

All preparations now being made are looking to an early start upon the extension to the Pennsylvania Railroad Station at Broad and Market Streets and which will run as far west as Seventeenth. An entirely new set of plans has been made and adopted for the work, and embody the best ideas presented in the former ones. The Adams Express Company's offices will likely be transferred to a location west of the present one, as the site will be utilized for building and track space, which will extend to the curve at Seventeenth Street. It is expected that estimates may be invited upon the work of construction during the present month.

The Property Committee of the Board of Education, Mr. Paul Kavanagh, Chairman, on the 7th inst., adopted the plans for the construction of the new Girls' Normal School, on the site of the Spring Garden Hall, Thirteenth and Spring Garden Streets. Some modifications were made in the original plans in the way of reducing the size of some of the rooms and the enlargement of others. The building is to cover the lot, comprising 178 feet on Spring Garden Street and 150 feet on Thirteenth Street, and will be four stories in height, of the Italian style of architecture, and is estimated to cost \$275,000. A basement 6 feet above ground, and 11 feet from floor to ceiling, will underlie the structure, which is to be of granite or stone, the material not being fully decided upon yet. It will contain 40 rooms, exclusive of a large assembly room, gymnasium and lecture room. The average height of the ceilings will be 15 feet. The main entrance will be in the centre of the Spring Garden Street front, extending by a wide corridor to Brandywine Street and surmounted by a tower in which the old Spring Garden Hall clock will be placed. The basement will be devoted to the cooking and manual training schools, lavatories, closets, etc. Proposals for the erection are soon to be advertised for, and upon the awarding of the contract the work will be proceeded with under the supervision of J. D. Austin, the Architect of the Board of Education.

### Through Pennsylvania.

 When any of the following are not post office towns they will be so designated.

—At Grove City, Mercer Co., a Presbyterian church will be erected at a cost of about \$10,000.

—At Altoona, Blair Co., a public meeting has been held to consider means of improving the road.

—At Upland, Delaware Co., a number of repairs and improvements will be made to the Methodist church.

—At Stouts, Northampton Co., George Nicholas will erect a barn.—Edward Transue will erect a dwelling.

—At Hummelstown, Dauphin Co., John Eppinger has bought a lot on West Main Street and will erect a dwelling.

—At Allentown, Lehigh Co., Lewis Malsberger has taken out a permit for the erection of a two-story brick dwelling.

—At North Wales, Montgomery Co., Benjamin Rorer and Miss Stewart will each erect a dwelling on West Montgomery Avenue.

—At Sunbury, Northumberland Co., Mrs. George Kelly has purchased a property on Fourth Street and will erect a dwelling.

—At Lansdale, Montgomery Co., William L. Diehl will erect a dwelling on Third Street.—Harry Kaufly will erect a dwelling.

—At Ridley Park, Delaware Co., at a recent meeting of Councils, Mr. Buchanan presented a petition asking for a bridge across Stone Creek.

—At Fitzwatertown, Montgomery Co., Thomas C. Cannon has purchased the farm belonging to the estate of Edmond Murray, and will improve it by building.

—At Erie, Erie Co., the Merchant Flouring Mills and Elevator, and the Downing Baby Carriage Works, destroyed by fire a short time since, will entail a loss of about \$500,000.

—At Columbia, Lancaster Co., it is reported that Janson Bros. will erect a rolling mill, 200 x 156 feet, on a lot belonging to them on the river front, between Walnut and Front Streets.

—At Warren, Warren Co., Messrs. Woodard and Lesser can give particulars as to the erection of a veneer works for Hood, Gale & Co., whose plant was recently destroyed by fire at Kinzua.

—At McKeesport, Allegheny Co., appraisers are at work estimating the fire loss on the Coursin Street Methodist Episcopal Church. John W. Morgan, of McKeesport, is one of the appraisers.

—At Bethlehem, Northampton Co., a handsome new high school will be erected the present season. It will be three stories high, of brick and stone, all modern improvements. A clock will be put in the tower.

—At Beaver Falls, Beaver Co., the dwellings and stores of C. Laffret and David Curring were destroyed by fire last week, at a loss of about \$11,000. The Belvidere Hotel was also slightly damaged.

—At Darby, Delaware Co., the temporary bridge on the P. W. & B. R. R., over Darby Creek, being finished, the old iron bridge will be torn down and a stone arched bridge will be constructed to take its place.

—At Ashland, Schuylkill Co., the American Fire Co. has asked Councils for one thousand feet of linen hose, one dozen white rubber coats, and the erection of a hose tower. The matter has been referred to the Fire Committee.

—At Minersville, Schuylkill Co., Terrace Mohan will erect a dwelling to cost about \$8000. It will be of brick, and will contain all modern improvements. The plans have been prepared by F. X. Reilly of Pottsville, Pa. Contracts not let.

—At Steelton, Dauphin Co., the Paxtang Hook and Ladder Co. at a recent meeting discussed the question of purchasing a lot and erecting a truck house. A number of sites have been viewed, but no selection has as yet been made.

—At Mechanicsville, Bucks Co., the contract for a chapel has been awarded to William Weiss of Doylestown, Pa. The plans were drawn by M. B. Bean, architect, Lansdale, Pa., and call for a stone structure fitted on the interior with modern furniture, fixtures, etc.

—At Mt. Jewett, McKean Co., work will be commenced on the construction of three miles of track for the Buffalo, Rochester and Pittsburg Railroad extending from Bradford to Mt. Jewett. Horace Missimer, Peter and William Wilanier, of Pottstown, are the contractors.

—At Downingtown, Chester Co., the Masonic Hall Building, owned by Dr. Thomas E. Parke, also the business building of Howard B. Sides, was destroyed by fire last week. The Sides building will be rebuilt as soon as possible.—G. T. Guthrie will erect a number of dwellings.

—At Frenchtown, P. O. Erwinna, Bucks Co., the Odd Fellows have purchased a lot next to the National Bank and, it is said, will use the site upon which to erect a three-story brick dwelling, the first floor to be used as store, the second for public purposes and the third for lodge rooms.

—At Fayette City, Fayette Co., the glass works have been compelled to shut down on account of shortage of natural gas. The company has been offered building sites for the plant at Kensington, on the Allegheny River, and the proposed new town of Romona, on the west bank of the Monongahela, above Bellevernon.

—At Norristown, Montgomery Co., at a recent meeting of Councils, the Committee on Streets, Roads and Bridges recommended that the usual advertisement be inserted for supplies.—A number of property holders on De Kalb Street, between Chestnut and Main Streets, presented a petition for a sewer on De Kalb Street between those two points.

—At Danville, Montour Co., the State Board of Charities has been asked to consider the matter of enlarging the State Hospital, as it is in a very crowded condition. Two years ago the State Legislature appropriated money to erect a wing capable of accommodating about four hundred patients, but the State Board so far has failed to act in the matter.

—At Hatborough, Montgomery Co., Charles Fetter and Michael Kilgore have been awarded the contracts for erecting the parish house at Holmesburg, Philadelphia, for the congregation of St. Dominic's Church.—William Conner has the contract to erect dwellings for Mrs. Kate Hackman and Frank Bealer; also for a stable for A. H. Moore, of Colmar.

—At Point Pleasant, Bucks Co., a meeting was held a short time since by the Directors of the Point Pleasant Bridge, recently destroyed by fire, but no decided action was taken, although it is the opinion that the bridge will be rebuilt. The estimated cost of a new structure is about \$20,000. John Clemens is secretary of the company, and can give information.

—At Swarthmore, Delaware Co., a meeting of the stockholders of the Springfield Water Co. will be held at Swarthmore College on June 4 to vote upon the question of increasing the capital stock of the company from \$25,000 to \$250,000. It is said the object of the company is to pipe water to all the towns on the Central Division and the Philadelphia, Wilmington and Baltimore Railroad as far as Darby.

—At Media, Delaware Co., it is said that the proposed electric railroad between Media and Chester is an assured fact, and that work will begin in a short time. The work will be under the control of the Union Passenger Railway Company and the Rapid Transit Company of Chester. Colonel Samuel A. Dyer, of Chester, can give additional information.—Thomas R. Vernon will erect sixteen dwellings at East Media.

—At Allegheny City, James Hanoeks will erect an apartment house to cost about \$13,000 from plans prepared by Alston and Heckert, and 45 Sixth Avenue, Pittsburg, Pa. The structure will be three stories high, of press brick, t. roof, plate and stained glass windows, sanitar

plumbing, slate and iron mantels, hard wood finish, etc. The same architects have prepared plans for a dwelling for G. N. Saycock, to cost \$8000. It will be three stories high, of brick with stone trimmings, handsome interior finish, modern conveniences and improvements.

—At York, York Co., ground is being prepared upon which the congregation of St. Mark's Church will soon begin the erection of a church edifice.—John Frysinger will erect two handsome three-story dwellings, handsomely finished on the interior and fitted with modern conveniences and improvements.—Philip B. Spahr will erect three three-story brick residences on West King Street.—George Hoyer has purchased a lot at the southeast corner of Queen and Philadelphia Streets, and will improve the same by the erection of a handsome dwelling.

—At Lancaster, Lancaster Co., at the last meeting of the school board, Mr. McPhillips, of the Property Committee, submitted the report of the committee, which recommended the purchase of a lot of ground on Ann Street, 100x32 feet, upon which to erect an annex to the Ann Street schoolhouse. It will consist of four rooms. On motion of Mr. Warfel the whole matter of an annex was postponed one month, with instructions to the Property Committee to report on the advisability of erecting a new building in that section of the city. The committee was also instructed to secure an option on the property in the rear of the Ann school building.

—At Wilkesbarre, Luzerne Co., a gas company is to be organized for improvements and piping the streets on the west side. The incorporators will be Abram G. Hoyt, John B. Yeager, John B. Smith, J. J. Robbins, A. J. Roat, Harvey Yeager and John Flanigan.—Work will be pushed on the new Grand Opera House, which is to be finished by September 1. John D. Mishler will have charge.—It is said if the post-office be removed from its present site Music Hall will be remodeled by the owner, Eugene C. Frank. The Wilkesbarre Steam Heat Co. has purchased a tract of land on Dana Street upon which to erect an additional plant to supply steam to the lower part of the city.

—At Quakertown, Bucks Co., at the regular monthly meeting of the borough council held last week, the committee appointed to secure a lot for the proposed police station reported a lot purchased from William H. Mininger, Jr., for \$225. The chief burgess presented specifications for dynamos, etc., for the proposed electric light plant. The specifications were accepted and the burgess authorized to advertise for bids. It was decided to divide the erection of the plant into three parts and let out each contract separately. The first contract will include dynamos, lines, etc.; the second contract, boilers and engines; and the third, the building. President Gable appointed Messrs. Stout, Walk and Soudet a committee to consider a suitable site for the plant. President Gable was authorized to secure pipe for a main drain on Broad Street.

—At Norristown, Montgomery Co., at a recent meeting of the members of the Ersine Club, it was decided to proceed with the erection of the new club house at Freedley and De Kalb Streets. The architecture will be that of the old colonial style, somewhat like the building of the Manheim Club. The lower floor will be fitted up in the usual manner for club purposes, and the second floor will be used for entertainments, etc.—Guest, Grater & Co. have been given the contract for the wood work for Masonic Temple to be erected at Camden, N. J.—Benjamin Evans will erect four three-story dwellings on Chain Street. The contract for the erection has been given to McGrath & White.—James Kenworthy is president and B. F. Kerper secretary of the reorganized Electric Light Co.—Contractor John Jamison has commenced work on the erection of twelve three-story brick dwellings.

## TRUSTS. TITLES. DEPOSITS

# THE PLANT OF THE LAND TITLE AND TRUST COMPANY,

608 Chestnut Street,

Covers every foot of ground in Philadelphia, and is the only Plant containing an abstract of every Deed, Mortgage and Sheriff's Sale of record in Philadelphia since 1682 located against each property described.

This Plant necessarily gives great additional protection to purchasers and mortgagees taking this Company's policy of Title Insurance, apart from the security of its One Million Dollars full paid capital.

WILLIAM R. NICHOLSON, President.

## THE CITY TRUST Safe Deposit and Surety Co.,

No. 927 Chestnut Street.

BONDS OF SURETYSHIP.

Capital Full Paid, \$500,000.  
SURPLUS, \$150,000.

## PHILADELPHIA BOURSE.

AUTHORIZED CAPITAL, \$1,000,000.

The subscription books are now open for the remaining \$200,000 of unsubscribed capital, and the privilege of becoming stockholders and members is offered to all men doing business in or with Philadelphia.

Shares are \$50 each. The minimum subscription received is for four shares.

Subscribers to four shares or more will be entitled to all the rights and privileges of membership. There will be no annual dues or assessments.

The offices in the Bourse will be very desirable and are already in demand. The capital invested in this building will pay large returns, and it is expected that stockholders will not only receive great business advantages, but a fair interest on their investment.

SUBSCRIPTION BOOKS ARE OPEN AT THE EXECUTIVE OFFICES.

Work Guaranteed. Repairing promptly done.

—At Chester, Delaware Co., Contractor Jackson has been awarded the contract for the erection of a dwelling for James Sproul.—It will be erected at Eighth and Butler Street and will contain modern conveniences and improvements. M. H. Bickley will make a number of improvements to his store on Market Street.—Connolly & Kay will make some improvements to their store property on West Third Street.—The stone structure at Ninth Street and Eddystone Avenue is being demolished preparatory to cutting the ground up into building lots, upon which a number of dwellings will be erected. William Simpson & Sons are doing the work.—The Ledward property on Fourteenth Street, near Melrose Avenue, recently occupied by Colonel B. F. Morley, is being torn down to make way for a new dwelling.

—At Reading, Berks Co., L. H. Focht, contractor, has prepared the plans for the two school buildings to be erected. The buildings will be 83x88 feet and two stories high, with ornamental roofs. They will be of brick, with Berks Co. sandstone trimmings. Mr. Focht is making plans for the buildings to be erected for the Mutual Fire Insurance Co.—At a recent meeting of the Building Committee of the Nursery Literary Association it was decided to commence building operations as soon as plans are prepared.—At a recent meeting of citizens and Councilmen, J. J. Deery, representing the West System of House Sewerage, exhibited and explained the plan of the plant prepared for the city of Roanoke, Va., and suggested placing a plant on Independence Island which would require two sixty-horse power boilers and two four million gallon pumps for the further needs of the city of Reading. The pipes used to be of the best salt glazed vitrified terra cotta, and that the size of the tank mains and laterals shall be from 12 to 24 inches; lateral mains to be 10 inches in diameter and house connections not less than 6 inches in diameter.—John R. Bechtel has taken a permit for the erection of a two-story brick dwelling. Loose, Phillips & Co. for three two-story brick dwellings.

#### Through New Jersey.

At Cramer Hill, Camden Co., the Citizens Fire Company No. 2 is being organized.

At Salem, Salem Co., the Rice Shoe Manufacturing Co. will locate their factory, which is now at Bridgeton.

At Sea Isle City, Cape May Co., a handsome residence will be erected by Mr. John Keen, the builder of Cramer Hill, N. J.

At Collingswood, Camden Co., Messrs. Patterson & Cobb have contracts for the erection of four dwellings to be completed by July 1st.

At Highland Beach, Monmouth Co., L. Mortimer Thorn, Jr., has contracted with Edwin C. Parmelee for the erection of a dwelling to cost about \$3000.

At Hoboken, Hudson Co., Architects Danmar & Fischer are preparing plans for a three-story brick and stone dwelling to be erected on Hudson Street for Leon Abbett.

A saw mill will be erected by the Joseph Dixon Crucible Co., of Jersey City, at its mines at Ticonderago, N. Y. A large amount of saw mill machinery will be wanted.

At Long Branch, Monmouth Co., it is reported that work on the construction of the electric railway to run from Red Bank to Long Branch will commence about May 1st.

At North Cramer Hill, Camden Co., George W. Goodwin, real estate agent, has broken ground for the erection of four dwellings on Taylor Street, near Horner Avenue.

At Asbury Park, Monmouth Co., work will soon be commenced on the erection of a brick store and flat building at the corner of Bond and Cookman Avenues, for Mr. Lewis.

At Elizabethport, ground has been broken for a large building, to be used as a foundry by the Worthington Pump Co., of South Brooklyn, which will employ about 300 hands. Ten acres of ground have been purchased for the purpose.

At Elizabeth, Union Co., a factory will be erected by the Union Oil-Cloth Works. The structure will be 75 feet by 200 feet, two stories high, of brick with stone trimmings, electric lights, engines, boilers, elevators, etc.

At Rahway, Union Co., it is reported that about thirty acres of land has been purchased near Rahway by the McShanes, upon which a foundry will be erected for the manufacture of large iron water and sewer pipes, and that the plant will give employment to about five hundred men.

At Atlantic City, about \$2500 have been raised towards the erection of a Jewish synagogue. About \$5000 will be required for the purpose. A site has been selected on Pennsylvania Avenue. The proposed structure will be of frame with a seating capacity of about five hundred.

At Montclair, Essex Co., Fentzloff & Wolfe contemplate the erection of a building to be used as a store. The estimated cost is about \$16,000. The material will be brick, four stories high, modern improvements, store fixtures, etc. The plans were prepared by C. F. Hughes, of Montclair. No contracts let.

At Merchantville, Camden Co., at a recent meeting of the Merchantville Club, held at the residence of David S. Stetson, a sub-committee, consisting of Messrs. Allyn Brewer, Edward W. Morris and H. Bloomfield Bare, was appointed to report on the best location for the erection of a club house to cost about \$10,000.

At Cape May, Cape May Co., F. K. Duke has been awarded the contract to erect the new fire house and office, by City Council.—The Gamewell fire alarm system will be introduced and a Hayes fire truck purchased.—The contract to build the roadway of the new electric railway has been awarded to Senator L. E. Miller. The route is being surveyed by Earl Thompson, of Camden, N. J.

At Atlantic City, Atlantic Co., work has been commenced on the four hundred feet addition to Messrs. Young & McShea's pier. At the end of the pier a boat landing will be built. The dancing pavilion is to be reconstructed into a large enclosed pavilion 100 x 160 feet, in which meetings, concerts, balls and other entertainments will be held. Mrs. H. Leeds will erect a cottage on Arctic Avenue, below Indiana Avenue.

At Camden, the ground was broken for the new Masonic Temple, on Market Street, above Fourth Street, on Thursday, April 7th. Including the ground and furnishing, the structure will cost when completed about \$140,000. It will be of Indiana limestone, and the interior will be handsomely finished, including the opera house. The contract for the erection has been awarded to Frank P. Reynolds, of Woodbury, N. J., and the work will be pushed as rapidly as possible, and it is expected that the auditorium will be ready for use by the last of December.—S. B. Goff will rebuild his medicine factory, destroyed by fire some time since.

At Morristown, Morris Co., W. S. Halliday will erect a two-story brick, stone and frame dwelling to cost about \$10,000, from plans prepared by Geo. W. Bower. The interior will be handsomely finished in hard woods, stained and plate glass windows, cabinet mantels, electric bells, sanitary plumbing, etc.—The same architect has prepared plans for a dwelling to be erected at Madison, N. J., for Walter Reid. It will be two stories high, of frame, shingle roof, plate and stained glass windows, wood mantels, marble tiling, etc. The cost will be about \$4000.—Also plans for a dwelling to be erected at Summit, N. J., for C. S. Day, at a cost of \$4000. To be of brick and cement, stained and plate glass windows, cabinet mantels, and modern improvements and conveniences.

#### Through Delaware.

At Farnhurst, New Castle Co., at a meeting of the Trustees of the State Hospital, held a few days since, the Committee on Buildings and Grounds were authorized to have a refrigerator built at the hospital, to furnish the reception room, to purchase 180 window shades, and to purchase two acres of land. The new residence for the resident physician is nearly finished and some furniture will be purchased for it. Dr. Richardson, the resident physician, was authorized to confer with the trustees in regard to the construction of a sidewalk from the hospital to the railroad station.

#### Through Maryland.

At Baltimore, A. O. White & Co., real estate brokers, have sold to Frank R. Singer, Jr., a lot of ground 120x72 feet at the southwest corner of Gold Street and Druid Hill Avenue, upon which Mr. Singer will erect a row of three-story dwellings.—The foundations for the Traction Company have been completed and work on the superstructure commenced.—Building permits have been issued as follow: To Wm. Butzler to erect eight two-story brick dwellings. To Wm. F. Allen to erect five two-story brick dwellings. To the Oheb Sholam congregation to erect a one-story stone church. To Messrs. Baxter & Evans to erect a three-story brick stable.—The Mayor has signed an ordinance to condemn and open Ensoe Street from Eager to Chase Street.

#### Washington, D. C.

W. C. Whittemore will erect a handsome residence at the southwest corner of New Hampshire Avenue and Q Street, from plans prepared by Harvey L. Page, 515 H Street.—B. N. Warder will erect a four-story office building at Ninth and F Streets, from plans prepared by Nicholas T. Haller. The first floor will be fitted up as stores and the others for office purposes.

#### Real Estate at Auction.

[When no sales are reported, it is because the auction firm omitted has had none.]

### Wants.

N. H. Farquhar, Chief Bureau Yards and Docks, Navy Department, Washington, D. C.—Proposals, until April 15, for iron and steel work for erecting sheds at Norfolk Navy Yard.

J. H. Richardson, President of Board of Water Commissioners, Gloversville, N. Y. Proposals, until April 20th, for furnishing about 3000 feet of

water pipe, twenty stop valves, and ten tons special castings.

Proposals for Lighting the town of Middletown, Delaware, by Electricity, for a term of five years, will be open until April the 20th, 1892. All bids addressed to W. S. LETHBRURY, Secretary Board of Town Council, Middletown, Delaware.

G. L. Gillespie, Lieutenant-Colonel of Engineers, Army Building, New York City. Proposals until April 20th, for supplying all necessary materials and erecting a frame dwelling house upon the U. S. Reservation at Sandy Hook, N. J. Cost not to exceed \$4500.

At Atlanta, Ga., sealed proposals will be received until April 19th for the construction of a mess hall, one guard-house and one magazine, all of brick, and to be erected at Fort McPherson, Ga. Address Constantine Chase, Captain and Assistant Quartermaster, U. S. Army, Atlanta, Ga.

D. P. Heap, Tompkinsville, N. Y., wants proposals until April 25th for lighthouse supplies, consisting of building material, plate glass, galvanized iron, tin solder, engineers' supplies, belting, hardware, lumber, iron wire, nickel castings, electro-plating, smoke-stacks, graphite, paints, etc.

William Ludlow, Light House Engineer, Ninth District, Detroit, Mich., proposals, until April 14, for furnishing the materials and labor of all kinds necessary for the complete construction of the storehouse, keeper's dwelling, and carpenter and lampist shops for Light House Depot at St. Joseph, Mich.

Gilbert O. Brine, Chairman Viaduct Commission, Cohoes, N. Y. Proposals until May 4, for building the superstructure of an iron viaduct, connecting Garner and Division Streets. It will consist of three spans, a centre braced steel arch, span of 200 feet, and two end spans of about 50 feet each. General plans and specifications can be seen at the office of Edward Hayes, C. E., No. 38 Mohawk Street, Cohoes, N. Y.

The New Jersey Board of Commissioners for the World's Columbian Exposition invite from architects who have a bona fide residence in the State of New Jersey plans, drawings and specifications for the erection of a State headquarters for New Jersey at the World's Columbian Exposition, said plans to be delivered by Tuesday, the third day of May, 1892. The commissioners will, on application, furnish printed details of the character and quality of the work required, and will pay \$200 for each of the three best plans of first merit submitted, and \$100 additional to the architect whose plan shall be finally adopted. For printed details address Walter S. Lenox, Secretary of the New Jersey Commissioners, Trenton, N. J.

Edwin Stewart, Paymaster General U. S. Navy Department, Washington, D. C.—Proposals, until April 19, for furnishing at the New York Navy Yard, 38,058 pounds steel plates, 37,347 pounds steel shapes; also, a quantity of rolled sheet copper, copper tubing, brass tubing, steam and compound gauges, and at the Naval Laboratory, Brooklyn, N. Y., a quantity of bedding, surgical instruments and appliances, hospital furniture, etc. Also, until same date, to furnish at the Navy Yard, League Island, Pa., about 3500 tons broken stone; also a quantity of cement, lumber, etc. Also, until same date, proposals for electrical supplies, etc., for Navy Yard at Mare Island, Cal. Also until same date proposals for furnishing at the Norfolk, Va., Navy Yard two stationary locomotive boilers, 7200 pounds steel plates and 7500 pounds steel bars.

Commissioners' Office, Media, Pa.—Bids will be received by the undersigned, until May 2d 1892, at noon, for the building of an iron bridge over Ridley Creek, at Second Street, in the City of Chester, according to plans and specifications now in the Commissioners' office. Contractors, if they desire, can furnish their own plans and specifications for a bridge for the span and roadway described in

the plans, which will be considered before making the award. The Commissioners reserve the right to reject any and all bids. Also, until same date, for excavation, piling, decking and masonry, for the abutment of a bridge over Ridley Creek, at Second Street, in the City of Chester, plans and specifications for which may be seen at the Commissioners' office. The Commissioners reserve the right to reject any and all bids.—Harry L. Hipple, James Clark, Wm. Lane Quinn, Commissioners.

C. G. Sawtelle, Deputy Quartermaster General, United States Army, No. 1428 Arch Street, Philadelphia, proposals, until April 22d, for furnishing United States Quartermaster's Department in this city with vitrified china dishes, silver-plated spoons, knives and forks, glass tumblers, salt cellars, pepper boxes, coffee mills, meat saws, scales and weights and meat choppers, in accordance with standard samples to be seen at Schuylkill Arsenal. Bids for delivery at other points will be considered. Bidders must state the earliest dates when they will commence and complete deliveries. Government reserves the right to reject any or all bids. Preference will be given to articles of domestic production or manufacture, conditions of quality and price (including in the price of foreign productions or manufactures the duty thereon) being equal. Blanks for proposals, lists of articles required and full information will be furnished upon application. Envelopes containing proposals to be indorsed "Proposals for Tableware, etc."

Tenders will be received to the 30th day of April for Lighting the Streets, Parks, Public Buildings and Markets of the City of Petersburg, Va., with not less than 160, and not more than 200 Electric Arc Lights of 1200 candle power each and over, and with about 100 Incandescent Lights of 20 to 65 candle power each, for two, three and five years from the 1st day of September, 1892, respectively. To be placed according to specifications advertised in the Petersburg "Index-Appeal" of this date, which I will furnish contractors with on application. Separate tenders are invited also up to April 30th, to furnish a complete Electric Plant, all put up ready for lighting and guaranteed to create, at its minimum capacity, sufficient power to produce (without strain) the maximum number of lights as stated above, that will burn steadily all night and every night in the year. But to be owned and run by the city. Also a tender to furnish a complete Electric Plant of the same capacity and put up as above except that the city will agree to furnish all necessary motive power from its own boilers, engines and premises to run it. And that the entire plant is to be owned and operated by the city. By authority of the Common Council. Wm. Cameron, Chairman, Committee on Gas and Lights.

Proposals for furnishing stone and iron crossings for the year ending March 1st, 1893. The undersigned, the Committee on Streets, Roads and Bridges, will receive proposals for furnishing the following: Curbstone.—Separate proposals for Wilmington and Penna. curb, 5 inches thick by 20 inches deep, of an average length of 8 feet, none to be less than 4 feet in length. Penna. stone, 4 inches thick and 20 inches deep, of the same lengths as above. Also, Penna. stone, 4x16, same lengths as above. The price for setting must accompany all bids for all except the 4x20 Penna. stone. Iron coverings for culverts and inlets.—To be bid by the pound, as may be ordered by the Committee. Gutter-stone.—To be delivered at such places as may be designated by the Street and Road Commissioner. Proposals will be received, viz.: By square yard and by the load. The stone must be of good quality, flat, and of face measure not less than 4 inches in thickness, Gutter Paving.—For paving the gutters that may be required to be done, by the square yard, to be computed by the Street and Road Commissioner monthly. The paving must be well rammed down and backed, to the satisfaction of the Commis-

## A Few Quiet Words with House Builders and Owners.

If the kitchen of your house is small, you need to economize room. You can do this by using a range with elevated boiler, such as the

### "FIDELITY."

It will reduce the cost of plumbing also. We make them with seven inch or eight inch boiler holes, ovens on right or left of fire, with or without hot closets, and also to heat an upper room. Splendid bakers. Hot water in abundance. The latest and best of their class.

FIDELITY HOT AIR RANGE WITH HORIZONTAL BOILER.

Excelsior Double Oven Range.

If the kitchen is roomy and large, cooking capacity is sought. You will want a brick-set range with a vertical circulating boiler, set in the usual way. The

### "EXCELSIOR RANGES"

are acknowledged all over Philadelphia, in which city and vicinity some 75,000 have been sold as the standard brick-set range. They are furnished with ventilated ovens, oven-door pedals, rocking grates, and all modern improvements. Made in seven and eight inch sizes; single, double and hot-air ranges. Send for descriptive pamphlet, entitled "PERFECT COOKING."

MANUFACTURED BY

**ISAAC A. SHEPPARD & CO.,**

N. E. COR. FOURTH STREET AND MONTGOMERY AVENUE, PHILADELPHIA, PA.

And for Sale by all Responsible Dealers.

Whether large or small, your house will require a heating apparatus of some kind. It will pay you to put in a *really good* hot air furnace. The

### "PARAGON"

has no superior. Perfectly self-cleaning, with fewest joints, free from dust and gas, largest radiating surface, heavy steel plate, drum casings, easy on fuel, and of superior durability, it will always give satisfaction. A descriptive circular will be mailed upon application.

PARAGON FURNACE WITH EQUALIZED DRAFT.

PHILADELPHIA, WEDNESDAY, APRIL 20, 1892.

PRICE 15 CENTS.

**Architects' Notes.**

Moses & King, 431 Walnut Street, have opened a branch office in the People's Bank Building, at Wilkesbarre, Pa.

Yarnall & Goforth, architects, 14 S. Broad Street, are engaged on plans for a bank and office building to be erected at Durham, N. C. To be of brick and cut stone, slate roof, three-stories high, and fitted with hard wood on interior and all modern conveniences.

Minerva Parker, architect, 14 S. Broad Street, is preparing plans for the New Century Club Building, at Wilmington, Del., and at an early day they will be submitted for approval. They contemplate a handsome structure of stone, brick, and iron work, replete with ornamentation upon the exterior as well as interior, and will include all modern conveniences and comforts.

Angus S. Wade, architect, 20 S. Broad Street, has on boards plans for four stores, and a hall, two-story high, to be erected northwest corner of Eighth and Callowhill Streets, by Mr. Edward T. Brophy. These are to be of brick and stone, and will be fitted with all modern conveniences. The same architect has made plans for four houses to be erected at Narbeth Park, Pennsylvania Railroad, for Mr. Warner Davis, all to be of stone and brick, and fitted with the best interior accommodations.

William Bleyden Powell, architect, 423 Walnut Street, has completed plans for a large electric plant for the Northern Electric Light and Power Company on the square bounded by American and Phillips Streets and Susquehanna Avenue. These contemplate one of the largest of the kind in the city, the main building being 100x121 feet and others of smaller dimensions. The whole will be fitted with steam power and heat as well as electric appliances. Bids have been invited on the work.

James H. Windrim, architect, 132 South Third Street, has been engaged to prepare the plans for the new Jefferson Medical College to be erected on Broad Street, between Catharine and Christian, and extending back to Carlisle Street in the rear. The main structure will be of brick, with stone trimmings and interior of slow burning material. The laboratory will be separated, and be 90 x 120 feet in area. Elevators, dumb waiters, speaking tubes, electric work, bells and light, best of sanitary plumbing, steam heat and all modern appliances for comfort will be introduced.

Walter H. Geissinger, architect, Twelfth and Chestnut Streets, has completed all details of the plans for the new work of rebuilding the great mills of John H. Bromley & Sons, recently destroyed by fire. These include all the structures except the main dyehouse under way and will be four-stories high with basement, and located at Somerset Street and Lehigh Avenue. The materials will be chiefly of brick, stone, and iron, with a tin roof, fitted with engine, boilers, steam heat electric work, elevator lifts for freight, and all modern conveniences. Estimates are now being asked for upon the construction.

ern conveniences. Estimates are now being asked for upon the construction.

William H. Free, architect, 27 N. Juniper Street, is engaged on plans for ten fine suburban houses to be erected in four different styles of architecture by Charles B. Prettyman, builder and owner, 25 N. Juniper Street, at Lansdowne Park, Pa. All will be three stories high, of brick and shingle work, with slate roofs. Porches will extend around front, and the interiors will be finished in hard natural woods and best sanitary work, electric bells and light and all modern conveniences. This operation will be about five minutes walk from Lansdowne Station, on the Philadelphia, Wilmington & Baltimore Railroad, Central Division.

M. B. Bean, architect, Lansdale, Bucks Co., Pa., is engaged on plans for a handsome house for E. M. Daniels, builder, of Norristown, Pa., to be erected upon the site of the Hartranft mansion, in that borough. To be of brick and stone, three stories high, and fitted throughout with best modern conveniences. Also, six others will be erected adjacent on Main and Airy Streets, and a large double house at Hawes and Main Avenues. Mr. Bean is also engaged on plans for a large public school house at Kutztown, Pa., to cost about \$15,000, and which will have all latest conveniences. Also, plans to enlarge the school at Souderton, Pa., and which will likely cost about \$6000.

Charles W. Bolton, architect, 1510 Chestnut Street, has on boards plans for a fine Presbyterian church to be erected at Harrisburg, Pa. Structure to be 80 x 138 feet, one story high, with tower at corner. To be of brownstone, slate roof. Interior to be of open timber work construction, with best of fittings in pulpit and pews, stained and plate glass windows and doors, and heated by hot air. Plans in detail have been completed for a public hall and store building for the Patriotic Order of Sons of America, at Ashland, Pa. To be three stories high. Material to be brick and stone and tin roof. All modern accommodations on interior, with seating for about five hundred persons.

Moses & King, architects, 431 Walnut Street, have now completed all plans in detail for the new Methodist church to be erected at Broadway and Berkely Streets, Camden, N. J., and will, in a few days ask bids for construction. The structure will be of stone, two stories high, with a spire two hundred and twenty feet high, of stone and slate work. The first floor will be adapted entirely to Sunday-school work and class rooms, a kitchen and steam-heating apparatus in basement. The second story will be for church service alone, and will seat about 1500 persons, having fine carpeting and upholstery in chancel and pews. Electric light and every modern convenience and comfort will be introduced. The entrance and exit will be by two fine arched doorways on Berkely Street and Broadway.

Albert H. Kipp, architect, Rooms 26, 27, 28, Os-

terhout Building, Wilkesbarre, Pa., sends the following: Col. E. B. Beaumont, owner. Semi-detached dwellings, cor. N. Franklin and Union Streets, Wilkesbarre. E. T. Long, contractor. Cost about \$24,000.—Wilkesbarre City Hospital, owner. Two additional buildings for pay-wards, administrative purposes and surgical operations. Contractors not selected. Cost about \$18,000.—A. S. Van Wickle, owner, Hazleton, Pa. Alteration of dwelling. Cost about \$10,000. Chas. Wetteran, carpenter, George C. Tidden of New York, cabinet worker and decorator.—A. S. Van Wickle, owner, Hazleton, Pa. Barn and stable, Benjamin Rausch, contractor. Cost \$3600.—State Normal School, Bloomsburg, Pa., owner. Alterations of chapel, E. T. Long, of Wilkesbarre, Pa., contractor. Cost \$4500.—State Normal School, Bloomsburg, Pa., owner. Dormitories, gymnasium, etc. Builders not yet selected. Cost about \$40,000.—Hon. John Sittser, Tunkhannock, Pa., owner. Alterations of residence. Cost about \$3000.

Hazlehurst & Huckle, architects, Drexel Building, are about completing plans for the Northeast Branch of Young Men's Christian Association, Frankford Avenue, below Norris Street. The structure will be quite ornamental, being of stone and brick, four stories high, 50x120 feet. The main entrance will be a large arched doorway, and upon first floor will be a parlor, gymnasium, bowling alley, and bicycle gallery. Second will contain managers' room, auditorium to seat about 800 persons, fitted with stage and properties, and a large gallery will be placed in the rear. The third floor will be occupied with class rooms and offices, as well as the fourth, the whole being heated by steam and lighted by electricity. Best of sanitary plumbing and all modern conveniences will be introduced, making, one of the model structures in the northeastern part of the city. The same architects having the matter of plans for the Odd Fellows' Temple in hand, will likely place them on boards for estimates during the current week. These have been fully described in previous numbers of this journal.

**Building and Real Estate Notes.**

Arthur Williams & Sons, contractors, 402 Tenor Place, have been given the contract to erect the new factory at Tenth and Medical Streets, before noted in this journal.

Bids are being received on "Dalton Hall," to be erected at Bryn Mawr College, from plans by J. C. Worthington, architect, 1305 Arch Street, and which have been fully noted in this journal.

Noble McClintock, 4800 Frankford Avenue, will erect at the above place a large hotel which will contain about forty rooms, and be furnished with all modern conveniences, electric bells and light, best sanitary work, etc.

Andrew Mowbray, builder, 1541 South Fifteenth Street, will at once break ground for fourteen two-story houses on McKean Street, west of Thirteenth, to be of the usual dimensions and finish of others in the same vicinity.

PHILADELPHIA, WED'Y, APRIL 20, 1892.

WHATEVER may be the causes which keep the supply of currency in ordinary business channels at a minimum point, the fact is that enterprise of various kinds are held in check, production is restricted, distribution is hampered, and confidence is unsettled. Yet the financial columns of the daily press assure us with suspicious reiteration that there is an abundance of money, and apparently prove the assertion by showing an increase of currency. The real question is what volume of currency is required to do the business of the country? That there is an insufficient volume is evidenced by the fact that the volume of purely bank credits has been expanded under the urgent exigencies of business from \$386,000,000 in 1870 to \$1,309,000,000 in 1891, that is of commercial paper, the basis of which is the \$310,000,000 of National Bank capital. This volume of credit must be, and will be, increased as business necessities expand, and herein is the weakness of our National Banking system. This volume of credits can be expanded from its present size to double what it is, and rest on no more secure basis than the present capital of the National Banks, or such small increase as may be made. "What difference," answers the practical business man, "so long as the commercial exchanges of the country can be effected."

This difference, we reply; that if there is need of such a vast credit as is shown by the above figures, then there should be sufficient money to do the business with instead of depending on mere bank credits, and the cost of such credits in the shape of bank discounts. There is an ever-present danger in this steady expansion of bank credits, and which is altogether out of proportion to the National Bank capital. The figures are as follow: The volume of bank credits in 1870 were \$386,300,000; 1873, \$540,000,000; 1880, \$794,400,000; 1891, \$1,309,969,148.

Do these figures carry no warning? Do they not show that a monetary system, which forces the business men of the country to go into bank and borrow over thirteen hundred million dollars in one year in the shape of bank credit, is not altogether a safe system?

The per capita circulation which was about \$40 in 1866, has declined to \$5 outside of silver certificates. The necessities of the country have been steadily expanding, and will continue to expand.

On the other hand observe the growing dangers to our interests, incident to the struggle for gold in foreign countries. Great Britain, France, Germany, Austria, Russia—all the powers of Europe—are engaged in a struggle for the possession of gold. Austria wants \$400,000,000 in gold to replace silver. Russia has been borrowing and hoarding. Germany has gained and is bending all its financial skill to get more. The banks of France and of England are struggling to amass gold. The controlling financiers are engaged in a conspiracy against the producing interests of the world to establish gold standards, and to crowd out and depress silver, and in this way to reduce the world to commercial vassalage to them. The United States Government has been feebly protesting because public sentiment is not a unit on the matter, and is asking for an International Monetary Conference that will make silver current in all countries at a fixed rate. But it is the determination of those who control the Governments and the monetary policies of Europe to establish the gold basis, and to fight down all who ask for anything else.

To what does this point? To increased stringency; to a checking of enterprise; to a fixing of values here by European holders of gold.

This is but little short of a conspiracy. It is the most gigantic Trust that was ever conceived. It controls interests throughout the world, and affects prices of tools on the shelf in the hardware store in Philadelphia, as well as the price of wheat in the farmer's bins in Dakota.

That this attempt will ultimately fail is justified by all analogy and experience; but meantime it may do vast harm. The people of this country do not recognize the magnitude of the danger threatening. In view of the struggle to establish gold as the solid and supreme agent in the determination of values by British and European interests, it is strange and unaccountable that there should be such intense opposition to the use of silver under proper and safe limitations.

**Building and Real Estate Notes.**

Work has been started upon the new three-story barrel factory, replacing the one recently burned at the sugar refinery of Claus Spreckles, Reed and Meadow Streets. It will be occupied by W. G. Pennypacker, barrel manufacturer.

John McConaghy will at once begin building twenty-four three-story houses on Clifford Street, west of Thirty-first Street. These will be of fine press brick, stone facings and steps, with good modern conveniences on interior.

John Loughran, builder, will at once begin operations on the east and west sides of Willington Street, above Cumberland, for sixty-one two-story houses, of press brick, stone trimmings and best modern conveniences on interior.

William H. Brown, owner and builder, will at once begin an operation of about fifteen fine three-story Queen Anne cottages at Sixteenth and Westmoreland Streets, Tioga, to be of brick and stone, with fine porches. Interior to be in hard wood, with all modern conveniences.

Major Raymond, engineer in charge of public works in and around this city and Camden, N. J., has examined and condemned the large bridge over Cooper's Creek, near the latter place, and an

order will be issued at an early day to the Board of Freeholders, Camden, to at once replace it by a new one.

R. C. Ballinger & Co., contractors and builders, 218 N. Thirteenth Street, have been awarded a contract to erect a large printing house at 316 Cherry Street, and will at once begin the work of construction. It will be of brick and stone, fitted with steam power and heat, as well as all modern conveniences.

Jno. M. Sharp, builder, 1936 South College Avenue, will at once start the erection of thirty three-story dwellings on Thirty-first Street, north of Susquehanna Avenue. All to be of fine press brick, brownstone fronts and steps, and best of modern conveniences, and interior including electric bells, best sanitary work, etc.

The Southeastern Dispensary and Hospital for Women and Children have purchased, through Clifford Pemberton, Jr., Drexel Building, the property 736 S. Tenth Street, being 23 x 175 feet, and extending to Erie Street in rear. It is their intention to tear down the present structure and erect a new one adapted to hospital purposes.

Edward De V. Morrell has purchased 507-509 S. Ninth street, on the part of St. Francis de Sales Industrial School, at Eddington, and the properties will be remodeled so as to be made convenient as workshops and dormitories combined for the boy inmates who may select this as their home from time to time, it being an institution to care for and foster industry among that class.

John Stafford, builder, 1606 Susquehanna Avenue, will at once break ground for a large operation of about 200 two and three-story houses in the vicinity of Engleside and Ridge Avenue Station, on the main line of the Pennsylvania Railroad. These will be in keeping with other operations by the same builder in the northwestern section of the city, of best materials and workmanship.

The Chamber of Commerce is about consummating plans whereby the present building on Second Street, above Walnut, will be somewhat enlarged and modernized by the addition of elevators, new offices, with all accommodations, electric work, steam heat, etc. While nothing definite has been done as yet, the matter is now being considered by President Passmore and the Board of Trustees.

Allen B. Rorke, contractor and builder, Drexel Building, has been awarded the contract for erecting the new College of Pharmacy, on Tenth Street, above Cherry, for which plans have been prepared by J. T. Windrim, architect, 132 South Third Street, and which were fully described in this journal some time ago. The work will cost \$65,000. The same contractor will erect an addition to Fidler's Cordage Works, above Bridesburg. It will be 35x80 feet, one story high, of brick and stone construction.

W. W. Rea & Son, contractors, 1815 Francis Street, have been awarded the contract for the Mantua Presbyterian Church, and which will be erected under supervision of T. F. Miller, architect, 1221 Arch Street, who drew the plans. Work will be started at once. Work will be commenced also on the church building, planned by the same architect, at Ambler, Pa., Mr. Miller having given the contract to Theodore Beck, of that place. These plans have been fully noted in this journal.

Col. R. C. Auchmuty, founder of the Trade School System in New York, made a flying visit of inspection to our city on the 12th inst., and after a cursory examination of the School in the Builder's Exchange and Williamson School at Elwyn, Pa., expressed himself as much pleased with both institutions and the progress they are making. J. Pierpont Morgan, of New York, has placed in Col. Auchmuty's control \$500,000 as an endowment fund in behalf of the Trade School of New York City.

In an interview with the Rev. W. H. Benade, President of the College of the "New Church," (Swedenborgian), we learn that matters looking to the pushing forward the work of constructing the new college buildings, to be erected in Moreland Township, Bucks Co., Pa., is being disposed of as fast as possible, and that actual work will be started at an early day, although several preliminary sketches and plans have been examined for the schools, none have thus far been decided upon. Mr. John Pitcairn, the greatest benefactor of the institution, now residing at 2008 Spring Garden Street, will erect a very handsome residence for himself upon the grounds, for which plans have been made and adopted. It is likely this house will be erected during the summer months.

The following properties standing on the south side of Chestnut Street, between Seventh and Eighth, will be affected by the ordinance of Councils referred to in our last issue, in regard to receding four feet from their present line, starting with DeYoung's, 704; Quaker City Bank, 706; European Museum, 708; Gibson Shaw & Co., 710; Thompson Spa, 712; Henry A. Dreer, 714; Citizen's Trust Company, 716; A. R. Justice, 718; National Rubber Company, 720; John C. Kelly, 722; F. Pulaski, 724; Louis A. Scherr & Co., 726; Alex. Harper & Bro., 728-30-32, and the corner property occupied by John Morley, merchant tailor. The time originally indicated by the ordinance was March 31st, 1891, but this was extended to July 1st, 1892, in order to give time for certain leases to expire in order to accommodate the occupants as well as owners of the property.

At a meeting of the trustees of the Academy of Natural Sciences, on the 11th inst., it was resolved to appoint a committee to at once examine and revise plans for the construction of the main building at Nineteenth and Cherry Streets, for which the basement was prepared about one year ago. The committee consists of Drs. Ruschenberger, Chapman and Dixon, Professors Heilprin, Curator, and Mr. Wm. Sellers. It is incumbent on the institution to move at once in the matter as the \$50,000 appropriated by the State of Pennsylvania would become invalid after that date if something practical is not done in the matter of building. It is understood that about \$75,000 is available at once, and more can be raised on call from subscriptions. No definite action was taken upon the kind of building to be erected, or shape in which to place the various floors so as to obtain the best effects of light. This, however, will be settled at once, as plans are to be agreed upon within two weeks from the date of the meeting above noted.

### Through Pennsylvania.

*When any of the following are not post office towns they will be so designated.*

—At Stewartstown, York Co., a new school house will be erected.

—At York, York Co., William Kable will erect a fine dwelling this spring.

—At Steelton, Dauphin Co., Mr. Smoke has purchased ground and will erect a cottage.

—At Washington, Washington Co., a site is being looked for by those interested in erecting a hospital.

—At Devon, Chester Co., Mr. William Tiers has sold a number of lots to Philadelphians, who will erect dwellings.

—At Braddock, Allegheny Co., the Braddock Glass Company will rebuild its works, recently destroyed by fire.

—At Mount Pleasant, Westmoreland Co., Frank Ringler will erect a dwelling. —Company E will erect a new armory.

—At Mechanicsburg, Cumberland Co., the school board will soon ask for estimates for the erection of a school building.

—At Lykens, Dauphin Co., a school building will be erected from plans prepared by John C. Smith, of Harrisburg.

—At Charleroi, Washington Co., the town council has purchased a lot, and will erect a building for municipal purposes.

—At Greensburg, Westmoreland Co., the Baptists of South Greensburg have organized a congregation and will erect a church.

—At Tower City, Schuylkill Co., a new school building will be erected from plans prepared by John C. Smith, of Harrisburg.

—At Pottsville, Montgomery Co., the City Armory Association are pushing matters toward the erection of an armory building.

—At Duncanville, Blair Co., Andrew Myers has received contract for the erection of the new chapel for the Baptist congregation.

—At Hilltown, Bucks Co., Jacob M. Detweiler will erect a large barn this summer. Mr. Schantz, contractor, of Hatfield, has the contract.

—At Spring City, Chester Co., Henry S. Hallman will erect a dwelling. —The congregation of the Lutheran church will purchase an organ.

—At Wayne, Delaware Co., the school house will be enlarged by the addition of two rooms. Work will begin as soon as the school term closes.

—At West Hazleton, Luzerne Co., P. D. Black has secured a site and will erect a three-story public hall building, the first floor of which will be used as stores.

—At Pottstown, Montgomery Co., Lyman W. B. Fillman will erect a residence at Penn and King Streets. —Mrs. Sarah J. Scheetz will erect a dwelling.

—At Shippensburg, Cumberland Co., it is reported that the United Brethren congregation will tear down their old church and erect a new one on the site.

—At Media, Delaware Co., Charles Vernon has sold a lot in East Media to T. Dawson Cooper, who will improve the same by the erection of two brick dwellings.

—At Hazleton, Luzerne Co., if \$75,000 worth of stock is taken by the citizens, a branch of the Read & Laratt Co.'s silk mills will be erected and operated at that place.

—At Scranton, Lackawanna Co., a movement is on foot to establish a State Hospital in the First Legislative district. Hon. John R. Tarr is interested in the project.

—At Sunbury, Northumberland Co., the question of constructing a bridge across the Susquehanna is being agitated. The proposed structure would cost about \$125,000.

—At Slatington, Lehigh Co., the Secretary of the Water Committee has been authorized to advertise for sewer pipe. Mr. Berkemeyer is Chairman of the Committee.

—At Scranton, Lackawanna Co., contract for the new bridge to be erected has been awarded to the Groton Bridge and Manufacturing Co., of Groton, Tompkins Co., N. Y.

—At West Chester, Chester Co., Moses & Burns have been awarded the contract for the erection of a handsome dwelling for George Matson at Linden and Walnut Streets.

—At Freeland, Luzerne Co., an electric railway will probably be constructed; also an electric light plant. William Williamson, Edward Kehoe and W. J. Eckert can give information.

—At New Haven, Fayette Co., the congregation of the regular Baptist church has decided to erect a new church edifice, and funds are being raised to purchase a lot on which to build.

—At Honeybrook, Chester Co., a lot has been purchased by G. Warren Piersol, who will erect a dwelling. —Mrs. Samuel Lemmon will make a number of improvements to her dwelling.

—At Connellsville, Fayette Co., a Roman Catholic church will be erected at a cost of \$75,000. The plans are being prepared by J. W. Offerman, 501 Market Street, Pittsburg, Pa.

—At Leisenring, Fayette Co., the congregation of the Greek Catholic church has let the contract for the new church edifice to Thalman Brothers, of McKeesport, Pa. Work will begin at once.

—At Quakertown, Bucks Co., D. S. Neidig will erect a building to cost about \$8000. It will be three stories high, and the lower floor will be fitted up as a store. John Widemayer is the contractor.

—At Kennett Square, Chester Co., the large tissue paper mill of Wm. H. Phillips was destroyed by fire last week at a loss of about \$10,000. —The Y. W. C. T. U. will erect a drinking fountain.

—At Chatham, Chester Co., the school directors have decided to erect a large school. It will be of brick, handsomely finished and furnished with modern improvements. The estimated cost is \$25,000.

—At Harrisburg, at a meeting of Council, the Highway Commissioner was authorized to advertise for proposals for the construction of a sewer in Fourth Street and Logan Avenue, from Reily to Harris Streets.

—At Rosemont, Montgomery Co., four dwellings will be erected by James Florey. They will be of brick two-and-a-half-stories high, slate roofs, handsome interior finish, and modern conveniences and improvements.

—At Ridley Park, Delaware Co., the Ridley Electric Co. propose to construct a plant and supply electric light to the residents of Moore's, Ridley Park, Norwood and vicinity. The capital stock of the company is to be \$30,000.

—At Norristown, Montgomery Co., William K. Gresh, of the firm of W. K. Gresh & Sons, has broken ground for a handsome vault in Montgomery Cemetery. It will be 16 by 22 feet, and finely finished, and will accommodate thirty-two bodies.

—At Idlewood, Allegheny Co., a new brick school house will be erected at a cost of \$10,000. The plans have been prepared by James A. Campbell, Penn Building, Pittsburg, Pa. George B. Darrah, of Washington, Pa., has been awarded the contract.

—At Pottstown, Montgomery Co., William M. Bunting will erect several handsome dwellings on Chestnut Street. —Matthew Law will erect a brick dwelling on the lot recently purchased and adjoining his present property on King Street.

—At Conshohocken, Montgomery Co., Albert Murphy has broken ground for a dwelling. Elmer Hart has been awarded the contract for the erection of a dwelling for James Bickhart, on Seventh Avenue. —Hon. Alan Wood will have a number of dwellings erected on Woodmont farm, at Lower Merion.

—At Royersford, Montgomery Co., the new bank to be established will be known as the Home National Bank. A charter will be applied for the present week. The capital will be \$50,000. —The required amount, \$11,000, has been raised to remove the Goodwin Gas Stove & Meter Company from Philadelphia to Royersford.

—At Collegeville, Montgomery Co., the Fuller estate has been purchased by Joel H. Victor for the Ringrose Manufacturing Co., who will erect a plant and remove its present works at Mechanicsburg, Cumberland Co., to Collegeville. The structures will be of brick, and three stories high, 200x200 feet, with wings 100x200 feet.

—At Bristol, Bucks Co., the stockholders of the Bristol Water Co. will increase the capital stock from \$65,000 to \$85,000, and will make a number of improvements. Also, purchase a new steel boiler of 80 horse power.—At the regular meeting of the Borough Council, the Street Committee was authorized to advertise for bids on rebuilding the Jefferson Avenue swinging bridge.

—At Connellsville, Fayette Co., a movement is on foot to pave Main Street, between Pittsburg and Hill Alley. Main, Pittsburg and Peach Streets will be paved during the summer. The material will be vitrified brick. An ordinance has been passed by Councils authorizing H. P. Berryhill to construct a system of sewerage. The work must begin by May 1, 1892, and be completed in two years.

—At Langhorne, Mrs. Watson, Dr. Harry Lovett, Charles G. Fetterolf and C. C. Riggs will erect dwellings the present season.—The Langhorne Manor Hotel, which was sold to G. Harry Davis, of Philadelphia, has been resold to builder Green, also of Philadelphia, who, it is said, will enlarge and otherwise improve the property, among which will be the introduction of a steam heating plant.

—At Haverford College, Montgomery Co., it is proposed to erect a new gymnasium. The matter is in the hands of the Athletic Committee of the Alumni, and it has been decided to raise \$40,000 for the purpose by June 1, 1892. The ground floor will contain a large swimming tank, lockers and dressing rooms, while the second floor will be devoted to the gymnasium proper, and will have a gallery with running track.

—At Pittsburg, quite a number of plans have been submitted by outside architects for the Phipps conservatory to be erected in Schenley Park. The structure will be of iron, stone, glass and brick, and the cost is estimated at \$100,000. Chief Bigelow will let the contract about May 1.—The congregation of the United Presbyterian church has decided to erect a new edifice, to cost about \$125,000, on Collins Avenue, East End.

—At Lansdowne, Delaware Co., the Dickinson Estate of forty-two acres, which was purchased about two years ago by Edward A. Price, Esq., of Media, Pa., will be improved by the erection of a number of dwellings. Mr. Price has sold fourteen lots to Charles B. Prettyman, 25 North Jupiter street, Philadelphia. The purchaser, who is a builder, will break ground at an early day for twelve handsome dwellings. Mr. Price has also sold a half acre of ground to Mrs. Mary Wolfe, who will have two fine dwellings erected the present season.

—At Reading, Berks Co., C. K. Rothenberger has taken out permit for the erection of a two-story iron stable on Front Street; S. S. Dietrick has taken permit for the erection of a two-story brick dwelling; Peter Helfrich has taken permit for the erection of four two-story brick dwellings; W. S. Shadle has taken permit for six two-story brick dwellings.—A meeting will be held Thursday evening, at the Board of Trade rooms, in interest of the proposed new boulevard, sixty feet wide, and to extend along the Schuylkill for a number of miles.—Plans have been prepared by William A. Fink, 426 Franklin Street, for the building to be erected by the Mutual Fire Insurance Company on Fifth, above Penn Streets. It will be four stories in height, of press brick, stone and terra cotta, tin and iron roof and galvanized iron cornices. The interior will be handsomely finished in hard wood, plain and stained glass, cabinet mantels, elevator, fire escapes, etc. The estimated cost is about \$15,000. John Bechtel is the chairman of the building committee.—Solomon Weida will erect a four-story business building at No. 534 Penn Street.

—At Wilkesbarre, Luzerne Co., the stockholders of the Grand Opera House, at a meeting held at the home of Liddon Flick, awarded the contract

to P. R. Raife. The contract calls for the completion of the building by September 6. Architect Lempert will supervise the construction. The structure will be very ornate, handsomely finished on the interior, and supplied with modern conveniences and improvements.—It is reported that \$150,000 has been offered for the Lamb estate, at the corner of West Market and Franklin Streets, and being 126 x 300 feet, the purpose is the erection of a large hotel by a syndicate.—The grand jury has recommended that a new court house be erected.

—At Chester, Delaware Co., the school directors are looking for a site upon which to erect a new school building. The site at Eighth and Crosby Streets is thought to be the most suitable.—It is probable that Murphy A. M. E. Chapel will be enlarged. The present location is at Engle and Second Street.—B. D. Ayers & Son are the contractors for two new two-story brick dwellings, to be erected for Edward Creighton.—Taylor Brothers have commenced the erection of two brick dwellings on Barclay St. At a recent meeting of the Chester Hospital Committee, plans were considered for the proposed new building. They have been prepared by P. A. Welsh, of Philadelphia. As soon as the plans are accepted the committee will advertise for bids and the work will be pushed as rapidly as possible. The site will be that secured from the Pennsylvania Construction Company.

—At Allegheny, Allegheny Co., William Eberhardt, Esq., will erect a handsome residence from plans prepared by George W. Orth, 43 Sixth Avenue, Pittsburg, Pa. Contract not let.—Mrs. K. Weber will erect a dwelling, to cost \$8000. A. E. Linkenheimer, Eisner Building, Pittsburgh, Pa., has drawn the plans. Contract not let. The same architect is preparing plans for a dwelling for James Marshall, to be erected on Ohio Street, Allegheny. The estimated cost is \$10,000. Contracts not let. Also, plans for a dwelling for George E. Meyer, Allegheny, to cost \$2500.—Charles Geyer will erect a brick dwelling from plans prepared by Thomas Boyd, Eisner Building. The same architect has prepared plans for a malt house and bonded warehouse, to be erected for Guckenheimer Bros., at a cost of about \$40,000. Contract not let. Also, plans for a dwelling for G. C. Gering. Also, plans for a frame chapel, to be erected on Brighton Road, Allegheny.

### Through New Jersey.

At Orange, Essex Co., the Second National Bank has been authorized to begin business with a capital of \$100,000.

At Collingswood, Camden Co., the trustees of the Methodist church are agitating the question of erecting a new parsonage.

At Merchantville, Camden Co., a club house will be erected. H. Bloomfield Bare, architect, 430 Walnut Street, is one of the building committee.

At Stone Harbor, near Avalon, Cape May Co., ground has been broken for a large hotel. Enos R. Williams, of Cape May, has been awarded the contract for the erection.

At Lambertville, Hunterdon Co., ground has been broken for the proposed new Roman Catholic church on Bridge Street. The congregation is under the charge of Father Fitzgerald.

At New Brunswick, Middlesex Co., the freight house of the Pennsylvania Railroad Company was destroyed by fire a short time since at a loss of about \$40,000. It will be replaced by a new building.

At Trenton, the new Normal School Boarding Hall will be about 37 x 81 feet, and three stories high. The interior will be handsomely finished and furnished with modern improvements and conveniences. Two fire escapes will be provided.

At Paterson, Passaic Co., a dwelling to cost about \$4000 will be erected by C. D. McKelvey. It will be of brick, with fine interior finish and modern conveniences and improvements, including plate glass, cabinet mantels, tiling, etc. The plans have been prepared by M. Houtman.

At Mount Holly, Burlington Co., the new building to be erected by the Relief Fire Co., on Pine Street, will be a two-story brick building with a tower and balcony. The dimensions will be 24x70 feet. The specifications will be ready in a short time, after which the contract will be awarded.

At Bridgeton, Cumberland Co., the Bridgeton Street Railway Co. has been organized with Dr. H. K. Trask as president; William S. Scull, vice president; Alex. R. Fithian, secretary, and G. G. Browning, treasurer. Five miles of track will be put down in Bridgeton, and the road will be continued to Carmel and Millville.

At Hoboken, Hudson Co., the hotel property at Hudson and Fourth Streets will be extensively improved from plans prepared by French, Dixon & DeSaldern. A new front will be put in. The lower floor will be fitted up for stores, and a four-story brick extension will be added. Sanitary plumbing will be introduced. The alteration will cost about \$15,000.

At Camden, J. W. Cheney will begin extensive improvements in a short time in rebuilding and remodeling the properties lately purchased on Cooper Street, below Sixth Street. Modern conveniences and improvements will be introduced.—A number of improvements will be made by William S. Scull to his residence at Sixth and Cooper Streets. The exterior will be changed, and the interior thoroughly renovated and remodeled.

At Merchantville, Camden Co., at a special meeting held last week to consider school matters, it was decided to hold a meeting in four weeks to vote on increasing the amount to be used in securing better heating and ventilating for some of the school buildings. The committee consists of Messrs. A. G. Cattell, E. S. Hall, William Lee and Allyn Brewer. This committee will report at the meeting to be held four weeks hence, and will act in conjunction with the school directors.

The Cooper farm, adjoining Camden, and consisting of about one hundred acres, has been sold to a syndicate who will improve the same by establishing a suburban town. The company will be known as the New Camden Land and Improvement Co. The incorporators are John McGregor Gibb of Philadelphia; Frederick Buckwalter, Ashbourne, Pa.; H. C. Alexander, Camden, N. J.; Samuel H. Harrity, Philadelphia; Canwell T. Fisher, Pitman, N. J., and William J. Adamson, Paulsboro, N. J.

At Jersey City, Charles S. Furst will erect a large building for business purposes, to cost about \$40,000. It will be of brick, with stone and terra cotta trimmings, and will be finished with modern conveniences, including steam heat, elevator, etc. The plans have been prepared by Hebburd & Kreidler.—The same architects have made plans for a building to be erected by Lewis Fisher, and to be used for club purposes. The cost will be \$20,000. The structure will be of brick, stone and terra cotta.

### Through Delaware.

At Milford, Kent Co., the Central Hotel is being torn down to make way for a new building. It will be of brick, handsomely finished on the interior, and filled with modern conveniences.

At Wilmington, the Park Commissioners have decided to place a fence around Eden Park.—At a recent meeting of the Street and Sewer Department, John Maxwell's Sons, of Philadelphia, were awarded the contract for blue gutter stone, and the Delaware Terra Cotta Co., of Philadelphia, the contract for terra cotta pipe. It was de-

## PHILADELPHIA BOURSE.

AUTHORIZED CAPITAL, \$1,000,000.

The subscription books are now open for the remaining \$200,000 of unsubscribed capital, and the privilege of becoming stockholders and members is offered to all men doing business in or with Philadelphia.

Shares are \$50 each. The minimum subscription received is for four shares.

Subscribers to four shares or more will be entitled to all the rights and privileges of membership. There will be no annual dues or assessments.

The offices in the Bourse will be very desirable and are already in demand. The capital invested in this building will pay large returns, and it is expected that stockholders will not only receive great business advantages, but a fair interest on their investment.

SUBSCRIPTION BOOKS ARE OPEN AT THE EXECUTIVE OFFICES.

cided to advertise for 46,000 square yards of vitrified brick, or about 3,760,000 brick in all. Seventh Street, from King to Washington Streets, was added to the streets to be paved with fire brick the present year. Plans for a bridge across Clayton Street were examined, but no decision was reached, as an additional appropriation must be asked.—The City Engineer has been authorized to make arrangements for lighting Cool Spring Park with electric lights.—Architect E. L. Rice, Jr., has furnished the plans for Shields Library Hall, and has asked bids for the same. Edward F. Kane is the chairman of the building committee.—The New Century Club has authorized the Site Committee, Mrs. Clement B. Smyth, Chairman, to purchase a lot from Thomas McCorkle, on south side of Delaware Avenue, east of Van Buren Street, upon which to erect a club house. The lot is 57x144 feet, and the price asked about \$5000. Building committee consists of Mrs. William W. Pusey, Mrs. Frances Garrett, Mrs. Elizabeth Men denhall, Mrs. Frank Pyle, Mrs. Linton Smith and Mrs. Edith Canby. This committee has been authorized to secure plans.

### Through Maryland.

At Annapolis, Anne Arundel Co., the erection of a court house, to cost \$25,000, is contemplated.

At Baltimore, H. C. Logemann, 206 St. Paul Street, sold to Father Joseph Skretny forty acres of land which will be improved as a park for the congregation and children of St. Stanislaus Roman Catholic church building.—Permits have been issued to date as follow: To D. C. Stomaker & Co., to erect seven three-story brick dwellings. To T. L. Parks, to erect twelve two-story brick dwellings. To J. J. Houser, to erect one three-story brick dwelling. To J. S. Margarity to erect five three-story brick dwellings.—Philip Walsh & Sons have been awarded the contract for the Jewish Synagogue for \$200,000.—Architect J. T. Osler will prepare plans for the new No. 8 School Building to be erected.—John Waters has been awarded the contract for the erection of the banking house for the Border State Bank, 22 x 72 feet, four stories high. Cost, \$35,000.—James D. Mason has received a contract for the erection of a residence for J. M. Cone. Cost, \$50,000.

### Washington, D. C.

P. N. Dwyer has made plans for a club house to be erected by the Arundel Gun Club, on Chesapeake Bay, below Bay Ridge. The same architect will supervise the erection of twenty-eight small dwellings for which he drew the plans.—A handsome church edifice will be erected at the corner of Fourteenth and R Streets, from plans drawn by Hornblower & Marshall. It will be a memorial of the father and the husband of Mrs. Edward Temple. It will take the place of Unity Church. The material will be white marble, and the dimensions 60 x 103 feet, and the interior will be handsomely finished. The estimated cost is \$75,000.—Barry & Simpson have drawn the plans for a stone chapel to be erected on the grounds of Georgetown University by Mrs. Dahlgren. John S. Larcombe is the builder.—A fine residence will be erected on Sixteenth Street, above R Street, from plans drawn by William J. Palmer. It will be three stories high, of Indiana limestone, stone porches, Spanish tile roof, hard-wood interior finish, tiled vestibule, cabinet mantels, carved wood screens, steam heat, electric light, etc.—Joseph C. Johnson, Corcoran Building, has prepared plans for six dwellings, which will be erected at Le Droit Park by William McNeir. They will be of press brick, with stone trimmings, copper cornices and slated towers. The interiors will be finished in hard wood and white pine, and modern conveniences and improvements will be introduced. The estimated cost is about \$30,500.—Rev. Douglass Forrest will erect a handsome residence from plans prepared by W. W. Poindexter. It will be

of the colonial style of architecture. The same architect has made plans for a dwelling to be erected for Mrs. R. B. Scott on Connecticut Avenue. It will be of buff brick, Spanish tile roof and modern improvements and conveniences.—It is probable that the Y. M. C. A. will make a move to obtain new quarters, as the Association is cramped for room. A Building Committee has been appointed, with John B. Larned as chairman, and as soon as a suitable lot is secured, plans will be in order. The present property of the Association is worth about \$100,000, and it will be sold when the new building is ready.—William Pabst will erect five three-story dwellings at S. Capitol and D Streets. They will be of press brick and Hummelstown brown stone, with slate roofs. The interiors will be handsomely finished in white pine, cabinet mantels, tiled vestibules, furnaces, etc. The plans have been prepared by N. T. Haller.—Peter Hornig will erect a dwelling, to cost about \$9000, on Maryland Avenue, between Sixth and Seventh Streets. It will be of press brick and Hummelstown brownstone, with interior finish of hard wood, cabinet mantels, etc. The plans have been prepared by George Emmert, Jr.—Graham & Son have made plans for four dwellings, to be erected for J. A. Blumdon, on Twelfth Street, between G and H Streets. They will be of press brick and Ohio stone, slate roofs, handsome interior finish and modern improvements.—C. A. Didden is preparing plans for two three-story dwellings, to be erected for S. Hortong, on Massachusetts Avenue. They will be of press brick, with Hummelstown brownstone trimmings, galvanized iron cornices, iron steps, tiled vestibules, etc.—The contract for the National Investment Co.'s new building has been awarded to W. E. Spier & Co.—The bill appropriating \$100,000 for the erection of a public building at Allentown, Pa., has passed the Senate.—Colonel Francis Colton will erect a residence on Connecticut Avenue, from plans prepared by T. F. Schneider, 933 F Street, N. W. It will be of red stone and press brick, Spanish tile roof, interior finish of hard wood, steam heat, elevator, etc. The same architect is preparing plans for a handsome dwelling to be erected for Isadore Saks, on Massachusetts Avenue, to cost about \$25,000. It will be of Hummelstown brownstone, tiled roof, hard wood interior finish, electric lights, etc.—Work will begin at an early day on the magnificent residence to be erected for Senator John Sherman, on K Street. The plans have been prepared by F. G. Atkinson, and Y. T. Schneider, who designed the front and interior decorations, will be consulting architect. It will be of Indiana limestone, with roof of Spanish tiles. The interior will be finished in hard woods. The halls will be in quartered oak and lighted by stained glass windows, the vestibule and the five bath and toilet rooms will be tiled. Steam heat and electric lights will be put in.—Captain Patrick O'Farrell will erect twelve dwellings, at Fourteenth and Clifton Street at a cost of \$75,000. The plans have been prepared by N. R. Grimm. They will be three stories high, of Hummelstown brownstone, with slate roof, hard-wood interior finish and modern improvements.—W. M. Poindexter has prepared the plans for a handsome conical dwelling, to be erected for Miss Tree, on Columbia Heights.—Haller has prepared plans for five two-story dwellings to be erected at Le Droit Park, by W. R. Coon at a cost of \$15,000.—G. Monroe Emmerich will erect a dwelling at Mount Pleasant to cost \$6500, from plans drawn by Wm. J. Palmer.

### Real Estate at Auction.

[When no sales are reported, it is because the auction firm omitted has had none.]

## These Ranges and Heaters

Represent the highest possible type of mechanical and scientific construction. For reliability and durability they are positively without a superior, they truly represent the minimum of cost and the maximum of quality.

The small size of the **PROMPT RANGE** is just the thing for Builders of small Houses. It is compact in form and possesses all the advantages and requisites of the larger size. Builders, Owners and Agents having charge of properties should inspect these Ranges and Heaters before ordering.

For sale by all Dealers. They can be seen at the Company's Ware-rooms.

123 N. 2d St., Philadelphia.

**Wants.**

Board of Public Works, at Roanoke, Va., proposals, until May 6th, for paving certain streets.

J. S. Fullerton, Commissioner, Washington, D. C., proposals, until May 24th, for the construction of six wrought-iron towers.

H. E. Siter, architect, United Bank Building, Cincinnati, O., wants proposals, until May 7, for the erection of a school building.

The Board of Water Commissioners of Port Henry, N. Y., proposals, until May 11th, for all the labor and materials to construct a water works at that place.

D. P. Heap, Tompkinsville, N. Y., wants proposals until April 25th for lighthouse supplies, consisting of building material, plate glass, galvanized iron, tin solder, engineers' supplies, belting, hardware, lumber, iron wire, nickel castings, electro-plating, smoke-stacks, graphite, paints, etc.

Sealed proposals will be received by the Board of Directors of the Street and Sewer Department of Wilmington, Del., until April 26, 1892, at 7 o'clock P. M., for furnishing about 46,000 square yards of Vitrified Paving Bricks. Specifications and full particulars may be obtained at the office of the department. Proposals must be addressed "Proposals for Paving Brick." Harvey J. Wiley, Secretary.

Gilbert O. Brine, Chairman Viaduct Commission, Cohoes, N. Y. Proposals until May 4, for building the superstructure of an iron viaduct, connecting Garner and Division Streets. It will consist of three spans, a centre braced steel arch, span of 200 feet, and two end spans of about 50 feet each. General plans and specifications can be seen at the office of Edward Hayes, C. E., No. 38 Mohawk Street, Cohoes, N. Y.

Office of Building for Library of Congress, 145 East Capitol Street, Washington, D. C.—Sealed proposals for furnishing and delivering plate iron girders, rolled beams and connections, for the Building for Library of Congress, in this city, will be received until 2 o'clock P. M., on Wednesday, the 27th day of April, 1892, and opened immediately thereafter in presence of bidders. Specifications, general instructions and conditions and blank forms of proposal may be had on application to this office. Bernard R. Green, Superintendent and Engineer.

Office of Light-House Engineer, Fourth District, at Philadelphia, Pa., April 13, 1892.—Proposals will be received at this office until 12 o'clock M. on Thursday, the 28th day of April, 1892, for furnishing the labor and materials of all kinds necessary for an addition, alterations, etc., to the Assistant Keepers' dwelling at Absecon Light Station, Atlantic City, New Jersey. Forms of proposal and drawings and specifications, showing what is required, can be had or seen by applying to this office. The right is reserved to reject any or all bids, and to waive any defects. Edward Maguire, Captain of Engineers, U. S. A., Light-House Engineer.

The New Jersey Board of Commissioners for the World's Columbian Exposition invite from architects who have a bona fide residence in the State of New Jersey plans, drawings and specifications for the erection of a State headquarters for New Jersey at the World's Columbian Exposition, said plans to be delivered by Tuesday, the third day of May, 1892. The commissioners will, on application, furnish printed details of the character and quality of the work required, and will pay \$200 for each of the three best plans of first merit submitted, and \$100 additional to the architect whose plan shall be finally adopted. For printed details address Walter S. Lenox, Secretary of the New Jersey Commissioners, Trenton, N. J.

Commissioners' Office, Media, Pa.—Bids will be received by the undersigned, until May 2d 1892, at noon, for the building of an iron bridge over Ridley Creek, at Second Street, in the City of Chester, according to plans and specifications now in the Commissioners' office. Contractors, if they desire, can furnish their own plans and specifications for a bridge for the span and roadway described in the plans, which will be considered before making the award. The Commissioners reserve the right to reject any and all bids. Also, until same date, for excavation, piling, decking and masonry, for the abutment of a bridge over Ridley Creek, at Second Street, in the City of Chester, plans and specifications for which may be seen at the Commissioners' office. The Commissioners reserve the right to reject any and all bids.—Harry L. Hipple, James Clark, Wm. Lane Quinn, Commissioners.

Department of Public Works, Bureau of Highways, office, City Hall. Philadelphia, April 13, 1892. Sealed proposals, endorsed "Bids for the items bid for," and addressed to the undersigned, at the office above mentioned, will be received until 12 o'clock, noon, on Monday, April 25, 1892, for Schedule A, for repairing paved streets. Bidders must be skilled in the special work bid for. Schedules can be had on application to the Chief of the Bureau of Highways. No bid will be considered unless accompanied by a certificate from the City Solicitor that the provisions of an ordinance requiring proposal bonds when the bids exceed in amount five hundred dollars, approved May 25, 1860 (p. 81 West), have been complied with. The Director reserves to himself the right to reject any or all bids, as he may deem best for the interests of the city. Jas. H. Windrim, Director.

Tenders will be received to the 30th day of April for Lighting the Streets, Parks, Public Buildings and Markets of the City of Petersburg, Va., with not less than 160, and not more than 200 Electric Arc Lights of 1200 candle power each and over, and with about 100 Incandescent Lights of 20 to 65 candle power each, for two, three and five years from the 1st day of September, 1892, respectively. To be placed according to specifications advertised in the Petersburg "Index-Appeal" of this date, which I will furnish contractors with on application. Separate tenders are invited also up to April 30th, to furnish a complete Electric Plant, all put up ready for lighting and guaranteed to create, at its minimum capacity, sufficient power to produce (without strain) the maximum number of lights as stated above, that will burn steadily all night and every night in the year. But to be owned and run by the city. Also a tender to furnish a complete Electric Plant of the same capacity and put up as above except that the city will agree to furnish all necessary motive power from its own boilers, engines and premises to run it. And that the entire plant is to be owned and operated by the city. By authority of the Common Council. Wm. Cameron, Chairman, Committee on Gas and Lights.

W. J. Edbrooke, Supervising Architect, Treasury Department, Washington, D. C.—Proposals until April 26, for all the labor and materials required to complete the cut-stone work and brickwork of the superstructure of the United States Custom House and Post Office building at Newark, N. J.—Also, until April 28, for all the labor and material required to put in place complete the iron beams and girdons in basement and first floor, basement columns, etc., for the U. S. Court House, Custom House and Post Office building at Omaha, Nebraska. Also, until April 27, for all the labor and materials to furnish and erect complete two hydraulic passenger elevators, one hydraulic mail lifter and one hydraulic freight lift and one hydraulic ash lift, including pumps, tanks, cars, platforms, piping, etc., for the U. S. Court House and Post Office Building at Louisville, Ky. Also, until April 29, for the labor and materials required for approaches to the U. S. Custom House and Post Office Building at Eastport, Me. Also, until May 10, for all the labor and materials required to put in place complete the iron columns, steel and iron floor, ceiling and roof, construction sky light roof, etc., for

the U. S. Court House at Detroit, Mich. Also, until May 13, for all the labor and materials for decorative and other painting for the U. S. Court House at Denver, Col. Also, until May 12, for all the labor and materials required for the cut stone work and brick work, iron and wood floor, ceiling and roof, construction roof covering, terra cotta work, etc., for the superstructure of the U. S. Post Office Building at Lowell, Mass. Also, until April 26, for supplying and placing in complete working order in the U. S. Court House and Post Office buildings at Brooklyn, N. Y.; Pittsburgh, Pa., and Louisville, Ky., certain articles of furniture as may be required from time to time.

Proposals for furnishing stone and iron crossings for the year ending March 1st, 1893. The undersigned, the Committee on Streets, Roads and Bridges, will receive proposals for furnishing the following: Curbstone.—Separate proposals for Wilmington and Penna. curb, 5 inches thick by 20 inches deep, of an average length of 8 feet, none to be less than 4 feet in length. Penna. stone, 4 inches thick and 20 inches deep, of the same lengths as above. Also, Penna. stone, 4x16, same lengths as above. The price for setting must accompany all bids for all except the 4x20 Penna. stone. Iron coverings for culverts and inlets.—To be bid by the pound, as may be ordered by the Committee. Gutter-tones.—To be delivered at such places as may be designated by the Street and Road Commissioner. Proposals will be received, viz.: By square yard and by the load. The stone must be of good quality, flat, and of face measure not less than 4 inches in thickness, Gutter Paving.—For paving the gutters that may be required to be done, by the square yard, to be computed by the Street and Road Commissioner monthly. The paving must be well rammed down and backed, to the satisfaction of the Commissioner. Crossing Stone.—Wilmington stone, 16 inches wide, not less than 4 inches thick. All contracts will expire on March 1st, 1893. All bids to be labelled on the outside, Proposals for Furnishing Curbstone, Iron Coverings, Gutter Stone, Gutter Paving, or Crossing Stone, as the case may be. The contractor will be required to enter into a written contract with said committee to faithfully fulfil the conditions of bid. The committee hereby reserve the right to reject any or all bids. Bids will be received by the chairman of the committee until Thursday, April 28th, at 6 P. M., when the bids will be opened and the contracts awarded.—William Vaughan, No. 1100 West Main Street, Norristown, Pa., Chairman Committee of Streets, Roads and Bridges.

**Mills to be Built.**

At Beattyville, Lee Co., Ky., R. C. Hill will erect a saw mill.

At Springfield, Washington Co., Ky., Marks Brothers will erect a saw and planing mill.

At Attalla, Etowah Co., Ala., a stone mill will be erected by the Oxley Stone Co., of Cincinnati, O.

At Rock Hill, York Co., S. C., the Cochrane Cotton Seed Oil Co will rebuild its mill recently destroyed by fire.

At Fairplain, Wilkes Co., N. C., a lumber and shingle mill will be erected by Messrs. Chapman & Wells, of North Wilkesboro.

At Dalton, Whitfield Co., Ga., W. B. Farrar, H. A. French and others are organizing a company for the erection of a cotton mill.

At Fort Smith, Sebastian Co., Ark., a planing mill will be erected by Blair & Shears.—The Fort Smith Lumber Co. will erect a large mill.

At Hampton, Hampton Co., S. C., W. H. Hamilton can give particulars as to the proposed organization of a stock company to erect a cotton mill.

At Sterrett, Shelby Co., Ala., a large saw and planing mill will be erected by the Hawkins

## A Few Quiet Words with House Builders and Owners.

If the kitchen of your house is small, you need to economize room. You can do this by using a range with elevated boiler, such as the

### "FIDELITY."

It will reduce the cost of plumbing also. We make them with seven inch or eight inch boiler holes, ovens on right or left of fire, with or without hot closets, and also to heat an upper room. Splendid bakers. Hot water in abundance. The latest and best of their class.

FIDELITY HOT AIR RANGE WITH HORIZONTAL BOILER.

Excelsior Double Oven Range.

If the kitchen is roomy and large, cooking capacity is sought. You will want a brick-set range with a vertical circulating boiler, set in the usual way. The

### "EXCELSIOR RANGES"

are acknowledged all over Philadelphia, in which city and vicinity some 75,000 have been sold as the standard brick-set range. They are furnished with ventilated ovens, oven-door pedals, rocking grates, and all modern improvements. Made in seven and eight inch sizes; single, double and hot-air ranges. Send for descriptive pamphlet, entitled "PERFECT COOKING."

MANUFACTURED BY

ISAAC A. SHEPPARD & CO.,

N. E. COR. FOURTH STREET AND MONTGOMERY AVENUE, PHILADELPHIA, PA.

And for Sale by all Responsible Dealers.

Whether large or small, your house will require a heating apparatus of some kind. It will pay you to put in a *really good* hot air furnace. The

### "PARAGON"

has no superior. Perfectly self-cleaning, with fewest joints, free from dust and gas, largest radiating surface, heavy steel plate, drum casings, easy on fuel, and of superior durability, it will always give satisfaction. A descriptive circular will be mailed upon application.

PARAGON FURNACE WITH EQUALIZED DRAFT.

# DID YOU EVER EAT AT BOOTHBY'S Great Chestnut St. Restaurant?

If you have not, you can form no proper idea of its size, beauty and facilities. Its corps of superintendents, chefs and assistants, waiters and supernumeraries number over 100. Its seating capacity is over 1300, and every guest is made comfortable, besides receiving prompt and careful attention. Its menu embraces everything in season. The cooking represents the best efforts of prominent chefs, whose skill has given the place a national reputation. The prices are moderate and the service is unexcelled. OYSTERS ARE THE GREAT SPECIALTY. The Ladies' Restaurants are retired, light and elegant. For a social meal or a light lunch, you are recommended to

BOOTHBY'S, 1231, 1233 AND 1235 CHESTNUT STREET.

OYSTERS WHOLESALE, 307 SOUTH FRONT STREET.

Lumber Co., of Birmingham, Jefferson Co., same State.

At Mobile, Mobile Co., Ala., L. C. Fry, Bernard Kahn, Winston James and others have incorporated the Magnolia Compress and Warehouse Co., with a capital stock of \$100,000, and will erect a mill.

At Westminster, Ocoee Co., S. C. B. H. Cross, W. F. Parker, R. E. Mason and others have incorporated the Westminster Manufacturing Co., with a capital stock of \$25,000, for the manufacture of cotton seed oil.

At Birmingham, Jefferson Co., Ala., William Berney and others contemplate the organization of a stock company with a capital of \$50,000 for the erection of a cotton mill.—The Tennessee Packing Co. will rebuild their plant at a cost of \$50,000. J. W. Hiatt is superintendent.

### Architect Notes.

*Too late for Classification.*

Horace Trumbaur, architect, 310 Chestnut Street, has completed plans for a handsome country house for H. K. Walt, of the firm of Bell, Walt & Co., Philadelphia, to be erected at Wyncote, Pa. It will be 68 x 92 feet, constructed of stone and frame work, fitted on interior in hard wood and all modern conveniences, including electric bells, best sanitary work in plumbing, etc. Also plans for a fine house 34 x 60 feet at Ardmore, Pa., for A. J. Young, to have all modern conveniences. Same architect will prepare plans for remodeling the residence of Dr. Thomas Reading, Hatboro, N. J.

### Building and Real Estate Notes.

*Too late for Classification.*

The Reading Railroad Co.'s car shops and sheds, destroyed about ten days ago, will at once be rebuilt, as all plans are now complete. These are located at Wayne Junction, and the structures will be erected on about the same lines as the former ones stood, with some slight increase and improvements.

A meeting will be held the present week in the office of William Gorman, Esq., 420 Walnut Street, to organize a company for the purpose of constructing a railroad to parallel the road recently sold to the West Jersey, and running from Winslow Junction to Sea Isle City.

Quite a large amount of building operations are now under way, and every indication points to a busy season. Among the most noticeable of the above may be mentioned the John F. Betz Building, Philadelphia and Reading Terminal, County Prison, at Holmesburg; the Imperial Hotel, Eleventh and Filbert Streets; the Bingham Annex, Twelfth and Arch Streets; Snellenburgs' stores, 932-34 Market Street, and store for Geo. W. Allen at 1214 Chestnut Street, for both of which John R. Wiggins is contractor; addition to J. B. Ellison's store, Sixth and Minor Streets; the new College of Pharmacy, Tenth, above Chestnut Streets; "Dalton Hall," at Bryn Mawr, Pa., for which Geo. F. Payne & Co., 401 South Juniper Street, is the contractor. A new roof will be placed upon Memorial Hall, for which no contract has yet been awarded, bids being now received and considered. Beside the above enumerated may be noted the unusually large amount of dwelling house operations in various sections of the city, all of which are in the highest degree beneficial to the seller of material for building purposes.

### Miscellaneous.

At Cincinnati, the city has been authorized to expend \$6,000,000 for water works purposes.

At New Paltz, Ulster Co., N. Y., a water works will be constructed at a cost of about \$40,000.

At Cincinnati, O., the legislature has passed a bill authorizing Cincinnati to expend \$6,000,000 for water works.

At Delaware, Delaware Co., O., a single span iron bridge will be constructed to span to Olentangy River. Bids for the same will be received by John J. Ramage, County Auditor, until April 19th.

DEVOTED TO REAL ESTATE, BUILDING, ARCHITECTURAL AND INSURANCE INTERESTS.

[ ENTERED AT THE PHILADELPHIA POST OFFICE AS SECOND CLASS MATTER. ]

VOL. VII.—No. 17.

PHILADELPHIA, WEDNESDAY, APRIL 27, 1892.

PRICE 15 CENTS.

### Architect Notes.

Amos J. Boyden, architect, 413 Walnut Street, has completed all plans for the rebuilding of the Wilbur chocolate factory, recently destroyed by fire on Third Street, above Vine. It will be built upon the old lines, and fitted with steam heat and power, electric work and all modern appliances.

H. Bloomfield Bare, architect, 430 Walnut Street, will at an early day prepare plans for the Gentlemen's Club House, to be erected by the residents of Merchantville N. J. At present details have not been decided upon, but enough has developed to indicate that it will be of a very ornate and comfortable character.

John Ord, architect, Public Buildings, having completed all plans for the Caledonia Building, to be erected at the northeast corner of Thirteenth and Spring Garden Streets, has placed them on boards for estimates. The drawings contemplate a very ornate building, which has been fully described in a previous edition.

Frank Miles Day, architect, 925 Chestnut Street, has completed plans for a fine residence for H. K. Cummings, to be located on Tulpehocken Street, Germantown. The drawings contemplate a stone and pebble dashed three-story house, with Indiana limestone trimmings. Interior to be in hard wood and all modern improvements, electric work, best sanitary plumbing, etc.

Architect Austin, of the Board of Education, has now completed the various modifications in the plans for the Girl's Normal School to be erected at Thirteenth and Spring Garden Streets, and has placed them on boards for estimates. It is desirous upon the part of the Board to start work about May 15th, if possible to do so. The matter of transfer of three properties on the west of the site named is now about being consummated by the City Solicitor.

William L. Plack, architect, 1403 Filbert Street, has on boards plans for a church for the Second Methodist Church, at Altoona, Pa., to be stone and brick, two stories high, with structural iron work for roof, heated by steam and good modern improvements and conveniences. Also, plans completed for a church building for the Methodist congregation at Alexandria, Huntingdon county, Pa., to be of brick, stone trimming and neat interior work. Seating for about 300 persons.

Rankin & Kellogg, architects, 1006 Chestnut Street, Mutual Life Building, having now completed all the plans for the new Asylum for the Chronic Insane, to be located at Wernersville, Pa., are prepared to give those desirous of bidding any information concerning the work. All the various parties concerned in the approval of the designs have passed upon them and the work of constructing the buildings will be pushed with vigor until completed. The cost will be \$500,000.

Josue Smith Solar, architect, 839 Market Street, Wilmington, Del., has completed drawings for six houses and one store for T. H. Melvin, of Wilmington, Del., to cost about \$18,000. Also preparing the plans for the new Ferris Reform School, which will be a structure two stories high, a basement, and will be 40 x 60 feet in area. Also plans on boards for addition to house of J. Humm, at Wyoming, Del., to be three stories high, hard wood finish and fine interior decorations, as well as all modern conveniences.

T. Roney Williamson, architect, 138 South Fourth Street, has on boards plans for a block of stores and flats to be erected for J. C. Holt, at Grand Rapids, Michigan, to be 21 x 104 feet, three stories high, stone and brick, with a tin roof. All modern conveniences will be introduced. Also plans by same architect have been prepared for a fine stable at Merion, Pa., for John S. Hopkins, to be of Avondale stone and shingle work, interior to have cement floors and best of modern improvements. Also plans for a small office building for Dr. R. T. Rothrock, of West Chester, Pa., brick, with stone trimmings, etc.

Lindley Johnson, architect, Girard Building, Broad and Chestnut Streets, has made plans for a country residence for J. B. Townsend, Jr., to be erected at Overbrook, Pa. Contract awarded to W. H. Barnes and will cost about \$6000. Also plans for a fine stone residence at Wayne, Pa., for W. M. Claffin, Esq. Structure will be three stories high and of Avondale stone, slate roof, heated by indirect steam, interior in white pine, China gloss, electric bells and light, all modern conveniences. Plumbing and drainage will be done by M. Leinaw. A fine stable will be erected on rear of grounds to cost about \$3500; house about \$18,000. Same architect has made drawings for the residence of Sydney L. Wright, Esq., at Mt. Airy, to be three stories high, slate roof, structure to be of stone from Mermaid Lane quarries. The plumbing and drainage will be by Watson & Peale. This house will be fitted in handsome manner, with every convenience. Also a stable in rear, the whole to cost about \$23 000. Also plans for an Episcopal chapel at Grindstone Neck, Maine, which will be built of boulder stone, shingle work, and contain seats for about 200 persons. Also on boards drawings for a large six-story office building for A. V. S. Lindsley, Nashville, Tenn. It will be constructed on the slow burning system, walls to be of stone and brick. Interior will contain two elevators, electric bells and light, steam heat and all conveniences, and will cost about \$65,000 when completed. Also completed drawings for a stone and shingle cottage for J. H. Acklen, at same place, and will cost \$8600; contracted for. Also plans for two brick and timber cottages for Col. Wills, of the same place, which will cost \$5000 each. Mr. Johnson has also completed plans for six cottages for the Chevy Chase Land Com-

pany, Washington, D. C., to cost \$6,500 each; an office building, a store building, twelve mechanics' cottages, alteration and addition to mansion for Francis G. Newlands, Esq., a country house for E. J. Steedwagon, and one for W. K. Schoeff, each of which are being figured on by contractors.

The ornamentation as well as utility of the work to be placed in and upon the Odd Fellows' Temple, at Broad and Cherry Streets, the plans for which were prepared by Hazellhurst & Huckel, architects, Drexel Building, deserve more than a passing notice. The frontage on Broad Street is 120 feet 2 3/4 inches, and the depth on Cherry Street is 170 feet 3 3/4 inches. The building will cover nearly the entire tract, with the exception of the two light wells. The material used for the base course will be spotted granite. Above this, to the height of 40 feet, will be marble of coarse grain and tooled, which much resembles granite in appearance. The remaining four stories will be constructed of a whitish buff Pompeian brick, with pilaster work, mouldings, trimmings and cornice of light terra cotta the first of its kind to be used in this city. Entrance will be through an arcade 16 feet wide, flanked by polished columns of Numidian marble, which support a lintel, over which and under the arch is a handsome bronze grille. The vestibule is protected by massive gates of bronze 12 feet wide and 8 feet high. On either side of the main entrance portal bronze lamps will rest on heavy stone bases. The first floor contains the entrance lobby, main stair hall, which is 34x50 feet, general reception rooms, a library, 42x44 feet, offices for the Grand Secretary and his assistants, a three-tier vault, lavatories, coat rooms and similar apartments. In the rear portions is located the assembly hall, which is about 70x90 feet, containing a well-fitted stage and the necessary robing and dressing rooms. The floors above will be devoted to lodge uses. The vestibule from floor to ceiling will be laid with Numidian and Eschallion marbles, the floor having a rich design in Mosaic tiles. The corridor is wainscotted with the same marbles to the height of 9 feet, and above that are pilasters and arches of ornamental work. The floor is laid in Italian marble in squares. Four columns support the balustrading around the light well. To the right is a stairway of solid marble, light and polished. The entire hall to the seventh story is wainscotted with marble and finished in Mexican mahogany, while the ceilings of all the stair halls are paneled and ornamented. In the centre of the main auditorium a diffusing light of leaded glass work will produce an artistic effect, as the softened light is thrown on marble and carved work, with panels, cornices and pilasters in light cream tone. To heighten this electric bulbs are placed in the entablature cornice which encompasses the room. Bulbs will also be placed in the panels of the ceiling. The balance of the rooms are finished in quartered white oak. Other methods of decorations are now under consideration by the architects.

PHILADELPHIA, WED'Y, APRIL 27, 1892.

Architect Notes.

Walter Smedley, architect, 435 Chestnut Street, has completed plans for the new Town Hall to be erected at Media, Pa., by the Town Council. These contemplate a handsome structure of brick and native stone, trimmings of Indiana limestone, with a slate roof, and to be three stories high. The interior will be fitted in hard wood and some tile work, gas pipes and best sanitary plumbing, steam heat and all conveniences. The first floor will be devoted to fire apparatus, the second will contain Council chamber, library and offices, whilst the third will be fitted up as a society hall and ante-rooms. Bids are now being asked for construction of the building by the architect.

Hutton, Hillman & Shirk, architects, 400 Chestnut Street, have made plans for a handsome house for Dallas Sanders, Esq., to be erected on Twelfth, below Walnut Street. It will be of stone and brick, furnished on interior with all modern conveniences, electric light, best plumbing and culinary arrangements. Estimates are being made for work by contractors. The same architects have prepared plans for what will be known as "a cottage," in addition to the Pennsylvania Hospital for Insane, to be erected at Newton Square, Montgomery county. It will be colonial in style of architecture, three stories high, 101x136 feet in area, and contain all modern conveniences and improvements for caring for those afflicted. Also plans for addition to Wood's Camden Iron Works. These are to be one story high and in conformity with those of the present plant.

Building and Real Estate Notes.

Jno. W. Fritzinger, contractor, Roxborough, will make the addition to the Odd Fellows' Home at Tioga, before described in this journal. Work will start at once.

Jacob Marsch, builder, 2825 Germantown Avenue, has bought thirty-two building lots, bounded by Indiana, Ormes and Clearfield Streets, on which he will erect dwellings at an early day.

An addition will be made to the abattoir on west side of Schuylkill river, above Race Street, by Martin & Fuller, owners, to be of brick and stone, furnished for purposes of butchering on interior.

An ordinance has been introduced by Mr. Hammett to appropriate \$35,000 to pay for plans and erect a fire and police station at Warnock and Berks Streets, and which will be acted upon at an early day by the City Councils of Philadelphia.

Work will be started at once on the new stables of the Diamond Street Omnibus Co., at Thirty-fourth and Harold Streets. They are to be 84 x 253 feet and two stories high, brick, with stone trimmings and all improvements in stabling facilities.

The old site of the Greaves Mills, on Eighteenth Street, near Germantown Avenue, has been purchased by the Bradbury Bros., who are clearing away the debris preparatory to rebuilding the structure, which it is their intention to do at an early day.

James O'Neill, contractor, will erect the residence of W. A. Cochran, at Jenkintown, Pa., which has been fully described in our architectural notes of a previous number. The contract also includes stable as well. Work will be started at once.

J. E. & A. L. Pennoek, contractors, 305 Walnut Street, have begun the superstructure of the new prison wing at Holmesburg Junction, to be of same material as the preceding ones erected, which is stone, iron and cement work. In size it will be 53 x 370 feet.

Chas. P. Nesbitt, contractor, 425 Locust Street, has received the contract to erect the Central Methodist Episcopal Church, at Frankford, for which plans were drawn by Hazelhurst & Huckel, architects, Drexel Building, who will also supervise the construction.

W. H. Hipple, owner and builder, southwest corner of Thirteenth and Norris Streets, will at once begin the erection of thirty-two two and three-story houses on Nineteenth Street, north of Dauphin. All to be of press brick, stone trimmings and best modern conveniences.

Another cottage will be added to the Home for Consumptives, at Chestnut Hill, by the provision made under the Willstach will, and will cost about \$12,000. As yet no plans have been drawn for the structure. A number of cottages are contemplated to be erected within the year.

An ordinance has been introduced in Council to appropriate \$35,000 with which to purchase a lot upon which to erect a police patrol and fire station in the Third ward; also, to buy ground and to erect a patrol fire station at Berks and Warnock Streets, in the Twentieth ward.

The property owners on Broad Street, from Columbia Avenue to Spring Garden Street, and from Chestnut to Christian, have been notified to make all underground connections with water sewer and gas pipes preparatory to the paving of Broad Street between the streets indicated with asphalt. Bids for the work will be opened by the Bureau of Highways about May 2d, and work will begin as early as possible.

Oliver S. Keely has sold two lots on the west side of Green Lane to William H. Edleman, the builder, who will erect three handsome three-story brick dwellings on the site. They will be finely finished on the interior and furnished with modern conveniences and improvements.

In a note from J. T. McCaddon, of the Forepaugh shows, that gentleman states that it is their intention to erect during the coming Summer a large Winter quarters for the entire collection of animals as well as quarters for training purposes. These will be located within the limits of the city at some point yet to be selected.

Harrison Bros. & Co., Grays Ferry, Schuylkill river, are about to construct an acid house 100 x 300 feet on the west side of Thirty-fourth Street and Grays Ferry Avenue. The foundations will be of concrete work and brick walls. The same firm has asked for a special ordinance of Councils to erect a frame structure for drying purposes.

Chas. McCaul, contractor, 20 North Eleventh Street, has now taken a permit to erect the main building of the Philadelphia and Reading Terminal, on Market Street, east of Twelfth, which has been fully described in this journal, except the extra story, which will be now added, being a subsequent decision of the authorities in charge.

William Rhoads, builder, will in a few days start a large operation of about two hundred two and three-story houses upon what is known as the old "Lamb Tavern" site, which he has purchased from Thomas H. Flood, brickmaker, who will remove his works to a new site at Old Front Street and Nicetown Lane, having bought the land of C. C. Moore.

The Pennsylvania Warehousing and Safe Deposit Co., Third Street, below Chestnut, have just taken title to all the river front property of the old Burton estate, between Pine and Lombard Streets, as well as wharves opposite on the Delaware river, and will now make such improvements and additions as will make the property convenient for warehouse purposes. Geo. H. Earle, Jr., president; R. Y. Cook, vice-president.

At an annual banquet of the lawyers of Philadelphia, on the evening of the 22d inst., a full fledged Lawyers' Club was organized, and F. Carroll Brewster, Esq., was elected president and Emanuel Furth, Esq., secretary. It was also resolved to appoint a committee on location of a club house, and it is possible that a purchase of the residence on Walnut Street, above Twelfth, of John Wanamaker's, will be made and altered to suit the purposes.

The Pennsylvania Life Insurance and Annuity Co., 517 Chestnut Street, has awarded John Duncan, carpenter and builder, 905 Chant Street, a contract to erect, at 515 Chestnut Street, a two-story store and counting room. First story to be of iron columns, Connecticut brown stone, with plate glass windows. Second to be of the same stone; interior to be of cherry wood work; the basement will have cement floor and front artificial pavement. Electric work, steam heat and best of plumbing, etc., will be introduced. Work will be started at once.

The Reformed Episcopal Church of Our Redeemer, Sixteenth and Oxford Streets, has decided by a unanimous vote to erect a new church upon the present site, utilizing part of the present structure. The new one will be two stories high, and embody all new improvements and conveniences. The above action was taken on the evening of the 20th inst. The money needed is in hand except about \$6000. Rev. H. S. Hoffman, D. D., rector, in charge.

Geo. F. Payne & Co., contractors, 401 South Juniper Street, have been awarded the contract to erect Dalton Hall, at Bryn Mawr College, and will start at once upon the work. Plans were made by J. C. Worthington, architect, 1305 Arch Street, and he will supervise the construction as well. The same contractor will also build the stables for the horse show soon to be given near Wissahickon Inn. These will cover about 200,000 square feet, and cost about \$40,000. Also the new addition to the Paxon, Comfort & Co. building, on Cherry Street, below Sixth. The plans were made more than one year ago for this work, but have been delayed until this time by the firm.

The Citizens' Electric Light and Power Co., of Delaware Co., whose lines run through Clifton Heights, Lansdowne, Darby, Ridley Park and other centres, voted last Thursday to increase its capital from \$25,000 to \$50,000, with the view to the early enlargement of its plant, which is now supplying over 2000 incandescent lights. There was no opposition to the proposition from the stockholders, of whom one of the largest is Mr. A. J. Drexel. At the same time the annual meeting was held, at which President Austin's report showed that the system was firmly established upon a dividend-paying basis. The following gentlemen were chosen directors for the ensuing year: James S. Austin, Samuel L. Kent, Dr. James W. Phillips, James Garrett, Edward V. Kane, Thomas Burwell and John Frigar, re-elected, and Isaac T. Jones and Dr. H. B. Rockwell, new members.

### Through Pennsylvania.

 When any of the following are not post office towns they will be so designated.

—At Sewickley, Allegheny Co., a dwelling will be erected by Mr. George Williamson.

—At Chaneyville, Bradford Co., Dr. J. T. Smith will erect a dwelling this summer.

—At Grapeville, Westmoreland Co., a new school house will be erected the present season.

—At Rock Point, Beaver Co., a bridge will be erected by the Pittsburgh and Lake Erie Railroad.

—At Mount Carmel, Northumberland Co., work on the new opera house will be begun in a few days.

—At Darby, Delaware Co., Thomas Hood will erect a residence on a lot near the P. W. & B. R. station.

—At Morrisville, Bucks Co., William G. Harrell has given contract for the erection of a store and dwelling.

—At Hazleton, Luzerne Co., a handsome residence will be erected by Dr. Pierson on North Laurel Street.

—At Morrisville, Bucks Co., William G. Howell has given out the contract for the erection of a store and dwelling.

—At Pottstown, Montgomery Co., Myers Zazran has bought a lot on Mary Street, upon which he will erect a dwelling.

—At Lenni, Delaware Co., the congregation of Calvary P. E. Church will erect a new rectory. Rev. James Walker is the rector.

—At Schwenksville, Montgomery Co., ground has been broken for a dwelling for William G. Ziegler, on Second Street. It will be of brick.

—At Shenandoah, Schuylkill Co., charters have been granted for the Saint Michael's Greek Catholic Church and the Welsh Baptist Church.

—The Freeholders of Warren and Hunterdon Counties have decided to construct an iron span bridge across the Musconetcong Creek, at Bloomsbury.

—At Columbia, Lancaster Co., Marshall Cool has been awarded the contract to erect a Methodist church at Hainesburg. The contract price is \$3895.

—At Wilkinsburg, Allegheny Co., the First National Bank of Wilkinsburg has been authorized to commence business with a capital of \$50,000.

—At Norristown, Montgomery Co., an effort is being made to secure a shoe factory. John T. Dyer is interested in the project, and can give information.

—At Rockdale, Lehigh Co., the trustees of Calvary Church contemplate the erection of a new parsonage at an early date. —Horace Griffin will erect a storehouse.

—At Steelton, Dauphin Co., work will be begun at once on the new six-room school building on Hygienic Hill. The contract has been awarded to Jacob Bowers for \$18,000.

—At Shippensburg, Cumberland Co., Geo. W. Thrush will erect a dwelling. —Samuel J. Harris will erect a fine brick dwelling on Railroad Street, north of Burd Street.

—At Bethlehem, Northampton Co., Town Council has appropriated \$11,000 for the erection of a central fire station on the property adjoining the market house on Broad Street.

—At Lederachville, Montgomery Co., the County Commissioners have been petitioned to construct a bridge across the Branch creek. The proposed bridge would be about 175 feet long.

—At Gilberton, Schuylkill Co., Isaac Purnell, Thomas Hulihan and Andrew Ambrosius will each erect dwellings. John Rourke and Robert Zimmerman will each have erected double buildings.

—At Colmar, Montgomery Co., a large stable, 46 x 48 feet, will be erected on the Cloverdale Stock Farm for A. H. Moore. It is reported that Mr. Moore will erect a large fruit conservatory and a magnificent country residence, to cost about \$75,000.

—At Upland, Delaware Co., the congregation of the M. E. Church is considering the erection of a new edifice. Rev. J. P. Miller is the pastor, and with the trustees and Messrs. Gore, Cary and Fields, comprise the committee having the matter in charge.

—At Lewisburg, Union Co., the large saw mill of W. D. Himmelrich & Co., and known as the Billmeyer mill, was destroyed by fire a short time since. The loss has been estimated at about \$35,000. Arrangements will be made at once for rebuilding.

—At Harrisburg, the Reading Road is contemplating extensive improvements including yards and a handsome passenger station. Some difficulty is being experienced regarding a site for the latter, owing to the high price asked for available locations.

—At Spring City, Chester Co., Mrs. Lessing has sold a lot at the corner of Chestnut and Main Streets to Allen Bard, of Millville, N. J., upon which he will erect a store building. —Ground has been broken for a double brick dwelling for Joseph Mobrey.

—At Point Pleasant, Bucks Co., at a recent meeting of the stockholders of the Point Pleasant Delaware Bridge Co., held at Joseph Opdyke's hotel, at Point Pleasant, it was decided to erect an iron bridge, to take the place of the one destroyed by fire some time since. Bids will be received in about a week for the proposed structure. John Clemens is secretary of the company.

—At Wayne, Delaware Co., work has been resumed on the auditorium of the Presbyterian Church, which will cost about \$30,000. This does not include heating, lighting and furnishing. It is expected that the building will be ready for dedication in about six months. Rev. W. A. Patton, Pastor.

—At Duquesne, Allegheny Co., it is reported that Carnegie, Phipps & Co.'s Union Mills will be removed from Pittsburgh to Duquesne, in order to locate all its important plants as closely together as possible. It is probable the firm will erect a bridge to span the Monongahela river, at a point opposite the Duquesne Steel Works. —The First National Bank of Duquesne has been authorized to commence business with a capital stock of \$50,000.

—At Doylestown, Bucks Co., negotiations are in progress between the managers of the Doylestown Fair Grounds and Robert Steel, the stockman, of Philadelphia. It is the purpose of Mr. Steel, should a sale be consummated, to make a stock farm and race course of the ground. Jno. M. Purdy and J. Even Zorns have the matter in charge. It is said that Mr. Steel is also negotiating for the farm of J. T. Smith, adjoining.

—At Reading, Berks Co., the congregation of St. Paul's Reformed Church will enlarge their chapel. —Lea Schuetzle has taken permit for the erection of a two-story brick dwelling. —Augustus Schaefer will erect a three-story iron building in the rear of No. 48 North Eighth Street. —A piece of ground has been purchased by Mangus Ott, upon which he will erect a number of dwellings. —The boulevard, which was projected some time since, will likely become a fact at an early day. —The Northeast Building Association will erect a number of dwellings at Robeson and Fifth Streets. —Rehr & Fricker will erect a number of dwellings.

—At McKeesport, Allegheny Co., Robert Reynolds, owner of the property at the corner of Third and Water Streets, is having the old buildings torn down, and upon the site will erect a new brick building, several stories high, to be used as flat apartments. —The Baltimore and Ohio Railroad Co. have commenced work of improvement. The parks fronting on Jerome and Locust Streets are being torn away and a sixteen-foot platform will be constructed, facing the depot. On one of the parks will be erected a fine frame structure, 60 x 70 feet, two stories high, which will contain baggage and express rooms, etc. Supervisor Thomas Griffin has the improvements in charge.

—At Pittsburgh a number of lots have been purchased by Mr. George Thayer, near Herron Mill, at a cost of \$5000. The purchaser will erect four dwellings on the site. —Plans have been prepared by F. C. Suer for a three-story brick dwelling for William Schuetzle; interior finish of hard wood. Also plans for frame dwelling for J. D. Rogers, to be erected on Centre Avenue. Also plans for improvements in store of Anshutz, Bradberry & Co., North and Ohio Streets, Allegheny, Pa. Also plans for a frame dwelling for W. W. Patterson, Esq., to be erected at Haysville Station, P. E. W. & C. R. R. It will be handsomely finished on the interior, and contain modern improvements and conveniences. Also plans for a dwelling for J. C. Shafer & Bro., South Side. Also plans for improvements to the dwelling of Henry Meyer, Esq., and plans for alterations and additions to the brewery of Keystone Brewing Co. —Edgar M. Moore will erect two dwellings on McPherson Street and Boulevard Place, East End, from plans prepared by John A. Jacobs. The estimated cost is \$14,000. —Mrs. Catharine Stewart will erect a business house on Beaver Avenue, Allegheny, from plans prepared by T. H. Scott, of Pittsburgh. The same architect has prepared plans for a building, to be used for building purposes, for Frank McCann. The estimated cost of the former is about \$13,000, and of the latter about \$30,000.

—At Royersford, Montgomery Co., at a meeting held by the congregation of the Evangelical Church last week, it was decided to begin work at an early day on the proposed new church edifice, to be erected on Walnut Street. The structure will be of brick, one story high, trimmed with stone. The interior will be handsomely furnished, and modern improvements will be introduced. The seating capacity will be about two hundred. The plans are being prepared by an architect of Reading, Pa. Messrs. S. Wynn, C. Clemens and S. Grater are on the Building Committee.—The congregation of the German Baptist Church has purchased a lot upon which a new edifice will be erected. The lot was bought from J. Milton Lewin.

—At Chester, Delaware Co., the Union Electric Railway Co. has about concluded to select the site on the western bank of the Chester creek, at Fourth and Penn Streets, on which to erect the new electric light station. Colonel S. A. Dyer is president of the company, and Mr. Davis the electrical engineer.—At a recent meeting of Council plans prepared by Architect Smedley, of Media, Pa., were accepted for the proposed borough hall. A few changes will be made in the plans, after which work will be begun.—Ground has been staked out for the erection of two dwellings by Councilman Edward Dickerson, on Twenty-second Street.—The Public Property Committee of Councils has decided upon some improvements to the City Hall. Also to the Edgemont Avenue wharf.

#### Through New Jersey.

At Long Branch, Monmouth Co., it has been decided to pave a number of streets with asphalt.

At Idell, Hunterdon Co., a creamery will be erected by Stover & Strouse. The land for the purpose has been donated by R. V. Megronigle.

At Lambertville, Hunterdon Co., George W. Arnett is demolishing the large barns on Buttonwood Street, and will replace them with a row of dwellings.

At New Brunswick, Middlesex Co., the Pennsylvania Railroad Co. will construct a bridge to span the Raritan river. It will be 54 feet wide, and will accommodate four tracks.

At Elizabeth, Union Co., the congregation of the First Presbyterian Church has purchased a lot in Elizabethport for \$5000, and will erect a handsome church edifice on the site.

At the April meeting of the Board of Freeholders of Monmouth Co., Messrs. Tilton, Butcher, Campbell, Cooper and others were appointed a committee to inquire into the advisability of building a new bridge to span the Manasquan river on the road from Manasquan to Lakewood.

At Atlantic City, D. K. Donnelly has been awarded the contract for enclosing the upper deck of the Inlet pavilion with sash filled with cathedral glass. Also for the erection of a two-story building at the Inlet for Schlecht & Mehrer. Also for the erection of a new freight station at South Carolina and Arctic Avenues.—It is the intention of the owners of the Hotel Ridgway to erect a handsome brick structure on the site of the present hotel next season.

At Merchantville, Camden Co., at a meeting of the Board of Directors of the Merchantville Club, a report was heard from the committee having in charge the matter of the erection of a new club house. The committee reported favorably on uniting various interests, such as tennis, athletic sports, bicycling, etc., in the erection of a suitable building. The estimated cost is \$10,000. A plan was sketched on the blackboard by H. Bloomfield Bare, architect, 430 Walnut Street, Phila., who is on the Building Committee. Messrs. Allyn Brewer, Horace Walton, David S. Stetson, Thomas S. Nekirvis, Frederick Kleinz and others are members of the club, and can give information.

#### Through Delaware.

At Dover the contract for the erection of an annex to the school house has been awarded to Wm. Fisher for \$2458.—The Baptist congregation will erect a church from plans prepared by Rev. Clarence Larkin, of Kennett Square, Chester Co., Pa. They call for a structure 60x100 feet, of brick, with trimmings of Avondale stone, and fine interior finish.

At Frederica, Kent Co., the Methodist church will be presented with a handsome triple stained glass window by Mrs. Charles Lister, of Philadelphia, in memory of her sister. Mrs. Lister will present the church in which she was married a walnut pulpit and new chandelier and side lamps with shades.

At Wilmington, the Y. M. C. A. is agitating the question of the erection of a handsome building for the purposes of the association. Messrs. Job H. Jack-on, Joseph Pyle and William M. Field are interested in the project.—The congregation of Christ Episcopal Church, Du Pont's Banks, will purchase a handsome organ. About \$1500 has been raised for the purpose. Rev. H. M. Bartlett is the rector.

#### Through Maryland.

At Baltimore, the Auditorium Co., recently incorporated, with a capital stock of \$200,000, for the erection of a hall, as before reported, has purchased a site, 142 x 275 feet, at the corner of Mt. Royal and Maryland Avenues, upon which a new public hall building will be erected.—J. Olney Norris has been appointed by Mayor Latrobe to act as arbitrator for the city to determine the price to be paid for a portion of the Bolton lot property, which is sought by the Baltimore Belt Railroad for a site upon which the company proposes to erect a handsome depot. The portion of the property to be retained by the city will be improved as a park.—Messrs. Sharp & Dohine, wholesale druggists, have adopted plans for the erection of a new warehouse at the southeast corner of Pratt and Howard Streets. The structure will be six stories high, of pressed brick and slate trimmings. The firm will add another story to their two other warehouses.—T. W. Marriott, real estate broker, has sold six acres of land adjoining the country seat of J. Hall Pleasants. It is reported that the purchaser will divide the tract into villa sites and erect handsome cottages thereon.—The most important building permit issued to date are as follows: To H. J. Hahn, to erect a three-story brick dwelling; to the H. Y. M. Building Co., to erect a three-story and mansard roof dwelling; to J. W. Wood, to erect two three-story brick dwellings; to F. Goodhues, to erect a three-story brick dwelling; to R. M. Leeds, to erect two two-story brick dwellings; to G. Stalla, to erect a three-story brick dwelling; to C. Brown, to erect a three-story brick dwelling; to L. Hollingshead, to erect a three-story brick dwelling; to J. F. Griffin, to erect twenty-six two-story brick dwellings; to J. Stanton, to erect a three-story brick dwelling; to S. B. Sexton & Son, to erect a four-story brick dwelling.—The Mayor has signed an ordinance appropriating \$9000 to enlarge Grammar School, No. 20; also granting permission to G. F. Sloan & Bro. to alter and rebuild Pier 9, Light Street; also to repair Old Frederick road, at a cost of \$1000; also to repave Rayner Avenue, from Windsor Mill road to Albert Street, to cost \$450; also to repave Slingluff Avenue, from North Avenue to Liberty road, to cost \$400.

#### Washington, D. C.

Frank P. Weller will erect a store and dwelling at Eighth and I Streets, at a cost of about \$20,000. The plans have been prepared by Joseph C. Johnson. It will three stories high, with base of Carolina brown stone and brick superstructure,

tile roof, copper cornices. Interior will be finished in California red wood and oak, cabinet mantels, electric lights, mosaic tiled floor, etc.—William I. Palmer has prepared plans for a handsome residence to be erected on Florida Avenue. It will be of stone, tile decked roof, cabinet mantels, hardwood interior finish. C. V. Trott will be the contractor.—W. B. Lord will erect a dwelling at Fifth and S Streets from plans prepared by Glenn Brown. It will be of press brick and Ohio brownstone, slate roofs, interior finish of white pine, cabinet mantels, etc.—M. Berger will erect a dwelling on Columbia Heights from plans prepared by T. F. Schneider, 933 F Street, N. W. It will be of press brick and Hummelstown brown stone, tiled roof, handsomely finished on the interior in hard wood, steam or hot water heating, etc. The same architect has prepared plans for a residence to be erected by E. A. Newman, on New Hampshire Avenue, between R and S Streets. It will be three stories high, with front of Maryland white marble, stone porch, hard wood interior finish, electric lights, tiled roof, etc. A stable will be erected in the rear to correspond with the dwelling.—A number of dwellings will be erected by George E. Emmons from plans prepared by N. T. Haller. They will be two stories high, of press brick and Ohio stone, iron steps, cabinet mantels, interior finish of white pine, etc.—C. A. Didden has prepared plans for a store and office building to be erected at 1107 G Street for M. Loeb. It will be four stories high, of press brick and Ohio stone, with trimmings of terra cotta, plate glass windows, steam heat, electric bells and lights, mail chute, etc.—N. T. Haller has prepared plans for a dwelling to be erected for Mrs. Mader, at Le Droit Park. It will be of press brick and Hummelstown brown stone, slate roof, cabinet mantels, modern conveniences and improvements. The colored Y. M. C. A. will erect a gymnasium from plans prepared by the same architect. It will be of brick, one story, 40 x 40 feet and 20 feet high. Steam heat will be introduced.—D. B. Groff will erect eight dwellings at Brightwood Park from plans prepared by Julius Germueller.—W. S. Plager will erect two frame cottages at Brookland, D. C., from plans prepared by Joseph C. Johnson.

#### Real Estate at Auction.

[When no sales are reported, it is because the auction firm omitted has had none.]

Twelfth Street, north, No. 1323, three-story brick residence, lot 17.4x97 feet, \$5000

Bradley Street, No. 904, two-story brick dwelling, lot 16x58 feet, \$960

SOLD BY DAVIS & HARVEY, ON MONDAY, APRIL 25, 1892.

Fulton Street, No. 2213, three-story brick dwelling, lot 51x14 feet 6 inches, \$540

Lambert Street, No. 2114, two-story brick dwelling, lot 16x60 feet, subject to a mortgage of \$1500 at 5 per cent., \$1250

Federal Street, Nos. 2616 and 2618, two two-story brick dwellings, lot each 15x64 feet, each subject to a ground rent of \$90 a year, \$400

### Wants.

Board of Public Works, at Roanoke, Va., proposals, until May 6th, for paving certain streets.

J. S. Fullerton, Commissioner, Washington, D. C., proposals, until May 24th, for the construction of six wrought-iron towers.

H. E. Siter, architect, United Bank Building, Cincinnati, O., wants proposals, until May 7, for the erection of a school building.

The Board of Water Commissioners of Port Henry, N. Y., proposals, until May 11th, for all the labor and materials to construct a water works at that place.

Edgar H. Reed, Superintendent of Streets, Cambridge, Mass., proposals until May 5th for the construction and erection of a wrought iron and steel plate girder highway bridge over the location and tracks of the Fitchburg Railroad, at Walden Street.

Gilbert O. Brine, Chairman Viaduct Commission, Cohoes, N. Y. Proposals until May 4, for building the superstructure of an iron viaduct, connecting Garner and Division Streets. It will consist of three spans, a centre braced steel arch, span of 200 feet, and two end spans of about 50 feet each. General plans and specifications can be seen at the office of Edward Hayes, C. E., No. 38 Mohawk Street, Cohoes, N. Y.

Maryland Penitentiary, Warden's Office, Baltimore, April 22d, 1892. Proposals will be received at the Warden's Office of the Maryland Penitentiary, up to 1 P. M. of Monday, May 2d, 1892, for grading, curbing and paving with Belgian blocks, the roadways and yard of the Maryland Penitentiary. Drawings and specifications for the work can be seen at the Warden's office, and approximate quantities obtained. By order of the Board of Directors, John F. Weyler, Warden.

Proposals for constructing Telford roads in Nether Providence, Delaware Co., Pa. Specifications can be examined at the office of M. Z. Paul, 606 Chestnut Street, Philadelphia, or the residence of Thos. Palmer, Wallingford. The right to reject any or all bids is reserved. Bids will be received until noon, May 2d.

Proposals—Sealed proposals will be received for the building of a school house in Chatham, Pa. Specifications and particulars to be had of the secretary, at West Grove. Bids must be in on or before Saturday noon, May 7th. The right is reserved to reject any or all bids. By order of the board. N. J. Sharples, Secretary, West Grove, Pa.

N. H. Farquhar, Chief Bureau Yards and Docks, Navy Department, Washington, D. C., proposals until July 5th for the construction of one dry dock, 605 feet long, with 30 feet draught of water, with a body of timber and entrance of concrete and masonry, together with pump-house, pumping plant, floating gate, culverts and all other work pertaining thereto, in accordance with plans and specifications, which can be seen at the department or the office of the commanding officer of the Puget Sound Naval Station, at Sidney, State of Washington.

Furnishing and delivering cement. U. S. Engineer's Office, 1428 Arch street, Philadelphia, Pa., April 21, 1892. Sealed proposals, in duplicate, will be received at this office until 11 A. M., Friday, May 6, 1892, and then opened, for furnishing and delivering at Pea Patch Island, Del., 2700 barrels of Rosendale cement. The attention of bidders is invited to the Acts of Congress, approved February 26, 1885, and February 23, 1887, Vol. 23, page 332, and Vol. 24, page 414, Statutes at Large. For all information apply to C. W. Raymond, Major, Corps of Engineers, U. S. Army.

Office of Light-House Engineer, Fourth District, at Philadelphia, Pa., April 13, 1892.—Proposals will be received at this office until 12 o'clock M. on Thursday, the 28th day of April, 1892, for furnishing the labor and materials of all kinds necessary for an addition, alterations, etc., to the Assistant Keepers' dwelling at Absecon Light Station, Atlantic City, New Jersey. Forms of proposal and drawings and specifications, showing what is required, can be had or seen by applying to this office. The right is reserved to reject any or all bids, and to waive any defects. Edward Maguire, Captain of Engineers, U. S. A., Light-House Engineer.

Proposals for supplies. Sealed proposals for all needed supplies for the Pennsylvania State Lunatic Hospital, Harrisburg, Pa., for the year ending May 31, 1893, will be received by the Executive Committee of the Board of Trustees until 12 M., May 6, 1892, for the three months beginning June 1, 1892; until 12 M., August 6, 1892, for the three months beginning September 1, 1892; until 12 M., November 6, 1892, for the three months beginning December 1, 1892, and also until 12 M., February 6, 1893, for the three months beginning March 1, 1893. Blank forms for proposals will be furnished those desiring to bid, on application to H. L. Orth, M. D., Superintendent.

The New Jersey Board of Commissioners for the World's Columbian Exposition invite from architects who have a bona fide residence in the State of New Jersey plans, drawings and specifications for the erection of a State headquarters for New Jersey at the World's Columbian Exposition, said plans to be delivered by Tuesday, the third day of May, 1892. The commissioners will, on application, furnish printed details of the character and quality of the work required, and will pay \$200 for each of the three best plans of first merit submitted, and \$100 additional to the architect whose plan shall be finally adopted. For printed details address Walter S. Lenox, Secretary of the New Jersey Commissioners, Trenton, N. J.

Commissioners' Office, Media, Pa.—Bids will be received by the undersigned, until May 2d 1892, at noon, for the building of an iron bridge over Ridley Creek, at Second Street, in the City of Chester, according to plans and specifications now in the Commissioners' office. Contractors, if they desire, can furnish their own plans and specifications for a bridge for the span and roadway described in the plans, which will be considered before making the award. The Commissioners reserve the right to reject any and all bids. Also, until same date, for excavation, piling, decking and masonry, for the abutment of a bridge over Ridley Creek, at Second Street, in the City of Chester, plans and specifications for which may be seen at the Commissioners' office. The Commissioners reserve the right to reject any and all bids.—Harry L. Hipple, James Clark, Wm. Lane Quinn, Commissioners.

W. J. Edbrooke, Supervising Architect, Treasury Department, Washington, D. C.—Proposals until April 29, for the labor and materials required for approaches to the United States Custom House and Post Office Building at Eastport, Maine. Also, until May 10, for all the labor and materials required to put in place complete the iron columns, steel and iron floor, ceiling and roof, construction sky light roof, etc., for the U. S. Court House at Detroit, Mich. Also, until May 13, for all the labor and materials for decorative and other painting for the U. S. Court House at Denver, Col. Also, until May 12, for all the labor and materials required for the cut stone work and brick work, iron and wood floor, ceiling and roof, construction roof covering, terra cotta work, etc., for the superstructure of the U. S. Post Office Building at Lowell, Mass.

Sealed proposals will be received by the undersigned until 12 o'clock noon of Thursday, May 5, 1892, for erecting and constructing and furnishing all the labor and material (except poles) necessary for erecting and constructing an electric telegraph fire alarm system in the borough of Wilkesburg, Allegheny Co., Pa., to consist of ten street boxes, a striker on bell, weighing 1200 pounds, three engine house indicators with eight-inch gongs, about four miles No. 12 hard drawn insulated copper wire, two six-inch tappers, with galvanometers, battery, switches, etc., to operate the entire system. Bidders must state the time necessary for completion and delivery of system ready for operation. The successful bidder will be required to give bond with surety in double the contract price guaranteeing the system (material and appliances) for not less than five years; also conditioned to protect the borough from all claims for infringing any patents. The right is reserved to reject any or all bids. Proposals to be marked "Fire Alarm Proposal," and sent to John A. Newell, chairman Fire Committee, in care of Arbuckles & Co., Pittsburgh, Pa.

Tenders will be received to the 30th day of April for Lighting the Streets, Parks, Public Buildings and Markets of the City of Petersburg, Va., with not less than 160, and not more than 200 Electric Arc Lights of 1200 candle power each and over, and with about 100 Incandescent Lights of 20 to 65 candle power each, for two, three and five years from the 1st day of September, 1892, respectively. To be placed according to specifications advertised in the Petersburg "Index-Appeal" of this date, which I will furnish contractors with on application. Separate tenders are invited also up to April 30th, to furnish a complete Electric Plant, all put up ready for lighting and guaranteed to create, at its minimum capacity, sufficient power to produce (without strain) the maximum number of lights as stated above, that will burn steadily all night and every night in the year. But to be owned and run by the city. Also a tender to furnish a complete Electric Plant of the same capacity and put up as above except that the city will agree to furnish all necessary motive power from its own boilers, engines and premises to run it. And that the entire plant is to be owned and operated by the city. By authority of the Common Council. Wm. Cameron, Chairman, Committee on Gas and Lights.

## AN ARGUMENT IN FIGURES.

Respectfully submitted to Builders, Owners and those having charge of Estates, who will have Fire Risks to place during 1892.

## These Ranges and Heaters

Represent the highest possible type of mechanical and scientific construction. For reliability and durability they are positively without a superior, they truly represent the minimum of cost and the maximum of quality.

The small size of the **PROMPT RANGE** is just the thing for Builders of small Houses. It is compact in form and possesses all the advantages and requisites of the larger size. Builders, Owners and Agents having charge of properties should inspect these Ranges and Heaters before ordering.

For sale by all Dealers. They can be seen at the Company's Ware-rooms.

123 N. 2d St., Philadelphia.  
17 E. Lombard St., Baltimore, Md.

The High Base Home Heater.

Sealed proposals will be received by the Committee on Reservoir and Water Supply up to 5 o'clock P. M., Monday, May 16, 1892, for the construction of a 15,000,000 and 20,000,000 gallon reservoir, including gate-house and appurtenances, on the tract of land of V. C. Sweatman, west of Franklin and Marshall College, Lancaster, Pa. Bids to include taking up of old 24-inch main from the old water works to the present reservoirs, and the relaying of the same from the corner of Orange and Nevin to the above mentioned site. Plans and specifications can be seen at the office of A. A. Herr, City Regulator, No. 108 East King Street, Lancaster, Pa., or specifications will be mailed to parties applying for the same, on application to the Clerk. Bids to be addressed to "Committee on Reservoir and Water Supply," Mayor's Office, Lancaster, Pa. Robert Clark, Mayor, Chairman. Attest: C. G. Bassler, Clerk.

Sealed proposals will be received up to Tuesday, May 3, at 7.30 o'clock, P. M., at the office of the Board of Directors of the Street and Sewer Department for the construction of approximately 11,170 feet of brick sewers, ranging from one foot eight inches by two feet six inches internal diameters to five feet six inches internal diameter, together with manholes, catch basins, inlets and other appurtenances. A certified check for \$500, made payable to the order of the Board of Directors of the Street and Sewer Department, will be required of each bidder as a guarantee that the party or parties to whom the contract may be awarded will execute the same within five days after notice so to do has been sent to the address furnished with the bid. The right to reject any and all bids is expressly reserved. Copies of the proposals, contract, specifications and plans can be seen at the office of T. Chalkley Hatton, Engineer in Charge of Sewers, Wilmington, Del.

Sealed proposals will be received at the office of Charles S. Puckey, Borough Secretary, No. 25 West Broad Street, Nanticoke, Pa., until 12 o'clock A. M., on Monday, the 2d day of May, 1892, for the construction of a main sewer about 3200 feet long from the centre of Main Street along the line of Locust Lane and of the railroad leading to the River Bridge, parallel therewith, and 30 feet southeasterly therefrom into the Susquehanna river. Said sewer to be egg shaped, 32 x 48 inches, with inlet well, man holes and outlet into river, constructed principally of brick and cement, and carried over Nanticoke creek as a wooden sewer on piles. In accordance with specifications and plans prepared by J. H. Bowden, engineer for the borough on file at his office, rooms 28 and 30, First National Bank Building, Public Square, Wilkesbarre, Pa., where specifications and blank forms for proposals will be furnished upon application. By order of the Sewer Committee of the Nanticoke Borough Council. Signed, D. B. Williams, chairman.

Proposals for chairs--Philadelphia depot of the Quartermaster's Department, No. 1428 Arch Street, Philadelphia, Pa. Sealed proposals, in triplicate, will be received here until 11 o'clock A. M., Thursday, May, 19, 1892, for furnishing the U. S. Quartermaster's Department with 7000 chairs, 1000 to be delivered on board cars to the Depot Quartermaster in this city and 6000 be delivered on board cars to the Depot Quartermaster at St. Louis, Mo., subject to inspection at points of delivery. Samples of the chairs can be seen, and full information had, upon application to the Depot Quartermasters at Chicago, Ill.; St. Louis, Mo.; New York city and Philadelphia, Pa. The government reserves the right to reject any or all proposals. Preference will be given to articles of domestic production or manufacture, conditions of quality and price (including in the price of foreign productions or manufactures the duty thereon) being equal. For blanks, for proposals, etc., apply at this office. Proposals should be accompanied by the required guarantee in ten per centum of the value of the chairs proposed

for. Envelopes containing proposals to be endorsed "Proposals for Chairs" and addressed to the undersigned. C. G. Sawtelle, Deputy Quartermaster-General, U. S. A. Depot Quartermaster.

### Miscellaneous.

At Houston, Harris Co., Tex., the Houston Ice Co. contemplate the erection of a large brewery, to cost about \$100,000.

At New York City, a theatre and hotel building will be erected on the site of the Hotel Royal, which was recently destroyed by fire.

At Woodlawn, Jefferson Co., Ala., the county clerk can give information as to the erection of a court house to cost about \$12,000.

At Waterbury, New Haven Co. Con., E. Jud, will erect three dwellings of different designs from plans prepared by Architect Jackson.

At New Orleans, La., the large fire, a short time ago, destroyed property worth nearly two million dollars, besides 65,000 bales of cotton.

At Owensboro, Davies Co., Ky., a block for business purposes will be erected by M. V. Monarch, at an estimated cost of about \$50,000.

At Waco, McLennon Co., Tex., plans have been prepared by W. W. Larmour for an opera house which will be erected by a stock company. The estimated cost is about \$25,000.

At Mansfield, Richland Co., O., the congregation of the Methodist church will erect a new edifice from plans prepared by James W. Campbell, of Pittsburg, Pa. I. W. Oliver, of Mansfield, can give information.

At Virginia, Cass Co., Ill., a new school house will be erected at a cost of about \$15,000. Plans for this building will be received until April 15, 1892. It will be of brick and will contain nine rooms, and finished with modern improvements.

At Buffalo, N. Y., Mrs. A. M. Vanderwouwer will erect an apartment house to cost about \$25,000 from plans prepared by W. H. Boughton. It will be three stories high, of brick and stone, and will contain all modern improvements. Kline Brothers, contractors.

At Boston, Mass., Architect T. W. Silloway, of Park Square, has made plans for extensive alterations to building at the corner of Lenox and Washington Streets. Also, plans for large extensions and entire remodeling of the Congregational church at Everett, Mass.

At Yonkers, Westchester Co., N. Y., D. & J. Jardine, architects, have prepared plans for a residence to be erected on North Broadway, for Valentine Marsh. Cost about \$12,000. The same architects have made plans for a residence and stable to be erected on North Broadway, near Glenwood Avenue, for M. B. Cowperthwait. Cost about \$20,000.

At Detroit, Mich., Williams, Davis, Brooks & Co., wholesale druggists, now at Bates and Larned Streets, contemplate the erection of a large building for their business, at a cost of about \$100,000. The structure will be eight stories high. No plans yet made.—The congregation of St. John's Roman Catholic Society has purchased a lot upon which a church will be erected to cost about \$10,000. Right Rev. John S. Foley, 31 Washington Avenue, can give information.

At Springfield, Hampden Co., Mass., the committee having charge of subscriptions for the new Masonic Temple are so sanguine of success that they are ready to receive plans and suggestions for a building suitable for their purpose. It is proposed to raise \$125,000. Of this \$25,000 will be a capital stock, now owned by the seven Masonic bodies. Sixty thousand will be raised on first mortgage, and the remaining \$40,000 is divided into 4 per cent. interest bearing bonds of the denomination of \$10, \$20, \$50 and \$100. Already the amount of bonds sold is rising \$30,000, and not more than \$9000 remains to be raised. The site

has not yet been decided, but will soon be settled upon. About \$75,000 of the total amount raised will be expended on the building, which will probably be four stories high, and the remaining \$50,000 on the site.

### Lot Buyers.

Emma Louisa Yeatts, of Philadelphia, two pieces of land at Wayne.

Ferdinand Koller, of Folsom, Pa., lot at that place.

Robert H. Brookfield, of Upper Darby, Pa., two lots at that place.

Robert W. Danning, of Philadelphia, lot at Media, Pa.

Lucy Raddy, of Eddystone, Pa., lot at that place.

Henrietta R. McGlenchy, of Philadelphia, lot at Rutledge, Pa.

Henry L. Broomall, of Media, Pa., lot at Chester, Pa.

William B. Evans, of Darby, Pa., lot at Ferdinand, Pa.

### Mills to be Built.

At Hodges, Jefferson Co., Tenn., a flour mill will be erected by Joseph Peck.

At Brook Neal, Campbell Co., Va., a planing mill will be erected by R. W. Monroe.

At Richmond, Fort Bent Co., Texas, J. W. Henry can give particulars as to the erection of a sugar mill.

## A Few Quiet Words with House Builders and Owners.

If the kitchen of your house is small, you need to economize room. You can do this by using a range with elevated boiler, such as the

### "FIDELITY."

It will reduce the cost of plumbing also. We make them with seven inch or eight inch boiler holes, ovens on right or left of fire, with or without hot closets, and also to heat an upper room. Splendid bakers. Hot water in abundance. The latest and best of their class.

FIDELITY HOT AIR RANGE WITH  
HORIZONTAL BOILER.

Excelsior Double Oven Range.

If the kitchen is roomy and large, cooking capacity is sought. You will want a brick-set range with a vertical circulating boiler, set in the usual way. The

### "EXCELSIOR RANGES"

are acknowledged all over Philadelphia, in which city and vicinity some 75,000 have been sold as the standard brick-set range. They are furnished with ventilated ovens, oven-door pedals, rocking grates, and all modern improvements. Made in seven and eight inch sizes; single, double and hot-air ranges. Send for descriptive pamphlet, entitled "PERFECT COOKING."

MANUFACTURED BY

**ISAAC A. SHEPPARD & CO.,**

N. E. COR. FOURTH STREET AND MONTGOMERY AVENUE, PHILADELPHIA, PA.

And for Sale by all Responsible Dealers.

Whether large or small, your house will require a heating apparatus of some kind. It will pay you to put in a *really good* hot air furnace. The

### "PARAGON"

has no superior. Perfectly self-cleaning, with fewest joints, free from dust and gas, largest radiating surface, heavy steel plate, drum casings, easy on fuel, and of superior durability, it will always give satisfaction. A descriptive circular will be mailed upon application.

PARAGON FURNACE WITH  
EQUALIZED DRAFT.

# DID YOU EVER EAT AT BOOTHBY'S Great Chestnut St. Restaurant?

If you have not, you can form no proper idea of its size, beauty and facilities. Its corps of superintendents, chefs and assistants, waiters and supernumeraries number over 100. Its seating capacity is over 1300, and every guest is made comfortable, besides receiving prompt and careful attention. Its menu embraces everything in season. The cooking represents the best efforts of prominent chefs, whose skill has given the place a national reputation. The prices are moderate and the service is unexcelled. OYSTERS ARE THE GREAT SPECIALTY. The Ladies' Restaurants are retired, light and elegant. For a social meal or a light lunch, you are recommended to

### JUDGMENTS.

#### PHILADELPHIA.

##### ABBREVIATIONS.

Where there are no figures to indicate the amount of the judgment, the damages have not been assessed.

The name first mentioned in each line is that of the judgment debtor.

A star (\*) denotes judgment confessed or bond and warrant conditioned.

The figures 1, 2, 3 and 4 immediately after the name of the plaintiff indicate the number of the Court. The term of the Court is indicated as follows: D, for December Term; M, for March Term; J, for June Term and S for September Term

DETROIT-Hodges Building.

**THE OLD RELIABLE NOVELTY HOT AIR FURNACES.**THOUSANDS  
IN  
USE

Easy to Manage,  
Easy on Fuel,  
Pleases the People,  
No Gas or Dust,  
Need no Repairs,  
Perfectly Self-cleaning.

"OUR FURNACE BOOK."  
Is a fund of valuable information  
for Builders.

-SEND FOR ONE.-

17  
YEARS  
TEST

Greater Heating Power,  
Work where others fail,  
Results due to Superior Merit,  
Cheapest in the long run,  
Greatest in Public Favor,  
Your advantage to use them.

**THE HOME NOVELTY RANGE.**

The Very Newest Out,  
Nothing Cheaper Made.

**Quality Equal to the Best.**

Just the thing for Small Houses.  
Adapted to more varied uses than any other  
range made.

Examine it before you buy.

Printed description of all our  
goods sent on request.

ALL  
SATISFACTORY**THE MODEL NOVELTY RANGE.**

The Pioneer That Routed Brick  
Set Ranges.

**OPERATION SATISFACTORY ALWAYS,**

Bakes Every Time, Plenty of Hot Water,  
Occupies Less Space,  
Cost Less When Set, Requires Less Skill,  
No Risk to Run.

THOUSANDS PROVE THE TEST.

**THE SPLENDID NOVELTY HOT AIR FURNACE.**

The Best for the Money on the Market. It has all the essentials for durability, convenience and heating power to the extent that it is better qualified to do first-class work than many competitors that cost much more.

Don't Fail To Look It Up.

**Architect Notes.**

James A. Windrim, architect, 132 South Third Street, has prepared plans for a small addition and some alteration to the Wills Eye Hospital on Race west of Eighteenth Street and it is expected work will be started at an early day.

Addison Hutton, architect, 400 Chestnut Street, has prepared plans for the addition of two stories to the Wood Building, southwest corner of Fourth and Chestnut Streets. These will be in keeping with the structure as it stands, in architectural design.

Walter H. Geissinger, architect, Twelfth and Chestnut Streets, has made plans to rebuild the damaged tank and storage house of A. E. Carpenter, at S. W. corner of American and Somerset Streets. It will be a two-story brick structure, tin roof and built upon the old lines. Estimates have been asked on the work.

J. E. Allison, Penn Building, Pittsburg, Pa., has prepared plans for a residence for A. A. Hazlett to be erected at Aspinwall, Pa., at a cost of about \$3000. Hastings Bros are the contractors.—The same architect has prepared plans for a handsome double dwelling to be erected at Hazelwood, for J. J. Moore. The estimated cost is \$5500. The contract has not yet been let.

Plans have been prepared by the Engineers' Department of the Norfolk and Western Railroad Co. of Virginia, for the erection of a corrugated iron warehouse, to be erected at Kenona, W. Va., to be one story high and entirely of iron construction. The drawings are now on boards for estimates at the office of F. Amweg, Hale Building, Juniper and Chestnut Streets, Philadelphia.

Walter Smedley, architect, 435 Chestnut Street, has made plans for a new training school, to be erected on the grounds of the School for Feeble-minded Children, at Elwyn, Pa. The drawings contemplate a two-story structure, with basement, 96 x 56 feet, to be of brick and stone, divided into dormitories, special rooms, etc. The exterior will have a large porch. All the best modern comforts and conveniences will be introduced.

Franklin Keagy, architect, Chambersburg, Pa., has just completed plans for alterations to the Washington Hotel, at the above place. These consist of an additional story, mansard roof, tower to be placed at the corner of Market and Second Streets, electric light, plate glass windows and all modern conveniences will be introduced. The major part of the work will likely be done by day work under supervision of the architect.

Walter H. Geissinger, architect, southwest corner Twelfth and Chestnut Streets, has completed plans for an addition and alteration; also completion of plant for Stinson Bros., at Reese and Huntingdon Streets. The above include the machine shop, store-room, boiling-room, each to be two stories high, fitted with steam electric light and general power machinery. Drawings will be upon boards for estimates during the present week.

Addison Hutton, architect, 400 Chestnut Street, Phila., has been requested to prepare all the plans for the J. M. George Friend's School which will be erected upon what was formerly known as the Worth Farm, at Newton, Bucks Co., Pa. Details as to kind of buildings or arrangement as to what will be included in the system to be employed have not been fully settled, the "Separate" and the

"Cottage" plans being now considered. The fund for maintenance of this work left by Mr. George in his will amounts to nearly \$1,000,000, and it is proposed to erect a college suitable to care for about 150 persons, its purpose being to reduce the cost of education and it will be conducted similar to the one at Westtown, Pa., under the Orthodox Friends.

Frank R. Watson, architect, 518 Walnut Street, Phila has completed plans for a country residence for Clinton Latourette, at Oak Lane, which will be two stories and a half high of stone and frame, shingle roof 23x56 feet in area, and finished in hard wood on interior, electric bells and all modern conveniences.—Also plans for a country house at Devon, Pa., for H. C. Wilt, to be 30x64 feet and in detail to be very similar to the one above described.

Horace W. Castor, architect, 4627 Penn Street, Frankford is engaged on plans for a handsome residence for F. W. Harman, glass manufacturer, to be erected on Leiper Street, to be of stone and brick, three stories high, fitted on interior in hard wood, electric bells and light and best sanitary plumbing. Also plans for two houses for C. Rapp, to be frame and brick, with best of modern conveniences, to be erected in Tacony, Pa. Same architect has plans prepared for a fine pair of houses for Swope & Carson, of Frankford, to be of Leiperville stone, first and second floors, interior to be fitted with all the best modern conveniences, electric work and best sanitary plumbing, etc. Two handsome houses have been finished of the above kind for the same owners, and Music Hall, in Frankford, is well under way under Mr. Castor's supervision.

JOHN F. BRISBANE, City Editor.

PHILADELPHIA, WED'Y, MAY 4, 1892.

### ATLANTIC CITY.

#### A Booming Season Ahead for the Great Resort and the Reading's Royal Route.

The popularity of Atlantic City long since reached National proportions, and it continues to grow from year to year. The approaching season promises to be the greatest ever known at this the greatest of all seaside resorts. The Reading Railroad, whose superbly magnificent line between Philadelphia and Atlantic City has become famous throughout the country as the "Royal Route to the Sea," will continue to be the principal and favorite means of getting to and from the City by the Sea. The Reading's superiority in equipment is generally conceded. Its chief advantage consists in the fact that it has the only double track line of railroad to Atlantic City. The importance of this cannot be overestimated. Not only does it insure the absolute safety of passengers, but it admits of quicker and more reliable transit. The Reading line is also several miles shorter than any other road to Atlantic City, and it runs almost as straight as the crow flies. The great "Seventy-five Minute Flyers" are the most talked of trains in America. For beauty, elegance and speed they are literally beyond rivalry and those of our readers who visit Atlantic City should not fail to experience the delight of a ride on one of these matchless trains. The summer schedule will comprise a larger number of fast express trains than has ever heretofore been run on any line. Trains will start at such frequent intervals that one can scarcely fail to catch a "Flyer" at whatever time he may desire to go. The spring time table now in effect shows week-day trains leaving Philadelphia at 8.00 and 9.00 a. m., 2.00, 4.00 and 5.00 p. m. Sunday morning express trains leave at 8.00, 9.00 and 10.00 a. m. Returning trains start from Atlantic City at 7.30 and 9.00 a. m., 4.00 and 5.30 p. m., week-days, 4.00, 5.45 and 9.00 p. m. Sundays. The "Royal Route's" Philadelphia stations are at Chestnut and South Street wharves, and all Reading Railroad Ticket Offices have through-tickets and baggage checks for Atlantic City.

### American Tin Testimonial.

*The Duquesne Company, Pittsburg, Pa.*

MARCH 31, 1892.

MESSRS. THE N. & G. TAYLOR CO., Philadelphia Pa.

Gentlemen:—Referring to the 200 boxes, 20 x 28 Bright Coke American Tin Plate, shipped us as the first consignment on account our order for 1000 boxes of same, beg to say that would have advised you some time since as to our opinion of the quality, etc., except for the absence of the writer during the most of the current month in New York.

Since 1882, when we first established this business, up to the present time it is quite probable that we have imported not less than 100,000 boxes of coke tin plate, all the above size, and we are perfectly free to say that if our judgment, in the light of 10 years, and the consumption of 100,000 boxes this class goods, is any criterion, that we have never seen a single box of all the tin imported in the past years that can be compared for a moment, as to quality, with that which you have shipped us in the first lot. Had we bought a first-class, charcoal finish plate from you we could have made no complaint had you furnished us the plate that you did, although sold as coke finish.

During this year we will probably consume not less than 10,000 boxes of this class of tin plate, and we hardly know how we can express our opinion of your goods better than to say that would most gladly give you the order to-day for 10,000 boxes; providing only that the quality should be maintained equal to the lot just received, and price not to exceed current prices at date of each shipment from your works.

We will be glad to hear from you soon, as you may be in position to enter such an order, and beg to remain, dear sirs,

Very truly yours,

JAMES WOOD.

### Architect Notes.

Charles M. Burns, jr., architect, 717 Walnut Street, has made all the plans for the improvements being made by E. DeV. Morrell, at Torresdale, on the Delaware river, among which will be the enlargement of the old Hopkins mansion to the capacity of a hotel, being 50 x 146 feet, and two wings will be erected. It will be named "The Morrellton." The Fisher and Borie mansions will be remodelled. John Duncan, 905 Chant street, is contractor for the work.

Frank R. Watson, architect, 518 Walnut Street, Phila., has completed all plans in detail for the R. C. Church of the Epiphany to be built at 11th and Jackson Streets, and has placed the blue prints on boards in his office for estimates of contractors. The structure will be 80 x 150 feet, one story high and the walls will be of Avondale stone with Indiana limestone trimmings and decorated in Gothic style. The main door will be on 11th Street, two others on Jackson, a tower at corner, 116 feet high, interior of Church will be in buff brick trimmed with Indiana stone, fresco work on ceiling which will be partly in wood. Seats for about 1000 persons will be provided.

J. Elvin Jackson, architect, 804 Walnut Street, is engaged on plans for a handsome hotel,

to be erected at Forty-seventh Street and Grays Ferry Avenue, to be three stories high, first story of Lake Superior stone, second and third of Pompeian brick, and the entire front to be of ornamental design, having stained and plate glass windows. Interior will have all modern conveniences. Mr. Jacob Schopp will be the proprietor. Also on boards plans for a handsome residence for Mr. Charles Orcutt, at Ogontz, Pa. It will be 43 x 54 feet, three stories high, built of stone and shingle work, interior to have electric bells and light, stained and plate glass windows. All modern improvements, including steam heat and plumbing, which will not be included in the general contract. Same architect has a number of additions for which plans are being made.

The question of making some of the alterations and additions to the Union League Club House, Broad and Sansom Streets, has again been revived, and part of the original plans, made by Robert G. Kennedy, architect, Drexel Building, will be put into execution and estimates will be invited, it is understood, at an early day. The contemplated work will be a new addition to the billiard room, few toilet rooms, one interior wall to be taken down, a handsome window of Flemish pattern will be lengthened to the floor, the floors of the toilet rooms will be in marble, whilst that of the coat room will be in mosaic work; a new porch will be put upon the south of the billiard room, several stairways will be altered materially, and the laundry on Moravian Street will be overhauled and improved so as to be utilized as a power room and the laundry work removed entirely from the building. When the above work is done it will be one of the finest club houses in this country.

Harold Godwin, architect, 905 Walnut Street, has made plans for additions and alterations to the manufactory of the Way Dyeing and Finishing Co., at Sixth and Oxford Streets. These consist of a dye house, 33 x 170 feet, one story; a finishing shed, 56 x 96 feet, one story. Also a boiler house, 18 x 37 feet, one story, and engine house, 12 x 37 feet, one story, a stair case, elevator and closed shaft extending to third floor of the present main building. Estimates are now being invited, and will be erected under supervision and sole direction of the contractor. Also plans by same architect for addition of one story to residence of A. H. English, 1013 Vine Street. Bids are also being taken on a four-story building and basement, 34 x 77 feet, for the Forrest laundry firm, at Camac Street and Columbia Avenue. This will include steam appliances, electric light, elevator, all machinery for the purposes of laundry work, information concerning which may be had at their office. Same architect has just let contract for house of Bunford Samuel, at Chestnut Hill, to John Owens, of Germantown. Same architect has about completed plans for a row of two and three-story houses, on east side of Twentieth Street, between York and Cumberland Streets, for D. F. Coffee, builder. Also plans for two stores, 29 x 150 feet deep, to be erected on Main Street, Johnstown, Pa. These will be four stories high, of brown stone, Pompeian brick and copper work, very ornamental, and will contain elevators, electric work, best sanitary work and all modern conveniences. The foundations will be of brick, in cement and concrete work.

George W. Plowman, architect, 1406 Chestnut Street, is engaged on plans for the alteration of the structure now occupied by the Cyclorama of Gettysburg, at Broad and Cherry Streets, managed by Henry W. Pincus. The building will be remodeled for the purpose of installing a permanent circus among the amusements of the city, and which will open promptly at the conclusion of the Presidential campaign of the current year. A balcony and a dress circle will be placed upon the interior; also a handsome circular auditorium upon the ground floor. The interior will be fitted with electric light; also attachments to doors and windows, to be used in cases of exigency. Steam heat and every modern comfort and convenience will be placed; also best of sanitary work, toilet rooms and lavatories. The ornamental toilet will be quite a feature. It is the intention of Mr. Pincus, who will manage the new project, to make this one of the finest institutions of the kind in the country.

Chairman Walter Wood, of the Building Committee of the Bourse, has issued a pamphlet to architects containing the terms of the competition for the Bourse plans. All plans are to be sent to William R. Ware, of Columbia College, on or before 10 o'clock P. M., of June 6, 1892. The fifteen plans next in order of merit to the best one are to entitle their authors to \$500 each. The building is to cover 47,500 square feet, and will cost not over \$1,500,000, including machinery. The main room in the Bourse is to be about 50 feet high in the centre, with skylights and galleries, with ample arrangements for blackboards. In the four corners of the building there are to be accommodations for banks or other business, covering 2000 or 3000 square feet each. Eight passenger and one freight elevator are to be provided for. The gallery floor is to have at either end, over the banking rooms and corridors, large meeting, exchange and reading rooms. Along the sides or ends will be a series of small rooms opening from the gallery for offices. The stories above are to be divided up into offices so as to secure the maximum of light and air and rental value. These may be either made to run around a court, which will light the large hall below, or in transverse suites, running across the lot and lighted from intermediate courts or areas, opening upon Ransstead Street. The upper story is to be used for an exhibition room for manufactures. The building is to be ten stories in height, the first about 20 feet, the second 15 feet, and the top story 15 feet; the others about 11 feet. The outside walls of the lower story are to be of some light colored stone, and the upper stories of light-colored brick, with stone or terra-cotta work. The building is to be a fireproof, steel-frame structure.

#### Building and Real Estate Notes.

Messrs. Steward & Stoneback, No. 39, N. 7th street, have been awarded the contract for the erection of the Temperance Hall building at Sixteenth Street and Columbia Avenue.

At Chestnut Hill, Philadelphia, Edward V. Lansdale has sold a twenty-acre tract of land to Francis I. Gowen, Esq., of Mount Airy and 420 Walnut Street. It is stated that Mr. Gowen will have a handsome residence erected on the site.

Geo. W. Stewart, contractor, 2536 North Sixth Street, has received the contract to erect the mills of Jno. Bromley & Sons, at Somerset Street and Lehigh Avenue. These will be erected under the supervision of Walter H. Geissinger, architect who drew the plans.

At a meeting of Committee on Plans and Improvements of the Park Commission, on the 26th ult., it was decided to set aside \$6500 to complete the approach to the Reading Bridge at Greenland Avenue, and to fill what is known as Ford's Road. Also awarded contracts to Jos. F. Allen for 1200 feet of river drive wall. Alteration and addition to Memorial Hall roof to J. S. Thorne for \$19,000; considerable iron work to both wings of Horticultural Hall to the same contractor.

William G. Serrill, builder, Fourth and Berks Streets, will erect twenty-two three-story houses on west side of Fifteenth Street, north of Lehigh Avenue. Also, a three-story house, southwest corner of Fifteenth and Mundell Streets. All to be of pressed brick, brown stone fronts, and best modern improvements and conveniences on interiors.

A decision has been rendered by Building Inspector Supplee, of the Second District, against the construction of frame refrigerating boxes in market houses or elsewhere based upon the law which prohibits the erection of frame structures, within certain restrictive limits of the city. His action has been sustained after appeal by the full board of Building Inspectors. The above action was taken in the case of George F. Thackara, of the Farmers' Market, Twelfth and Filbert Streets.

The estimates for finishing the Presbyterian Church, at 21st and Columbia Avenue, have been invited which will only include the superstructure as the foundation was laid early in 1891 and awaited the consummation of the annexation of the Spring Garden Presbyterian Church formerly on 12th Street above Spring Garden Street. The congregation will henceforth be known as the McDowell Memorial Presbyterian Congregation, and is now fully prepared financially to complete a handsome edifice.

At a Quarterly Conference meeting of the Builders' Exchange, on the 26th inst., the question of continuing the Trade School under the auspices of that organization came up for discussion. The matter was debated in all its phases by many of the ablest members among who were Geo. Watson, W. Taylor, Stacey Reeves, Franklin Harris and others, after which it was resolved, upon motion of Col. Wm. Harrison, to appoint a committee to ascertain the wants of the school, suggest ways and means, and report upon feasibility of maintaining it. There is much enthusiasm among the members over the results thus far accomplished, and no doubt is entertained about its maintenance.

On the 27th of April a destructive fire broke out in the Grand Central Theatre, located on Walnut, above Eighth Street, and destroyed the structure entirely, also the large eight story *Times* Annex Building, on Sansom Street, in the rear, whilst upon Eighth Street some half a dozen stores and dwellings were either burned entirely or so damaged as to necessitate rebuilding altogether. In an interview with W. J. Gilmore, proprietor of the theatre, and Mr. Frank McLaughlin, of the *Times* Annex, both gentlemen announced the intention to at once rebuild both structures on improved scales of design and workmanship. The Traction Motor Power house, adjoining the *Times* Annex, is also badly damaged and will be repaired at once. Taggart's *Times* office and Poulson's restaurant were considerably burned and will be repaired. An old house, known as "The Resort" was also badly damaged. In Sansom Street, north and south side, quite a large number of properties were scorched and otherwise damaged. These will, to a great extent, be repaired at once.

#### Through Pennsylvania.

 When any of the following are not post office towns they will be so designated.

—At Fernwood, Delaware Co., W. B. Evans will erect a new store and dwelling

—At Oxford, Chester Co., Mr. Griffith will erect a dwelling the present season.

—At Kissel Hill, Lancaster Co., two new school houses will be erected during the summer.

—At Rockdale, Delaware Co., J. U. Scott has broken ground for the erection of two dwellings.

—At Hamburg, Berks Co., ground has been broken for the erection of an electric light plant.

—At Smithton, Westmoreland Co., the congregation of the Catholic church will erect a new edifice.

—At Ogontz, Montgomery Co., John Higgins has broken ground for a dwelling on the association land.

—At Allegheny City, Allegheny Co., W. F. Davis will erect a dwelling, to cost about \$10,000. R. H. Davis is the contractor.

—At Reading, Berks Co., the contract for the masonry work for the two new school buildings, has been awarded to Adam Borrell.

—At Spring City, Chester Co., Joseph Hetrick has purchased a lot on Washington Street, and will erect a double brick dwelling on the site.

—At Latrobe, Westmoreland Co. a clay manufacturing plant will be erected. William Daily is interested in the project and can give information.

—At West Newton Westmoreland, Co., a new passenger and freight station will be erected to take the place of the one recently destroyed by fire.

—At West Pikeland, Chester Co., a bridge will probably be erected in a short time. O. E. Moses, Isaac Hartman, Allen Simmers and John Emery can give information.

—At Phoenixville, Chester Co., a special election will be held in a short time to vote on the question of borrowing \$70,000 with which to establish an electric light plant.

—At Hatfield, Chester Snipe will make a number of improvements to his hotel.—There is some talk of having the school building enlarged, and divided into two rooms.

—At Chester, Delaware Co., William F. May will erect a building for hotel purposes. The plans were drawn by W. F. North, of Glenolden, Pa. Nolan & Bros. are the builders.

—At Perkasia, Bucks Co., ground was broken a short time since for the new Lutheran church. Rev. Waidelich is pastor.—Work has begun on the excavation for the new school building.

—The residents between Lenape, Chester Co., and Upland, Delaware Co., have subscribed \$23,000 toward the building of an electric road to run from Lenape to Unionville and thence to Oxford.

—At Scottdale, Westmoreland Co., the directors of the Scottdale, Emerson and Broadford Street Railway Co., at a recent meeting, decided to take definite steps toward the construction of the contemplated line.

—The Senate committee on public buildings and grounds has reported favorably bills making appropriations for public buildings in Pennsylvania as follows: Altoona, \$25,000; McKeesport, \$100,000; Washington, \$50,000.

—At Schuylkill Haven, Schuylkill Co., the Schuylkill Hose Company has purchased a lot from L. W. Weissinger. It is located on St. John Street. Adam Snyder has begun work on a double dwelling on Dock Street.

—At Lebanon, Lebanon Co., John Keller will erect a handsome brick residence on S. Sixth Street, near Walnut.—John H. Cilley will erect three brick dwellings.—Uriah B. Siegrist will erect a frame dwelling on S. Sixth Street.

—At Swarthmore, Delaware Co., the committee having in charge the raising of funds for the erection of the Somerville Hall are trying hard to raise the amount. The hall will be used for the Somerville Society and a girl's gymnasium

—At Norristown, Montgomery Co., a meeting of the Ways and Means Committee of Council was held a short time since to discuss the subject of street paving, and it was decided that five or six blocks should be paved the present season.

—At Reading, Berks Co., Smith & Bros. have prepared plans a Queen Anne cottage, to be erected for W. Nolan at a cost of about \$16,000.—The Reading Hardware Co. contemplates the erection of a factory for about \$14,000. It will be four stories high.—Mrs. Archey has had plans drawn by L. H. Foelt for a Queen Anne cottage, to cost \$12,000.

—At Chambersburg, Franklin Co., extensive improvements will be made to the Washington House by the proprietor, William H. Shank, an additional story will be put on, the windows changed, a tower added and other improvements made.

—Messrs. Henry C. Snowden, F. I. Taylor and D. McClintock all of Media, Delaware Co., Pa., held a meeting a short time since to consider the advisability of constructing a bridge to span Stony Creek, on the road from Folsom to the farm of William Trainor.

—At Allegheny, eight frame dwellings will be erected on Marshall Street by Mayor A. J. Pente-cost. The cost will be about \$20,000. The Carnegie Library Building will be enlarged at a cost of about \$25,000. Armour & Co. will erect a warehouse on Anderson Street.

—At Eddystone, Delaware Co., a meeting of the trustees of the Methodist Church was held a short time since, at which it was decided to put in a generator, plumbing and fixtures for lighting the church with gasoline. The heating apparatus will likely be the hot air method.

—At Quakertown, Bucks Co., the old Pennsylvania Hotel, owned by Henry G. Ahlum, is being remodeled and improved and will be partly refurnished. —Albert H. Kettleman is erecting a dwelling on Ambler Street. —Jacob Stoneback is erecting a dwelling on the same street.

—At Everson, Westmoreland Co., work will be begun in a short time on the proposed new edifice for the Polish Catholic Church. Rev. A. M. Sezmegle is the pastor and has the matter in charge. —The School Board contemplate the erection of a new school building, to cost about \$10,000.

—At Wilkesbarre, Luzerne Co., Jonas Long's sons will erect a building for business purposes 70x200 feet. It will be five stories high, of stone, brick and terra cotta, handsomely finished on the interior, modern conveniences and improvements. The plans have been prepared by P. T. Lawritzen of New York City.

—At Manheim, Lancaster Co., the McAnulty Mill Furnishing Company, will erect a plant in a short time, the necessary number of shares having been taken. The plant will consist of a foundry, machine shop, planing mill, finishing shop, storage room, lumber and dry house, office, etc. Mr. A. Klein president of Council can give information, or Mr. D. L. Hamaker, J. A. McAnulty, George H. Danner & Co. and others. The work will be commenced at once.

—At McKeesport, Allegheny Co., plans have been prepared by Edward Winkelman, 309 Walnut Street, for a building to be used for business and dwelling purposes. The owner is Henry Buchse. The estimated cost is \$4000. Mr. Winkelman has also prepared the plans for the Greek Catholic Church to be erected at Connellsville, Pa. It will be of pressed and ornamental brick, slate roof, stained glass windows, and will be fitted on the interior with handsome church furniture and steel ceiling. The estimated cost is \$10,000. Gothard Wyss, 207 Fifth Avenue, McKeesport, Pa., is the contractor, and can give information.

—At Connellsville, Fayette Co., the arrangements are about complete for a number of street improvements and \$25,000 in bonds will be issued for the purpose. The most of the material will likely be vitrified brick. A resolution was passed by Council authorizing the Borough Engineer to make estimates of the work in order that bids can be asked for the work. —The B. & O. Railroad has made a proposition that if the town raises \$25,000 the railroad company will erect new shops and stations. The estimated cost of the shops is \$150,000. Burgess Harrigan has issued a call for a public meeting to be held in the opera house to consider the matter, and to devise means for raising the money.

—At Pittsburg, a lot has been purchased by Thomas B. Alcorn Esq. on Station Street, upon which he will have a handsome residence erected. No architect has, as yet, been engaged. —The congregation of St. Mary of Mercy's Roman Catholic Church, at Third Avenue and Ferry Street, will erect a new church, at a cost of about \$12,000.

—Architect Kauffman has prepared the plans for a handsome church edifice, to be erected by the Italian Catholics. The estimated cost is about \$45,000. —The Young Women's Christian Association will erect an annex to the present structure. It will be two stories high, of brick. —The Baltimore and Ohio and Junction Railroad iron bridge over Greenfield Avenue at its intersection, West Second Street, will be begun in a short time, as the plans are about ready. It will be about two hundred feet long. —The contract for the erection of Joseph Horne & Co's new building on Penn Avenue has been given to A. & S. Wilson. —Doherty Brothers have been awarded the contract for the erection of a nine-story warehouse at Liberty Street and Garrison Alley, for S. Ewart & Co. The plans were drawn by Charles Bickel, and call for a building 110 x 66 feet. The estimated cost is \$120,000. —McFarland Brothers contemplate the erection of a three-story brick business house on Penn Avenue between Sheridan and Highland.

### Through New Jersey.

At Palmyra, Burlington Co., at a town meeting, held a short time since, \$8000 was appropriated to construct and to repair sidewalks.

The House Committee on Public Buildings and grounds has reported favorably on the bill appropriating \$100,000 for a public building at Elizabeth, N. J.

At Newark the large furniture store of C. E. Cannon and the adjoining buildings were destroyed by fire on April 27th, at a loss of about \$60,000.

At Summit, Union Co., the Y. M. C. A. contemplate the erection of a building for purposes of the organization. The plans have been prepared by Constable Bros., of New York.

At Hoboken, John J. Toffey, George Y. Park and William Utz, of Jersey City, have been appointed by Judge Green to condemn lands in Hoboken for the approach of the new North River bridge.

At Paterson, Passaic Co., M. Houman, architect, has prepared plans for a dwelling for himself, to be of brick, stone, frame and shingles. The interior will be handsomely finished, cabinet mantels, tiled vestibule, plate glass windows, etc. The estimated cost is \$8500.

At Bloomfield, Essex Co., a three-story frame building, to be fitted for hotel purposes, will be erected from plans prepared by Swinnerton & Poole, of New Jersey. The same architects have prepared plans for a dwelling to be erected for Prof. Frank O. Payne, of Chatham, N. J. The cost of the former operation will be about \$12,000, that of the latter about \$3500.

### Through Delaware.

At Cape Henlopen City (P. O. Rehoboth, Sussex Co.), at a meeting of the Town Commissioners, held a short time since, arrangements were made for the purchase of two lots by Bishop Coleman upon which to erect an Episcopal church and clergy house. The plans for these structures have been drawn by Edward L. Rice, of Wilmington, Del.

### Through Maryland.

At Baltimore, the St. Helena Improvement Co., a corporation composed of Philadelphia capitalists, which has purchased a large tract of land on the Sparrows Point Railroad, about five miles from the City Hall, has had an offer for four acres

of the land on the river front upon which to erect a hotel to cost about \$40,000, for which it is stated plans are already drawn. Mr. Charles Lewis is the general manager of the Improvement Co. —Architects Baldwin & Pennington, Farmers' and Merchants' Bank Building, has been selected to make plans for the State building, to be erected at the World's Fair at Chicago. —The most important building permits issued to date are as follows: To C. P. Roberts & Bro., to erect ten two-story brick dwellings; to J. Flynn, to erect a three-story brick dwelling; to J. Coffey to erect a three-story brick dwelling; to H. L. Washburn, to erect sixteen two-story brick dwellings; to David Braner, to erect two three-story brick dwellings; to K. Hess, to erect a three-story brick dwelling; to Lemuel German, to erect four three-story brick dwellings. —The Mayor has signed an ordinance appropriating \$2000 to complete the work on Grammar School No. 18. Also, appropriating \$3500 to build an annex to the County Jail. Also, to purchase lot of ground bounded by Madison Avenue, Eutaw Place, Robert and Presstman Streets. Also, appropriating \$5000 to the Maryland Society of the Sons of American Revolution to aid in the erection of a monument to the memory of the Maryland patriots of the Revolutionary War. —The Mayor will receive proposals until May 10 for the purchase in whole or part of \$600,000 of the stock of the City of Baltimore, known as the "Internal Improvement Loan," 3½ per cent., due July 1, 1928.

### Washington, D. C.

James G. Hill, Corcoran Building, has been commissioned by the Corcoran Fire Insurance Co. to make preliminary sketches and estimates for a building on Eleventh Street, near F, for the company. —The Provident Improvement Co. will erect a number of dwellings at a cost of about \$35,000. The plans are being prepared by Joseph C. Johnson, Corcoran Building. —W. L. Bramhall will erect three handsome dwellings on O Street, between Twenty-first and Twenty-second Streets, at a cost of \$30,000. They will be of brick and Medina brown stone, slate roofs, with interior finish of cherry, oak and white enamel tiled vestibules, etc. A. P. Clark is the architect.

—Cherry Chase, which comprised nearly 2000 acres of land on Connecticut Avenue, and of which Francis G. Newlands is president, will be improved by the erection of a dozen handsome residences from plans prepared by Lindley Johnson, Girard Building, Philadelphia. They will be of stone and frame, no two alike, with porches, oriel bays, loggias, porte-cocheres, etc. The interiors will be finished in hard wood and white pine, and will have steam heat, electric lights, tiled vestibules, etc. Eight smaller dwellings will also be erected, and the whole operation will cost about \$100,000. The work will be under the supervision of L. E. Dessez, of Washington City. —Nicholas T. Haller, 931 F Street N. W., has prepared plans for a large building to be erected for B. H. Warder, on G Street, near Thirteenth Street. It will be of brick and Hummelstown brown stone, slate roof, interior handsomely finished. The first two floors will be fitted up as stores, and the third floor will contain a large hall, banquet room, etc., steam heat, electric lights and all modern conveniences. The construction will be under the charge of George E. Emmons. —A. P. Clark, 605 F Street N. W., has prepared plans for an addition to Howard University Law School on Fifth Street, between D and E Streets. It will be of brick, heated by steam, and will cost about \$6000. —J. Germueller has prepared plans for a two-story dwelling for R. Sanger, to be erected on H Street, between Fourth and Fifth Streets, at a cost of about \$4000. It will be of brick and Hummelstown brown stone. Also, plans for a dwelling to be erected on G Street for Anton Schroth. —Contractor Owen Donnelly has been selected to erect new buildings for Carroll Institute on a percentage. He will receive bids for the various kinds of work, and will make sub-contracts.

TRUSTS. TITLES. DEPOSITS

**THE PLANT**  
OF  
**THE LAND TITLE AND TRUST COMPANY,**  
**608 Chestnut Street,**

Covers every foot of ground in Philadelphia, and is the only Plant containing an abstract of every Deed, Mortgage and Sheriff's Sale of record in Philadelphia since 1682 located against each property described.

This Plant necessarily gives great additional protection to purchasers and mortgagees taking this Company's policy of Title Insurance, apart from the security of its One Million Dollars full paid capital.

The subscription books are now open for the remaining \$200,000 of unsubscribed capital, and the privilege of becoming stockholders and members is offered to all men doing business in or with Philadelphia.  
Shares are \$50 each. The minimum subscription received is for four shares.  
Subscribers to four shares or more will be entitled to all the rights and privileges of membership.  
There will be no annual dues or assessments.  
The offices in the Bourse will be very desirable and are already in demand. The capital invested in this building will pay large returns, and it is expected that stockholders will not only receive great business advantages, but a fair interest on their investment.

**SUBSCRIPTION BOOKS ARE OPEN AT THE EXECUTIVE OFFICES.**

## These Ranges and Heaters

Represent the highest possible type of mechanical and scientific construction. For reliability and durability they are positively without a superior, they truly represent the minimum of cost and the maximum of quality.

The small size of the **PROMPT RANGE** is just the thing for Builders of small Houses. It is compact in form and possesses all the advantages and requisites of the larger size. Builders, Owners and Agents having charge of properties should inspect these Ranges and Heaters before ordering.

For sale by all Dealers. They can be seen at the Company's Ware-rooms.

123 N. 2d St., Philadelphia.  
17 E. Lombard St., Baltimore, Md.

of bidders is invited to the Acts of Congress, approved February 26, 1885, and February 23, 1887, Vol. 23, page 332, and Vol. 24, page 414, Statutes at Large. For all information apply to C. W. Raymond, Major, Corps of Engineers, U. S. Army.

Proposals for steam power plant. Watervliet Arsenal, West Troy, N. Y., 1892. Sealed proposals, in triplicate, will be received at this Arsenal until 12 o'clock M., on Monday, May 16, 1892, for furnishing a Steam-Power Plant, comprising steam engine, boilers etc., and for the delivery and erection of same in complete running order in the Army Gun Factory at Watervliet Arsenal. The Government reserves the right to reject any or all proposals or parts thereof. Specifications and all other information can be had on application to Lieut. Col. F. H. Parker, Ordnance Department, U. S. Army, Commanding.

Proposals for supplies. Sealed proposals for all needed supplies for the Pennsylvania State Lunatic Hospital, Harrisburg, Pa., for the year ending May 31, 1893, will be received by the Executive Committee of the Board of Trustees until 12 M., May 6, 1892, for the three months beginning June 1, 1892; until 12 M., August 6, 1892, for the three months beginning September 1, 1892; until 12 M., November 6 1892, for the three months beginning December 1 1892, and also until 12 M., February 6, 1893, for the three months beginning March 1, 1893. Blank forms for proposals will be furnished those desiring to bid, on application to H. L. Orth, M. D., Superintendent.

Proposals will be received by the Township Committee of Chester township, Burlington county, New Jersey, for grading and macadamizing about ten miles of road in said township. The Engineer and Committee will be at the Town Hall, Moorestown, N. J., on May 11th and 12th next, when and where the plans, specifications and maps can be seen, after that at the office of township clerk in said town, and the roads gone over. All bids must be in by May 14th, next at 11 o'clock in the forenoon. The Committee reserves the right to reject any and all bids. All bidders required to make a deposit of \$100 as a guarantee with their bid. The successful bidder to give approved security. Moorestown, N. J., April 25th, 1892. John S. Rogers, Clerk, Edward W. Perkins, Samuel S. Dager, John B. Warriek Township Committee.

### Miscellaneous.

At Henderson, Mason Co., W. Va., R. F. Morris and others will erect a furniture factory.

At Durham, Durham Co., N. C., an ice factory will be erected by Louis Arnold, of Louisville, Ky.

At Roanoke, Va., the Virginia Brewery Co. will rebuild its brewery, recently destroyed by fire.

At Woodville, Sandusky Co., Ohio, the Woodville Seminary will be rebuilt at a cost of about \$20,000.

At Nashville, Berrien Co., Ga., the managers of the Woman's Mission Home will erect a new building.

At Huntsville, Madison Co., Ala., the Huntsville Wire Screen Co., recently organized, will erect a factory.

At Fort Smith, Sebastian Co., Ark., the St Louis and San Francisco Railroad Co. will erect machine shops.

At Memphis, Tenn., the Memphis Barrel and Heading Co. will rebuild its factory, recently destroyed by fire.

At Brooklyn, Cuyahaga Co., O., several new sewers will be laid. C. N. Collins, city clerk, can give particulars.

At Fulton, Fulton Co., Ky., the mayor can give particulars as to the construction of water works at that place.

At Radford, Montgomery Co., Va., Messrs. Mount & Johnson have the contract to erect a school building, to cost \$25,000.

At Jamaica Plains, Suffolk Co., Mass., a handsome school building will be erected at an early date. The estimated cost is \$90,000.

At Louisville, Ky., John G. Roche has purchased a site upon which he will erect a whisky distillery of 1000 gallons per day capacity.

At Savannah, Ga., Architect Henry Urban has prepared plans for a new banking house to be erected by the Provident Savings Life Association.

At Pawtucket, Providence Co., R. I., arrangements are being made to enlarge the city hall. It is proposed to expend about \$60,000 for the purpose.

At Melrose, Middlesex Co., Mass., at a town meeting held a short time since, it was decided to erect a school house on the West Side at a cost of about \$16,000.

At Port Gibson, Claiborne Co., Miss., it is reported that a water works system will be constructed. M. S. Hosie, of Arkansas City, Kansas, can give particulars.

At Hinton, Summers Co., W. Va., Alexander Parker and others have incorporated the Hinton Electric Light and Power Co., with a capital of \$50,000, to erect an electric plant.

### Lot Buyers.

B. T. Rorer, of Glenside, Pa., lot at same place for \$2500.

William Milne, Washington, Pa., lot at same place \$2500.

Joseph C. Thomas has purchased two building lots on Chestnut Street, Spring City, Pa.

Mrs. Amanda Schaner and Mary P. Behrens have each purchased building lots on Grand Street York, Pa.

## A Few Quiet Words with House Builders and Owners.

If the kitchen of your house is small, you need to economize room. You can do this by using a range with elevated boiler, such as the

### "FIDELITY."

It will reduce the cost of plumbing also. We make them with seven inch or eight inch boiler holes, ovens on right or left of fire, with or without hot closets, and also to heat an upper room. Splendid bakers. Hot water in abundance. The latest and best of their class.

FIDELITY HOT AIR RANGE WITH  
HORIZONTAL BOILER.

Excelsior Double Oven Range.

If the kitchen is roomy and large, cooking capacity is sought. You will want a brick-set range with a vertical circulating boiler, set in the usual way. The

### "EXCELSIOR RANGES"

are acknowledged all over Philadelphia, in which city and vicinity some 75,000 have been sold as the standard brick-set range. They are furnished with ventilated ovens, oven-door pedals, rocking grates, and all modern improvements. Made in seven and eight inch sizes; single, double and hot-air ranges. Send for descriptive pamphlet, entitled "PERFECT COOKING."

MANUFACTURED BY

**ISAAC A. SHEPPARD & CO.,**

N. E. COR. FOURTH STREET AND MONTGOMERY AVENUE, PHILADELPHIA, PA.

And for Sale by all Responsible Dealers.

PARAGON FURNACE WITH  
EQUALIZED DRAFT.

Whether large or small, your house will require a heating apparatus of some kind. It will pay you to put in a *really good* hot air furnace. The

### "PARAGON"

has no superior. Perfectly self-cleaning, with fewest joints, free from dust and gas, largest radiating surface, heavy steel plate, drum casings, easy on fuel, and of superior durability, it will always give satisfaction. A descriptive circular will be mailed upon application.

# DID YOU EVER EAT AT BOOTHBY'S Great Chestnut St. Restaurant?

If you have not, you can form no proper idea of its size, beauty and facilities. Its corps of superintendents, chefs and assistants, waiters and supernumeraries number over 100. Its seating capacity is over 1300, and every guest is made comfortable, besides receiving prompt and careful attention. Its menu embraces everything in season. The cooking represents the best efforts of prominent chefs, whose skill has given the place a national reputation. The prices are moderate and the service is unexcelled. OYSTERS ARE THE GREAT SPECIALTY. The Ladies' Restaurants are retired, light and elegant. For a social meal or a light lunch, you are recommended to

**BOOTHBY'S, 1231, 1233 AND 1235 CHESTNUT STREET.**

OYSTERS WHOLESALE, 307 SOUTH FRONT STREET.

Twenty-third section.—New water closets and drainage, Henry School; paving yards, Wilmot School; new fence, White Hall School; new fence and new privy, Herbert School; new privy, Decatur School. Twenty-fourth section.—Flooring loft, McMichael School; Twentieth-seventh section.—Heating and ventilating, Thirty-sixth and Chestnut streets. Thirty-second section.—Flooring loft, Singerly School. Said work to be done in accordance with the plans and specifications of the Architect and Supervisor of School Buildings, to be seen at the office of the Board, between the hours of 2 and 4 P. M. All bids must be upon blanks and enclosed in envelopes for this purpose. No bid of \$500 or over will be considered unless accompanied by a certificate from the City Solicitor that the provisions of ordinances approved May 25, 1860, have been complied with. The committee reserve the right to reject any or all bids, and also to require security for the faithful performance of any work as they may deem necessary. By order of the Committee on Property. H. W. Halliwell, Sec.

# ADAMANT WALL PLASTER,

The Par Excellence of Plastering Materials.

### SOME OF ITS ADVANTAGES:

- |                              |                             |                                      |
|------------------------------|-----------------------------|--------------------------------------|
| 1. Always Ready.             | 5. Very Adhesive.           | 9. Keeps out Dampness.               |
| 2. Easily Applied.           | 6. Saves Saturating Lumber. | 10. Does Not Absorb Gases or Disease |
| 3. Hard as its Name Implies. | 7. Saves Time.              | 11. Vermin Proof. [Germs.]           |
| 4. Elastic.                  | 8. Fire Proof.              | 12. No Pitting or Cracking.          |

No More Falling Ceilings or Battered Walls. Medal of Excellence, American Institute of New York.

### OPINIONS OF THE PRESS.

[From the Northwestern Architect.]

MINNEAPOLIS, MINN.

"As is compatible with this progressive period, even wall plaster has succumbed to inventive genius, and 'the day is nearly done' when our handsomely decorated walls and ceilings shall be ruined by reason of the utter unreliability of the old style mortar. To meet this demand for a non-porous plaster, Adamant has appeared on the market, and is now being manufactured in nearly every State in the Union."

[From the Scientific American.]

"Some of the advantages Adamant possesses above the other plaster is the extreme hardness of the wall. It will neither crack nor crumble. It is a strong support to a building. It does not swell timbers by an absorption of the moisture, as the material itself absorbs most of it. It dries so quickly after it is applied to the wall, that in a few hours frost will have no effect on it. We are convinced that this Adamant is destined to revolutionize the business of house plastering."

[From the Baltimore Commercial.]

"Adamant makes a wall as hard as marble, at a slight cost."

[From the Leader and Herald.]

CLEVELAND, O., March 22, 1889.

"The problem has been to provide a substitute that would not only produce a perfect wall, but be comparatively cheap and easily applied as well. Repeated tests, under the most exacting conditions, clearly prove that such a happy combination has at last been secured in the plastering material called 'Adamant,' now being so extensively introduced in this city."

[From the Builder, Decorator and Wood-Worker.]

PHILADELPHIA, PA.

"Nothing in house building has so long withstood the 'march of improvement,' notwithstanding it has failed to give a substantial wall, while many houses become defaced and old in a few months on account of broken walls and ceilings. 'Adamant' obviates all this, and is the coming plaster."

[From the New York Commercial News.]

"There is not the least doubt about 'Adamant' wall plaster will last as long as the building upon which it is used."

PHILADELPHIA, WED'Y, MAY 11, 1892.

**Architect Notes.**

At Wilmington, Del., the plans of E. L. Rice for the Delaware Building for the Columbian Exposition have been approved, and bids will be asked for in a short time.

Geo. T. Pearson, architect, 427 Walnut Street, has prepared plans for the addition to the Merciful Saviour Hospital, West Philadelphia, work upon which will be started at an early date.

Estimates are being made on plans made by John F. Stuckert, architect, 524 Walnut Street, for alterations to the property at southwest corner of Sixth and Fairmount Avenue, so as to adapt it for uses as a sub post-office.

Jno. F. Stuckert, architect, 524 Walnut Street, has prepared plans for a store to be erected at No. 11 N. Third Street, to be four stories high, of stone, brick and iron construction; interior will have elevator lift and all modern conveniences.

Amos J. Boyden, architect, 413 Walnut Street, has completed all plans for a fine residence for Clarence L. Scott, at Swarthmore, Pa. It will be of stone and timber work, three stories high, interior to be fitted with best of modern improvements.

Samuel Hall Day, architect, Drexel Building, has made plans for twenty frame cottages to be erected by the trustees of the Baron de Hirsch fund at Woodbine, N. J. The plans are upon boards for estimates. Structures to be of frame, two stories high, with good modern conveniences.

Lindley Johnson, architect, Girard Building, has placed on boards of contractors for estimate the operation of cottage houses for the Chevy Chase Land Co., Washington, D. C. These are quite minute in detail and furnish the home with every comfort and convenience. They have been fully noted in previous issues of this journal.

Thos. P. Lonsdale, architect, Manhattan Life Building, Fourth and Walnut Streets, has completed plans for a chapel and Sunday school building, to be erected at North and Carlisle Streets. The structure will be of Avondale and Indiana stone front, side walls of brick, slate roof and interior to

be nicely furnished with church fittings. Plans on boards for estimates.

E. F. Durang, architect, southwest corner Twelfth and Chestnut Streets, has completed plans for an addition to the hospital and home of the Little Sisters of the Poor at Eighteenth and Jefferson Streets. The structure will be used as a chapel, to be of brick and stone, two stories high, 36 x 48 feet. It will be erected under the supervision of the architect.

Frank Townsend, architect, of Frankford, has made plans for the hotel to be erected by Noble McClintock, on the old Cheatham estate, at Frankford. The structure will be three stories high, brick, with stone trimmings, a mansard roof slated will be placed on top, twenty-seven rooms will be fitted for guests, and the whole building will be fitted with good modern conveniences; work to start at once.

W. Frisbey Smith, architect, northeast corner Broad and Arch Streets, has made designs for alteration and addition to houses of Mr. Spence and Mr. Weeke, northeast corner of Belmont and Mantua Avenues. These consist of an additional story, with mansard roof, slate, terra cotta and copper work. Ornamental windows will be introduced; interior work will include iron staircase and modern improvements. The work is open for estimate at office of architect.

J. N. Campbell, 708 Penn Avenue, Pittsburg, Pa., has finished the plans for a handsome Methodist Church to be erected at Mansfield, Pa. It will be of brick with stone trimmings, slate roof and a tower 160 feet high. The seating capacity will be about 500 in the auditorium, increased to 1000 by Sunday school and class rooms. The interior will be handsomely furnished and modern improvements introduced. The contract has been let to Taylor & Crawford, of Cannonsburg, Pa.

Charles Balderston, architect, 314-20 Walnut Street, has completed plans for a handsome house for H. McInnes, Esq., on the northwest corner of DeKalb and Chestnut Streets, Norristown, Pa. Structure to be of dark blue marble stone, three stories high, shingle roof; interior will be in hard wood, hot water heat, electric bells and lighting and all modern conveniences. The plans are on boards for estimates. The same architect has made plans for rebuilding the front of the Quaker City Bank, on Chestnut Street, Philadelphia, and they contemplate a handsome four-story structure of dark polished granite in first story, and the remainder of the front will be in copper work and buff brick at sides, the whole being well lighted by plate glass and quite ornamental.

Minerva Parker, architect, 14 South Broad Street, has completed all detailed plans for the New Century Club house at Wilmington, Del., and will place them for estimates at once. These contemplate a structure three-stories high, of vitrified brick and stucco work, colonial style of architecture, also fitted for steam heat, electric bells and light, speaking tubes, dumb waiters, assembly room upon first floor, also offices and committee room. A fully equipped stage will be placed in assembly room, which is 25 x 43 feet. Second floor will contain

a reception room and banquet hall, while the third will be fitted for dressing and toilet rooms, etc. The entire building will have all modern conveniences. The same architect is busy upon other suburban work and minor operations.

Edwin F. Bertolette, architect, 1218 Filbert Street, has completed plans for a large three-story store extension to main building dry goods store of I. H. Brendingler, at Norristown, Pa. The first story front will be of iron columns and leaded plate glass, the second and third will be of buff brick, with copper cornice; large skylights will be placed, best of plumbing on interior and all modern conveniences. The structure will be erected on DeKalb Street. Also plans by same architect have been prepared for a hospital, to be erected at Pottstown, Pa., by the Association having the matter in charge. The administration building will be three stories high and the wards proper but two, all to be of buff brick, with stone trimmings, slate roof, copper trimmings to same at terminals. The interior will be sub-divided into private wards and endowed rooms and beds, as well as public wards. The building will be well lighted, ventilated and heated under the most approved system, an elevator for hoisting sick and infirm will be introduced, and in the culinary department, which will be one story high, the best of modern arrangements will be placed. The entire house will be a model in its construction, the plans having taken precedence in competition for economy of construction, general artistic merit, as well as utility of space. No contracts have been let. Also plans for a school-house at Royersford, Pa., to be three stories high, base to be of stone, remainder of brick, with slate roof, heating and ventilating by the Smead-Wills system. Also, plans for rebuilding a large country hotel at Collegeville, Pa., for J. S. Gross, Esq. These contemplate a new parlor, dining and other rooms on first floor, whilst second and third will be fitted in dormitories well furnished. The structure will have a slate roof and throughout will have all modern conveniences.

**Building and Real Estate Notes.**

Deane & Co. have been awarded the contract by the Stockton Water Co., of Cramer Hill, N. J., for pumps and engine.

Judge Thayer is making arrangements for the erection of a Summer residence at Indian King, in East Whiteland, near West Chester, Pa.

E. De V. Morrell has asked permission to construct a pier at Torresdale on the Delaware River for purposes of the pleasure line of steamers which will ply between this city and local points.

The Knickerbocker Ice Co., is about to begin the erection of a large stable on Tucker Street, south of the Pennsylvania R. R., to be 20 x 102 feet, and fitted with all conveniences for care of horses.

Edward Molony, contractor, 2855 Kensington Avenue, has received the contract to erect the large four-story Roman Catholic School for the Church of the Sacred Heart, at Third and Reed Streets. The structure was fully described in architectural notes of this journal several weeks ago.

The Traction Co. will erect an office building at 817 Walnut Street, upon the site of one of the properties destroyed during the recent fire. This will be upon the front of the lot occupied by the power house.

John Devlin, carpenter, 518 Barnwell Street, will at once erect twelve two-story houses on north side of Reed Street, east of Twenty-third, to be of press brick, stone trimmings and best interior work and accommodations.

James Lilly, builder, will start at once an operation of sixteen two-story houses on Seventh and Eighth Streets, south of Jackson Street. These will be about the same class of dwellings erected by Mr. Lilly in that same locality.

R. C. Wimmals and Bro., carpenters, 4640 Trenton Avenue, will erect at once a factory, 21 x 50 feet, three stories high, on north side of Bristol Street, west of Germantown Avenue. Material to be of brick, stone, iron and fitted with steam power.

John Vesey, builder, Twelfth and Norris Streets, will at once begin the erection of twenty-two two-story houses on Adeline Street, near Greenway Avenue. All to be of press brick fronts, with stone trimmings and good interior work and improvements.

Jno. B. Reilly & Co., 1227 Filbert Street, have just secured a contract to erect a stone bridge across the Raritan River, at New Brunswick, N. J. The cost of construction will be about \$30,000, and will be one of the finest structures in the State.

The Roman Catholic Church of St. James, in West Philadelphia, will, at an early day, begin the construction of a new church, which will cost about \$90,000. The location is Thirty-eighth and Chestnut Streets. Rev. P. J. Barney is in charge at parochial house, 3722 Chestnut Street.

F. H. Rhoads, builder, 232 Chestnut Street, will erect quite a large operation of two and three-story houses, numbering one hundred and twenty-four in number, on east and west sides of Eighteenth and Cleveland Streets, north of York. These will be of the usual pattern of that kind of domiciles.

Benner & Opdyke, engineers and contractors, 226 S. Fourth Street, have secured a contract to erect the new West Shore Terminal Station, foot of Franklin Street, New York City. It will be two stories high and entirely of iron, with tower, finials and pinnacles of the same material. The front will be ornamental in sheet iron.

Estimates are being made for the construction of the factory building of N. & G. Taylor Co., at Swanson and Tasker Streets. These buildings have been fully noted in a previous issue of this journal. It is understood the roof will be covered by American tin, manufactured by this firm at their present plant on Lehigh Avenue.

The Committee on Property, at a meeting held Monday afternoon, opened bids for the proposed new Normal School, but as all the bids exceeded the appropriation, further action was postponed in order to ascertain if Council would be willing to increase the appropriation. Johnson & Byrnes were the lowest bidders at \$317,000, followed by P. H. Somerset at \$328,137.

R. C. Winnals & Bro., 4640 Trenton Avenue, have started work on the mills at Wayne Junction, which was recently destroyed by fire, and owned by Mr. Bradford. The main structure was 50 x 110 feet, three stories high, and will now have an additional story. It will be fitted for steam power and heat and best modern conveniences.

A large six-story office building will be erected upon what is known as the Pugh estate, Nos. 421-23-25-27 Arch Street. The present dwelling houses will be torn down, and in their stead the new structure will be placed. The plans are being made by a New York architect and contemplate a front of stone, iron and terra cotta

work, whilst the interior will be fitted with steam heat, elevators, electric work and every modern convenience.

The Partridge estate, proprietors of the famous eating stand in the Fifth Street Market, have purchased a property on the south side of Market Street, west of Fourth, near the Bell Telephone Building, and will adapt the first floor to the purposes of a restaurant, in lieu of the stand about to be vacated by reason of the Bourse purchase. No action has been taken in regard to a new market house to supply the stall renters of the old market noted above.

W. S. P. Shields, builder and real estate operator, will during the spring season erect from sixty to eighty new houses, two and three stories high, on Fiftieth Street, Kingsessing and Greenway Avenues, near Forty-ninth Street Station. These will be quite ornamental in front and fitted with all modern conveniences on the interiors. Mr. Shields has just contracted to lay the entire conduit system for the Bell Telephone Co., and will at once begin the work. This comprehends the work within the limits of the city proper.

Allen B. Rorke, contractor, Drexel Building, has been awarded the contract to erect the "Times Annex" building, which will replace the one destroyed on the 27th of April. It has been concluded by the proprietors to erect a five-story structure, instead of eight, as before, and this will be upon the former lines and plans of the burned structure. It will be erected of the same material, with perhaps less wood work, fitted with elevators, electric work, steam heat and power, plate glass, speaking tubes and every modern convenience.

The Finance Committee of Councils met on the 6th inst and considered a request from Park Commissioner Charles W. Henry for an appropriation of \$5000. It is to provide a permanent wing to Memorial Hall, for the exhibition of the Baird model of the Centennial Building. In addition there were two other requests from Mr. Henry for appropriations of \$10,000, for dredging Fairmount dam and placing the dirt taken from the river behind the new river wall, at the Falls of Schuylkill, and the other for \$2783, to complete the repairs to the roof of Memorial Hall. The ordinance for the appropriation for the new wing was reported favorably; the other two were referred. An ordinance appropriating \$35,000 for a new police patrol and fire station at War-nock and Berks Streets was also recommended.

### Through Pennsylvania.

 When any of the following are not post offices they will be so designated.

—At Lebanon, Lebanon Co., the Lebanon Stove Works will be enlarged.

—At Parkersburg, Chester Co., Enoch P. Moore will erect a brick dwelling on Highland Avenue.

—At Canton, Bradford Co., a building to cost \$2500 will be erected for the use of the fire department.

—At Dunbar, Fayette Co., work has been begun on the large store building to be erected for Husted & Seamans.

—At Kennett Square, Chester Co., the State Street Friends have sold fifty feet of ground to the Martin Academy.

—At Morrisville, Bucks Co., the Mayor can give particulars as to the new appropriation for the construction of a water works.

—The jury of view for a bridge over Stone Creek, between Folsom and Moore's, has decided to report in favor of its construction.

—At Spring City, Chester Co., William West will erect a two-story brick store 24x55 on Main street. Work will begin the present week.

—At Broomall, Delaware Co., plans are being prepared for a large building on the hospital grounds near the residence of William Rhoads.

—At Lancaster, Lancaster Co., the Managers of the Fulton Harvest Home Association, have decided to erect a building, 30 x 60, with a 30 feet ell.

—At Norristown, Montgomery Co., Peter V. Hoy has purchased the Montgomery House. The price paid was \$43,000. A number of improvements will be made.

—At Ogontz, Montgomery Co., the Shoemaker property has been purchased by P. A. B. Widener, who will have a handsome residence erected on the site for his son.

—At North Wales, Montgomery Co., Franklin Shearer will erect a brick dwelling on West Montgomery Avenue. The contract has been awarded to David Baker.

—At Chambersburg, Franklin Co., the M. E. Church congregation has appointed a committee to select a new site, and not erect the new church on the site of the present structure.

—At Cochranville, Chester Co., ground will be broken in a few days for the erection of the Presbyterian Chapel. Dr. H. F. C. Heagy, R. A. Hamill and F. S. Brown have the matter in charge.

—At Lansdowne, Delaware Co., four eleven-room twin dwellings, and two single dwellings have been staked out by C. B. Prettyman, of Philadelphia. Homer C. Stewart will erect two dwellings in Lansdowne Park.

—At Reading, Berks Co., the Provident Building and Loan Association has taken out permit for the erection of ten brick dwellings. Thompson & Bro. has taken permit for the erection of two two-story brick dwellings.

—At Harrisburg the Lewistown and Bellefonte Electric Railway Company, with a capital stock of \$400,000 has been issued a charter. W. P. Sterenson, of McVeytown, is the president. The road will run from Reedsville to Bellefonte.

—At Connellsville, Fayette Co., work of cleaning away the ruins of the Catholic Church, which was destroyed by fire, has been commenced, and work on the new structure will be commenced as soon as possible. Father O'Connell is pastor.

—At Johnstown, Cambria Co., the contract for the erection of a residence, for the Sisters of St. Joseph, connected with St. John's Church, has been awarded to Christ Hornick for about \$9000; work will be begun on the structure at once.

—At Kennett Square, Chester Co., Rev. George Alcom, pastor of the Methodist church, has awarded the contract to A. E. Stiner for the erection of a dwelling at Cypress and Willow Streets. It will be of brick and handsomely finished on the interior.

—At Point Pleasant Bucks Co., the stockholders of the Point Pleasant Bridge Company have decided to rebuild the bridge recently destroyed by fire, and bids will be received until May 17th for an iron bridge. George W. Walter is one of the directors.

—At Lansdale, Montgomery Co., there is a movement on foot to organize a Mechanics' and Agricultural Society. The White farm has been mentioned as a suitable site for the grounds. Henry J. Smith is interested in the movement and can give information.

—At Langhorne, Bucks Co., Edward C. Neeld has been awarded the contract for the erection of the handsome dwelling to be erected for Mrs. Georgiana Watson, at Station and Gillam Avenues. The dwelling will be of stone, with fine interior finish and modern improvements.

—At Downingtown, Chester Co., a dwelling will be erected by Dr. L. T. Bremmerman from plans prepared by C. A. Harkness, of Washington, D. C. It will be of press brick and serpentine stone slate roof, hard wood interior finish, electric bells and lights. The estimated cost is \$5,000.

—At Millersville, Lancaster Co., at a recent meeting of the Board of Trustees of Millersville

State Normal School, it was decided to erect a new model school, and also to enlarge the present school building so as to accommodate nearly one hundred more pupils. Geo. K. Reed, H. M. Myers, Hon. Amos H. Mylin are Directors.

—At Chester, Delaware Co., William Provost, contractor, will begin work about July 1 on two stone buildings on Third Street.—The Wetherell tract on Twenty-fourth Street has been purchased by a syndicate, and will be cut up into building lots for improvements.—The Episcopal congregation contemplate the erection of a new church in the Second Ward. A petition has been presented to the Bishop pledging the rector's salary for a year.—A \$20,000 wharf is to be erected for shipping oil.

—At Coatesville, Chester Co., the Y. M. C. A. will erect a building for the purposes of the organization. The estimated cost of the structure is \$25,000. The first floor will be fitted up for stores, and on the second floor will be a large gymnasium and swimming pool, while the third floor will be used for the club rooms. The President of the organization is Charles L. Huston, and the Secretary Wm. H. Ridgway.—An effort is being made to establish a hospital. Rev. George Fields, rector of the Episcopal Church, can give information.

—At McKeesport, Allegheny Co., it is probable that a large business block will be erected at Fifth Avenue and Market Streets, by B. B. Coursin, at an estimated cost of \$60,000. It will be five or six stories high, and the ground floor will be fitted up as stores, while the other stories will be utilized as flats, containing modern improvements and handsomely finished.—Edward Manley, the railroad contractor will erect a building to be fitted up for stores and apartments for resident purposes, work will begin in a short time. The foundation for the Third M. E. Church building, is about ready for the stone work.

—At Pottstown, Montgomery Co., the Trustees of the Norristown Hospital have accepted the plans drawn by Edwin F. Bertollette, of 1218 Filbert Street, Philadelphia, and the plans will be open for estimates in a short time. They call for a structure of buff brick, with trimmings of stone, mansard roof, handsome interior finish, modern conveniences and improvements. The estimated cost is about \$30,000.—At a meeting of the stockholders of the Pottstown Market Co. it was decided to create an indebtedness for the purpose of making a number of improvements to the Opera House. It will be remodeled and enlarged and otherwise improved.

—At West Chester, Chester Co., Roland Smedley will erect six dwellings on Washington, between New and Darlington Streets.—The St. Agnes T. A. B. Society is making arrangements for the erection of a hall.—At a meeting of the committee on contributions in charge of the Home for Aged Friends, it was determined to erect a building suitable for the purposes of the Home. The High Street meeting of West Chester has leased the committee a lot for 999 years, upon which the new building will be erected. Lydia H. Hall, of Swarthmore, is President of the organization just chartered for the purpose; Emily Jackson, of West Chester, Vice President; Mary McAllister, of Darby, Secretary, and Mary Darlington, of West Chester, Treasurer.—Thomas C. Hogue will erect a number of small dwellings.—M. & T. E. Farrell have broken ground for six dwellings on Washington Street.

—At Pittsburg the congregation of the Reformed Presbyterian Church will erect a new edifice, a site for which has not yet been selected. The present location is in Oak Alley. The new structure will be of brick and stone, handsomely finished on the interior, modern improvements, etc. The estimated cost is about \$50,000.—The congregation of the Sixth United Presbyterian Church will erect a handsome edifice to cost over \$100,000.—The Pittsburg Tennis Club has purchased a property upon which a club house will

be erected.—Orth Bros. have prepared plans for a building for the Keystone Bicycle Club. The cost will be about \$8000.—The Squirrel Hill syndicate will begin the erection of about sixty dwellings at once. The cost will range from \$2500 to \$5000 each.—Reese & Evans have broken ground for the erection of a five-story apartment house at Pride and Viceroy streets.—George Schmidt, Esq., will erect a brick dwelling on Centre Avenue, east end, at a cost of about \$15,000. The plans have been prepared by J. E. Obitz. The same architect has prepared plans for six brick dwellings to be erected on Washington Street by Mr. Charles Manning. Contract not let.

#### Through New Jersey.

At Absecon, Atlantic Co., Mr. Parker Tilton has purchased a lot, and will erect a handsome cottage.

At Belleville, Essex Co., a new system of water works will be constructed. New fire hose will be purchased.

At Fishing Creek, Cape May Co., the Highland Co. is considering estimates for the erection of stables and other outbuildings in connection with the new hotel.

At Montclair, Essex Co., A. U. Andrus will erect a frame dwelling on Cliff Side Avenue, to cost about \$7000. The plans have been prepared by Charles D. Marvin.

At Camden, the State Military Board has recommended to the Board of Freeholders the purchase of a site on Haddon Avenue, near Mickle Street, upon which to erect the proposed armory building.

At Jersey City F. M. Myers will erect a dwelling to cost about \$12,000. It will be of press brick, with stone trimmings, handsome interior finish, modern conveniences, etc. The plans have been prepared by J. G. Meyers, of Washington, D. C.

At Newark, Charles Pulfen, Kilian Schuyer, E. M. Halsey, Otto Rust, J. J. Mooney, C. H. Davis, Mrs. M. Trainor, Charles Leinhard, Martin Herrter and Peter P. Griffin will erect dwellings.—The factory of Pomeroy Bros. was damaged to the extent of \$10,000 a few days since.

At Elizabethport a site of three acres has been purchased upon which a large plant will be erected for tinning steel plates by the firm of E. Morewood & Co., the largest tin plate makers in Wales. The plans will be prepared at once and the work started at an early day. John H. Rogers is the manager of the company and has stated, it is said, that the firm will erect a plant in the West also, which will be used for the manufacture of steel.

At Belmar, Monmouth Co., a handsome town hall will be erected. The contract has been awarded to D. Adams & Son, of Belmar, by ex-Mayor James S. Huyler, the owner. The location is at F Street and Tenth Avenue. The structure will have a frontage of 70 feet and a depth of 32 feet. The first floor will be fitted up as three stores. The second floor will be a hall for public purposes with a seating capacity of about five hundred. The third floor will be used for lodge and other similar purposes. The building will be lighted with gas and heated by steam and will be handsomely finished throughout.

#### Through Delaware.

At Hockessin, New Castle Co., M. B. Kent and others have made application for authority to establish the National Bank of Hockessin.

At Dover, Kent Co., it is reported that a new station will be erected by the Delaware Railroad Co., and that the company's offices will be moved to that place.

At Wilmington a tract of land near the city has been inspected by Joseph T. McCaddon, part

owner and manager of Adam Forepaugh's Show, with a view of purchasing it as a site for winter quarters.—Four three-story brick dwellings will be erected on Eighth Street, between Franklin and Broome Streets, from plans prepared by J. R. D. Seeds & Son.—The Levy Court has appointed Messrs. Jolls, Eliason, Clark, Grubb, Hutchinson, Hickman and Bickingham to see about procuring estimates as to the cost of a bridge across the Brandywine.—Messrs. Jolls, Clark and Eliason were appointed to purchase a safe at a meeting of the Executive Committee of the Park Commissioners. The committee reported favorably on constructing a bridge forty feet wide over Rattlesnake Run in Brandywine Park.—The Wilmington Rod and Gun Club is looking for a site upon which to erect a club house.—Seven dwellings will be erected at Thirteenth and King Streets by Thomas H. Melvin.

#### Through Maryland.

At Cumberland, Allegheny Co., the Humbird Land Co. has contracted to erect a large steel and tin plate plant, to be in operation in thirty days. A large glass factory will also be erected.

At Bethesda Park, Montgomery Co., Alexander Britton will erect a two-story cottage of frame from plans prepared by Architect Victor Mindeff, of Washington, D. C. The contract has been let to W. W. Winfree.

At Woodside Park, Montgomery Co., a two-story frame dwelling will be erected by B. F. Leighton at a cost of about \$1,000 from plans drawn by Julius Germuller, of Washington, D. C. The roof will be of slate, interior finish of white pine, cabinet mantels, electric bells, etc.

At Crisfield, Somerset Co., the Odd Fellows will erect a hall, 50 x 90 feet, and three stories high. It will be of brick and stone, handsomely finished on the interior, heated by steam, etc. The first floor will be fitted up as stores; the second will be utilized as an opera house, and the third floor will be used for lodge purposes.

At Baltimore J. Appleton Wilson, architect, No. 5 East Lexington Street, has prepared plans for six dwellings to be erected on the north side of Biddle Street, between Maryland Avenue and Cathedral Street. They will each be four stories high, with basement, the steps of which will be white granite. The first story will be of Ohio, Amherst sand stone, while the two stories above will be of light brown brick, trimmed with buff sand stone. The fourth story will be of tile, with galvanized iron windows. Fireplaces will be constructed in every room of each house. The cost of each building will be about \$10,000. Builder George H. Blake has the plans.—Mr. Hampson, a contractor and builder, will erect a row of dwellings on Madison Avenue, north of North Avenue. They will be of light-colored brick, with slate or sandstone trimmings, and finished throughout in hard wood and contain all modern improvements. David M. Newbold is the owner.—Building permits have been issued to W. Hoffacker to erect ten two-story brick dwellings; also to George Utterbaugh to erect eight two-story brick dwellings and eight three-story frame cottages; also to E. B. Hunting to erect two three-story brick dwellings.—The Mayor has signed the following resolutions: To have granite flags substituted for the iron gutter-plates at the intersection of Cathedral and Centre Streets, at a cost of \$3000. Authorizing the A. Booth Packing Co. to rebuild their bulkhead at the foot of Lancaster Street. Granting permission to G. G. Tyler to build and extend the bulkhead foot of Boston Street; also, to place inlets on Ann, Barnes and other streets, at a cost of \$7000.

## PHILADELPHIA BOURSE.

AUTHORIZED CAPITAL, \$1,000,000.

The subscription books are now open for the remaining \$200,000 of unsubscribed capital, and the privilege of becoming stockholders and members is offered to all men doing business in or with Philadelphia.

Shares are \$50 each. The minimum subscription received is for four shares.

Subscribers to four shares or more will be entitled to all the rights and privileges of membership.

There will be no annual dues or assessments.

The offices in the Bourse will be very desirable and are already in demand. The capital invested in this building will pay large returns, and it is expected that stockholders will not only receive great business advantages, but a fair interest on their investment.

SUBSCRIPTION BOOKS ARE OPEN AT THE EXECUTIVE OFFICES.

**Washington, D. C.**

The Episcopalians of Le Droit Park and neighborhood have taken steps to organize a congregation and to erect a church to be called the Church of the Advent. As yet no plans have been made. Information can be had of A. A. Birney.—M. W. Galt, Bro. & Co. will have extensive improvements made to their building, at 1107 Pennsylvania Avenue. These will include a new entrance and front of marble and plate glass, iron stairways, electrical passenger elevator, oak staircase, steam heat, etc. The contract has been let to Emmert & Heisley. The plans were prepared by William J. Palmer.—A great number of improvements will be made by W. J. Newton, who has purchased Square 1029 and subdivided it into building lots, which have been sold for improvements. Mr. Newton has made arrangements for the erection of about forty modern dwellings. V. Hubban will erect fifteen dwellings in the same square, and a number of the streets will be paved with concrete.—At Glen Echo, L. D. F. Jennings will erect a frame cottage from plans made by Victor Mindeleff. The same architect has prepared plans for a frame cottage for Captain James Hitchcock. Also plans for a cottage to be erected at Holmead Manor for D. E. Sharretts.—Arthur Martin will erect a dwelling on R Street from plans prepared by C. E. Burden. It will be of the colonial style of architecture, handsome interior finish, cabinet mantels, electric lights, etc. The estimated cost is about \$5000.—T. A. Harding will erect four three-story dwellings from plans prepared by Victor Mindeleff.—J. G. Meyers has made plans for a dwelling to be erected on Four and a half Street for P. Laterner.—Wyckoff & Cahill will erect ten frame cottages on the tract known as South Takoma.—The Senate has passed the bill appropriating \$50,000 for the erection of a public building at Washington, Pa.

**Real Estate at Auction.**

**Wants.**

J. S. Fullerton, Commissioner, Washington, D. C., proposals until May 24th, for the construction of six wrought-iron towers.

The Secretary of Agriculture at Washington, D. C. Proposals until May 19, for furnishing lumber, paints, oils, glass, and other supplies during the fiscal year beginning July 1, 1892.

A large number of opera chairs will be wanted for the new College of Pharmacy, on Tenth Street, above Cherry, Philadelphia. Howard French, of Samuel H. French & Co., Fourth and Callowhill Streets, Philadelphia, can give information.

Col. William P. Craighill, Charleston, Kanawha, W. Va. Proposals until May 25, for iron work for movable dams on the great Kanawha River, embracing about 495,000 pounds of wrought iron, 38,500 pounds of cast iron, and two manœuvring winches.

The officers of the Point Pleasant, Pa., Delaware Bridge Co. will receive sealed proposals until 12 o'clock noon, on Tuesday, May 17, 1892, for the building of an iron bridge superstructure across the River Delaware, to replace the one recently burned. Also for the repairing and raising of the two abutments and four piers of said bridge. Henry W. Wismer, President. John Clemens, Secretary.

Constructing earthen dikes.—U. S. Engineer Office, 1428 Arch Street, Philadelphia, Pa. Sealed proposals, in duplicate, will be received at this office until 11.30 A. M., Monday, June 6, 1892, and then opened, for constructing earthen dikes at the mouth of the Schuylkill River, Pa. The attention of bidders is invited to the Acts of Congress, approved February 26, 1885, and February 28, 1887, Vol 23, page 332, and Vol 24, page 414, Statutes at Large. For all information apply to C. W. Raymond, Major, Corps of Engineers, U. S. Army.

N. H. Farquhar, Chief Bureau Yards and Docks, Navy Department, Washington, D. C., proposals until July 5th for the construction of one dry dock, 605 feet long, with 30 feet draught of water, with a body of timber and entrance of concrete and masonry, together with pump-house, pumping plant, floating gate, culverts and all other work pertaining thereto, in accordance with plans and specifications, which can be seen at the department or the office of the commanding officer of the Puget Sound Naval Station, at Sidney, State of Washington.

To Iron Manufacturers. Office of U. S., Light-house Engineer, Fifth and Sixth Districts, Baltimore, Md. Proposals will be received at this office until 12 o'clock M., of Tuesday, the 24th day of May 1892, for furnishing the materials and labor of all kinds necessary for the completion and delivery of the metal work of the Pages Rock Light-House, Virginia. Plans, specifications, forms of proposal, and other information may be obtained

on application to this office. The right is reserved to reject any or all bids, and to waive any defects. Eric Bergland, Captain of Engineers, U. S. A., Light-House Engineer.

Proposals for steam power plant. Watervliet Arsenal, West Troy, N. Y., 1892. Sealed proposals, in triplicate, will be received at this Arsenal until 12 o'clock M., on Monday, May 16, 1892, for furnishing a Steam-Power Plant, comprising steam engine, boilers etc., and for the delivery and erection of same in complete running order in the Army Gun Factory at Watervliet Arsenal. The Government reserves the right to reject any or all proposals or parts thereof. Specifications and all other information can be had on application to Lieut. Col. F. H. Parker, Ordnance Department, U. S. Army, Commanding.

Sealed proposals will be received until 2 o'clock P. M., on May 16th, 1892, for furnishing materials and erecting a building for town purposes at Media, also for apparatus for heating the same with steam at low pressure. Plans and specifications for said building may be seen at the office of Walter Smedley, Architect, 435 Chestnut Street, Philadelphia, Pa., and at the Council Chamber, Media, Pa., and bids may be handed to the Architect, or Wm. H. Tricker, Town Clerk, Media, Pa. A bond in the sum of \$2000 to be approved by the Borough Solicitor, must accompany each bid. The Council of the Borough reserves the right to reject any and all bids. George E. Darlington, President of Council.

Proposals for dredging at the U. S. Navy Yard, League Island, Pa.—Bureau of Yards and Docks, Navy Department, Washington, D. C.—Sealed proposals, in duplicate, indorsed. Proposals for Dredging at Navy Yard, League Island, Pa., will be received at this Bureau until 1 o'clock P. M., on Friday, May 20, 1892, and publicly opened immediately thereafter. Specifications and blank forms of proposals will be furnished upon application to the Bureau. Responsible security will be required for the faithful performance of the contract, and the right is reserved to reject any or all proposals not deemed advantageous to the Government, and to waive defects. A bond for the sum of five thousand dollars (\$5000) must accompany bids for the work. N. H. Farquhar, Chief of Bureau.

Sealed proposals will be received by the Committee on Reservoir and Water Supply up to 5 o'clock P. M., Monday, May 16, 1892, for the construction of a 15,000,000 and 20,000,000 gallon reservoir, including gate-house and appurtenances, on the tract of land of V. C. Sweatman, west of Franklin and Marshall College, Lancaster, Pa. Bids to include taking up of old 24-inch main from the old water works to the present reservoirs, and the relaying of the same from the corner of Orange and Nevin to the above mentioned site. Plans and specifications can be seen at the office of A. A. Herr, City Regulator, No. 108 East King Street, Lancaster, Pa., or specifications will be mailed to parties applying for the same, on application to the Clerk. Bids to be addressed to "Committee on Reservoir and Water Supply," Mayor's Office, Lancaster, Pa. Robert Clark, Mayor, Chairman. Attest: C. G. Bassler, Clerk.

Proposals for Lumber, etc., for the Navy Yard, League Island, Pa.—Sealed proposals, indorsed "Proposals for Lumber, etc., for the Navy Yard, League Island, Pa., to be opened May 17, 1892," will be received at the Bureau of Provisions and Clothing, Navy Department, Washington, D. C., until 12 o'clock noon, May 17, 1892, and publicly opened immediately thereafter, to furnish at the Navy Yard, League Island, Pa., a quantity of lumber, cement, sand and stone. The articles must conform to the Navy standard and pass the usual naval inspection. Blank proposals will be furnished upon application to the Commandant of the Navy Yard, the Navy Pay Office, Philadelphia, Pa., or to the Bureau. The attention of manufacturers and dealers is invited. The bids,

## These Ranges and Heaters

Represent the highest possible type of mechanical and scientific construction. For reliability and durability they are positively without a superior, they truly represent the minimum of cost and the maximum of quality.

The small size of the **PROMPT RANGE** is just the thing for Builders of small Houses. It is compact in form and possesses all the advantages and requisites of the larger size. Builders, Owners and Agents having charge of properties should inspect these Ranges and Heaters before ordering.

For sale by all Dealers. They can be seen at the Company's Ware-rooms.

123 N. 2d St., Philadelphia.

17 E. Lombard St., Baltimore, Md.

all other things, being equal, decided by lot. The Department reserves the right to waive defects or to reject any or all bids not deemed advantageous to the Government. Edwin Stewart, Paymaster General, U. S. N.

W. J. Edbrooke, Supervising Architect, Treasury Department, Washington, D. C.—Proposals until May 10 for all the labor and materials to construct a covered bridge over the Post Office working room in the U. S. Court House and Post Office building at New York City. Also, until May 16, proposals for all the labor and materials and fixing in place complete, the alterations and additions to the heating and hoisting apparatus, new boiler house etc., for the U. S. Public Store building No. 1, at Baltimore, Md. Also, until May 17, for all the labor and material required for the approach to U. S. Custom House and Post Office building at New Bedford, Mass. Also until June 3 for all the labor and materials required for the excavation, foundations, cut stone work and brickwork of the basement and area walls, basement columns, first floor iron beams and wood joists, man-hole and sewer connection for the U. S. Post Office Building at Cedar Rapids, Iowa. Also until May 27 for all the labor and material for the erection and completion of the U. S. Custom House at Houlton, Maine.

Proposals for chairs—Philadelphia depot of the Quartermaster's Department, No. 1428 Arch Street, Philadelphia, Pa. Sealed proposals, in triplicate, will be received here until 11 o'clock A. M., Thursday, May, 19, 1892, for furnishing the U. S. Quartermaster's Department with 7000 chairs, 1000 to be delivered on board cars to the Depot Quartermaster in this city and 6000 be delivered on board cars to the Depot Quartermaster at St. Louis, Mo., subject to inspection at points of delivery. Samples of the chairs can be seen, and full information had, upon application to the Depot Quartermasters at Chicago, Ill.; St. Louis, Mo.; New York city and Philadelphia, Pa. The government reserves the right to reject any or all proposals. Preference will be given to articles of domestic production or manufacture, conditions of quality and price (including in the price of foreign productions or manufactures the duty thereon) being equal. For blanks, for proposals, etc., apply at this office. Proposals should be accompanied by the required guarantee in ten per centum of the value of the chairs proposed for. Envelopes containing proposals to be endorsed "Proposals for Chairs" and addressed to the undersigned. C. G. Sawtelle, Deputy Quartermaster-General, U. S. A. Depot Quartermaster.

Sealed proposals, endorsed "Bids for (the items bid for)," and addressed to the undersigned, at the office mentioned, will be received until 12 o'clock noon, on Monday, May 16, 1892, for schedule A—For paving streets. Schedule B—For repaving streets. Schedule C—For grading streets. Schedule D—For macadamizing Baltimore avenue, from Fifty-second street to the County line, as a country road, 16 feet wide in the centre. Schedule E—For stoning and surfacing Nicetown lane, from Twenty-third street, westward. Schedule F—For opening and repairing waterways and ditches in the 27th Ward. Schedule G—For constructing drain across Mill street, near Chew street. Schedule H—For resetting curb, grading, paving and repaving sidewalks and cartways on: Tioga street, from Almond to Gaul streets. Tulip street, from Somerset to Auburn streets. Buckius street, from Kensington to Frankford avenues. Schedule I—For regrading, repaving and resetting of curb on Palethorp street, from Somerset to Cambria streets. Schedule J—To grade, set curb and cinder sidewalk around Olney School, Twenty-second Ward. Schedule K—For resetting curb, grading, repaving sidewalks and cartways, and rebuilding inlet on: Broad street, from Cayuga to Wingohocking streets. Cayuga street, from Fifteenth to Broad streets. Schedule L—For constructing retaining wall and steps on Wendover street. Schedule M—For constructing

retaining wall at the intersection of Hollingee and Thomazine streets, with the connecting railroad. Schedule N—For the removal of houses. Schedule O—For general repairs to bridges. Schedule P—For furnishing summer uniform for bridge watchmen. Bidders must be skilled in the special work bid for. Schedules can be had on application to the Chief of the Bureau of Highways. No bid will be considered unless accompanied by a certificate from the City Solicitor that the provisions of an ordinance requiring proposal bonds when the bids exceed in amount five hundred dollars, approved May 25, 1860 (p. 81 West), have been complied with. The Director reserves to himself the right to reject any or all bids, as he may deem best for the interests of the city. James H. Windrim, Director, Department of Public Works, Bureau of Highways. Office, City Hall, Phila.

Mint of the United States at Philadelphia, Pa. Superintendent's Office.—Sealed proposals endorsed "Proposals for supplies of" (naming the class or articles bid for) will be received by the undersigned until the tenth day of June, 1892, at 12 o'clock noon, for furnishing this Mint with the following named supplies during the fiscal year ending June 30, 1893, namely: Iron, copper, ingot, sheet and bar, brass, brass castings, lead, berthazinc, iron castings, anthracite coal (Highland broken pea and stove), charcoal, American glass, paint brushes, varnish brushes, whitewash brushes, dust and scrubbing brushes, floor sweeps, corn brooms, feather dusters, acids and chemicals, lumber, eight ounce duck, double warp and filling, drygoods, buckskin mitts and gloves, oils and lubricators, namely, cylinder oil, engine oil, red vacuoline, cosmo lubric, or equal to, headlight oil, naphtha, seventy-six degrees, lard oil, lard, tallow, fire brick and fire clay, paving brick, stretch brick, crucibles, hardware files and rasps, tool handles, Yale locks, plumbers' supplies, with price list and discounts; Wrigley's mineral scouring soap (or equal to), detergent soap, Babbitt's soap powder, sapolio, castile soap, oak wood, crash mitts, leather belting, tinware, chamois skins, rubber goods, specie kegs, sweep barrels, (whisky barrels), ice, paints and oils, putty, sandpaper, emery paper, emery cloth, white rags, white cotton waste, bar sand, lime, Portland cement, sponge packing, vulcabeston, corrugated copper gaskets, candles, haulingashes, between 9 o'clock and 10 o'clock A. M. per load direct from ash pit and other necessary articles to be delivered in such quantities as may be required from time to time. Price lists must show discounts. The right is reserved to reject any and all proposals. Proposals must be accompanied by a bond in the sum of \$2,000 with one or more satisfactory sureties, and must be accompanied by samples of the supplies to be furnished. Schedules of the kind and amount of supplies needed, together with bank bond, will be furnished on application. Parties submitting proposals can be present when they are opened, if they so desire. O. C. Bosbyshell, Supt.

## A Few Quiet Words with House Builders and Owners.

If the kitchen of your house is small, you need to economize room. You can do this by using a range with elevated boiler, such as the

### "FIDELITY."

It will reduce the cost of plumbing also. We make them with seven inch or eight inch boiler holes, ovens on right or left of fire, with or without hot closets, and also to heat an upper room. Splendid bakers. Hot water in abundance. The latest and best of their class.

Excelsior Double Oven Range.

If the kitchen is roomy and large, cooking capacity is sought. You will want a brick-set range with a vertical circulating boiler, set in the usual way. The

### "EXCELSIOR RANGES"

are acknowledged all over Philadelphia in which city and vicinity some 75,000 have been sold as the standard brick-set range. They are furnished with ventilated ovens, oven-door pedals, rocking grates, and all modern improvements. Made in seven and eight inch sizes; single, double and hot-air ranges. Send for descriptive pamphlet, entitled "PERFECT COOKING."

MANUFACTURED BY

**ISAAC A. SHEPPARD & CO.,**

N. E. COR. FOURTH STREET AND MONTGOMERY AVENUE, PHILADELPHIA, PA.

And for Sale by all Responsible Dealers.

FIDELITY HOT AIR RANGE WITH HORIZONTAL BOILER.

Whether large or small, your house will require a heating apparatus of some kind. It will pay you to put in a *really good* hot air furnace. The

### "PARAGON"

has no superior. Perfectly self-cleaning, with fewest joints, free from dust and gas, largest radiating surface, heavy steel plate, drum casings, easy on fuel, and of superior durability, it will always give satisfaction. A descriptive circular will be mailed upon application.

PARAGON FURNACE WITH EQUALIZED DRAFT.

# DID YOU EVER EAT AT BOOTHBY'S Great Chestnut St. Restaurant?

If you have not, you can form no proper idea of its size, beauty and facilities. Its corps of superintendents, chefs and assistants, waiters and supernumeraries number over 100. Its seating capacity is over 1300, and every guest is made comfortable, besides receiving prompt and careful attention. Its menu embraces everything in season. The cooking represents the best efforts of prominent chefs, whose skill has given the place a national reputation. The prices are moderate and the service is unexcelled. OYSTERS ARE THE GREAT SPECIALTY. The Ladies' Restaurants are retired, light and elegant. For a social meal or a light lunch, you are recommended to

**BOOTHBY'S, 1231, 1233 AND 1235 CHESTNUT STREET.**

### JUDGMENTS.

#### PHILADELPHIA.

##### ABBREVIATIONS.

Where there are no figures to indicate the amount of the judgment, the damages have not been assessed.

The name first mentioned in each line is that of the judgment debtor.

A star (\*) denotes judgment confessed or bond and warrant conditioned.

The figures 1, 2, 3 and 4 immediately after the name of the plaintiff indicate the number of the Court. The term of the Court is indicated as follows: D, for December Term; M, for March Term; J, for June Term and S for September Term.

# THE PHILADELPHIA Real Estate Record AND BUILDERS' GUIDE.

DEVOTED TO REAL ESTATE, BUILDING, ARCHITECTURAL AND INSURANCE INTERESTS.

[ ENTERED AT THE PHILADELPHIA POST OFFICE AS SECOND CLASS MATTER. ]

VOL. VII.—No. 20.

PHILADELPHIA, WEDNESDAY, MAY 18, 1892.

PRICE 15 CENTS.

## Architect Notes.

On the 10th inst. Messrs. Hazelhurst & Huckle, architects, Drexel Building, placed on boards for estimates the plans made by them for the Odd Fellows' Temple, to be erected at Broad and Cherry Streets. The award of the contract is expected at an early day after the bids have been scheduled.

William B. Tuthill, architect, 52 Broadway, New York City, has made plans for First Baptist Church, Red Bank, N. J. The structure will be one story high, slate roof and have a tower at one end; the material for building to be limestone, speckled Pompeian brick, terra cotta for ornamentation, doorway and window sills to be of cut bluestone; interior of vestibule to be in tile work, also the chancel; seating and upholstering all to be of the best materials and most approved styles, heated by furnace. Estimates are now being made by contractors in this city.

James H. Windrim, Director of Public Works, is understood to be the author of a bill now before Congress with reference to the making of plans for all public buildings of the Government competitive. Mr. Windrim, in his experience as supervising architect of the Treasury Department, found his time almost entirely taken up in considering the general business of the office and supervising the details of constructing buildings in course of erection and projecting new ones. A bill is now before the Committee on the State of the Union looking to this end, and is likely to be adopted by both branches of the legislative bodies at Washington.

G. W. & W. D. Hewitt, architects, Bullitt Building, have completed plans for the Wistar Museum of Anatomy, to be erected upon the grounds of the University property, at Thirty-sixth and Woodland Avenue. The drawings have been placed for estimate by contractors, and contemplate a handsome three-story building, with basement. It will be of buff brick, stone trimmings and terra cotta work, covering an area of 66 x 237 feet. The interior will be made fire-proof and exterior provided with fire escapes. Steam heat, electric work and best of modern conveniences will be introduced.

Thomas P. Lonsdale, architect, Manhattan Life Building, has been instructed to prepare plans for a church for the East Allegheny Avenue Methodist Episcopal Congregation, which will be built on Allegheny Avenue, west from Frankford Road. It will be of the Gothic style of architecture, walls to be of Avondale stone, two stories high, and hard wood finish on interior. The first floor will be fitted for Sunday school and lecture room, the second for auditorium. A gallery will be placed in the rear portion of the main room. Seating capacity will be 1000. The same architect has made plans for a church and Sunday school building for the West York Street M. E. Church. These will be Romanesque, built of

stone and brick and quite ornamental, with best of church trimmings on the interior. It will be located at Seventeenth and York streets.

Samuel Hall Day and Crawford Coates, Jr., architects, associated, Drexel Building, have completed plans for rebuilding the northwest corner of Fourth and South Streets for Jacob Cartun; also to make an addition of a back building. The first floor will be fitted for a saloon, whilst the second and third will be utilized for halls, which may be rented to societies, etc. Also plans have been made by the same architects for alteration and addition to a residence for Dr. W. F. DeKayne, on Spruce Street, near Tenth. The structure will be four stories high. The front will be of Lake Superior red stone, and on first floor will be placed one large French plate window and ornamental doorway, and in addition a smaller window of bevelled leaded glass, also on fourth story will be placed a handsome loggia. The interior will be in hard natural wood with electric work, hot air, best of sanitary plumbing, two bath rooms upon each floor; in fact, throughout every convenience and comfort will be introduced.

Willis G. Hale, architect, 1524 Chestnut Street, has completed plans for a handsome residence for Mrs. J. E. Welton, to be built at No. 2024 Locust Street. The structure will be four stories high and basement. The first story will be of Indiana limestone, Salem quarries, with a handsome main doorway and French plate window; wrought iron fancy grille work for basement windows and doorway. The front wall above the first floor will be of Winslow Pompeian brick, mottled, dark mortar to be used; a handsome bay window of copper, French plate glass, extending from second floor to top which will be capped by an ornamented loggia and handsome railing of metal, galvanized iron work, tin roof, and considerable terra cotta will be used in ornamenting chimneys and finials. The interior will be in hard wood of Arkansas gum, cherry, oak and mahogany, also hard and soft pine, Mosaic work, best of sanitary plumbing and heating and ventilating system; also the culinary department will be of the best; a conservatory and an art gallery will be included in the details, fitted in the most approved manner. The hardware, mantels, facings and hearths, plumbing and steam heating are not in the general contract. Estimates are being made for the work by contractors.

An important move for Philadelphia architects has just been inaugurated by the faculty of the School of Architecture of the University of Pennsylvania. It is to found in this city a "traveling scholarship" in architecture, which will give annually to one promising draughtsman the advantage of a year's travel and study in Europe. The subject has been mooted in the Art and T-Square Clubs and among architects and artists generally, and the School of Architecture has responded, the University trustees consenting, and the plan gives promise of success. It will be necessary to raise \$20,000, most of which is already

subscribed, to yield an annual income of \$1,000. A number of well-known architects in the city are interested. The competition will be open to any draughtsman in the State of Pennsylvania, and to give an idea of the sort of work which will be required of those who compete for the scholarship next spring, it has been decided to hold an exhibition in the Academy of Fine Arts of some of the sketches, plans and water-color drawings made by competitors for the Rotch scholarship and others. This will be opened on Saturday morning next, and will be free to the public upon presentation of card of admission, to be obtained after Thursday of Frank Miles Day & Brother, 925 Chestnut Street; Cope & Stewardson, 320 Walnut Street, and F. Weber & Co., 1125 Chestnut Street.

Edward F. Durang, architect, southwest corner of Twelfth and Chestnut Streets, has completed plans for a new hall to be erected on Lancaster Avenue, Rosemont, which have been accepted by St. Thomas' T. A. B. Society, of that place. The members purchased the lot, which is 104 feet front and 210 feet deep, facing on the avenue, a short time since, for which they paid \$3300. The dimensions of the hall are 90 x 40 feet. It will have two stories, with an 11-feet high basement. It will be of stone and pressed brick, with a slate roof. The first floor, to which there will be three entrances, will contain a meeting room, 37 x 26 feet; billiard room, 31 x 26 feet, and a library and reading room, 37 x 26 feet. On the second floor will be the hall, 84 x 36 feet, including a 13-feet stage and two dressing rooms. There will also be a small gallery. The seating capacity will be about 500. The basement will be nicely fitted up as a gymnasium. On the west side of the hall there is to be a 72-feet tower. The interior will be finished in hard wood. The members have been considering the erection of such a building for some time past, and they intend, they say, to build a hall which will be a credit to themselves and the neighborhood. The cost, it is thought, will be about \$9000. Also plans for a new chapel at the Convent of the Immaculate Heart, Villa Maria, West Chester, Pa. It will be of Avondale stone, and will contain on the interior fine chancel work and sacristies; in size 60 x 92 feet, and the belfry will be surmounted by a stone and bronze spire. The contract has been awarded to Edward Delaney, Twentieth and Montrose Streets, Phila., and work will be at once begun. The same architect has made drawings for a house at Cheltenham, on the Newtown R. R., which will be a parochial house to R. C. Church, to be 33 x 40 feet, three stories high, of stone, slate roof and heated by steam, with all interior accommodations. Also plans have been prepared to erect two spires to the Church of Our Mother of Sorrows, at Forty-eighth and Lancaster Avenue, to be of stone and slate work, and will cost about \$13,000. Mr. Durang has also on boards, plans nearly complete, for a fine laundry, 40 x 100 feet, two stories high, of stone, slate roof, and fitted with steam power and heat, to be built at Chestnut Hill.

PHILADELPHIA, WED'Y, MAY 18, 1892.

We are in receipt from Palliser, Palliser & Co., New York, of a copy of their latest and best edition of specification blanks, designed especially for the use of architects, builders and contractors. An examination discovers the fact that they are complete in detail and calculated to save much time, trouble and expense on the part of those fortunate enough to use them.

## Architect Notes.

Theophilus P. Chandler, Jr., architect, Brown Building, has made plans for alterations to residence of Mr. Frank Read, of Rosemont, Pa.; also plans for an addition to the Orthopaedic Hospital Seventeenth and Summer Streets; all details have not been as yet determined upon in the latter case.

Henry J. Hardenberg, architect, 10 West Twenty-third Street, New York City, has completed plans for a fine six-story brick warehouse for Mrs. Mary F. Creutzberg, of that city, to be erected upon a site owned by that lady extending from 421 to 427 Arch Street, in this city. The building will be 58 x 135 feet, and run to Appletree Alley in the rear. The material will be brick, stone and iron work mainly, with considerable lumber on interior. It will be fitted with elevator freight lift and best of modern conveniences.

## Building and Real Estate Notes.

Phillips, Townsend & Co., Greenwood Avenue, east of Fifth Street, will at once erect an addition to their factory for making nails. It will be 30 x 30 feet, one story high.

George W. Roydhouse, contractor, Builder's Exchange, has been awarded the contract to erect the Brokaw Memorial Building, to be built at Princeton College, N. J.

The plating works of Ledig & Way, in the rear of No. 242 North Eighth Street, which were burned out on Saturday, May 14, will be restored as soon as possible. Much valuable machinery was damaged. The loss is about \$30,000 mostly covered by insurance.

At Tacony, Phila., the Tacony Club will purchase a piano. The president of the club is Howard P. Rees.

S. B. McDowell, carpenter, 1812 Uber Street, has the contract to build a five-story factory, 38 x 134 feet, on Second Street, south of Erie Avenue. It will be fitted with steam heat and power, freight lift, etc.

William Blair, builder, will start at once an operation of sixteen two-story houses on east side of Twentieth, north of Dauphin Street, to be of a fine class of press brick, stone trimmings and best modern conveniences.

Thomas C. Sloan, 51 N. Fortieth Street, will at once erect nine three-story dwellings on east side of Forty-third, south of Aspen. These are to be of press brick and stone fronts, with all modern conveniences on interior.

John Wilhelm, 3510 N. Second Street, will at once erect fifteen two-story houses, 14 x 27 feet each, on the west side of Philip Street, north of Tioga, all to be of best brick and stone work with good interior accommodations.

The Grace Baptist Church has now taken title to the lot adjacent to the Temple on the south, upon which they intend erecting in the future, a college to promote educational work. The site is 50 x 150 feet; \$25,000 is the price paid.

The Mount Zion Colored Baptist Church, of Germantown, has purchased the old Poor House property on Rittenhouse Street, and will endeavor to raise during the current year money enough to erect a new church upon the site.

Haines, Jones & Cadbury, plumbers' supplies manufacturers, Twelfth and Spring Garden Streets, are about to erect an addition to their present large plant. The structure will be 30 x 30 feet, and is rendered a necessity by their increasing business.

Samuel S. Hollingsworth, Esq., of Philadelphia, has purchased the property of Nathan Folwell in Gwynedd Township, for \$30,000. The tract contains about one hundred and sixty-nine acres. It is the intention of the purchaser to cut up the tract into portions of an acre or more each and to sell them for building sites.

The Young Men's Hebrew Association will soon occupy new quarters at 933 North Broad Street. A temporary loan of one thousand dollars will be effected for the purpose of furnishing the new house. The President is Alfred Curtin Hirsch; Treasurer, Edward Wolf, and Recording Secretary, Ephraim Lederer.

The extension of the Cheltenham Avenue Passenger Railway from Chew Street to Stenton Avenue, eastwardly, will soon be commenced, it is understood. The contract for its construction has been awarded to William J. Wharton, who constructed the line already laid from Chew Street to Rittenhouse Street and Wissahickon Avenue.

F. L. Michaelson, builder, 4019 Lancaster Avenue, will at once begin the erection of four two-story houses on the south side of Rockland Street, west of Thirty-ninth, and ten more, three stories each, on Thirty-ninth, north of Spring Garden Street, all to be of press brick, stone facings and steps, with good conveniences on interior.

The Board of City Trusts, at its meeting last week, appropriated \$25,000 for the erection of three dwellings at the Southwest corner of Twenty-fifth and Poplar Streets. The board also directed to be removed the wooden buildings at No. 630 Rodman Street, No. 212 North Thirteenth Street and three frame buildings on Spruce Street, above Ninth.

At a meeting held last week by the "Suburban Club," of Frankford, the following officers were elected: President, Philip R. Wells; Vice President, G. Frank Lever; Secretary, F. D. Newberry; Treasurer, James France, and James S. MacMaster, Samuel W. Evans and others, the Board of Managers. The board decided to proceed at once with the entire furnishing of the house. There are eleven rooms.

The Ringgold Manufacturing Co., of Mechanicsburg, Pa., has bought ground at Lidenfield Station, near Holmesburg Junction, and will erect upon the site quite a large plant, consisting of a main structure with two wings. The first will be 40 x 200 and one wing of same measurement; the other will be 40 x 130 feet; all to be two stories high, fitted throughout with steam power and heat, as well as modern conveniences.

At a meeting of the Board of Education, held on Tuesday, the 11th inst., a resolution was presented by the Committee of Property "that the contract for the erection of the new Normal School Building be awarded to Johnson & Byrnes for the sum of \$305,800, subject to the action of Councils in regard to the three buildings now under process of condemnation." This action is not to be regarded as final, it being subject to a proviso.

Benjamin Ketcham & Sons, contractors, 1029 Brown Street, have been at work for some time upon the excavation for the large Heywood warehouse, to be erected by William Weightman, at 1014-16 Race Street. A permit has been granted for the superstructure, which has been fully described in this journal previously, from plans made by Willis G. Hale, architect, and who will supervise the construction. It will be eight stories high, and fitted with every convenience.

Charles H. Mann, of the Prothonotary's office of Philadelphia, will erect a fine large stable at his country home. The first story will be of buff brick and second of shingle work, interior walls to be of enameled brick, and floor to be of asphalt blocks. It will also be heated by steam and possess every feature for comfort and care of horses and coachman. The plans were made by Thomas P. Lonsdale, architect, Manhattan Life Building, who will supervise construction.

At Fox Chase, three extensive farms in that vicinity, on the east side of the railroad between Rockledge and Harper Stations, have just changed hands. Mr. Newbold, of Philadelphia, secures the Wistar farm of 103 acres for \$350 an acre, while a syndicate, consisting of Edwin Handy and others, has purchased the Hannah Linton farm adjoining, comprising 109 acres, for \$600 an acre. Kennedy Crossan buys the Thomas Wiley farm of 50 acres for \$500 an acre. This adjoins the other two properties, and the three tracts extend all the way from Rockledge Station up to Harper's and about half a mile east of the railroad.

Colonel Joseph M. Bennett, of Phila., has given a plot of ground, bordering on Monument and Belmont Avenues, upon which to erect a building to be used for the training in speech of deaf children under school age. Work will be begun at an early date.

McCartney & Oler, contractors, 2355 E. Dauphin Street, will at once start the construction of a factory at DeWitt's Court and St. John Street, south of Girard Avenue, for Samuel Lee & Son, of the Times Finishing Works. It will be 37 x 146 feet, and extend to Canal Street in the rear. Material, brick, wood and iron, fitted with steam power.

Judge Ashman, in the Orphans' Court last week, confirmed an examiner and master's report in the estate of Clayton French, deceased. Harry B. French, one of the testator's sons, had asked and been granted an allowance of \$25,000 out of the estate, to be used to erect a church in memory of his wife, Mrs. Augusta Graham French, who died recently. Clayton French's residuary estate is said to amount to about \$1,500,000, and the interest of each of his children therein \$250,000.

James Bradley, carpenter, 40 N. Thirty-eighth Street, has been awarded the contract to erect a police station on Highland Avenue, above Twenty-seventh Street, Chestnut Hill. The structure will be 44 x 80 feet, and built in two buildings, each two stories high, materials to be dressed stone and brick work. The interior will be fitted in a comfortable manner for both officers and prisoners. The heating, ventilation and light will receive special attention. Best of plumbing and drainage system, cement floors and some artificial stone will be used. Work to begin at once.

The Tioga Methodist Episcopal Church, Tioga and Eighteenth Streets, have purchased, through their pastor, Rev. W. H. Sheaffer, for \$16,000, a lot 97 x 230 feet, adjoining their present ground, and extending to Atlantic Street. At a meeting of the trustees on the 9th inst., a committee was appointed on securing plans for the erection of a new church building. It is also intended to build a chapel and parsonage and sell the present church and parsonage on Nineteenth Street, now owned by them. The new location will be on the northwest corner of Eighteenth and Tioga Streets.

It is probable that before many days have elapsed a company will be formed in this city by Isaac Harter, of Fostoria, O., William D. Brice, of Philadelphia, and a number of other flour merchants, having in view the erection of a large plant for grinding flour and putting it upon the general market. One-half the stock has been taken by the first named gentleman, and the matter is being pushed with vigor. Mr. Harter has been engaged during the last week in the selection of a proper site upon which the new mill may be erected, and a selection will likely be made near the various railroad lines.

The general condition of building within the limits of Philadelphia is promising, and operations already started are being pushed with vigor, good weather having prevailed during the opening of the season. The Betz Building skeleton iron work has now reached the thirteenth story, and the structure is ready for other material. The Cleveland Hotel, Broad and Spruce Streets, is under roof and ready for inside work. The Bromley Factory superstructure is started. The Philadelphia & Reading Terminal Main Building, on Market Street, foundations well advanced. Hotel Vendig, Twelfth and Market, under roof and ready for all inside fittings. The hotel at Twelfth and Arch and addition to the Pennsylvania Railroad Depot remain in *statu quo*, awaiting decision upon detail matters. Work has not started upon the Girard Building addition of three stories, but it is understood will at an early day. The addition to the Provident Building, Fourth and Chestnut Streets, is being pushed under Contractor Roydhouse, the foundations being nearly ready for superstructure. Contractor Allen B. Rorke will start during the current week upon the "Times Annex," and other minor jobs in various localities.

### Through Pennsylvania.

*When any of the following are not post offices they will be so designated.*

—At Glenside, Montgomery Co., a new residence will be erected by Samuel Fenton.

—At Lebanon, Lebanon Co., ex-County Commissioner George H. Spang will erect a building for restaurant purposes.

—At Ridley Park, Delaware Co., a number of sewers will be constructed. H. F. Kenney is president of the council.

—At Girard, Erie Co., Fred. May and Wm. Lloyd have the contract to erect the new Presbyterian Church for \$11,500.

—At Cheltenham, Montgomery Co., the Roman Catholics are making preparations for the erection of a parish house near the church.

—At Norwood, Delaware Co., an effort is being made to start an Episcopal Mission, and it is probable that a chapel will be erected in the near future.

—At Hamburg, Berks Co., Edmond G. Miller's barn has been destroyed by fire, causing a loss of \$5000. An electric light plant will be constructed.

—At Cochranville, Chester Co., ground has been staked out for the erection of a chapel by the Presbyterians. The lot was purchased from Dr. Morrison.

—At Kennett Square, Chester Co., Jabez Jackson, who recently purchased the Ellwood P. Way farm, will make a number of improvements to the buildings.

—The directors of the Scottdale, Everson & Broad Ford Electric Street Railway Co. have decided to take steps looking to an early construction of the road.

—At Wynnewood, Montgomery Co., the Pennsylvania Railroad Co. has awarded a contract for the construction of a tunnel under the railroad tracks at that place.

—At Ogontz, Montgomery Co., William L. Elkins will erect a large conservatory and poultry house. The contract has been given to W. H. Thomas, of Jenkintown.

—At Lancaster, Lancaster Co., the American House, on Queen Street, will be greatly enlarged by two additional stories and otherwise improved. Philip Lebzelter is the owner.

—At Chatham, Chester Co., the contract for the new school to be erected the present season, has been awarded to Charles Baker. The contract price is said to be about \$3000.

—At Norristown, Montgomery Co., the German Reformed congregation will erect a chapel, to cost about \$1900, in West End, Norristown. The plans have been drawn by Zack Acker.

—At North Wales, Montgomery Co., Colonel Charles Gold has made arrangements to make a number of changes to the Main Street Hotel and stables. David Baker is the builder.

—At Perkasie, Bucks Co., J. S. Soliday is making arrangements for the erection of a large building. It will be three stories high. The first floor will be fitted up as a store for Mr. Soliday.

—At Upper Providence, Delaware Co., Percival V. Cooper has had plans prepared for a handsome dwelling to be erected on his stock farm, which he recently purchased from the Vernon estate.

—At Kane, McKean Co., there is a prospect of securing the location of the Star Shoe Co., now in the eastern part of the State. Joshua Davis and C. H. Kemp constitute the committee having the matter in hand.

—At Manheim, Lancaster Co., work has begun on the erection of the building for the McAnulty Mill Furnishing Co. The building will be of brick and the dimensions 45 x 210 feet.—There is considerable talk of the erection of a hat factory.

—At Media, Delaware Co., Mr. Stewart is having a handsome residence erected on the Moylan. Rush J. Whiteside 2310 Wallace Street, Philadelphia, is the contractor.—W. J. Worrall has the contract for the erection of three brick dwellings for Wm. F. Miskey.

—At West Chester, Chester Co., a building lot in the Roselyn tract has been offered free to the new Presbyterian congregation, upon which to erect a third Presbyterian Church. Rev. Mr. Estlin, of the Dilworthtown Presbyterian Church, can give particulars.

—At Freedom, Beaver Co., a dwelling will be erected for S. Morgan to cost about \$4000, from plans prepared by J. A. Snyder, of Beaver Falls, Beaver Co., Pa. It will be of frame, with slate and tin roof, plate glass windows, hard wood finish, slate mantels, etc.

—At Reading, Berks Co., the Lutherans are talking of erecting a church to cost about \$150,000.—W. A. Griesemer has taken permit for the erection of a two story brick dwelling.—Extensive improvements are being made by C. H. Reist to the Hotel Penn.

—At Hazleton, Luzerne Co., a disastrous fire, on May 14, destroyed property valued at about \$100,000. It began at the opera house, which was totally destroyed, beside five handsome brick dwellings; also the Hazleton Machine Manufacturing Co.'s store and the large frame dwelling of Dr. Bowman.

—At Shiremanstown, Cumberland Co., a meeting of citizens was held a short time since in regard to taking steps towards the construction of an electric railway. Mayor J. A. Moore, of Camp Hill, Cumberland Co., and S. M. Hertzler, of Eberly's Mills, same county, are interested in the matter and can give information.

—The managers of the Stoverdale Camp Meeting Grounds, near Hummelstown, Dauphin Co., Pa., have bought about 60 acres of ground from Edward Stover for \$15,000. A stock company has been formed with a capital of \$30,000. A number of improvements will be made to the ground prior to the camp meeting, which will be held on August 9, 1892.

—At Columbia, Lancaster Co., a meeting was held in the opera house to devise means for locating a silk mill, a company having promised to locate if sufficient inducements were offered. Quite a sum was subscribed and the prospect is favorable for the erection of the mill. S. S. Detwiler and C. C. Kauffman are interested in the project.

—At Phoenixville, Chester Co., the question is being agitated of constructing an electric railway to extend from Royersford, through Spring City and Phoenixville, to Valley Forge, Port Kennedy and Bridgeport.—Phoenixville is about to introduce electric light, and will probably establish an electric light plant. The Borough Council has appointed a committee to find out the cost.

—At Steelton, Dauphin Co., it is probable that an opera house will be erected. The property known as the Roberts property has been purchased by a syndicate, which proposes to demolish the present structure and to erect a building for business purposes and also to contain an opera house. Robert E. Fairlamb, of Steelton, and Jacob A. Milliard, of Lebanon, are members of the syndicate.

—At Spring City, Chester Co., the School Board is negotiating for the purchase of a lot at the upper end of the borough, upon which to erect a school house to meet the need of that section. The lot in question is situated at Arch and Wall Streets, and belongs to Dr. W. P. Snyder. It has a frontage of one hundred feet.—Walter Corrigan has purchased a lot of Mrs. Finkbinder, on Main Street, for \$9500. It is said that Mr. Corrigan will use the site upon which to erect a building suitable for hotel purposes.—John Kiter has begun work on a brick house for Harvey Ash on New Street.

—At Elwyn, Delaware Co., a large building, to be used for dormitory purposes, will be erected by the Pennsylvania Training School for Feeble Minded Children. The structure will be three stories high, of brick and stone, dimensions 56 x 96 feet. The contract for the erection has been awarded to Joseph C. Seal, of Media, Delaware Co., Pa.

—At Rutledge, Delaware Co., ground has been broken by John A. Jackson for a dwelling to be erected for Martin Leim. It will contain ten rooms, and will be fitted with modern improvements. The same contractor has been awarded the contract for a dwelling for W. H. Neal. It will contain twelve rooms, with interior handsomely finished, and modern conveniences and improvements.

—At Harrisburg the State Department has granted charters as follows: To the Delaware County and Philadelphia Electric Railway Company, with a capital of \$120,000; to the F. E. Okie Company, of Philadelphia, capital \$35,000; to the Blue Bridge Coal Company, of Scranton, Pa., capital \$100,000; to the McLaughlin Oil Company, of Allegheny, Pa., capital \$8500; to the Consumers' Gas Company, of Wilkesbarre, capital \$50,000.

—At Wilmerding, Allegheny Co., the Westinghouse Air Brake Company will erect a large warehouse from plans prepared by F. J. Osterling, of Pittsburg, Pa. The estimated cost is about \$100,000. The structure will be mostly of stone and iron. The same architect has prepared plans for a dwelling for William Smith to cost about \$4500, and also a dwelling for John Cratz to cost about the same amount.

—At Rosemont, Montgomery Co., a lot 104 x 210 feet has been purchased as a site upon which to erect a hall for St. Thomas' T. A. B. Society. The dimensions of the new hall will be 40 x 90 feet. It will be of brick and stone, with slate roof, and contain billiard, library and reading rooms, together with an assembly room 36 x 48 feet, including a 13-foot stage and two dressing rooms. The basement will be used as a gymnasium. The interior will be finished in hard wood. The estimate cost is \$9,000.

—At Royersford, Montgomery Co., at a recent meeting of the school directors, it was decided to erect a new school house on a site selected on Fourth Avenue. The new building will be two stories high, and will contain four rooms, handsomely finished and supplied with modern conveniences and improvements. The plans have been drawn by Edwin F. Bertolette, 1218 Filbert Street, Philadelphia. John Zeigler will erect a dwelling. Lewis Adams is the contractor.

—At Pottsville, Schuylkill Co., Tuttle Culver, of New York, and A. Hirsh, of Chicago, representing the Swift Dressed Beef Company, have made arrangements for the purchase of the Buckley property, corner of Centre and Railroad Streets. They propose to erect on the lot, which is triangular shaped, a building with a front on Railroad Street, 150 feet; another on Centre Street, three stories high and of brick. On the rear of their lot they intend to erect a large brick stable.

—At Beaver Falls, Beaver Co., plans have been prepared by J. A. Snyder for a dwelling and store to be erected for William Kibridge. It will be of brick, plate glass windows, steel ceiling, modern conveniences and improvements. The estimated cost is \$5000. The same architect has prepared plans for a hotel to be erected at Alequippa for John Weigle, of Beaver Falls, Pa. It will be of plain and ornamental brick, slate roof, incandescent electric lights, fire escapes, plate glass windows and hard wood interior finish. The estimated cost is \$10,000. Also plans for a dwelling for J. S. Jackson, of Beaver Falls. It will be of frame, hand-ome interior finish, wood and slate mantels and modern conveniences. The estimated cost is \$4500.

—At West Chester, Chester Co., a number of dwellings will be erected by S. C. Black, on Washington Street, at the corner of New Street. Messrs. Hall and Smedley will erect a number of dwellings in the same vicinity. Work has begun on the dwelling to be erected for George Matlack, on S. Walnut Street. It will be a hand-ome structure. G. T. Guthrie, of Downingtown, Pa., is the contractor. Contractor David Pennock will erect a new grand stand for the Brandywine Club. It will seat several hundred persons. At a meeting of the School Directors, it was decided to purchase a number of books for the library, including an edition of Shakespeare. The matter of taking steps toward the purchase of a piano was referred to the committee on property.

—At Chester, Delaware Co., the contract for the new iron bridge, to be constructed to span Ridley creek, has been awarded to the Berlin Iron Bridge Co., of Berlin, Conn., for \$29,000. The masonry contract was awarded to John B. Riley, of Philadelphia, at \$7 per perch. Work will be commenced as soon as possible. The Union Railway Co. has awarded the contract for supplying steel rails to the Combination Steel and Iron Works, the wires to John A. Roebling & Son, of Trenton, N. J., and the poles to Broulee & Co., of Detroit, Mich. It is stated that Mr. Nathan Jones is having plans prepared for about twenty dwelling. Prof. George Gilbert, the visiting director appointed by the Board of Education to inspect the schools, reported that the furniture in the Grammar and Secondary schools was defective, and the matter was referred to a committee.

—At Pittsburgh, work has been begun on the large nine-story brick warehouse for S. Ewart, and for which plans were drawn by Architect Charles Bickell. The estimated cost is \$90,000. The contract has been awarded to Doherty Brothers. A handsome residence will be erected by Christopher Magee, Jr., on Forbes Street, at a cost of about \$10,000. The plans were drawn by Hodgson & Thomas, and the contract has been let to John Ready & Co. E. W. Dunbar will erect a two-story mansard brick dwelling from plans drawn by E. E. Miller. The cost will be about \$3500. E. M. Moore will erect two two-story brick dwellings, to cost \$9000. Robert S. McKay will erect a two-story brick dwelling, to cost about \$5000. Four two story brick and stone dwellings will be erected by William Chaffey, at a cost of about \$10,000. Two nine-story brick buildings, to be used for business purposes, will be erected by H. Childs & Co., on Penn Avenue, from plans drawn by James T. Steen. The contract has been let to Alex. Gilliland. The estimated cost is \$35,000. F. C. Sauer has prepared the plans for two two-story brick dwellings, to be erected for Daniel Kirk, at a cost of \$5000 and \$7000 respectively. The same architect has prepared plans for a two-story brick dwelling, to be erected for James P. Reed, on Penn Avenue, to cost \$12,000. Mrs. Margaret C. Rickertson has let the contract to A. & S. Wilson for a handsome residence, to be erected on Juniata Street, at a cost of about \$7000, from plans prepared by Longfellow, Alden & Harlow. The same architects have prepared plans for a dwelling, to be erected for R. M. Adams, at a cost of \$7000. James Johnson will erect a two-story frame dwelling, to cost \$6000. A. H. Waddell, builder. W. S. Fraser has prepared plans for a two-story stone dwelling, to be erected for H. & S. A. Stewart, on Morewood Avenue, at a cost of \$4000. A. & S. Wilson are the builders. The same builders have been given the contract to erect a three-story dwelling for Mrs. E. Layng, on Emerson Street, at a cost of \$3000.

#### Through New Jersey.

At South Amboy, Middlesex Co., Christ Church will be enlarged.

At Hightstown, Mercer Co., a chancel will be added to Trinity Church.

At Plainfield, Cumberland Co., Councilman Bird can give particulars as to street paving, for which an appropriation has been made.

At Woodbury, Gloucester Co., the County Board of Freeholders has ordered a new iron bridge to be constructed across Woodbury river, at Broad Street. The new structure to cost \$4000.

At Manahawkin, Ocean Co., Benjamin Oliphant will construct a fine driveway along Stafford Lake. It will be about half a mile long. The contract to erect the Oliphant residence has been awarded to Cranmer & Courtney.

At Trenton, the large pottery of Thomas A. Maddock & Sons, manufacturers of sanitary ware, was totally destroyed by fire on May 12th. The buildings destroyed covered about a square of ground and with their contents were valued at about \$175,000.

At Morristown, Morris Co., Joseph G. Havens will erect a handsome dwelling on Smith Street. Civil Engineer A. A. Weir, of Trenton, has prepared the plans for a new system of waterworks. The starting point will be at Edge Hill. The congregation of the Presbyterian Church will make a number of improvements to the interior of the church building.

At Newark, N. S. Dilworth will erect a dwelling on North Seventh Street, to cost about \$6000. The plans have been prepared by Frank F. Wan. The same architect has prepared the plans for a stable to be erected for Mrs. A. Canfield on Gould Avenue, at a cost of about \$5000, also plans for a cottage to be erected for H. E. Bailey on Fairmount Avenue near South Orange, also plans for a dwelling to be erected on Forest Hill for C. A. Woodruff and to cost about \$4500.

At Trenton, contracts for the County Work House have been let to the amount of \$53,496. This includes excavating, masonry, carpentry, painting and tin work to John Barlow for \$34,146; steel, wrought and cast iron work to William R. Thropp for \$13,500; plumbing and gas fitting to F. S. Katzenbach & Co. There will be a 35 horsepower boiler in the engine room. The congregation of St. Michael's Church will erect an addition to the present building. It will contain a Sunday school room, guild rooms, etc. It is under the charge of Rev. Jackson.

At Princeton, Mercer Co., the new dormitory will cost about \$80,000, and will be, when finished, complete of its kind, having the best of modern improvements, including sanitary plumbing, &c. It will be four stories high and the material is to be stone with tile roof and copper cornices, the interior walls, five in number, will be fire proof as will be also the stairways. There will be in all eighty handsomely finished and fitted bedrooms, and the basement will be devoted to bathing and toilet rooms. The structure will be L shaped with a frontage of 120 ft. for each wing and a depth of about 50 ft. The plans have been prepared by Rowe & Baker.

At Asbury Park work is progressing rapidly at the new Camp Wanamassa of the Y. M. C. A. The Camp is on a branch of Deal Lake and commands a fine position and embraces nearly one hundred acres of ground, a portion of which is well wooded. Wm. C. Cottrell, who has the contract for most of the buildings, has them all well under way. The auditorium will be mostly of iron and 80 x 80 feet in dimensions. There will also be a dining hall erected, 40 x 70 feet, with a kitchen 28 x 36 feet. Streets are being laid out and improved, and Central Avenue will be continued to Long Branch. Mr. W. W. Blanchard, of Newark, N. J., contemplates the erection of twenty or thirty cottages which will be rented by the season. Among other contemplated improvements is a branch of the electric railway and the erection of a number of bridges across the lake branches.

## TRUSTS. TITLES. DEPOSITS

# THE PLANT OF THE LAND TITLE AND TRUST COMPANY, 608 Chestnut Street,

Covers every foot of ground in Philadelphia, and is the only Plant containing an abstract of every Deed, Mortgage and Sheriff's Sale of record in Philadelphia since 1682 located against each property described.

This Plant necessarily gives great additional protection to purchasers and mortgagees taking this Company's policy of Title Insurance, apart from the security of its One Million Dollars full paid capital.

WILLIAM R. NICHOLSON, President.

## PHILADELPHIA BOURSE.

AUTHORIZED CAPITAL, \$1,000,000.

The subscription books are now open for the remaining \$300,000 of unsubscribed capital, and the privilege of becoming stockholders and members is offered to all men doing business in or with Philadelphia.

Shares are \$50 each. The minimum subscription received is for four shares. Subscribers to four shares or more will be entitled to all the rights and privileges of membership. There will be no annual dues or assessments.

The offices in the Bourse will be very desirable and are already in demand. The capital invested in this building will pay large returns, and it is expected that stockholders will not only receive great business advantages, but a fair interest on their investment.

SUBSCRIPTION BOOKS ARE OPEN AT THE EXECUTIVE OFFICES.

Fixtures for Combination Gas and Electric.

**Through Delaware.**

At New Castle, New Castle Co., plans are being prepared for the erection of a fire engine house to cost about \$3500.

At Delmar, Sussex Co., the Episcopalians contemplate the erection of a church. The mission is in charge of Rev. Armstrong, of Laurel. A lot will be purchased in a short time and steps taken for the erection of the proposed church.

At Lewes, Sussex Co., a number of improvements will be made in the building line. A Masonic Hall is contemplated, and when completed, beside being used for the organization, will be utilized as a town hall.—Dwellings will be erected by Harry Maull, Herschel Marshall, and David W. Wolfe.

At Wilmington, the contract for the erection of the new building for Shields Library Association has been awarded to Hubert Cassidy for \$8856. The ground has been broken and the work will be pushed as rapidly as possible.—Work will begin in a short time on the proposed new building for the New Castle County Mutual Insurance Company, which will be erected at 602 Market Street. The dimensions will be 19 feet 4½ inches by 41½ feet. The front will be of stone, with a large circular window above the doorway. The front of the peak will be of tile, and a number of floors will be of tile also. A handsome open fireplace will be placed in the President's room. The wood-work will be mainly of quartered oak, and all the fittings will be of the most improved kind. Steam heat will be introduced. A vault five feet wide and eleven feet long will be constructed. The plans have been drawn by Baker & Dallett, Fifth and Walnut Streets, Philadelphia.—Blumenthal & Co. have purchased additional ground in the vicinity of their present works and will enlarge their plant.—At the last meeting of the Board of Education the special committee, which was appointed to see about alterations to school No. 14 reported that it was the opinion of the committee that some changes should be made and, recommended the addition of two rooms, the estimated cost of which is \$4500. The report was adopted and the committee authorized to employ an architect to make plans to be submitted to the Board.

**Through Maryland.**

At Havre De Grace, Harford Co., the large ice houses, six in number, of Frederick & Son, of Baltimore, were destroyed by fire last week, at a loss of \$20,000.

At Centreville, Queen Anne's Co., the congregation of the Methodist Protestant Church will erect a parsonage on Commerce Street, on a lot recently purchased from W. H. Gibson.

At Baltimore, Mr. Charles C. McColgan, real estate broker, No. 8 East Lexington Street, has purchased old Oriole Park, for \$40,000. The property fronts on Huntingdon Street about 300 feet and about 250 feet on Camp Street. The purchaser will cut several streets through the tract and lay the land off into building lots.—The most important building permits issued to date are as follows: To W. Parlett, to erect a two-story brick dwelling; to E. Parlett, to erect three two-story brick dwellings; to J. J. Valentine, to erect a two-story brick dwelling; to A. Clayton, to erect a three-story brick dwelling; to J. Reamy, to erect eight three-story brick dwellings; to W. Sewes, to erect two three-story brick dwellings; to F. M. Ladensack, to erect two three-story brick dwellings; to C. Gunther, to erect two three-story brick dwellings; to C. Lansberger, to erect one three-story brick dwelling; to G. E. Warfield, to erect eight three-story brick dwellings; to the Baltimore City Passenger Railway Co., to erect a one-story brick building; to L. German, to erect eight three-story brick dwellings; to H. B. Classen, to erect nine two-story brick dwellings.—The Mayor has signed an ordinance to grade and pave the yard of No. 21

school and place an iron railing around the same.

—William F. Weber, architect, has completed plans for a handsome new building for the medical college. It will cost about \$75,000.—George Archer, architect, is preparing plans for a brick, marble and granite synagogue for the Mikro Kobesch congregation, to cost about \$35,000.—Messrs. Baldwin & Pennington, architects, employed by the World's Fair Commissioners to prepare plans for the Maryland Building, have completed the preliminary drawings, which contemplate a building on the colonial style of architecture, to include a centre building of two stories, with a wing on each side of the same height. The wings and a portion of the first floor of the main building will be used as exhibition halls. The first floor of the main building will also contain reading-rooms and rooms for ladies. The second floor will be similarly arranged for the use of men. The plans have been delivered to the Building Committee.

**Washington, D. C.**

A syndicate of Detroit capitalists has purchased the Marshall Brown tract, which is situated on the east side of the Seventh Street road, and extends from the Rock Creek Church road to what is known as Brightwood Park. It is the intention of the purchasers to make a number of improvements and to put the tract into the market. Harvey L. Page, 515 H Street, has prepared the plans for the hospital to be erected by the trustees of the House of Incurables, at the intersection of Observatory and Linthicum Streets. It will be three stories high, and 70 x 100 feet in dimensions. The interior will be handsomely finished. Steam heat and all modern conveniences will be introduced. J. F. Walker is the builder. Four brick and stone dwellings will be erected by Theodore A. Harding, on P Street, from plans prepared by Victor Mindeleff, at a cost of \$20,000.—A. R. Wingate will have four brick dwellings erected at Eckington, at a cost of \$14,000.—J. B. Williamson is the contractor.—Twelve small dwellings will be erected by J. C. Louthan, on D Street Northeast, at a cost of \$25,000, from plans prepared by Edward Waltz.—A. B. Bibb has prepared plans for a dwelling to be erected for Robert McPherson, on Nineteenth Street, No. 1240, at a cost of \$8000. The contractor is A. J. Fisher.—John B. Wight will erect a handsome residence on Q Street from plans prepared by Albert Burnley Bibbs. It will be colonial in architecture, of brick, copper cornice, bay and loggia, handsome interior finish, open staircase and grates. The same architect has prepared plans for a dwelling to be erected on New Hampshire Avenue, south of R Street, for Representative Dalzell.—W. Bruce Gray has prepared the plans for the car house and stable to be erected by the Belt Street Railway Company. They will be 300 x 375 feet. The same architect has made plans for a dwelling for Rev. Dr. Stakely on West side of Sixteenth Street between O and P Streets.—A lot has been purchased through Gurley & Stevens, by Robert S. Stevens, of Utica, N. Y., at Sixteenth and Corcoran Streets, upon which the purchaser will erect a handsome residence.—The southeast corner of Sixteenth and Corcoran Streets will be improved by the erection of a church edifice by the Swedenborgians.—The Washington Hebrew congregation contemplate the erection of a synagogue on Eighth Street on the site of the present structure. A committee has been appointed to have the matter in charge.

**Real Estate at Auction.**

[When no sales are reported, it is because the auction firm omitted has had none.]

SOLD BY JAMES A. FREEMAN & CO., ON WEDNESDAY, MAY 11, 1892.

## These Ranges and Heaters

Represent the highest possible type of mechanical and scientific construction. For reliability and durability they are positively without a superior, they truly represent the minimum of cost and the maximum of quality.

The small size of the **PROMPT RANGE** is just the thing for Builders of small Houses. It is compact in form and possesses all the advantages and requisites of the larger size. Builders, Owners and Agents having charge of properties should inspect these Ranges and Heaters before ordering.

For sale by all Dealers. They can be seen at the Company's Ware-rooms.

123 N. 2d St., Philadelphia.

17 E. Lombard St., Baltimore, Md.

### Wants.

J. S. Fullerton, Commissioner, Washington, D. C., proposals until May 24th, for the construction of six wrought-iron towers.

The City Clerk of Walla Walla, Wash., wants plans and specifications, until June 21, for a City Hall Building, to be erected at that place.

E. M. Bigelow, Chief of Department of Public Works, Pittsburg, Pa., proposals until May 24, for grading, paving and curbing several streets.

Proposals until May 23, for the erection of the Sandusky Street Baptist Church. Address, Chairman Building Committee, care Box 534, Pittsburg, Pa.

Lieutenant C. J. Bailey, First Artillery Post Quartermaster, Fort Hamilton, N. Y. H., proposals until May 25th, for one (1) double set of officers' quarters.

James R. Soley, Acting Secretary of the Navy, Washington, D. C., proposals until May 20, for two fire tube boilers and one steam drum, with all necessary furnishings.

The Secretary of Agriculture at Washington, D. C. Proposals until May 19, for furnishing lumber, paints, oils, glass, and other supplies during the fiscal year beginning July 1, 1892.

Col. William P. Craighill, Charleston, Kanawha, W. Va. Proposals until May 25, for iron work for movable dams on the great Kanawha River, embracing about 495,000 pounds of wrought iron, 38,500 pounds of cast iron, and two manœuvring winches.

James H. Bacon, engineer in charge, Jacksonville, Fla., proposals until May 21, for building dykes and dredging in the St. John's River, Florida, in the vicinity of Dame's Point.

Charles Lawrence, President of the Pennsylvania Nautical School, Office Board of Directors, No. 16 North Delaware Avenue, Philadelphia, proposals until May 25th for hardware, ship chandlery and other supplies.

W. H. Gilbert, Mayor of Albany, Ga., proposals until June 11th, for 1150 tons cast iron water pipe and specials, 4 inches to 12 inches diameter; 88 valves, 4 inches to 12 inches diameter; 80 hydrants; 25 tons soft American pig lead; 80 extension valve boxes.

Constructing earthen dikes.—U. S. Engineer Office, 1428 Arch Street, Philadelphia, Pa. Sealed proposals, in duplicate, will be received at this office until 11.30 A. M., Monday, June 6, 1892, and then opened, for constructing earthen dikes at the mouth of the Schuylkill River, Pa. The attention of bidders is invited to the Acts of Congress, approved February 26, 1885, and February 28, 1887, Vol 23, page 332, and Vol 24, page 414, Statutes at Large. For all information apply to C. W. Raymond, Major, Corps of Engineers, U. S. Army

Sealed proposals will be received by the Water Commissioners of Asbury Park, N. J., for painting the stand pipe, tanks and frame work of same, two coats of best quality mineral paint, of such quality as may be selected by the Water Commissioners. The Water Commissioners reserve the right to reject any or all bids, or to accept any that they may deem most advantageous to the interest of the borough. Bids will be received until 2 o'clock P. M. on Saturday, May 21, 1892. John A. Githens, G. W. Treat, John L. Coffin, Water Commissioners.

N. H. Farquhar, Chief Bureau Yards and Docks, Navy Department, Washington, D. C., proposals until July 5th for the construction of one dry dock, 605 feet long, with 30 feet draught of water, with a body of timber and entrance of concrete and masonry, together with pump-house, pumping plant, floating gate, culverts and all other work pertaining thereto, in accordance with plans and specifications, which can be seen at the department or the office of the commanding officer of the Puget Sound Naval Station, at Sidney, State of Washington.

To Iron Manufacturers. Office of U. S. Light-house Engineer, Fifth and Sixth Districts, Baltimore, Md. Proposals will be received at this office until 12 o'clock M., of Tuesday, the 24th day of May, 1892, for furnishing the materials and labor of all kinds necessary for the completion and delivery of the metal work of the Pages Rock Light-House, Virginia. Plans, specification, forms of proposal, and other information may be obtained on application to this office. The right is reserved to reject any or all bids, and to waive any defects. Eric Bergland, Captain of Engineers, U. S. A., Light-House Engineer.

W. J. Edbrooke, Supervising Architect, Treasury Department, Washington, D. C., proposals, until June 3d, for all the labor and materials required for the excavation, foundation, cut stone work and brick work of the basement and area walls, basement columns, first floor iron beams and wood joists, manhole and sewer connections for the United States Post Office Building at Cedar Rapids, Iowa. Also until May 27th, for all the labor and materials required for the erection and completion of the United States Custom House and Post Office Building at Houlton, Maine. Also until May 31st, for all the labor and material required for the trench and pit excavation and piling for foundations of the U. S. Post Office Building at Washington, D. C. Also until May 26th, for all the labor and materials required for the plaster models of the ornamental copper, plaster and wood work for the U. S. Post Office at Lansing, Mich. Also until

June 7th, for all the labor and materials required for the trench excavation, foundations, cut stone and brick work of the basement and area walls, and furnishing and putting in place complete the iron columns in basement and the beams and girders for first story floor of the U. S. Post Office Building at Worcester, Mass.

J. O. Brown, Chief Department of Public Safety, Pittsburg, Pa., proposals until May 20, for remodeling building corner of Second Avenue and Chancery Lane, for fire bureau purposes; also for alterations and improvements at No. 2 Engine House, on Smithfield Street; also until same date proposals for furnishing one compound multiple register, one four-dial repeater and one electric clock and case, etc., for Bureau of Electricity. Specifications for said instruments at the office of said bureau, and blank proposals and bonds obtained at the general office of the department. Bond in double the amount of bid, with two sureties, must accompany each proposal, said bond to be executed before the Mayor or City Clerk. The chief of the Department of Public Safety reserves the right to reject any or all bids.

Proposals for dredging at the U. S. Navy Yard, League Island, Pa.—Bureau of Yards and Docks, Navy Department, Washington, D. C.—Sealed proposals, in duplicate, indorsed. Proposals for Dredging at Navy Yard, League Island, Pa., will be received at this Bureau until 1 o'clock P. M., on Friday, May 20, 1892, and publicly opened immediately thereafter. Specifications and blank forms of proposals will be furnished upon application to the Bureau. Responsible security will be required for the faithful performance of the contract, and the right is reserved to reject any or all proposals not deemed advantageous to the Government, and to waive defects. A bond for the sum of five thousand dollars (\$5000) must accompany bids for the work. N. H. Farquhar, Chief of Bureau.

Proposals for chairs—Philadelphia depot of the Quartermaster's Department, No. 1428 Arch Street, Philadelphia, Pa. Sealed proposals, in triplicate, will be received here until 11 o'clock A. M., Thursday, May, 19, 1892, for furnishing the U. S. Quartermaster's Department with 7000 chairs, 1000 to be delivered on board cars to the Depot Quartermaster in this city and 6000 be delivered on board cars to the Depot Quartermaster at St. Louis, Mo., subject to inspection at points of delivery. Samples of the chairs can be seen, and full information had, upon application to the Depot Quartermasters at Chicago, Ill.; St. Louis, Mo.; New York city and Philadelphia, Pa. The government reserves the right to reject any or all proposals. Preference will be given to articles of domestic production or manufacture, conditions of quality and price (including in the price of foreign productions or manufactures the duty thereon) being equal. For blanks, for proposals, etc., apply at this office. Proposals should be accompanied by the required guarantee in ten per centum of the value of the chairs proposed for. Envelopes containing proposals to be endorsed "Proposals for Chairs" and addressed to the undersigned. C. G. Sawtelle, Deputy Quartermaster-General, U. S. A. Depot Quartermaster

Mint of the United States at Philadelphia, Pa., Superintendent's Office.—Sealed proposals endorsed "Proposals for supplies of" (naming the class or articles bid for) will be received by the undersigned until the tenth day of June, 1892, at 12 o'clock noon, for furnishing this Mint with the following named supplies during the fiscal year ending June 30, 1893, namely: Iron, copper, ingot sheet and bar, brass, brass castings, lead, berthazinc, iron castings, anthracite coal (Highland broken, pea and stove), charcoal, American glass, paint brushes, varnish brushes, whitewash brushes, dust and scrubbing brushes, floor sweeps, corn brooms, feather dusters, acids and chemicals, lumber, eight ounce duck, double warp and filling, drygoods, buckskin mitts and gloves, oils and

## A Few Quiet Words with House Builders and Owners.

If the kitchen of your house is small, you need to economize room. You can do this by using a range with elevated boiler, such as the

### "FIDELITY."

It will reduce the cost of plumbing also. We make them with seven inch or eight inch boiler holes, ovens on right or left of fire, with or without hot closets, and also to heat an upper room. Splendid bakers. Hot water in abundance. The latest and best of their class.

FIDELITY HOT AIR RANGE WITH  
HORIZONTAL BOILER.

Excelsior Double Oven Range.

If the kitchen is roomy and large, cooking capacity is sought. You will want a brick-set range with a vertical circulating boiler, set in the usual way. The

### "EXCELSIOR RANGES"

are acknowledged all over Philadelphia, in which city and vicinity some 75,000 have been sold as the standard brick-set range. They are furnished with ventilated ovens, oven-door pedals, rocking grates, and all modern improvements. Made in seven and eight inch sizes; single, double and hot-air ranges. Send for descriptive pamphlet, entitled "PERFECT COOKING."

MANUFACTURED BY

**ISAAC A. SHEPPARD & CO.,**

N. E. COR. FOURTH STREET AND MONTGOMERY AVENUE, PHILADELPHIA, PA.

And for Sale by all Responsible Dealers.

PARAGON FURNACE WITH  
EQUALIZED DRAFT.

Whether large or small, your house will require a heating apparatus of some kind. It will pay you to put in a *really good* hot air furnace. The

### "PARAGON"

has no superior. Perfectly self-cleaning, with fewest joints; free from dust and gas, largest radiating surface, heavy steel plate, drum casings, easy on fuel, and of superior durability, it will always give satisfaction. A descriptive circular will be mailed upon application.

# DID YOU EVER EAT AT BOOTHBY'S Great Chestnut St. Restaurant?

If you have not, you can form no proper idea of its size, beauty and facilities. Its corps of superintendents, chefs and assistants, waiters and supernumeraries number over 100. Its seating capacity is over 1300, and every guest is made comfortable, besides receiving prompt and careful attention. Its menu embraces everything in season. The cooking represents the best efforts of prominent chefs, whose skill has given the place a national reputation. The prices are moderate and the service is unexcelled. OYSTERS ARE THE GREAT SPECIALTY. The Ladies' Restaurants are retired, light and elegant. For a social meal or a light lunch, you are recommended to

**BOOTHBY'S, 1231, 1233 AND 1235 CHESTNUT STREET.**

OYSTERS WHOLESALE, 307 SOUTH FRONT STREET.

lubricators, namely, cylinder oil, engine oil, red vacuoline, cosmo lubric, or equal to, headlight oil, naphtha, seventy-six degrees, lard oil, lard, tallow, fire brick and fire clay, paving brick, stretcher brick, crucibles, hardware, files and rasps, tool handles, Yale locks, plumbers' supplies, with price list and discounts; Wrigley's mineral scouring soap (or equal to), deterative soap, Babbitt's soap powder, sapollo, castile soap, oak wood, crash mitts, leather belting, tinware, chamois skins, rubber goods, specie kegs, sweep barrels, (whisky barrels), ice, paints, and oils, putty, sandpaper, emery paper, emery cloth, white rags, white cotton waste, bar sand, lime, Portland cement, sponge packing, vulcabeston, corrugated copper gaskets, candles, hauling ashes, between 9 o'clock and 10 o'clock A. M. per load direct from ash pit and other necessary articles to be delivered in such quantities as may be required from time to time. Price lists must show discounts. The right is reserved to reject any and all proposals. Proposals must be accompanied by a bond in the sum of \$2,000 with one or more satisfactory sureties, and must be accompanied by samples of the supplies to be furnished. Schedules of the kind and amount of supplies needed, together with bank bond, will be furnished on application. Parties submitting proposals can be present when they are opened, if they so desire. O. C. Bosbyshell, Supt.

### Miscellaneous.

At Burlington, Chittenden Co., Vt., a new school building will be erected. The location is at Pine and Cherry Streets.

At Buckhannon, Upshur Co., W. Va., P. M. Boggs, A. H. Winchester and others will erect a furniture factory.

At Rutton, Braxton Co., West Va., a hotel will be erected, from plans prepared by O. S. Philpott, of Wheeling, West Va.

At Bridgeport, Jackson Co., Ala., F. J. Kirkpatrick can give particulars as to the erection of a wire nail factory at that place.

At Grenada, Grenada Co., Miss., W. C. McLean can give particulars as the erection of an ice factory and cold storage plant.

At Steubenville, Jefferson Co., the Y. M. C. A. contemplate the erection of a building. Dr. J. W. Stewart can give information.

At Fall River, Bristol Co., Mass., it has been decided by vote to issue bonds to the amount of \$95,000 for new schools and in rebuilding city hall.

At Columbia, Richland Co., S. C., a hospital building will be erected by the King's Daughters. Miss Isabel D. Martin can give additional information.

At New York, William H. Astor will erect a theatre to cost about \$65,000. The structure will be of brick, one story high. The plans have been drawn by Architect W. J. Edbrooke.

At Brockton, Plymouth Co., Mass., an appropriation of \$18,000 has been authorized by the board of aldermen, for the purpose of erecting a new school house. Also \$30,000 more for work on the new city hall.

At Cordele, Dooly Co., Ga., the plans for the Freddie Shipp Female College building to be erected for the South Georgia Baptist Association has been prepared by Architect E. A. Goodrich of Augusta, Ga.

At New York City, Architects Charles W. Clinton, George B. Past, J. R. Thomas, Wood & Palmer, Babb, Cook & Willard, Edward H. Kendall, Kimball & Thompson, Carrere & Hastings and S. D. Hatch have been invited to submit provisional plans in competition, by July 1st, for the fine new building for the Manhattan Life Insurance Co., to be erected on its new site, at Nos. 17 and 19 New Street and Nos. 64 and 66 Broadway.

VOL. VII.—No. 21.

PHILADELPHIA, WEDNESDAY, MAY 25, 1892.

PRICE 15 CENTS.

### Architect Notes.

The plans for the new addition to the Hotel Bellevue, at Broad and Walnut Streets, will be made by Jno. T. Windrim, architect, 132 South Third Street. The details have not as yet been fully decided upon, but will be announced at an early day.

A number of prominent architects of this city are engaged on competitive plans for a new club house which will be erected by a number of gentlemen. The building will be a corner one, and quite handsome in design no matter which plan may be accepted. At present, nothing definite can be made public, as all that has been done in the matter is but preliminary.

Lindley Johnson, architect, Girard Building, has completed plans for a stable for the Quaker City Mortar Co., which will be erected at their works, Twenty-third and Filbert Streets. It will be three stories high, 63 x 100 feet, and will stable 110 head of horses. It will be of brick, with stone trimmings, and possess all modern improvements. Work will be started upon the structure at once.

J. F. Stuckart, architect, 324 Walnut Street, has placed plans on boards, for estimate by contractors, of two fine warehouses, to be erected on North Front Street, each to be of the usual kind in that locality, and fitted with freight lifts and necessary machinery. Same architect has awarded the contract for Hebron Memorial Church, Twenty-fifth and Thompson Streets, to Charles Aucther, contractor, 1823 North Twenty-seventh Street, and a contract to the National Construction Co. for the erection of a saloon building at 11 North Third Street. A description of these buildings has been given in previous numbers of this journal.

Robert K. Marple, architect, 708 Walnut Street, has completed plans for nine fine three-story houses, to be erected at Thirty-fourth and Spring Garden Streets, for W. T. Gabel. These will be of press brick, stone trimmings and fitted with porches to each in front and rear, interior will be in hard wood, electric work, tile and copper shingles. Two others will be built on Spring Garden above Thirty-fourth Street, and three smaller on Rockland above Thirty-fourth Street. Same architect has made plans for thirteen houses for George Ross, builder, to be erected on Springfield Avenue, Forty-fifth Street and Baltimore Avenue. These houses are to have stone porches in front, first floor in hard wood, skylight in dining rooms, electric work, and best of sanitary plumbing, etc.

Frank Miles Day, architect, 925 Chestnut Street, having completed all plans for the new house and stable of C. W. Berger, at Ambler, Montgomery Co., Pa., they have been approved by the owner and will now be placed for estimates. Some few changes have been made since our previous announcement of them in a previous

issue of this journal. They now contemplate a building, three stories high, of stone from Jenkinsburg quarries, trimmed with Indiana limestone. Cedar shingles will be used for roofing of both structures. All the beautiful porte-cochères and terraces surrounding the house and grounds will be retained, and, when finished, will possess every comfort and convenience of the present day.

Bailey & Truscott, architects, have completed plans for a new home for the training in speech of deaf children before they are of school age, on a plot of ground donated by Col. Joseph M. Bennett, at Belmont and Monument Avenues. The structure will be three stories high, of Pompeian brick, with a green slate roof, and surrounded by a large porch on first floor, which will be enclosed in glass, and will be utilized as a play room, and will be heated during the winter months for that purpose. The first floor will be divided off into office, dining room, night nurseries, a kitchen, laundry and drying room in basement. The second floor will have training nurseries, additional night nurseries, teachers' rooms, toilet rooms, etc., while the third floor will be for day nurseries, a large sick room, which will be isolated with a separate entrance and exit, a tank room, servants' room, etc. The heating and ventilation will be by a thorough and good system; pumping engines will be placed for power; also the best of sanitary plumbing and drainage will be adopted. This will be in a word one of the most comfortable and complete institutions of the kind in this country. Governor Pattison, S. Edwin Megargee, and Miss Mary L. Garrett are the commissioners of the school.

At the Academy of the Fine Arts at present there is an exhibition of architectural drawings with a view of showing the efficacy of instituting a traveling scholarship competitive contest among the various architectural students of this city. For years past Boston and New York have been doing this, the Rotch scholarship of the former city being the older. The present of the School of Architecture of the University of Pennsylvania. It is their intention to establish a scholarship in Philadelphia, for which clever students can compete, and in this way one of the city's ambitious scholars each year may receive the benefits of a tour among the rich architectural fields of Rome, Venice, Florence and other ancient cities. Many exceedingly clever sketches are exhibited, among them works by the following who have received the scholarships in years past: Henry Bacon, Mr. Spencer, S. W. Mead, G. F. Newton, Austin W. Lord and H. Kahn. Among the cleverest of the exhibits may be mentioned the large water color, "Library of St. Mark's, Venice," by Mr. Mead; Mr. Newton's "Chateau de Chenon-Caux," also a water color, and a Salon picture, "Mantel in the Cluny Museum, Paris," by the winner of the scholarship in 1888, Mr. Lord.

The Building Committee of the Mercantile Club has decided to invite plans for its new club house on the ground recently purchased at 1422, 1424 and 1426 North Broad Street, for \$120,000, from the following architects: Frank Miles Day & Bro., Furness, Evans & Co., Baker & Dallett, Will H. Decker, Hazlehurst & Huckle and Wilson Brothers & Co. It is expected that the cost of the buildings, including the purchase money, will run up to \$400,000, and therefore considerable interest enters into the competition. The new club house is to be built along the Broad Street front of the property and is to include a building containing a theatre, banquet hall, kitchen and all necessary accessories, together with a basement containing boiler house, machinery hall, dynamos, etc., to be located along the northerly line of the property, and running east and west toward Carlsile street. This building is to be detached from the club house by a light court. The theatre and banquet hall will be for the use of the club and its entertainments, and also for the use of the public who may desire to rent them for theatrical performances and entertainments. Both buildings are to contain all modern improvements essential to the purpose for which they will be devoted, and are to be heated by steam and lighted by electricity and gas. The banquet hall will be of sufficient size to accommodate 1000 people, with large pantries for crockery and silverware, steam tables, carving and serving room, etc., all connected with the kitchen on the same floor. The theatre is to be above the dining hall, and will have a capacity of 1200 people, including boxes and gallery. It will also contain necessary reception and dressing rooms. It is designed that the basement shall contain a bowling alley, platforms for spectators, buffets and accommodations for serving refreshments, etc. Also a billiard room and a "Kneipe," so arranged as to permit its forming part of the summer garden by opening towards it. The first or main floor will contain a reception room, office, a large cafe for gentlemen, and large restaurant for ladies and gentlemen, ladies' parlor, ladies' boudoir, hat and coat rooms, etc. The second floor will contain the directors' room, committee room, library and reading room, private dining room, card and chess rooms, etc. On the third floor there is to be a series of card and chess rooms, all connected by sliding doors, so that they can be readily thrown into one room, if necessary. The fourth floor will be occupied by a gymnasium, bath and dressing rooms. It will also contain the every-day club kitchen, equipped for the club requirements, together with the necessary laundry, ice house, refrigerators, caterers' apartments, servants' rooms, toilettes, etc. The Mercantile Club has a membership of more than 500. Its present quarters are at 864 North Seventh Street. The officers are: President, Thomas Jonas; Vice President, Clarence Wolf; Treasurer, Benjamin F. Teller; Secretary, Aaron E. Greenwald. The Building Committee expects to have the plans in hand from the various competitors early in the summer, and work on the buildings will be commenced soon after.

JOHN N. GALLAGHER, Proprietor.  
JOHN F. BRISBANE, City Editor.

PHILADELPHIA, WED'Y, MAY 25, 1892.

The newspaper guests of the Philadelphia and Reading Railroad Co., who were taken to Gettysburg last week, have every reason to congratulate themselves on being the recipients of such unbounded hospitality. From start to finish nothing was left undone to insure the pleasure of the party, and, as a consequence, the trip will long be remembered by those fortunate enough to have been of the number. Luxurious coaches, rapid transit, unexcelled commissary department, together with the opportunity of seeing the historic field of Gettysburg, were a few of the many enjoyable things that made the trip memorable. The first stop after leaving Philadelphia was made at Klappenthal, situated on the side of the Neversink Mountain, and commanding a magnificent view of the city of Reading and the surrounding country. A fine pavilion has been erected here and other improvements made by the road to adapt its many natural advantages to the uses of a resort for picnics and tourists. In fact, all along the route evidences were not wanting of the spirit of enterprise in improving and equipping the road to the highest degree of excellence possible. One day was devoted to an examination of the battle field under the guidance of John B. Bateholder, the Government Historian of Gettysburg, and Mr. Minnick; and this, with a reception tendered by the citizens of Gettysburg and numerous other courtesies, filled the entire time at the disposal of the excursionists. It is only fair to add that much of the success of the excursion was due to the indefatigable efforts of Charles R. Deacon, press agent of the road.

### American Tin Plate Made by Machinery.

A company has been formed for the purpose of manufacturing tin plate by machinery invented by Samuel Y. Buckman, of this city. The title of the company is The American Tin Plate Machine and Manufacturing Co. It is claimed for the invention that the highest grade of tin plate can be made from black steel sheets now made at Pittsburgh. These sheets are 8 feet long and 20 inches wide, which after being cleaned and trimmed are soldered together, making a

long roll, which is afterward cut into any length desired, the entire work being done by the machine. Clarke Merchant is a director of the company.

Mr. George L. Crawford has just been elected a Vice-President of The Equitable Trust Co., 624 Chestnut Street, to succeed Hon. George M. Dallas, who recently resigned because of his appointment as Judge of the United States Circuit Court. Mr. Crawford, who has also been elected to succeed Judge Dallas as a member of the Board of Directors, was formerly a law partner of Judge Dallas, the firm being Crawford, Dallas & Loughlin. The officers of the company are now as follows: President, William F. Harry; Vice-Presidents, George L. Crawford and Daniel Donovan; Secretary and Treasurer, Frank J. Johann; Trust and Title Officer, Thomas Robins.

The Joseph Dixon Crucible Co., Trenton, N. J., has issued a finely illustrated and useful catalogue, descriptive of the company's graphite productions. These include so many useful and well-known articles from roof paint to drawing pencils, that a careful perusal of the catalogue is recommended to all those contemplating the purchase of anything in that line.

### Architect Notes.

There was a meeting of architects in the office of John Ord, at the City Hall, on the 18th inst., to consider the matter of the plans for the Bourse Building, some objection having been made to the propositions of the Building Committee in that regard. After some discussion a lengthy preamble and resolution, expressing dissatisfaction with the rate of compensation proposed for preparing the plans, was adopted. The paper also incidentally objected to the employment, by the Bourse, of an engineer to revise and adjust the plans of the architects. It was agreed to appoint a committee to wait on the Bourse Building Committee and arrange a satisfactory schedule. The meeting was made up of a very fair representation of the architects of the city. What the outcome of their action will be is not known, but it is thought in some quarters that their remonstrance may lead to the inviting of architects from other cities to bid on the work.

Jno. T. Windrim, architect, 132 South Third Street, acting for his father, James T. Windrim, Director of Public Works, has purchased a property on Walnut Street, north side above Eleventh Street, next door to Augustine's, and in connection with the purchase has made plans for the erection of a six-story office building. It will have a front of 40 feet and depth of 133 feet. The material will be in front Pompeian brick, trimmed with stone and terra cotta work. The main entrance will be a large hall, marble lined and iron door on outside, wood on interior. The basement will contain steam power, electric appliance, and an elevator or two will travel from cellar to roof. The building entire, except the sixth floor, will be fitted in offices to let, and the latter will contain the architectural rooms and private offices of Mr. Windrim and assistants. No expense or pains will be spared to make this a model structure of the kind. It will be named "The Hamilton."

### Building and Real Estate Notes.

The Lutheran Church of all Saints, Rev. F. P. Manhart, pastor, has purchased a lot for \$9000.

The Bethesda Baptist Church, Eighteenth and Columbia Avenue, will be improved somewhat by a new ceiling and an extension of the galleries and pulpits.

John R. Wiggins, contractor, 1635 Seybert Street, has been awarded the contract to erect the Columbia Avenue Presbyterian Church, at Twenty-first and Columbia Avenue.

Samuel Hart, contractor, will erect a two-story brick and iron conservatory in rear of the residence of P. A. B. Widener, Broad and Girard Avenue. Work to start at once.

Bids are being invited on the work for the Frankford Avenue Y. M. C. A. house described in a previous issue of this journal after plans by Messrs. Hazelhurst & Huekle, architects.

At the Great Council, of Pennsylvania, of the Improved Order of Red Men, held at Reading, Pa., last week it was recommended that a new hall be erected in Philadelphia, to cost, not less than \$75,000.

Wm. R. Dougherty, contractor, 1604 Sansom Street, will erect the Dog Hospital which is to be erected at Thirty-seventh and Pine Streets. It will be one-story high, brick and stone, and cost about \$15,000.

At an early day it is understood Mr. George C. Boldt, proprietor of the Hotel Bellevue, will enlarge it by the addition of several stories. Plans or preliminary sketches are being considered relative to the work.

Stacey Reeves & Sons, 1611 Filbert Street, Philadelphia, have received a contract to erect a chapel in connection with the House of crippled children on Baltimore Avenue. This is the gift of Col. Jos. M. Bennett.

Jacob Marsch, builder, 2825 Germantown Avenue, is about to erect sixteen two-story houses on east side of Ormes Street, north of Indiana Avenue. These will be of the press brick, stone steps and trimmings, with best interior accommodations.

Jos. W. Richardson & Son, builders, 2549 East Norris Street, will erect about forty houses, two and three stories high, at Montgomery Avenue and Vienna Street, also Belgrade and Gaul Streets, all to be of best grade of press brick, stone trimmings and modern conveniences.

Stacey Reeves & Sons, contractors, 1611 Filbert Street, has been awarded the contract to erect the new tin factory of N. & G. Taylor Co., at Meadow and Tasker Streets, and will begin work at once. The structure and its prospective output of material have been fully noted before.

James H. Stevenson & Son, builders, Thirtieth and Diamond Streets, continue their operations by erecting twelve three-story houses on Diamond east of Thirty-first Street, and thirteen, two stories each, on Ridge Avenue, south of Susquehanna Avenue, all to be of fine press brick and stone trimmings, with best modern conveniences on interior.

Jno. M. Sharp, builder, 193½ South College Avenue, has purchased the ground and buildings of the House of Refuge, bounded by Twenty-second, Twenty-fourth, Poplar and Parrish Streets, and will ultimately demolish the present structures to erect a full block of fine houses of a handsome style.

The action of the Grand Lodge of Odd Fellows, at Sunbury, recommending the appropriation of the surplus fund to the erection of the new Odd Fellows' hall at Broad and Cherry Streets, this city, practically guarantees the early commencement of operations. The plans for this handsome building have been described. It is estimated that it will cost \$400,000.

The Library Committee of the Board of Education has decided to ask the Legislature of this State to make an appropriation for the purpose of erecting and establishing a large Central library with branches at different localities throughout the city. City Councils have started the project already by an item of \$15,000 in the distribution of educational funds.

At a recent meeting of the Board of Fire Escapes it was decided that the Board had full authority to order fire escapes. The Fire Marshal ordered two additional escapes to be placed on the store of Homer, LeBoutillier & Co., at 1412-14 Chestnut Street; also an additional escape on the National Publishing Co.'s building, on Cherry Street, west of Seventh Street.

Charles Auchter, 1523 North Twenty-seventh Street, has been awarded the contract for the erection of Hebron Memorial Church, at Twenty-fifth and Thompson Streets, by Architect Franklin J. Stuckert, 524 Walnut Street. The same architect has awarded the contract for St. Stephen's Evangelical Church, at Atlantic City, N. J., to Frank A. Souder, of that place.

Jno. M. Sharp, builder, 1936 South College Avenue, owner of a number of handsome houses on Chestnut Street, east of Twenty-third, will, during the Summer, transform them into an apartment house to be known as "The Rittenhouse," and will be managed by Mr. William Neil, formerly of the Hotels Bellevue and Stratford. All modern conveniences will be introduced, electric work, elevators, dumb waiters, etc.

As indicated by this journal some time ago, the plans, ways and means for reconstructing the Cyclorama building by Mr. Henry Pincus, the indefatigable manager, into a permanent circus were under way. We indicated that the matter had been given into charge of Mr. George Plowman, architect and contractor, 1406½ Chestnut Street. The plans are now almost completed, and the work of construction will be started during the early Summer.

Hoyle Harrison & Kaye, manufacturers of upholstering goods, are about to start one part of the new plant described sometime ago in this journal, from plans by Walter H. Geissinger, architect and engineer, and who will now manage the work of construction. The contract for part of this work will not be awarded until June 1st, and will include the curtain mills, boiler and engine houses and the cotton dye house. The firm is at present running its plant at Third Street and Lehigh Avenue. The new plant entire will be located on the northwest corner of Fillmore Street and Indiana Avenue.

President Foulkrod, of the Frankford and Philadelphia branch of the Reading Railroad, says operations upon the road will be started about August 1, 1892, and the effect will be to open up thousands of acres of farm land to builders of homes just west of Frankford. It is also indicated that the depot will be erected on Frankford Avenue, above Unity Street, and will occupy a space 95 x 240 feet. The building will be a fine one and possess all conveniences. The company has just purchased three new pairs of twin cottages, which will be taken down to obtain a right of way. This will be done by the proprietor, Abraham T. France.

### Through Pennsylvania.

*When any of the following are not post office towns they will be so designated.*

—At Preston, Wayne Co., there is some talk in favor of a water works system.

—At Milton, Northumberland Co., John R. Keeler will erect a dwelling during the Summer.

—At Shenandoah, Schuylkill Co., at an election, to be held next month, the water works question is to be decided.

—At Beaver Meadows, Carbon Co., an addition will be erected to the Patterson House. Veal Bros. are the contractors.

—At Gulf Mills, Montgomery Co., the Gulf Brewing Co. is having plans and specifications prepared for new buildings.

—At Oakdale, Delaware Co., on account of the crowded condition of the school, the Board has decided to erect an addition.

—At Dawson, Fayette Co., Bert Forsythe is having a dwelling erected on Laughlin Street. Ruse & Son are the contractors.

—At Ohiopyle, Fayette Co., the Methodist Episcopal Congregation has decided to erect a handsome church edifice the present season.

—At Lansdale, Montgomery Co., the opera house and a number of business houses were destroyed by fire last week at a loss of about \$30,000.

—At Lehigh, Carbon Co., work has begun on the addition to Trinity Lutheran Church at Third and Iron Streets. It will be used as a Sunday school room.

—At Latrobe, Westmoreland Co., the contract for the addition to the parochial schools has been given to Kuhn Brothers. It will be of brick, two stories high and 38x40 feet.

—At Point Marion, Fayette Co., the old Hill homestead known as Cheat River Repose, a few miles above Point Marion, has been leased by John Boone and will be converted into a summer resort.

—T. W. Perry, Secretary School Board at Strickersville, Chester Co., can give information regarding the erection of a school house. Bids for the same will be received by Mr. Perry until Saturday, May 28th, 1892.

—At Erie, Erie Co., John Carney, Mrs. Caghey, Edward Beringer and M. O'Connor will have dwellings erected. James Leach is the contractor.—John Zurl will erect a dwelling. W. Brindle, contractor.

—At Scottdale, Westmoreland Co., the question of the location of a tack and nail factory is being agitated, and a proposition has been made that if five thousand dollars be raised by the citizens, the plant will be located.

—At Spring City, Chester Co., ground has been broken on Washington Street for the erection of a double brick house for H. J. Diehl & Brothers.—Harry Spotts has the contract to erect a double brick dwelling for Joseph Hetrick.

—At Castanea, Clinton Co., the County Commissioners have decided to have a bridge constructed to span Bald Eagle Creek. It will be of iron, and the Commissioners will advertise for bids when plans and specifications have been prepared.

—At Mechanicsburg, Cumberland Co., S. M. Hertzler, of Eberly's Mills, Cumberland Co., reports that only a small sum of the \$100,000 necessary is wanting, with which to construct the motor line between Mechanicsburg and Harrisburg.

—At Lebanon, Lebanon Co., the Building Committee having in charge the erection of a new school house on Thirteenth Street has decided to ask for competitive drawings. H. A. Roby, E. C. Euston, Harvey T. Hauer and A. A. Ritcher are expected to compete.

—At Lancaster, Lancaster Co., the contract for the 15,000,000 gallon reservoir to be constructed, has been awarded to S. W. Frescolin of New York for \$64,000. The Worthington Pump Co. has received contract to furnish a 10,000,000, gallon pump for \$38,000.

—At Uniontown, Fayette Co., a tract of land on the mountain side east of the town has been purchased by Samuel Magie, the liveryman, who will convert it into a Summer resort. A number of cottages will be erected and macadamized driveways constructed.

—At Swarthmore, Delaware Co., a handsome dwelling will be erected by Henry T. Paiste. It will be of stone, handsomely finished on interior and fitted with modern conveniences and improvements. It will adjoin the dwelling recently erected by Dr. William Speakman.

—The County Commissioners of Montgomery Co. have decided to have two bridges erected during the present season. One will be located near Haring's Hotel, between Pennsburg and Milltown, over Perkiomen creek, and the other will span Swamp creek, near Summeytown.

—At Norristown, Montgomery Co., Council has voted to expend about \$50,000 on various city improvements. Among these will be improved paving on a number of streets, including Main and DeKalb Streets, on which block pavements will be placed. The system of lighting by electricity will also be improved.

—The Commissioners of Westmoreland and Fayette Cos. have decided to erect a bridge to span Jacob's Creek at Everson. It will be of iron and the span will be 54 feet.—The contract for the new Polish church, to be erected at Everson, has not yet been let and it has been decided not to let for some time.

—At Reading, Berks Co., a double residence will be erected by S. C. Snyder. There is considerable talk of erecting a market house, and the property of Mrs. John E. Wooten has been suggested as a site. J. R. Ritter, a prominent contractor, is interested in the project. The estimated cost of the building is about \$15,000.

—At Scranton, Lackawanna Co., the station house will be remodeled. Council has made an appropriation for the purpose.—A resolution was adopted directing the city engineer to prepare plans, specifications and estimate of cost for flagstone sidewalk on Penn Avenue, both sides. Also to prepare plans for grading Oak Street, between Church and Wayne Avenues.

—At Bellevue, Fayette Co., an effort is being made to raise the necessary amount for the construction of a bridge across the Monongahela river at that point. All of the amount, with the exception of about \$10,000, has been raised.—A number of citizens have organized a company for the purpose of building water-works and putting in an electric light plant. A charter has been applied for.

—At McKeesport, Allegheny Co., St. Mary's congregation will erect a new church, and want plans for the same. Rev. Lawrence Poell will give all particulars if addressed. Ten thousand dollars has been thus far pledged toward the securing of a site for the erection of a handsome building by the Y. M. C. A.—The fund for the erection of a soldiers' and sailors' monument now amounts to \$1239.75, and the committee hope to have the full amount required raised by July 4th.

—At Wilkesbarre, Luzerne Co., there is considerable talk of a large hotel building, the present facilities being entirely too meagre. Captain Zeigler, of the Luzerne House, is interested in the project and is looking for a suitable site, and it is said negotiations are in progress with John C. Phelps and George S. Bennett for the present Luzerne Hotel property, which in case of being consummated would be made into a much larger building and fitted with all modern conveniences and improvements.

—At Harrisburg a resolution was adopted at the last meeting of the State Medical Society to petition the Legislature next Winter to establish an additional institution for feeble-minded persons in Western Pennsylvania, so as to relieve the institution at Elwyn, Pa., which is much overcrowded.

—At Chester, Delaware Co., work will soon begin on the new law building, to be erected by Messrs. Broomall and Black, on East Fifth Street. The plans, which have been drawn by P. A. Welsh, of Philadelphia, call for a building three stories high, 43 x 100 feet. The front will be of press brick, Hummelstown brown stone and granite columns. The entrance will be double and open to a corridor, extending the full length of the building, with offices to the number of sixteen opening into it from the first and second floors. The third floor will be fitted up for lodge purposes. Steam heat, sanitary plumbing and electric lights will be introduced. The interior finish will be of hard wood. J. Jackson & Son, of Chester, are the contractors. The building is to be finished by October 1st.

—At Royersford, Montgomery Co., six double brick dwellings will be erected on the Boulevard by S. B. Latshaw.—Councilman Daniel Springer has broken ground for a large dwelling on Main Street. The first floor will be fitted up for stores and the third for lodge rooms. The building will have a frontage of 60 feet.—A three-story brick building will be erected for Alex. Thoss, the jeweler on Main Street. The plans are being prepared by Borough Surveyor Horace G. Ellis.—Three lots have been sold on Church Street to George W. Moyer of Limerick Township. The sale was made by Benjamin B. Brant.—Work has begun on dwellings to be erected for John Ziegler and Abraham Lewin.—The dwellings to be erected on the Boulevard by S. B. Latshaw will be erected from plans prepared by contractor Pennypacker. They will be handsomely finished. The estimated cost is \$24,000.—Harry Harley will erect a dwelling on Walnut Street, near Ninth Avenue.

—At West Chester, Chester Co., Harry S. Johnson has bought a lot in Roselyn from the West Chester Land and Improvement Co. Mr. Johnson, who is the steward of the State Normal School, will improve the site by the erection of a dwelling at an early day. The sale was made by Thomas H. Darlington.—Work will be begun in a short time on the building to be erected by the State Normal School for the purpose of an infirmary. The bids for the erection will be received until Thursday May 26th by J. Preston Thomas, Chairman of the Building Committee, at the school. See "Want" column.—A meeting in the interest of establishing a hospital was held with Captain R. T. Cornwell as chairman. After considerable discussion, it was decided to appoint a committee to take the matter in hand and to aid in the work of securing subscriptions among those interested are Rev. G. Heathcote Hills, Hon. William Waddell, James Monaghan, Esq., and Dr. J. T. Rochrock.—Frank Grubb has made preparations to erect three dwellings on Chestnut Street. A stable will also be erected in the rear of one of the lots.—The Board of Trade has under consideration the establishing of a shirt factory by a Philadelphia firm represented by James Cornog of Philadelphia.

#### Through New Jersey.

At Manasquan, Monmouth Co., a new bridge will be erected at Eighth Avenue.

At Greenville, Jersey City P. O., the Rent Security Co., of New York, has sold ten lots on Danforth Avenue for \$8000.

The World's Fair Commissioners have accepted the plans of Charles Allen Gifford, of Newark, N. J., for the state building at the Chicago Exposition. It will be a reproduction of Washington's headquarters, at Morristown, N. J.

At Burlington, Burlington Co., John Atkinson has made arrangements for the erection of a large brick stable. It will be handsomely furnished and fitted with modern conveniences.

At Bayonne, Hudson Co., a dwelling will be erected for Mrs. N. M. Roberson, on West Eighth Street, to cost about \$4000, from plans prepared by W. J. Havell. H. H. Driggs will have a cottage erected from plans prepared by the same architect. The estimated cost is \$3000.

At Camden, the documents have been filed giving awards of lands to be acquired for the purpose of a public park. Wilbur F. Rose and Thomas A. Wilson estimated the value of the land at \$226,875, and John Hood, the mint commissioner placed the value at \$154,834.—The contract for the erection of the annex to the Broadway Methodist Church has been awarded to William Severns for \$24,900. Work will be begun at once, so as to have the edifice enclosed by cold weather.

At Atlantic City, extensive alterations will be made to the Cambridge Hotel, and the name will be changed to Hotel Koopman, after J. B. Koopman, the proprietor. The improvements will cost about \$15,000, and will include a remodeling of the exterior, with many interior alterations and improvements. The plans are being prepared by Charles H. Israels.—The Tremont Hotel has been purchased by Walter Zimmerman, of Camden, N. J., who will make a number of improvements and offer it for sale.

At Englewood, Bergen Co., W. J. Havell has prepared plans for a dwelling to be erected for M. J. Bogert, to cost about \$3500. It will be two stories high, of frame and shingle, and the dimensions will be 40 x 42 feet. The same architect has prepared plans for a frame horse paddock, 18 x 124 feet, for C. Feigenspan, of Short Hills, N. J. The cost will be \$3000.—No plans have as yet been selected for the erection of the new church, to cost about \$40,000, for the Saint Paul's Protestant Episcopal Church congregation.

#### Through Delaware.

At Wilmington, the Wilmington Coal Gas Co. has purchased the property No. 827 Market Street for \$13,000, and will use the site upon which to erect a handsome new building for the use of the company. It will be of brick, three stories high, handsomely finished on the interior and fitted with modern conveniences and improvements. The plans have been prepared by Baker & Dallet, Phila.—The Bridge Committee of the Levy Court will consider the two sites offered for the proposed bridge to span the Brandywine. The sites are at Warrington and Broome Streets respectively, and whichever one is chosen, the Water Department has offered \$10,000 for the privilege of carrying its water pipes under the bridge. In either case a handsome boulevard will be constructed to approach the bridge.

#### Through Maryland.

At Cambridge, Dorchester Co., it has been decided to put in a system of water works, at an estimated cost of about \$50,000.

At Arlington, Baltimore Co., Charles G. Hill, Henry F. New and others have incorporated the West Arlington Water Company, with a capital stock of \$50,000, for the construction of a water works system.

At Baltimore, at a recent meeting of the West Arlington Improvement Co., at the office of Messrs. Payne & Fleck, Messrs. Widener & Elkins, of Philadelphia, were also elected directors of the company, and the following officers elected, David M. Newbold, president; Charles E. Savage, vice president; Henry F. New, treasurer; J. H. M. Payne, secretary and James W. Flack, general manager. The developments already commenced will be continued, and with new life and capital into the company, rapid progress will be made towards the construction of another suburban town on northern city limits.—Nothing has been

done as yet by the projectors of the Coronet Steel Co. towards securing a site for their proposed plant; though it is expected that a choice will shortly be determined upon, and the preliminary work commenced. The company has a capital stock of \$500,000.—Building permits issued to date are as follows: To J. F. Carter, to erect four three-story brick, and four two-story brick dwellings; to N. L. Dashields, to erect two three-story brick dwellings; to H. Ladensack, to erect a three-story brick dwelling; to John Sinclair, to erect two two-story brick dwellings; to C. C. Waring, to erect nine two-story brick dwellings; to F. Koenig, to erect a three-story brick dwelling; to the Baltimore & Potomac Railroad Co., to erect a brick and stone power house.—The South Baltimore Company has adopted plans for a system of water works for Burtis Bay. Artesian wells and stand pipes will be constructed.

#### Washington, D. C.

The kitchen of the National Homoeopathic Hospital at N and Second Streets, will be remodeled by John Shane, at a cost of about \$1800.—I. M. Dunn has been given the contract to erect two stores, at 1103 and 1105 Fourteenth Street, for Dr. D. W. Prentiss.—D. T. Batson will have a store erected at 620 Seventh Street by Henry F. Getz.—W. Bruce Gray, architect, has awarded the contract to Richardson & Burgess for the erection of a stable and car house, at Eleventh Street and Florida Avenue, for the Belt Line Railroad Co. It will be 200 by about 400 feet, two stories high, and will use about 1,000,000 bricks.—Mrs. Bradey will have a handsome dwelling erected, from plans prepared by F. B. Pyle, Room 86, Washington Loan and Trust Co. Building. It will be of brick, with trimmings of Seneca brown stone, and interior finish of white pine, with hard oil finish and modern improvements. The same architect has prepared plans for a cottage, to be erected at Garrett Park, for Miss Marshall, of the Agricultural Department. Also plans for six cottages, to be erected for the Fostina Improvement Co., at Fostina, near Falls Church, Virginia.—R. A. Golden will erect a dwelling on B Street, from plans prepared by W. J. Palmer, 918 F Street, National Union Building. It will be of brick and stone, galvanized iron cornice, steam heat, cabinet mantels, hard wood interior finish, fine plumbing, etc.—The contract for a number of cottages, to be erected at Chevy Chase, Montgomery Co., Md., has been awarded to J. B. Williamson for \$18,700. The plans were drawn by Lindley Johnson, of Philadelphia. The construction will be under the supervision of Architect Leon E. Des-ey, of Washington.—Plans are being prepared by B. Patrick & Son for an addition to the residence of John R. Carmody at 1220 Sixteenth Street, northwest; steam heat, cabinet mantels, electric bells, etc., will be put in.—William J. Palmer, National Union Building, 918 F Street, has prepared plans for re-modeling the residence of M. Kaufman on D Street, between Seventh and Eighth Streets. A new front will be put in also a new stairway, library, dining-room, tiled bath rooms, cabinet mantels, steam heat, electric bells, etc.—Charles W. Handy will have a residence erected at 1752 Eighteenth Street. The contractor is C. V. Trott. Mr. Trott will also erect a dwelling for himself at 611 Florida Avenue.—J. R. Brooks will erect five dwellings on Florida Avenue.—G. P. Newton has the contract to erect five dwellings on F Street, N. W., between Thirteenth and Fourteenth Streets. Denson & Schneider have prepared the plans.—B. Summons has prepared the plans for two dwellings to be erected on North Carolina Avenue, between Twelfth and Thirteenth Streets for D. B. Gottwalls.—A. B. Bibb has furnished the plans for a dwelling to be erected for J. B. Wight at 1767 Q Street. C. A. Langley is the contractor.—G. D. Harris has had plans prepared by J. C. Johnson for a cottage to be erected on Fort Meyer Heights. It will be two stories high, white pine trimmings, and will cost about \$3000.

**Wants.**

Captain Charles B. Thompson, Assistant Quartermaster, U. S. Army, Sacket's Harbor, N. Y., proposals until June 10, for the construction of certain roads and walks and for the tile draining at Madison Barracks, N. Y.

Sealed proposals will be received at this office until Tuesday, May 31st, 1892, at 7.30 P. M., for furnishing 500 feet of No. 1 rubber hose, for the street department, City reserves the right to reject any or all bids. R. W. Ekin, City Clerk.

Bernard R. Green, Superintendent and Engineer Building for Library, No. 145 E. Capital Street, Washington, D. C., proposals until June 9th for furnishing and delivering the polished plate and double thick window glass required for the book stock windows of the building for the Library of Congress.

Proposals are asked for furnishing all kinds of labor and materials, and erecting the Delaware State Building at Chicago, Ill., at Jackson Park; the building to be fully complete by October 1, 1892. Plans, etc., may be seen in Wilmington, at the architect's office, as also at Builders' Exchange; also at Laurel, Seaford, Lewes, Georgetown, Milford, Wyoming, Dover, Smyrna, Middletown, Delaware City, Newark. New Castle and Delmar. All bids must be addressed to the care of E. L. Rice, Jr., architect, No. 913 Market Street, Wilmington, Delaware, and deposited with him on or before 10 o'clock A. M., June 1, 1892. The Building Committee reserves the right to reject any or all bids. Mark on back of all envelopes, "Proposals to Build Delaware State Building at Chicago." By order of the Building Committee, W. R. Allaband, Chairman.

Department of Public Safety, Bureau of City Property, office, City Hall, Philadelphia. Sealed proposals, endorsed "Bids for repairs to city wharves," and addressed to the undersigned, at his office above mentioned, will be received until 12 o'clock noon, on May 28, 1892, for repairs to Allegheny Avenue Wharf, Delaware River; Noble Street Wharf, Delaware River; Washington Avenue Wharf, Delaware River; Mead Street Wharf, Delaware River; Queen Street Wharf, Delaware River; Chestnut Street Wharf, Schuylkill River, east side; Spruce Street Wharf, Schuylkill River, east side. Separate bids will be required for each wharf. Specifications may be seen at the office of the Chief of Bureau of City Property, City Hall. No bid will be considered unless accompanied by a certificate from the City Solicitor that the provisions of an ordinance requiring proposal bonds when the bids exceed in amount five hundred dollars, approved May 25, 1860 (p. 81 West), have been complied with. The Director reserves to himself the right to reject any or all bids, as he may deem best for the interest of the city. Abraham M. Beitler, Director.

W. J. Edbrooke, Supervising Architect, Treasury Department, Washington, D. C., proposals, until June 3d, for all the labor and materials required for the excavation, foundation, cut stone work and brick work of the basement and area walls, basement columns, first floor iron beams and wood joists, manhole and sewer connections for the United States Post Office Building at Cedar Rapids, Iowa. Also until May 31st, for all the labor and material required for the trench and pit excavation and piling for foundations of the U. S. Post Office Building at Washington, D. C. Also until June 7th, for all the labor and materials required for the trench excavation, foundations, cut stone and brick work of the basement and area walls, and furnishing and putting in place complete the iron columns in basement and the beams and girders for first story floor of the U. S. Post Office Building at Worcester, Mass. Also, until June 15th, for all the labor and materials required for the trench excavation, foundations, cut stone work and brick work, wood floor and roof construction, roof covering, approaches, etc., of the U. S. Court House and Post Office Building at Sioux Falls, S. D. Also until June 10, for all the labor and materials required for the alterations and improvements. Also for repairs and additions to the steam heating and ventilating apparatus, and also for the electric wiring and electric call bell and annunciator service for the U. S. Post Office, Court House, etc., at Syracuse, N. Y.

Mint of the United States at Philadelphia, Pa., Superintendent's Office.—Sealed proposals endorsed "Proposals for supplies of" (naming the class or articles bid for) will be received by the undersigned until the tenth day of June, 1892, at 12 o'clock noon, for furnishing this Mint with the

following named supplies during the fiscal year ending June 30, 1893, namely: Iron, copper, ingot sheet and bar, brass, brass castings, lead, berth zinc, iron castings, anthracite coal (Highland broken, pea and stove), charcoal, American glass, paint brushes, varnish brushes, whitewash brushes, dust and scrubbing brushes, floor sweeps, corn brooms, feather dusters, acids and chemicals lumber, eight-ounce duck, double warp and filling, drygoods, buckskin mitts and gloves, oils and lubricators, namely, cylinder oil, engine oil, red vacuoline, cosmo lubric, or equal to, headlight oil, naptha, seventy-six degrees, lard oil, lard, tallow, fire brick and fire clay, paving brick, stretcher brick, crucibles, hardware, files and rasps, tool handles, Yale locks, plumbers' supplies, with price list and discounts; Wrigley's mineral scouring soap (or equal to), deterative soap, Babbitt's soap powder, sapolio, castile soap, oak wood, crash mitts, leather belting, tinware, chamois skins, rubber goods, specie kegs, sweep barrels, (whisky barrels), ice, paints and oils, putty, sandpaper, emery paper, emery cloth, white rags, white cotton waste, bar sand, lime, Portland cement, sponge packing, vulcabeston, corrugated copper gaskets, candles, haulingashes, between 9 o'clock and 10 o'clock A. M. per load direct from ash pit and other necessary articles to be delivered in such quantities as may be required from time to time. Price lists must show discounts. The right is reserved to reject any and all proposals. Proposals must be accompanied by a bond in the sum of \$2,000, with one or more satisfactory sureties, and must be accompanied by samples of the supplies to be furnished. Schedules of the kind and amount of supplies needed, together with blank bond, will be furnished on application. Parties submitting proposals can be present when they are opened, if they so desire. O. C. Bosbyshell, Supt.

Notice—Sealed Proposals will be received by the Committee on Property, at the office of the Board of Public Education, 713 Filbert street, Philadelphia, until 2:30 o'clock p. m., Tuesday, May 31st, 1892, for the erection of a new Public School house, at the corner of Greenway and Cemetery avenue, in the 27th Section; and for the following repairs. 3d Section—Painting inside, Mt. Vernon School; painting inside, Fletcher School; painting outside, Florence School. 5th Section—New heater, Wharton School. 12th Section—New tin roof, Revoutt School. 16th Section—New tin roof, Jefferson School. 17th Section—Drainage, Webster School. 21st Section—Heating, new addition, Schuylkill School. 22d Section—Heating, &c., Woodbine and Sprague Streets School; painting outside, new bookcase and new treads to stairs, Grammar School; painting inside, Central School; new floor, Rittenhouse School; new fence, Schaeffer School; painting railing, Mt. ## These Ranges and Heaters

Represent the highest possible type of mechanical and scientific construction. For reliability and durability they are positively without a superior, they truly represent the minimum of cost and the maximum of quality.

The small size of the **PROMPT RANGE** is just the thing for Builders of small Houses. It is compact in form and possesses all the advantages and requisites of the larger size. Builders, Owners and Agents having charge of properties should inspect these Ranges and Heaters before ordering.

For sale by all Dealers. They can be seen at the Company's Ware-rooms.

123 N. 2d St., Philadelphia.  
17 E. Lombard St., Baltimore, Md.

The Prompt Range.  
2-Sizes.

The High Base Home Heater.

Lawrence Boell, pastor of St. Mary's congregation at McKeesport, Pa., wants architects to submit plans and drawings on or before June 15, for a new church building. The plans not approved will not be paid for. For further particulars address the pastor.

W. H. Gilbert, Mayor of Albany, Ga., proposals until June 11th, for 1150 tons cast iron water pipe and specials, 4 inches to 12 inches diameter; 88 valves, 4 inches to 12 inches diameter; 80 hydrants; 25 tons soft American pig lead; 80 extension valve boxes.

R. A. Chafee, Mayor of Aiken, S. C., wants to grant the franchise for construction and operation of a water works system, under the most liberal conditions. Supply from spring, one and three quarter miles from city; estimated flow, 800,000 gallons per day.

D. C. Bascom, president Board of Water Commissioners, Ticonderoga, N. Y., proposals until June 10, for furnishing material and construction of the water works complete. The works are gravity, and consist of a reservoir, conduit and distribution system, all let in one contract; about eight miles of pipe.

Sealed Proposal for Building a School House at South Bank, London, Britain township, will be received until May 28 (twenty-eight), by the Secretary, where plans and specifications can be seen. Bids to be opened on Thursday, June 2, at 2 p. m. at West Bank School House. T. W. Perry, Secretary Board, Strickersville, Chester Co., Pa.

Acqueduct Commissioners, Office Room, 207 Stewart Building, No. 280 Broadway, New York, bids or proposals will be received until June 15th., for doing the work, and furnishing the materials called for in the approved form of contract, now on file in the office of the Commissioners, for building the new Croton Dam, at Cornell site, on the Croton River, in the Town of Cortlandt, West Chester County, N. Y.

The Trustees of the West Chester State Normal School invite proposals for the erection of an Infirmary, plans and specifications of which can be seen at the school. Bids must be sent to the undersigned care of Normal School, West Chester, Pa., on or before Thursday, May 26 (twenty-six). The right is reserved to reject any or all bids. J. Preston Thomas, Chairman of Building Committee.

Bids will be received for erecting a manufacturing plant for the Hall Signal Co., at Garwood, N. J., either at their office, 50 Broadway, New York, or at their architect's office, New Britain, Conn. Plans and specifications are on file at both places. Bids must be received on or before 12 o'clock noon, May 31, 1892. The right is hereby reserved to reject any or all bids. Each bid will include all the work called for. The Hall Signal Co., 50 Broadway, New York, N. Y. W. H. Cadwell, 259 Main Street, New Britain, Conn.

Constructing earthen dikes.—U. S. Engineer Office, 1428 Arch Street, Philadelphia, Pa. Sealed proposals, in duplicate, will be received at this office until 11.30 A. M., Monday, June 6, 1892, and then opened, for constructing earthen dikes at the mouth of the Schuylkill River, Pa. The attention of bidders is invited to the Acts of Congress, approved February 26, 1885, and February 28, 1887, Vol 23, page 332, and Vol 24, page 414, Statutes at Large. For all information apply to C. W. Raymond, Major, Corps of Engineers, U. S. Army.

N. H. Farquhar, Chief Bureau Yards and Docks, Navy Department, Washington, D. C., proposals until July 5th for the construction of one dry dock, 605 feet long, with 30 feet draught of water, with a body of timber and entrance of concrete and masonry, together with pump-house, pumping plant, floating gate, culverts and all other work pertaining thereto, in accordance with plans and specifications, which can be seen at the department or the office of the commanding officer of the Puget Sound Naval Station, at Sidney, State of Washington.

## A Few Quiet Words with House Builders and Owners.

If the kitchen of your house is small, you need to economize room. You can do this by using a range with elevated boiler, such as the

### "FIDELITY."

It will reduce the cost of plumbing also. We make them with seven inch or eight inch boiler holes, ovens on right or left of fire, with or without hot closets, and also to heat an upper room. Splendid bakers. Hot water in abundance. The latest and best of their class.

Excelsior Double Oven Range.

Whether large or small, your house will require a heating apparatus of some kind. It will pay you to put in a *really good* hot air furnace. The

### "PARAGON"

has no superior. Perfectly self-cleaning, with fewest joints, free from dust and gas, largest radiating surface, heavy steel plate, drum casings, easy on fuel, and of superior durability, it will always give satisfaction. A descriptive circular will be mailed upon application.

FIDELITY HOT AIR RANGE WITH HORIZONTAL BOILER.

If the kitchen is roomy and large, cooking capacity is sought. You will want a brick-set range with a vertical circulating boiler, set in the usual way. The

### "EXCELSIOR RANGES"

are acknowledged all over Philadelphia, in which city and vicinity some 75,000 have been sold as the standard brick-set range. They are furnished with ventilated ovens, oven-door pedals, rocking grates, and all modern improvements. Made in seven and eight inch sizes; single, double and hot-air ranges. Send for descriptive pamphlet, entitled "PERFECT COOKING."

MANUFACTURED BY

ISAAC A. SHEPPARD & CO.,

N. E. COR. FOURTH STREET AND MONTGOMERY AVENUE, PHILADELPHIA, PA.

And for Sale by all Responsible Dealers.

PARAGON FURNACE WITH EQUALIZED DRAFT.

# DID YOU EVER EAT AT BOOTHBY'S Great Chestnut St. Restaurant?

If you have not, you can form no proper idea of its size, beauty and facilities. Its corps of superintendents, chefs and assistants, waiters and supernumeraries number over 100. Its seating capacity is over 1300, and every guest is made comfortable, besides receiving prompt and careful attention. Its menu embraces everything in season. The cooking represents the best efforts of prominent chefs, whose skill has given the place a national reputation. The prices are moderate and the service is unexcelled. OYSTERS ARE THE GREAT SPECIALTY. The Ladies' Restaurants are retired, light and elegant. For a social meal or a light lunch, you are recommended to

BOOTHBY'S, 1231, 1233 AND 1235 CHESTNUT STREET.

OYSTERS WHOLESALE, 307 SOUTH FRONT STREET.

## JUDGMENTS.

## PHILADELPHIA.

## ABBREVIATIONS.

Where there are no figures to indicate the amount of the judgment, the damages have not been assessed.

The name first mentioned in each line is that of the judgment debtor.

A star (\*) denotes judgment confessed or bond and warrant conditioned.

The figures 1, 2, 3 and 4 immediately after the name of the plaintiff indicate the number of the Court. The term of the Court is indicated as follows: D, for December Term; M, for March Term; J, for June Term and S for September Term.

**Architect Notes.**

Moses and King, architects, 431 Walnut street, Phila., have prepared plans for a school house to be erected at Glassboro, N. J., which will cost about \$18,000.

Will H. Decker, architect, Hale Building, Chestnut and Juniper streets, Phila., has made plans for a store and dwelling to be erected on Island Belle Road in the 27th Ward, structures will be of brick and stone with best of modern conveniences.

Herbert P. Onyx, architect, has prepared plans for additions and alterations to 1010 Walnut street, Phila. These consist of a new stair case also new toilet rooms and an entire new annex in rear of main building. The contract has been given to Lawrence O'Brien of Germantown.

Addison Hutton and Company, architects, 400 Chestnut street, have completed all plans in detail for the addition of two stories to the Wood Building at Fourth and Chestnut streets and will likely place the drawings for estimate at an early day. These will be in conformity with the present building in design and material.

Romulo Vasquez, architect, Holmesburg, Pa. has made plans for the new opera house to be erected in that town. The structure will be three stories high of brick and stone construction. The first floor will be for stores and free library, the auditorium will be upon the second, and the third will be fitted up for society purposes.

Otto C. Wolf, 1345 Arch street, Phila., has been engaged by the F. A. Poth Brewing Company to

prepare plans for extensive alterations and additions to the present plant at Thirty-first and Jefferson streets. Three additional stories will be put on the brew house on North side of Jefferson street, which will be used for cold storage purposes, and the malt house on the South side of Jefferson street will be altered and fitted for brewing purposes. Two new kettles will be required. The cost of improvements will be about \$100,000.

Minerva Parker, architect, 14 South Broad street, Phila., is engaged in securing bids upon the "New Century Club House," which will be erected in Wilmington, Del., the above being limited to builders and contractors of the above city. The plans have been fully described in this journal. The same architect has prepared plans for a new factory building for Guano & Raggio to be erected at 7th and Marriott streets adjoining their present plant 48 x 70 feet, four stories high, slag roof, and wall to be of brick, stone trimmings, interior will be fitted with freight lifts, toilet rooms, also a stable will be upon ground floor of the same building, also steam power, heat, and machinery.

It has been decided by the Board of Directors of the Pennsylvania Railroad branch of the Young Men's Christian Association to accept the plans prepared by architect Thomas P. Lonsdale, Manhattan Life Building, 4th and Walnut streets, Phila. The structure will be erected at the corner of 41st street and Westminster avenue, and will be 45 x 150 feet in area, three stories high and a basement. A porch will be placed on the South, and the main entrance on 41st street which will be very ornate, with a handsome bay window over top. The basement will contain a

gymnasium 45 feet square with a large plunge bath, shower bath, etc., also a restaurant, heating and lighting plant, the first or ground floor will contain offices, reception room, a large hall to seat 900 persons, with a stage in rear. The second floor will be fitted with a lecture room, director's room, and committee rooms. Roof will likely be of slate. All improvements and comforts will be introduced so as to make this a model institution. As soon as all the detail drawings are complete estimates will be invited upon work of construction.

Frank R. Watson, architect, 518 Walnut Street, has completed plans in detail for the erection of the Reformed Episcopal Church of Our Redeemer, at Sixteenth and Oxford Streets. These contemplate a brick structure with terra cotta ornamentation, slate roof, and copper and tin spouting, etc. A large tower with ornate trimming will stand at one end. The interior will be fitted with open timber work and seating of the best. Mode of heating not definitely fixed upon. Electric work will be introduced throughout the structure, which will be two stories high. The Sabbath school will occupy the first floor with lecture and vestry rooms, etc. Also, plans for a new store and business building to be erected for Mr. Thomas Bowes, on the Southwest corner of Eighth and Sansom Streets. This building will be five stories high, and front of iron work, glass and brick, while the sides will be of brick and terra cotta work. The interior will be fitted with an elevator, considerable iron grille work, electric work, cellar to be paved with artificial pavement, plumbing of the best. The roof will be of tin. Estimates are now being made on both of the above plans and specifications.

JOHN F. BRISBANE, City Editor.

PHILADELPHIA, WED'Y, JUNE 1, 1892.

A CORRESPONDENT in the American Machinist says: If engineers, machinists and millwrights in general and pipe-fitters in particular knew of the good qualities of graphite, I dare say there would be ten times the demand for it. Its lubricating qualities are questioned only by the impractical, and it is this quality alone that sounds its keynote, so to speak. Let me describe a few of what I consider its most important uses. As above stated its primary object is lubrication, and it is to this fact we must credit good pipe joints and cool bearings. In making pipe cement (or as I would term it, pipe smear), it is not necessary to use the best oil or grease, as it is the Graphite and not the body in which it is suspended, that makes the mixture valuable and the joint perfect. I use the drippings from the shaft bearings caught in the ordinary way, and mix it with the best Ticonderoga flake Graphite so that it can be applied with an ordinary sash tool. During the past three years I have used about fifteen or twenty pounds of dry Ticonderoga flake Graphite for pipe joints, cylinder heads, piston rod packing, etc. Bolts, smeared with Graphite mixed as above, I have unscrewed, after having been in the dampest places for upwards of two years, or more, proving the anti-rusting qualities of Graphite. To cool hot bearings put it on as thick as it will mix with oil. Almost any oil or grease will do, but don't use poor Graphite.

Architect Notes.

Hazellhurst & Huckel, architects, Drexel Building, have now completed the plans in detail for the handsome residence of S. R. McDowell, at Narberth Station, on main line of the P. R. R. The structure will contain about twenty rooms, and be constructed of stone, frame work and pebble dashed. It will be finished in hard wood on interior and best sanitary plumbing, with electric work and all modern conveniences introduced. This work was noted at length in a previous number of this journal. Work on building will be started at an early day.

Building and Real Estate Notes.

Thomas Little & Son, 217 Pear Street, have been awarded the contract for the erection of a boiler house and laundry at Wills' Eye Hospital, Eighteenth and Cherry Streets.

Thomas Marshall, contractor, 415 Locust Street, will at once start work upon an iron warehouse at Twelfth and Willow Streets. It will be 77½ x 107 feet in size and one story high.

Mrs. Clement A. Griscom and other resident ladies of Bryn Mawr, Pa., are interested in a new hospital which is proposed to be established at that place. A fair for sale of fancy articles is to be held in aid of the movement.

The corner stone of the George W. South Memorial Church of the Advocate, at the Northwest corner of Eighteenth and Diamond Streets, was laid on May 30th, by Bishop Whitaker. The total cost of the structure will be over \$400,000.

J. M. B. Morrow, builder, 1525 South Broad Street, will at once start an operation of twenty-five two story houses on the north side of Cross Street west of Twenty-third, all to be of good press brick, stone trimmings and modern accommodations on interior.

Kister & Orem, contractors, 129 South Seventh Street, have received a contract to erect a five-story stone building at 927 Market Street, for H. C. Lea, Esq. It will be fitted with an elevator lift, electric work and all modern conveniences. Work will start at once.

Estate of Charles Lafferty, 1943 Christian Street will build thirteen fine three story dwellings 15 x 49 feet, on the North side of Christian Street, west of Twenty-third, these will be of a fine class of press brick, stone steps and base with best of modern conveniences on the interior.

Work is progressing on the new station house for the Fourteenth District Police at Chestnut Hill, under supervision of Contractor Bradley. The walls are to be of local stone, roof of slate, electric work and best of sanitary plumbing with all modern improvements will be introduced.

An ordinance to provide a new bridge at the Falls of Schuylkill, in place of the old red bridge, was referred to the Survey Committee. An ordinance to provide for the inspection of sidewalks, and imposing a fine of \$25 on property owners refusing to make needed repairs when notified, was favorably recommended.

Pemberton & Co., builders and real estate operators, Drexel building, will at once start an operation of ten two-story houses on west side of Hollinger Street, south of Columbia Avenue. Also, four three-story dwellings on Columbia Avenue, west of Hollinger. All to be of best press brick, marble and red stone trimmings, and best interior work and accommodations.

The Philadelphia and Reading Railroad have just acquired title to the property of the Pennsylvania Warehousing and Safe Deposit Company, at Catharine Street and Delaware Avenue, which includes all the warehouses and wharf property in that vicinity and involves the sum of \$700,000.

This property will no doubt be utilized by the company for freight purposes and storage.

Jno. A. Palmer, carpenter, 3941 Ludlow Street, has been given the contract to erect a residence for Jno. A. Converse on Pine Street east of Forty-fifth. The front will be of stone with large bay, extending to top of second-story. The interior will be in hard woods and best of accommodations, including electric work sanitary plumbing of the best etc. Work will be commenced at once.

The project to erect a new U. S. Mint in Philadelphia is now an assured fact, the appropriation of \$800,000 being returned in the Civil appropriation bill, which will be passed by Congress. This has been accomplished through the indefatigable labor and energy of the delegation from this city, and the constituents of the various districts are to a degree indebted for this public benefit to these gentlemen.

During the storm of the 29th inst. a bolt of lightning is supposed to have been the origin of a destructive fire in the white lead works of John T. Lewis Brother & Co., at Huntingdon and Thompson Streets. The damage to the plant is about \$10,000. As soon as the insurance is adjusted and debris cleared, it is their intention to repair the building and replace the injured machinery.

The factory to be erected by the Ringrose Manufacturing Company near Holmesburg, has been started and will cover 40 x 430 feet of ground one story high with other outbuildings. Also, it is understood to be the intention of the firm to erect about 100 two-story houses, to supply the employees with good homes near their labor. This enterprise has been fully noted in a former number of this journal.

Director Beitler and the Board of Building Inspectors are determined to enforce the law concerning fire escapes, both as to placing them upon all buildings, required by law, and the keeping the same free from obstruction at all times. The police have been directed specially to aid in this matter and will report those who may shirk or evade the law directing the erection of proper means of escape in time of peril by fire.

Mr. Charles B. Jefferson, son of Joseph Jefferson, the well known actor and manager, has leased the Arch Street theatre, in this city, and he will at once begin the renovation, alteration and additions necessary in order to be prepared for the opening Fall season. This will include electric work, decoration, new seating, general alteration to the interior, remodeling of the proscenium boxes and galleries, new upholstery, etc.

The Committee on Municipal Government of City Councils, on the 24th inst., decided to report favorably an ordinance to place on the city plan the following new Parks: Water View Park, Stephen E. Fottrel Square, in the Twenty-eighth Ward; John Dickinson Square, in the First Ward; Penn Treaty Park, in the Eighteenth Ward; Ontario Park, in the Twentieth Ward; Chestnut Hill Park, E. C. Knight Park, in the Twenty-sixth Ward.

E. Naegle, diamond and watchdealer, No. 18 North Ninth Street, and others associated with

him have just taken a long lease upon Nos. 21-23 North Tenth Street and will at once remodel both structures, fitting them up as a hotel, in which several new ideas will be incorporated for the comfort of its patrons. The capacity will be about 200 rooms. Some addition will be made, elevators will be introduced, electric work and every hotel appliance will be placed for convenience and comfort. The present Russian and Turkish baths will be incorporated in the rights and privileges of the house subject to the terms under which the rooms will be let. Preliminary estimates for the work are being made by several contractors but no award has been made.

### Through Pennsylvania.

*When any of the following are not post offices they will be so designated.*

—At New Salem, Fayette Co., William L. Moore will erect a dwelling this Summer.

—At Meshoppen, Wyoming Co., a fine graded school building will be erected this Summer.

—At Phoenixville, Chester Co., the barn property of Thomas Fertig was destroyed by fire last week, causing a loss of about \$5000.

—At York, York Co., Highway Committee has decided to pave streets one square each way from Centre Square this year.

—At Warren, Warren Co., a handsome new church, to cost about \$60,000, will be erected by the Presbyterian congregation.

—At Columbia, Warren Co., A. C. and H. C. Bruner each will erect a residence at the corner of Chestnut and Fourth Streets.

—At Latrobe, Westmoreland Co., Mr. Andrew Young will erect a residence from plans prepared by Smith & Robinson, of Johnstown, Pa.

—At Pottsville, Schuylkill Co., the contract for an annex to the Minersville Street School building has been awarded to Adam Jennings for \$3635.

—At Sharpsville, Mercer Co., the corner stone of a new public school building was laid last week. The estimated cost of the structure is \$20,000.

—At New Paris, Bedford Co., George W. Blackburn has received contract for the new school house, and R. C. Smith contract for the Valley school house.

—At Freeport, Armstrong Co., P. H. Laufman has purchased the property formerly occupied by the Oil Refining Co., and will erect a tin-plate plant thereon.

—At White Mills, Wayne Co., the large cut glass factory belonging to Mr. Dorflinger, was destroyed by fire a short time since, at a loss of about \$250,000.

—At Uniontown, Fayette Co., the congregation of the colored Baptist church will erect a new edifice. Work has commenced in demolishing the present building.

—The Court has given permission for the School Board of Whitemarsh Township to issue bonds to the amount of \$10,000, to be used for the erection of a school house.

—At Carbondale, Lackawanna Co., the plans and specifications for the new Methodist church are in hands of the committee, and will soon be ready for estimates.

—At Franklin, Venango Co., the congregation of the Baptist church will erect a handsome edifice, to cost about \$25,000. The site has been donated by Messrs. Miller and Sibley.

—At York, York Co., the building occupied by David & Edward Eisenhardt, as a factory for the manufacture of cocoa matting was destroyed by fire last week at a loss of about \$35,000.

—At Uniontown, Fayette Co., the Mount Olive Baptist Church, on Stewart Avenue, is being torn

down. The contract for the new edifice to be erected on the site will be let this week.

—Cumberland and York county farmers are raising one hundred and fifty thousand dollars, to construct a bridge over the Susquehanna river on the abandoned South Penn Railroad piers at Harrisburg.

—The Pennsylvania Railroad has had its engineers locate a new railroad to run from Madison, Westmoreland Co., to Sewickley Station. The route will be along Little Sewickley Creek, and the work of grading will begin at once.

—At Bethlehem, Northumberland Co., it is said that the Bethlehem Iron Company will erect another large blast furnace at an early date. The Allentown & Bethlehem Rapid Transit Company will erect a passenger station at South Bethlehem.

—At Hazleton, Luzerne Co., T. L. Smith, Esq., can give particulars as to the proposed establishment of a tannery.—The Driving Park Association has its charter and all stock subscribed, and will go ahead with constructing of the track, at West Hazleton.

—At Reading, Berks Co., the relatives of the late Mrs. Mary Helzman have purchased a lot 100 x 55 feet, on the corner of Spruce Street and Perkiomen Avenue, upon which they will erect a handsome memorial Catholic church of a modern style of architecture.

—At Ambler, Montgomery Co., John S. Buchanan has sold a lot at Butler Avenue and Main Street to Schafenacker & Huber, of Ambler, who will improve the site by the erection of a building for store purposes on the first floor and for a dwelling on the other floors.

—At Braddock, Allegheny Co., John Bart has received the contract for the erection of the new St. Joseph's Catholic Church. Price, \$35,000.—Work has been commenced on the foundations of the new St. Thomas Catholic Church, to be erected at a cost of \$50,000.

—At Bellefonte, Centre Co., the grain elevator of Gerberich, Hale & Co., and the warehouse of P. B. Crider & Son were destroyed by fire last week at a loss of about \$50,000.—The dwelling of Wm. Grossmyer, together with six other dwellings were destroyed by fire last week.

—At Scottdale, Westmoreland Co., it is probable that a tack and nail factory will be established. The Pine Tree Land Company has offered a site for the plant. The proposed factory will be 40 x 100 feet, two stories high, and will contain thirty machines for the manufacture of tacks and nails.

—At Hatboro, Montgomery Co., the contract for the new electric light plant has been awarded to William Howell & Son. A one-hundred horsepower engine and boiler will be placed to furnish the power. The estimated cost is about \$10,000. Work will be begun at once, and is expected to be finished in about two months.

—At Pottstown, Montgomery Co., the contract has been let for the erection of a new hotel to occupy the site now occupied by the Madison House, of which Dr. N. H. Longabough, of Pottstown is the proprietor. The structure will be three stories high, of brick and stone, 60 x 140 feet and will be handsomely finished on interior and contain all modern improvements including an elevator.

—At McKeesport, Allegheny Co., Contractor John W. Morgan has received the contract to do the carpenter work on the flat house to be erected for A. W. Shaw at a cost of \$20,000. As soon as the ground is cleared of the old Manley residence on Walnut Street, work will be commenced on the erection of a new brick block on the site for Edward Manley.—Captain W. H. Moore will erect a machine shop.

—At Johnstown, Cambria Co., plans have been prepared by Messrs. Smith & Robinson for remodeling the arcade of the building at Clinton and Railroad Streets, owned by Mrs. M. Oswald. A French roof will be added, and plate glass

windows, with other improvements.—Mr. W. H. Thomas will erect a frame dwelling on Market Street. The roof will be of slate.—Mrs. Charles Boyle will erect a dwelling at Broad and Front Streets.—Mr. C. Bott will have a dwelling erected.

—At Erie, Erie Co., it is reported that Mr. C. Kessler has purchased part of the square on the south side of Eighth Street, between Plum, and Cascade Streets.—There is a movement on foot favoring the paving of Eighth Street out to Raspberry Street.—Walter Smith will erect a large store and residence on the corner of Eighth and Poplar Streets.—Mr. N. Lenchen has let the contract for the erection of a residence.—Richard O'Brien and W. H. Nicholson will erect several residences on Eighth Street.

—At Pittsburg, the Red Lion Hotel stands, the Red Lion and Schlosser Hotels were destroyed by fire a short time since. Considerable injury was also done to the Alvin Theatre.—William Fox & Co. will erect ten brick dwellings on Rippey street, 19th ward to cost about \$50,000. Six brick dwellings will be erected by Miss Mary McIlhane, on 44th street, at a cost of \$19,500. W. H. Casey is the builder.—George Schmidt will erect a handsome brick dwelling on Centre avenue to cost about \$10,000. E. Gensenleiter will erect two brick dwellings on Dithridge street to cost about \$11,000. Thomas M. Ulam will erect a brick and stone dwelling on Wallingford street, to cost about \$7000. Henry Loxterman is the builder.

—At Wilkesbarre, Luzerne Co., plans have been accepted for two new buildings for the city hospital. They have been prepared by A. H. Kepp, who will doubtless oversee the construction. The new buildings will be of brick, with slate roofs, and three stories high. Sanitary plumbing and best of modern improvements will be introduced, including an elevator for the operating department, open fire places, steam heat, etc. Proposals will be asked for at once, and work will be begun in a short time. The estimated cost of the improvement is \$16,000.—The new opera house, to be erected by William O'Malley, will have a seating capacity of 600 and cost about \$10,000. It must be completed by August 15th next.

—At Harrisburg charters have been issued as follows; To the East Park Land Co., of Carbondale, Pa.; capital, \$100,000. To the Rush Brook Water Co., of Jermyn; capital, \$30,000. To the Carbondale Consumers Water Co.; capital, \$10,000. To the Farmers and Citizens Market Co., of Columbia. To the Henderson Machine Tool Co., of Philadelphia; capital, \$25,000.—A movement is on foot to have Second and Green Streets, from Reily to Maclay, graded according to the city plan.—Engineer M. C. Leonard has commenced work on the erection of eight brick dwellings.—The Eby residence will be erected of stone, at the corner of Third and Maclay Streets.—W. O. Weaver has received the contract for the erection of the Kinnard residence on Third near Cumberland Streets.

—At Scranton, Lackawanna Co., a new building will be erected for the use of the Scranton Oral School from plans prepared by Theophilus P. Chandler, Jr., of Philadelphia. The proposed structure will be of stone, 42 x 104 feet, and three stories high, with a mansard roof. There will be four bath rooms and five closets, which will be lined with slate and have cement floors. The first floor will contain a play room, matron's and sitting room. The second floor will contain a dormitory and superintendent's room, while the third floor will contain dormitories, linen closets, etc. The mansard will be devoted to an infirmary. There will be a wrought iron tank with a capacity of 2500 gallons and a slate stairway with iron railings. The interior finish will be of pine, and there will be terra cotta crestings. All modern improvements, including dumb waiters, steam heat, sanitary plumbing, electric bells, etc., will be introduced. When completed the struc-

ture will be as fire proof as it is possible to make it. The contract has not as yet been awarded.

—At West Chester, Chester Co., a meeting was held a few days since to advance the project of erecting a hospital. R. T. Cornwell, Esq., was the chairman and appointed a committee to solicit subscriptions. Edward H. Hall, Wm. P. Sharples, Michael Murphy, Samuel Marshall, and Philip Maguire are on the committee.—Caspar Wickersham, Esq., of Philadelphia, contemplates purchasing a lot upon which to erect a country residence.—The Trustees of Lafayette Cemetery have purchased about eight acres of ground adjoining the present cemetery, which will be cut up into lots and laid out with walks and roadways. A new gate will also be established at the southern end of the cemetery.—It is said that Robert Steel, of Phila., who purchased the Doylestown Fair Grounds not long since, is negotiating for the purchase of the Fair Grounds of West Chester.—At a special meeting of the School Board, held last week it was decided to purchase a piano for the use of the High School. Mr. William Dowlin was appointed to attend to the matter.

#### Through New Jersey.

At Passaic, Passaic Co., City Councils have instructed a committee to erect a pest house.

The Board of Freeholders of Monmouth Co., at a meeting held a short time since, appropriated \$8000 for enlarging the jail.

At Carpentersville, Warren Co., a meeting was held by the Trustees in Union Chapel to devise a means for purchasing a carpet for the church.

At Arlington, Hudson Co., the congregation of the Methodist Church has purchased a lot upon which a new edifice will be erected at an early date.

At Orange, Essex Co., the Building Committee of the Board of Education is considering the question of the erection of a new school house in the Fourth Ward.

At Woodstown, Salem Co., a special election will be held June 7th, to decide the question of issuing \$30,000 in bonds for the purpose of constructing a water works.

At Elizabeth, Union Co., Main Street, which is about two miles long, will be paved with Belgian blocks.—The corner stone of the new hospital was laid on Decoration Day with imposing ceremonies.

At Bordentown, Burlington Co., the handsome edifice of the Baptist congregation was struck by lightning and totally destroyed on May 27th. The loss is about \$35,000, with an insurance of about \$18,500.

At Perth Amboy, Middlesex Co., the Supreme Court has been applied to by the Water Company for the appointment of a commission to condemn land in Madison, Middlesex Co., upon which the city wants to establish its own water works.

At Irvington, Essex Co., a meeting was held a short time since to consider the question of increasing the school house facilities. M. K. Denison, Chairman; Clarence Brown, Secretary. The motion to erect an annex to the present building was carried.

At Woodbury, Gloucester Co., a bridge to be constructed over the Woodbury Creek has been decided upon by the Board of Freeholders and the County Bridge Committee. The structure will be of iron with stone abutments, and will cost about \$6000.

At Millville, Cumberland Co., Messrs. Stewart & Stoneback, No. 39 N. Seventh Street, Philadelphia, will do the stone and brick work on the batch house, 60 x 80 feet, two stories high, to be erected for Whitall, Tatum & Co. George M. Newall Engineering Co., architects.

At Westfield, Union Co., the First National Bank will construct a new building, to cost

about \$20,000, from plans prepared by A. L. C. Marsh. It will be three stories high, of brick and stone, and located at Broad and Elm Streets. The interior will be handsomely finished in oak and Georgia pine.

At Newark a large factory will be erected by the firm of Tiffany & Co., the well-known jewellers of New York City. The plans have been prepared and are now under consideration. The estimated cost is about \$1,000,000. According to the plans the best modern conveniences and improvements will be introduced. The machinery will be run by electricity, and each large machine will have a separate motor.

At Newark the plans of Schweitzer & Diemer have been accepted by Tiffany & Co., the jewellers, of New York City. The company has purchased four acres of ground at Forest Hill, and will eventually cover the site with buildings. The proposed structure, which will be erected at once, will be 80 x 225 feet, with an engine house, 40 x 104 feet. The material will be slow burning, iron, slate roof, and the estimated cost is \$30,000.

At East Orange, Essex Co., the prospects for the erection of a building for library purposes are encouraging, as \$18,000 of the necessary \$30,000 has been already subscribed.—The members of the East Orange Gentlemen's Riding Club at a recent meeting decided to erect a handsome club house upon a site which has been purchased near the Orange Athletic Club House. The estimated cost is about \$20,000, of which \$13,000 has been subscribed. James B. Dill is the president of the club and can give information.

#### Through Delaware.

At Wilmington, at a meeting of the Board of Education, John Pyle, of the committee on School No. 10, moved for a committee to be appointed to consider the advisability of enlarging that school. The committee consists of John Pyle, John H. Danby, Dr. E. G. Shortlidge, Patrick Magarity and George W. Roberts as chairman. Bernard J. Donahoe, of the committee on School No. 14, reported that Frank Carswell, architect, had prepared plans for the enlargement of School House No. 14. The plans were approved and the committee instructed to advertise for bids. The proposed addition will be of brick, two stories high, and will contain four class rooms and four coat rooms.—The Water Department has decided upon a plan to supply the western portion of the Ninth ward, including Creston, with water. There is now a water supply for that section of the city, but it has not sufficient pressure to furnish water in the second story of the new houses there or even steadily in the first story. The Cool Spring reservoir from which the water is supplied is not of sufficient height to furnish water at any greater pressure than at present. The new system is what is known as the Church air lift system and, as the name indicates, the water will be lifted by air. The department will erect on the jib lot at Elliott Avenue and Jefferson Street a brick standpipe surmounted by a tank. The stand-pipe will be octagonal in shape and 14 feet high. The diameter will be twenty feet. On top of this standpipe will be an iron tank about twenty feet high. Into the bottom of the standpipe will run a four or five inch air pipe. At the City Mills pumping station will be placed a Church air lift pump, which will force air into the bottom of the stand-pipe. The air forces the water into the tank on top of the stand-pipe. This tank will hold 15,000 gallons. The air lift pump will be capable of lifting 600,000 gallons in twenty-four hours.

#### Through Maryland.

At Baltimore a contract has been made for the extension of the Baltimore and Harrisburg Railroad, from Parter's Siding, in York Co., to York, and from there it is intended ultimately to con-

struct it on to Chickies, on the Susquehanna River, when connection will be made with the Columbia branch of the Reading Railroad.—The most important building permits issued to date are as follow: To P. Fahey, to erect two three-story brick dwellings; to William P. Price and J. E. Mister, to erect three three-story and three two-story brick dwellings; to P. Zapsf, to erect a two story brick dwelling; to the Bartholomew Brewing Co., to erect a two-story brick building.

#### Washington, D. C.

Representative Reyburn has introduced a bill to incorporate the Society of Colonial Dames of America. The New Jersey incorporators are Mrs. Eliza Alfred Smith, Mrs. Mary Dickinson, Mrs. Caroline E. Nixon, Mrs. Cleveland Hetson and Mrs. Elmer G. Green, and of Philadelphia, Mrs. G. Dawson Coleman, Mrs. E. D. Gillespie, Mrs. Thomas McKean, Mrs. Julia Rush Biddle and Mrs. Crawford Arnold. The society will have its headquarters in Washington, where a handsome building will be erected for its use.

—A large tract of ground lying on the east side of the Seventh Street Road and north of Rock Creek Church, has been purchased by a syndicate for the purpose of development. Considerable grading had been done previous to the purchase. The syndicate is represented by Horace S. Cummings.—William J. Palmer has prepared plans for a residence to be erected for R. A. Golden, on B Street near Ninth Street, and facing Smithsonian Park. It will be of stone, brick and tiles, with interior finish of hard wood and white and gold. All modern conveniences and improvements will be introduced.—A large building for business purposes will be erected at Eleventh and G Streets for Mr. Lisner.—The Willard Hotel, owned by H. A. & J. C. Willard, by a decision of the Supreme Court, will be offered at public sale. It is the opinion that the purchaser will use the site upon which to erect a handsome building for hotel purposes.—A handsome dwelling will be erected by Harry Rapley, of the National Theatre, on P Street, between Seventeenth and Eighteenth Streets, at a cost of \$10,000. The interior will be finished in oak and pine, with open staircase in reception hall, electric bells and lights and other conveniences will be introduced. Samuel Hunt is the contractor.—Robert L. Pyle, of London Grove, Pa., will have two dwellings erected at 1345 and 1347 T Street, N. W., from plans prepared by Frederic B. Pyle, Room 86, Washington Loan & Trust Co. Building. They will be of press brick and Seneca brown stone, with interior finish of white pine.—Thomas D. Singleton will have the front of store at 415 Seventh Street, N. W., remodeled, and will put in an elevator. The plans have been prepared by J. G. Meyers.—Plans are being prepared by Philip N. Dwyer, 508 Sixth Street, S. W., for a handsome church edifice, to be erected at the corner of Fifteenth and V Streets, for the congregation of St. Paul's Church, of which Rev. James F. Mackin has charge. The estimated cost is \$70,000. The style of architecture will be Gothic, and the material will be stone, the kind not yet determined; handsome stained glass windows, fine church furniture and fittings, steam heat, slate roof, etc. The same architect has prepared plans for a residence to be erected at Alexandria, Va., at a cost of \$5000, for M. Ahern. Also plans for a new front and other improvements to the Church of St. Mary, also at Alexandria, the cost of which will be \$12,000. Also plans for a ware house to be erected for Mr. John Miller, at First and I Streets, S. W., to cost \$4000.—James Fraser will erect four brick dwellings on Ninth Street, between B and C Streets, to cost \$20,000, from plans prepared by N. T. Haller. The same architect has prepared plans for an apartment house, to be erected at Twenty-fifth and M Streets. It will be of brick, 40 x 208 feet, and will contain forty rooms. All modern conveniences will be introduced. B. H. Warder is the owner and George E. Emmons

### Wants.

NOTICE TO CONTRACTORS, CELLAR DIGGERS and others.—I have room for several thousand loads of clean earth at the Old Rising Sun Park, Allegheny avenue from Broad Street to Germantown Avenue. Tickets for sale on premises at 10 cents a load. William T. B. Roberts, Builder.

NOTICE TO CONTRACTORS, CELLAR DIGGERS and others.—Dump can be had for all for good, clean earth for 10 cents a load at Roberts' buildings, N. W. corner Twentieth and Dauphin Streets. Tickets can be obtained on premises. WILLIAM T. B. ROBERTS, Builder.

Lawrence Boell, pastor of St. Mary's congregation at McKeesport, Pa., wants architects to submit plans and drawings on or before June 15, for a new church building. The plans not approved will not be paid for. For further particulars address the pastor.

W. H. Gilbert, Mayor of Albany, Ga., proposals until June 11th, for 1150 tons cast iron water pipe and specials, 4 inches to 12 inches diameter; 88 valves, 4 inches to 12 inches diameter; 80 hydrants; 25 tons soft American pig lead; 80 extension valve boxes.

Bernard R. Green, Superintendent and Engineer Building for Library, No. 145 E. Capital Street, Washington, D. C., proposals until June 9th for furnishing and delivering the polished plate and double thick window glass required for the book stock windows of the building for the Library of Congress.

D. C. Bascom, president Board of Water Commissioners, Ticonderoga, N. Y., proposals until June 10, for furnishing material and construction of the water works complete. The works are gravity, and consist of a reservoir, conduit and distribution system, all let in one contract; about eight miles of pipe.

Proposals will be received at the office of the Water Department, Southwest corner Sixth and King, up to 4 P. M., Tuesday, June 7, 1892, for one Church Air lift pump, of the capacity of 600,000 gallons in twenty hours. A bond of \$500, with resident freehold security must accompany each bid. The right to reject any or all bids is reserved. J. A. Bond, Chief Engineer.

Proposals will be received at the office of the Water Department, southwest corner Sixth and King, Wilmington, Del., up to 4 P. M., Tuesday, June 7, 1892, for one church air lift pump, of the capacity of 600,000 gallons in 24 hours. A bond of \$500, with resident freehold security, must accompany each bid. The right to reject any or all bids is reserved. J. A. Bond, Chief Engineer.

Sealed proposals will be received at the City Clerk's Office, City Hall, Camden, N. J., until Monday evening, June 6, 1892, at eight o'clock, for painting offices in the City Hall. Full particulars may be had upon application to the City Clerk. The committee reserve the right to reject

any or all bids. Address proposals to Benj. S. Lewis, M. D., Chairman Property Committee.

N. H. Farquhar, Chief Bureau Yards and Docks, Navy Department, Washington, D. C., proposals until July 5th for the construction of one dry dock, 605 feet long, with 30 feet draught of water, with a body of timber and entrance of concrete and masonry, together with pump-house, pumping plant, floating gate, culverts and all other work pertaining thereto, in accordance with plans and specifications, which can be seen at the department or the office of the commanding officer of the Puget Sound Naval Station, at Sidney, State of Washington.

Health Office, Room 615, City Hall, Philadelphia, May 24, 1892. Sealed proposals will be received at this office until 12 o'clock noon, June 7th next, for the abatement of the following nuisances: Nuisance No. 814, defective drainage, premises No. 760 North Thirty-sixth Street, Twenty-fourth Ward. Nuisance No. 7878, defective drainage, premises No. 891 North Forty-second Street, Thirty-fourth Ward. Nuisance No. 2101, defective paved alleyway, rear of premises Nos. 245 to 273 Tree Street, and the first 14 (unnumbered) houses south side of Jackson, east of Fourth Street, First Ward. Nuisance No. 2102, defectively paved alleyway rear of premises Nos. 242 to 272 Tree Street, and 239 to 269 Daly Street, First Ward. Nuisance No. 2639, defectively paved alleyway, rear of premises Nos. 1223 to 1227 Morris and 1626 to 1644 Dean Streets, Twenty-sixth Ward. Nuisance No. 2640, defectively paved alleyway, rear of premises No. 2001 to 2053 Federal and 2000 to 2056 Annin Streets, Twenty-sixth Ward. Proposals must be separate, and each to be endorsed with its nuisance number. Bids of \$500 and over must be accompanied by a certificate from the Law Department of the city certifying that the bidder has filed a bond with the City Solicitor in accordance with the ordinance of Councils approved May 25, 1860. Plans and specifications may be seen in this office. M. Veale, Health Officer.

Proposals for improving Main Street.—The Chairman of the Street and Road Committee of the Borough of Norristown, Pa., will receive sealed proposals until 7 o'clock P. M., June 22d and not thereafter, for the improvement of Main Street, from the east line of Arch Street to east line of DeKalb Street, and from the southeast side of Swede Street to the tracks of the Junction R. R., by grading and paving with stone blocks, asphalt blocks and vitrified brick, according to plans and specifications. Bids must be made in the manner stated in the specifications and must be accompanied by samples of proposed material to be used. The work will be divided into two sections as follows: First, from Arch to DeKalb, approximate number of square yards, 5364. Second, from Swede to Junction Railroad, approximate number of square yards, 8028. Within ten days of award the contractor must deposit with the Borough Solicitor security in one-half the amount of the contract and execute a contract for each section, for the faithful performance of the contract and keeping the street in repair and surface for three years. Each bidder will be required to state in his proposal the names and addresses of his surety or sureties. Cash or a certified check made payable to Harry L. Sullivan, Borough Treasurer, to the amount of \$500, must accompany each bid as a guarantee that in case the contract is awarded the successful bidders will within ten days after notification of award execute said contract, and in default the money to be forfeited to the Borough. Bids must be sealed and endorsed, "Proposals for improving Main street from Arch to DeKalb, and from Swede to Junction Railroad." Plans and profiles may be seen, and specifications, contract, blank forms of bid and other information obtained at the office of the engineer. The Council reserves the right to reject any and all of said proposals. Signed, Wm. Vaughan, Chairman of the Street, Road and Bridge Committee. Malcolm D. Patterson, engineer.

## AN ARGUMENT IN FIGURES.

Respectfully submitted to Builders, Owners and those having charge of Estates, who will have Fire Risks to place during 1892.

EIGHTY-SECOND ANNUAL STATEMENT OF

## These Ranges and Heaters

Represent the highest possible type of mechanical and scientific construction. For reliability and durability they are positively without a superior, they truly represent the minimum of cost and the maximum of quality.

The small size of the **PROMPT RANGE** is just the thing for Builders of small Houses. It is compact in form and possesses all the advantages and requisites of the larger size. Builders, Owners and Agents having charge of properties should inspect these Ranges and Heaters before ordering.

For sale by all Dealers. They can be seen at the Company's Ware-rooms.

123 N. 2d St., Philadelphia.  
17 E. Lombard St., Baltimore, Md.

## A Few Quiet Words with House Builders and Owners.

If the kitchen of your house is small, you need to economize room. You can do this by using a range with elevated boiler, such as the

### "FIDELITY."

It will reduce the cost of plumbing also. We make them with seven inch or eight inch boiler holes, ovens on right or left of fire, with or without hot closets, and also to heat an upper room. Splendid bakers. Hot water in abundance. The latest and best of their class.

FIDELITY HOT AIR RANGE WITH HORIZONTAL BOILER.

Excelsior Double Oven Range.

If the kitchen is roomy and large, cooking capacity is sought. You will want a brick-set range with a vertical circulating boiler, set in the usual way. The

### "EXCELSIOR RANGES"

are acknowledged all over Philadelphia, in which city and vicinity some 75,000 have been sold as the standard brick-set range. They are furnished with ventilated ovens, oven-door pedals, rocking grates, and all modern improvements. Made in seven and eight inch sizes; single, double and hot-air ranges. Send for descriptive pamphlet, entitled "PERFECT COOKING."

PARAGON FURNACE WITH EQUALIZED DRAFT.

Whether large or small, your house will require a heating apparatus of some kind. It will pay you to put in a *really good* hot air furnace. The

### "PARAGON"

has no superior. Perfectly self-cleaning, with fewest joints, free from dust and gas, largest radiating surface, heavy steel plate, drum casings, easy on fuel, and of superior durability, it will always give satisfaction. A descriptive circular will be mailed upon application.

# DID YOU EVER EAT AT BOOTHBY'S Great Chestnut St. Restaurant?

If you have not, you can form no proper idea of its size, beauty and facilities. Its corps of superintendents, chefs and assistants, waiters and supernumeraries number over 100. Its seating capacity is over 1300, and every guest is made comfortable, besides receiving prompt and careful attention. Its menu embraces everything in season. The cooking represents the best efforts of prominent chefs, whose skill has given the place a national reputation. The prices are moderate and the service is unexcelled. OYSTERS ARE THE GREAT SPECIALTY. The Ladies' Restaurants are retired, light and elegant. For a social meal or a light lunch, you are recommended to

**BOOTHBY'S, 1231, 1233 AND 1235 CHESTNUT STREET.**

## Miscellaneous.

At Albany, Dougherty Co., Ga., a vote has been cast in favor of constructing a water system to cost about \$70,000.

At Richmond, Va., the new State Library Building will cost about \$200,000. The State Board of Building Commissioners have selected Architect William M. Poindexter, of Washington, D. C., to make plans. —The Richmond Electric and Railroad Co. will construct a plant to cost about \$125,000.

At Montgomery, Montgomery Co., Ala., the Louisville and Nashville Railroad Co. has purchased from J F. Leary several lots adjoining the freight and passenger station, which will be enlarged and improved. —Messrs. Cooke and Harger have the contract to erect the large new compress for the Alabama Compress Co. The structure will cost about \$100,000.

A Philadelphia syndicate, represented by H. L. Scott, has succeeded in getting a bond on the Miller, O'Brine & Connors group of tin mines at

Bear Gulch, eighteen miles northwest of Deadwood, S. D. The syndicate will put up a plant capable of treating five hundred tons of ore per day, and will, within the next year, expend about one million dollars in developing the property and in establishing reduction works.

[ ENTERED AT THE PHILADELPHIA POST OFFICE AS SECOND CLASS MATTER. ]

VOL. VII.—No. 23.

PHILADELPHIA, WEDNESDAY, JUNE 8, 1892.

PRICE 15 CENTS

### Architect Notes.

W. H. Archer, architect, Buffalo, N. Y., has removed his office from the Niagara Building to 13 W. Huron Street.

Angus S. Wade, architect, 20 S. Broad Street, has made plans for a very fine stable to be erected on rear of 1618 N. Fifteenth Street, for E. A. McFarland, of the "Old Homestead Co." Cost will be about \$4000.

Hazelhurst & Huckle, architects, Drexel Building, have prepared plans for a parochial house for St. Mark's Episcopal Church, Seventeenth and Locust Streets. The structure will be of stone, four stories high; interior will be finished in hard wood. Electric work, wood mantels, best of sanitary plumbing and all modern conveniences, etc.

Willis G. Hale, architect, 1524-26 Chestnut Street, has made plans in detail for the erection of seventeen fine three story houses by Christian Brown and J. I. Comly, on Leidy Avenue, northwest of Forty-first Street and Girard Avenue. These will be of stone, brick and terra cotta work, and fitted on interior with hard wood, electric light and bells, best of sanitary plumbing and all modern conveniences.

T. Roney Williamson, architect, 138 South Fourth, has made plans for a choir building to be attached to the Church of Holy Trinity, West Chester, Pa. The structure will be of serpentine stone and fitted in hard wood. Interior will contain fifty closets for robes, etc. The drawings are in the hands of the rector, and if approved the contract will likely be let during the current week. A handsome rose window will be put in. Rev. J. Heathcote Hills is the rector.

Plans made by the engineer department have been placed for estimate by the Midvale Steel Works at Manayunk, for a large machine shop, to be constructed upon the site of the present plant. The structure will be 112 ft. 3½ in. x 198 ft. 4½ in., three and a half stories high, roof of slate, walls to be of brick with a granite base course and stone trimmings. The interior will be fitted with steam and general machinery, electric light and all modern improvements and conveniences.

Plans for estimate are upon the boards in office of Thos. P. Lonsdale, architect, Fourth and Walnut Streets, for construction of the East Allegheny Avenue M. E. Church, of this city. Structure to be two stories high, walls of Avondale gray, with Indiana limestone trimmings. Interior will be well fitted with upholstery, heated by furnace, roof to be painted with Dixon's Graphite paint, stained and plate glass windows, also considerable ornamental work upon exterior as well as the interior.

A. W. Dilks, architect, 1001 Chestnut Street, has made a number of preliminary plans and sketches for improvements and new buildings, among which are drawings for a memorial hall for West Philadelphia. Also, plans for alteration to

the West Walnut Street Presbyterian Church. Also, plans for alteration to residence of Thos. W. Sparks, 4100 Walnut Street and has awarded the contract to James Johnson, 1713 Sansom Street. Also, plans for alteration to the residence of Geo. Evans of West Philadelphia.

R. G. Kennedy, architect, Drexel Building, has made plans for a large glass factory to be erected at Millville, N. J., for Whitehall, Tatum & Co. This structure will be one story high with tin roof upon iron truss work, brick walls, furnaces and steam work, two freight elevators, floors to be of brick work. The specifications state that the owners will furnish the stone, lumber, bricks, fire-bricks, clay stone for paving ovens and all wrought iron and cast work, except the iron connected with roof trusses and the hardware, spikes and nails. Estimates are being made on the drawings.

Isaac Pursell, architect, 119 South Fourth Street, has made plans for a Lutheran Church at Conshohocken, Pa., to be of stone, slate roof, and best of interior work, upon which estimates are being made. Also, plans for a new church to be erected by the First Moravian Congregation on north side of Fairmount Avenue, between Sixteenth and Seventeenth Streets. This structure will be of stone, slate roof, furnace heat, seats in amphitheatre shape and handsome finish throughout the whole interior. Also, plans for a Baptist Church at Franklin, Pa., Rev. Clarence A. Adams, pastor. To be of brick and stone, slate roof, heated by steam, electric light, and will have a seating capacity of 1200 persons.

Horace Trumbaur, architect, 310 Chestnut Street, is engaged on plans for a fine house for Mrs. M. M. Brown, to be erected at Wyncote on main line P. R. R. The building will be 40 x 100 feet, three stories high, first two of stone, remainder of shingle work, with a tile roof. All modern conveniences will be introduced on interior. Also a stable will be erected on the premises in keeping with the house. Mr. Trumbaur has also been engaged to draw plans for a large school house to be erected in Moreland Township, Montgomery Co., Pa. It will be 40 x 80 ft., built of local stone, with four rooms and covered by a red slate roof. It will be fitted for hot water heat and have other modern conveniences. Cost about \$10,000.

Walter H. Geisinger, architect, Twelfth and Chestnut Streets, southwest corner, has completed all plans in detail for the large factory of Hoyle, Harrison and Kaye, to be erected on the southwest corner of Indiana Avenue and Fillmore Street, in the Thirty-third Ward. The main structure will be three stories high and will be of brick, stone trimmings, slag roof, interior will be fitted with steam heat, power and electric work as well, best of sanitary plumbing, etc. There will also be built a boiler and engine house a dry house and other out buildings, which will be one and two stories high and constructed of the same

material, tin and slate roofs. Considerable cement work and artificial pavement and flooring will be done, freight lifts, galvanized wire screens to all windows on the first floor on three sides, steel beams and iron columns, also a wrought iron smoke stack and other work of the same material will be used, fire escapes and all modern conveniences and improvements for such structures will be introduced, estimates are being made on the work.

At a meeting of the Committee on Property of the Board of Education, May 31 92, several matters were discussed, and among the bids opened by the Committee on Property at this meeting were seven proposals for erecting a two-story, four-division brick school-house, at Mt. Moriah lane, Twenty-seventh Section. As the lowest bid was \$15,495 and as only \$14,000 are available for the purpose, it was decided to refer the matter to the Chairman. The bid mentioned was that of Mr. McManus. The others varied in amount and went up to \$20,350, the bid of J. B. Riley & Co. It was stated that Francis L. Wayland, who owns a plot adjoining the Northeast Manual Training School, Howard Street, below Girard Avenue, and which the committee needs to extend the school, wants \$20,000 for his property. It was claimed that it is assessed at \$3000, and that \$6000 would be an exorbitant price for it. Mr. Kavanagh called attention to the fact that a short time ago, at Sheriff's sale, an adjoining property sold for \$2300. Mr. Rhoads move, and it was agreed to, that the City Solicitor be requested to enter an appeal against the ordinance awarding the owner \$20,000, and that an ordinance repealing the condemnatory proceedings which have been begun be sent to Councils.

P. A. Welsh, architect, 429 Walnut Street, has completed drawings for the Chester Public Hospital at Chester, Pa., and they will be placed for estimate at once. The structure is to be two and a half stories high, brick, terra-cotta and brownstone and slate roof. Steam heat, electric work, and all the most approved modern conveniences will be introduced. Also, plans for a house for Mr. R. P. Molton at Germantown, to be of Colonial design, three stories high, slate roof, interior to be in hard wood, electric work, steam heat, best of sanitary plumbing, etc. Also, plans for remodelling a house for Andrew Frantz, three stories high, loggia entrance and very handsome on interior in general work and decoration. Also, plans for rebuilding house, 1630 Chestnut Street, for business purposes, to be four stories high, stone front, tile Mosaic floors, and fitted with all modern improvements. This house was formerly occupied by Anthony Drexel, banker. Mr. Welsh is at work upon two handsome memorial structures, the details of which cannot as yet be given, but will be fully described in a future number of this journal. Also, plans have been prepared for the R. C. Church of St. Peter at Reading, Pa., This will be of stone and one of the finest in the state of Pennsylvania.

JOHN N. GALLAGHER, Proprietor.

JOHN F. BRISBANE, City Editor.

PHILADELPHIA, WED'Y, JUNE 8, 1892.

ON July 6th next we will publish our regular semi-annual report of building operations and sales of real estate for 1892. Our edition on that date will be a particularly heavy one, as we have made it a point for years to cover the whole field with the issue containing our reports, the value of which is, beyond all question, pre-eminently great to the building and real estate interests generally. A grand opportunity is therefore offered for the enterprising to present a strong bid for patronage through suitable and well-written advertisements in that issue. We will cheerfully aid our patrons in writing for them such advertisements as they require, submitting proof of the same without cost, further than the space contracted for.

We trust our readers and others will determine upon the size of the advertisement desired in order that we may not be delayed, as the amount of extra work to be performed will necessitate our receiving copy for that issue as early after this announcement as possible.

#### Architect Notes.

Theophilus P. Chandler, jr., architect, Brown Bros. Building, Fourth and Chestnut Streets, has completed plans and specifications for the Oral School for Deaf Mutes of Pennsylvania to be erected at Scranton, Pa. The drawings contemplate a four-story stone structure, slate roof, the first floor will be used as a study and play room with Matron's room, the second and third for the dormitories and fourth as an infirmary, etc. In the basement will be located a number of rain-baths instead of tubs as generally used in institutions, also steam heating apparatus, laundry and store rooms, etc. All the most approved accommodations will be introduced for the care, culture and health of the inmates. The estimates upon this building are being made, in the meantime sketches and preliminary plans are being made for other buildings to be erected in the future.

Architect W. H. Archer, 13 W. Huron Street, Buffalo, N. Y., reports the following work: Society

building for St. Mary's Lyceum, Dunkirk, N. Y. Pressed brick and cut stone front, terra-cotta enrichment, copper, etc., tin roof, 33 x 100 feet, three stories and basement. Large store first floor, reception parlors, billiard, society and toilet rooms and lavatories, second floor; assembly room, stage and dressing rooms, third floor. Hardwood and pine finish, plate glass windows, steel girders, mantel grates, tile work, gas fixtures, etc. Also, plans for two eight-room school houses at Tonawanda, N. Y., two stories and basement, situate on Delaware and Harriett and Morgan and Wheeler Streets respectively. Brick with Medina sand stone basement and trimmings, hollow tile, concrete, maple floors, pine finish, galvanized iron and tin work, school rooms, wardrobes, lavatories and toilet rooms for both sexes, hot air heating and ventilating, glass, seating, blackboards and gas fixtures, electric bells, etc., \$30,000. Also society building for Young Men's Christian Association, of North Tonawanda, N. Y., 132 x 112, brick and stone, tin roof, galvanized iron and stone trimmings, four stories high, comprising suits of association rooms, baths, 50 x 50 feet, gymnasium, 50 x 50 x 28 feet, public hall, 40 x 60 x 20 feet, bowling alley and four stores. Iron girders and columns, mantels, sanitary plumbing, steam heating, gas and electric light, plate glass, concreting, etc., \$45,000. Also, residence of Mr. Rogers, Atlanta, Ga., frame and brick, two stories and basement, hardwood finish, parlors, reception hall, dining and bath rooms, lavatory, kitchen, bed chambers, portico and loggia, bevel plate doors, plate windows, carving, mantels, gas fixtures, tile, bath appointments, heating and plumbing, \$12,000. Also, manufactory building, West Superior, Wis., kilns, store houses, derricks, overhead switches, tracks, furnaces, wharfs and shipping sheds, offices, \$10,000. Also, Hotel Gratiot, Dunkirk, N. Y., hotel bar, carving, bevel plate mirrors, fixtures, pumps, marble and oak work, entrance porch, cocher and loggia for the same, brick, carving, stone, tin, etc. Also, Hotel Archer, North Tonawanda, N. Y., frame and stone building, 40 x 80 feet, comprising three stories, portico and basement, with accommodations for seventy guests, office, bar, billiard, dining and reception rooms, bed chambers, kitchen and pantries, lavatories, bath and toilet rooms, hot and cold water apparatus on the first, second and third floors, main and back staircases, carved work, hardwood finish wainscoting, plate and other glasses, tin roof, copper baths, porcelain water closets, ranges, boilers, electric bells and lights, commodious cellars, heating and ventilating apparatus.

#### Building and Real Estate Notes.

The Pennsylvania Railroad Company has acquired from the Quaker City Mortar Company the property at the northwest corner of Twenty-third and Filbert streets, containing 363.5 by 48 feet, \$79,000.

The Survey Committee of Select Council, has decided to report favorably the ordinance for widening Fourth and Fifth Streets, between Market Street and the site of the proposed Bourse. The estimated cost of the improvement is about \$300,000.

T. Gallagher, builder, 1905 Dickinson Street, will shortly commence the erection of seven three-

story houses at Eighteenth and Moore Streets. Dimensions, 16 x 50 feet. To be built of pressed brick with brownstone trimmings, all modern conveniences.

David McMahon, the highway contractor of P ice and Hancock Streets, Germantown, has given out the contract for the erection of a handsome colonial mansion on East Cheltenham Avenue, opposite St. Vincent's College, to George Hearst. The cost will be \$18,000.

James Bradley, contractor, 40 N. Thirty-eighth Street, will at once begin the erection of eight fine three-story dwellings at Forty-second and Chestnut Streets. These will be of brick with stone trimmings and quite ornamental in front. The interior will be in hardwood and best modern conveniences.

The Reading Railroad Co., having become owners of all the properties between Almond and Queen Streets, west side of Delaware Avenue, will erect an immense freight station upon the site during the current year. All plans have been prepared for the structure and work will be started at an early day. No contracts have been let.

Henry G. Schultz, carpenter, 2636 Germantown Avenue, will build seven two-story houses on south side of Cambria west of Seventh street. Also two two-story stores and dwellings on the southwest corners of Franklin and Cambria and Seventh and Cambria Streets. All to be of pressed brick, stone trimming and good modern conveniences.

Kelly's laundry, a one-story structure, will be torn down by the proprietor and a handsome building, six stories high, be erected upon the site at Camac Street and Columbia Avenue. Mr. Kelly's new building will be erected upon the old lines, 37 x 70 feet, and be fitted with steam heat and power, as well as elevator lifts and all modern conveniences.

We especially call attention of contractors to the advertisement for bids upon the work of construction, upon the new hospital for chronic Insane, at Wernersville, Berks Co., Pa., a full description has been given of the work in a previous number of this journal. Rankin and Kellogg, 1001 Chestnut Street, Phila., will be the supervising architects.

The Committee on the Episcopal Diocesan House has resolved to select the property, 221 South Broad Street, the lot is 33 x 130 feet, and price paid, \$60,000, towards which sum there are in hand subscriptions amounting to \$25,000, leaving \$35,000 to be raised before June 10. Some \$50,000 more will be required for the erection. Mr. Benjamin C. Godfrey, 1102 Walnut Street, is the Treasurer.

An ordinance will be offered in City Councils granting to the Centennial Passenger Railway a part of the People's system, the right to lay track on Twenty-fifth Street, South College Avenue, West College Avenue, Girard Avenue, Twenty-sixth Street, Virginia Street and Fairmount Avenue, in order to furnish a connection between Fairmount Avenue and Girard Avenue lines. It will be acted upon at an early day.

The contract for the erection of the Girls' Normal School, at Thirteenth and Spring Garden,

Streets, has been awarded to Johnson & Byrnes, contractors, 1217 Filbert Street. The contract price, \$305,800, is the largest single one ever given by the Board of Education. Work will at once begin upon the site, and must be completed by September 1, 1893. In previous numbers of this journal the building has been fully described. J. D. Austin, 713 Filbert Street, will be the supervising architect.

It is proposed by the Philadelphia and Reading Railroad to establish a new station for passenger traffic, on the Delaware River at Willow Street, soon after the completion of the new terminal depot and its connections. This is done for the purpose of transferring passengers direct to Atlantic City and points upon their New Jersey system along the Atlantic Ocean. This will be accomplished by a line of fast and comfortable steamers upon the river connection, and will necessitate the erection of a station and wharf facilities.

Stacey Reeves & Sons, contractors, 1611 Filbert Street, have received a contract to make all alterations and additions to the Philadelphia National Bank Building, 421-23 Chestnut Street, after plans made by Theophilus P. Chandler, Jr., architect, Brown Bros.' Building, Fourth and Chestnut Streets. These contemplate an addition of two stories, and alterations to the interior. Two elevators will be placed and electric appliances, both light and bells, pleasant offices fitted throughout in hard wood and best of accommodations are part of the plans. This work will render the structure one of the finest office buildings in the city.

John Adams, Esq., of the Philadelphia bar, has contracted with H. E. Cooper, of East Clifton Heights, Delaware Co., Pa., to erect a fine residence at the latter place, after plans prepared by Architect Charles W. Bolton, 1510 Chestnut Street, and described in a previous number of this journal. The structure will be of local stone, three stories high, battlements, towers and bay windows will ornament the exterior. The parlor will be in white and gold colors, dining room in antique chestnut, remainder of the first floor in white pine. Considerable tiling will be done, fancy stained glass windows looking south, one of which will represent "Webster's reply to Hayne," in the United States Senate. Electric work and all modern conveniences will be introduced.

At Forty-second Street and Elm Avenue, the Park Improvement Co. will begin a new operation of handsome houses similar to those recently erected by them in the same locality, after plans by J. C. Worthington, architect, 1305 Arch Street. These will also be of stone and brick, three and four stories high and fitted with every modern appliance for comfort and convenience. The president of the company is William Trautwein and other officers in addition to the president are James H. Ritter, treasurer, and William Y. Triple, secretary, and the directors are Edwin J. Houston, A. Lewis Smith, Joseph Willcox, John H. Graham, Charles Matlack, William Trautwine, Charles Schaffer, James H. Ritter, Charles V. McManus, William M. Meigs.

The Managers of the Girard Estate are about to inaugurate a new measure for the investment of a vast sum of money by the erection of several hundred houses, factories and other buildings upon the ground of the estate in the First and Twenty-sixth Wards of the city. These sites are mainly located north and south of Passyunk Avenue and Shunk and other streets in that locality and at present being used as truck land; about the only impediment to starting immediately upon this great operation is the system of sewers needed, water and gas pipes, and other city improvements which can be easily overcome by a loan, and it is understood that even this can be had of the estate above noted if the city authorities should desire. This location is enhanced by the fact that both the Pennsylvania R. R. and the B. & O. R. R. run directly through portions of the

ground upon which it is proposed to build, and already surveys by the city have placed through streets upon the city plan, so that little remains to be done in the way of councilmanic legislation to materially aid this great and beneficial undertaking. It is understood that about seven hundred acres will be covered, and between 8000 and 10000 houses and other structures erected.

The owners of properties located on the south side of Chestnut Street between Seventh and Eighth Streets, met at the office of the Mayor, Hon. Edwin S. Stuart, on the afternoon of the 1st inst., and discussed the matter of being compelled by law to set the fronts of their several structures back five feet, under the ordinance of Councils, March 1st, 1891, and which takes effect by July 1st, 1892. No legal or tangible excuse having been offered to prevent the work being done on the part of the owners, and the City having filed bond for indemnity for loss, there is no longer any doubt as to the outcome, but a compliance with the law will be acquiesced in at once. The properties represented were those of Jules Hanel, 704; Quaker City National Bank, 706, A. G. Baker, 708; I. F. Baker, 710; Samuel Hopper, 712; H. A. Dreer, 714; the Benckert estate, 716; E. Durand, 718; W. H. McGrath, 720; H. C. Lea, assignee of T. S. Fletcher, 722; Humphrey Atherton, 724; L. W. Glenn, 726; W. Y. McAllister, 728; Jules A. Piot, 730, and J. Chew, 732. Among others interested and present were C. C. Harrison, John C. Kelly, George Scherr, James McGee, Thomas Leaming, J. Howard Gendell, Bernard Gilpin, E. G. Hamersley and R. A. Wilkinson.

#### Through Pennsylvania.

*When any of the following are not post office towns they will be so designated.*

—At York, York Co., the contracts for the new public buildings will soon be let.

—At Royersford, Montgomery Co., Frank Wissner will erect a double dwelling on Church Street. J. S. Pennypacker has the contract.

—At Spring City, Chester Co., Mr. Rettaw has received contract for the erection of the addition to the Church street school building.

—At Souderton, Montgomery Co., the contract for the erection of a new school house has been awarded to Hensing & Son for \$3115.

—At Downingtown, Chester Co., a handsome business structure will be erected to replace Masonic Hall, recently destroyed by fire.

—At Lancaster, Lancaster Co., the Foltz Building was destroyed by fire on May 31st, at a loss, including 2000 cases of tobacco, of \$156,000.

—At Norristown, Montgomery Co., W. K. Gresh & Sons will erect a new cigar factory, for which the contract has not yet been awarded.

—At a recent special meeting of the Lancaster and Lititz Electric Railway Co., it was decided to go ahead with the construction of the road at an early date.

—At Wilmerding, Allegheny Co., the Westinghouse Land and Improvement Co., has decided to erect sixty tenement cottages for the use of employees.

—At Huntingdon Valley, Montgomery Co., the Newtown Railroad Co. has purchased two acres of ground, upon which a handsome station will be erected.

—At Lebanon, Lebanon Co., the Board of Control has selected the plans of Abner A. Ritscher for a school house to be erected on Lehman Street.

—At Phoenixville, Chester Co., Denithorne & Son, bridge builders, will rebuild their building, destroyed a short time since. The material will be brick and iron.

—At West Chester, Chester Co., Davis Pen-nock will erect ten two-story dwellings on Nields

Street. They will be of brick and fitted with modern improvements.

—At McKeesport, Allegheny Co., it is reported that George Altmeyer will erect a theatre, to cost about \$75,000. The location will probably be at Fifth Avenue and Strawberry Alley.

—At Lansdowne, Delaware Co., a movement has been started with a view of removing to a more convenient site by the congregation of St. John's Episcopal Church. The new edifice will cost about \$25,000.

—At Wilkesbarre, Luzerne Co., the old Beaumont residence, at the corner of Union and Franklin Streets, is being torn down to make room for the erection of a three-story brick block for Col. Beaumont.

—At Lederachville, Montgomery Co., an election will be held, on June 18th, to determine the site for a new bridge, to span the east branch of Perkiomen creek. The County Commissioners have the matter in charge.

—At Quakertown, Bucks Co., a project is on foot among several secret organizations to erect a building suitable for their purposes and also for public use. A site has been chosen on Broad Street, belonging to the Kinsey estate.

—At McKeesport, Allegheny Co., the Beth-lem M. E. Colored Church congregation will erect a new church on the lot recently purchased on Fourteenth Avenue, between Jenny Lind and Locust Streets. Rev. R. D. Epps, of the Mission Baptist Church, of Pittsburgh, can give particulars.

—At North Wales, Montgomery Co., it has been decided by the congregation of the Baptist Church to remodel the present edifice in order to make more room for the Sunday school.—A parsonage will be erected by the Lutheran Church. It will adjoin the church. The estimated cost is \$2500.

—The Connellsville, New Haven and Leisening Street Railway Co. will erect a station at the western terminus of the road, at Graham's Crossing. The structure will be 40 x 60 feet, and contain three rooms on the first floor and three on the second floor. Those on the first will be used as waiting-room, restaurant and kitchen. The second floor will be used as living rooms.

—At West Chester, Chester Co., a committee has been appointed to solicit subscriptions for the proposed new hospital building. The committee consists of Mrs. Richard Darlington, as President; Miss Elizabeth Black, as Secretary; William P. Sharpless, Treasurer, and others.—P. E. Jefferis has the contract to erect six dwellings for Timothy Brick.—The Electric Light Co. will purchase a new dynamo.

—At Homestead, Allegheny Co., the congregation of St. Mary Magdalen's Roman Catholic Church will erect a handsome edifice at the corner of Tenth and Amity Streets. It will be of brick and stone, with considerable iron work; slate roof, handsome interior finish, etc. The estimated cost is \$75,000. Andrew Carnegie has given \$5000 for an organ for the new structure. Father J. J. Bullion has the matter in hand.

—At Wilkesbarre, Luzerne Co., Architects Albert H. Kipp, Thomas Podmore, Moses & King and Davey & Walker held a meeting not long since in regard to competitive plans for the new city building. The architects desire the city to guarantee the acceptance of one set of plans, as the architects are at much expense in getting them up; also, for the city to name the commission of the successful bidder as 5 per cent. The matter will go before Council at the regular meeting.

—At Harrisburg, City Engineer Cowden has been employed by Mr. Jackson, president, and Mr. McVay, secretary of the Fidelity Trust Co., of Pittsburgh, Pa., and trustees of Mrs. Nettie McKee Graham, to plot the McKee tract of land

in the western suburb of the city of Harrisburg, and containing over two hundred acres. Streets will be opened through the tract, and the site will be improved by the erection of about one hundred dwellings, built in blocks of two and surrounded by lawns. It is expected that they will be purchased by the workmen of the Lalanc-Grosjean plant, of which Mr. Thomas is the superintendent.—Work will begin on the new High School building in a short time. John C. Smith, of Harrisburg, is the architect.—Charters have been granted as follows: To the James P. Witherow Co., of Pittsburgh; to the Riverton Water Co., of Cumberland Co., capital \$40,000; to the Forest City Electric Light Co., of Susquehanna Co.; to the Philadelphia Crystalized Fruit Co., capital \$6000; to the Hubbard Publishing Co., of Philadelphia, capital \$123,000; to the Portage Creek and Rich Valley Railroad, of McKean Co., capital \$90,000; to the New Kensington Street Railway Co., of Westmoreland Co., capital \$15,000.

—At Pittsburgh, Architect William McBride has prepared the plans for the new church, to be erected by the congregation of the Church of St. Mary of Mercy, at Third Avenue and Ferry Street. It will be of brick and stone, modern improvements, and will have a seating capacity of six hundred.—Chief Bigelow has let the contract for the erection of the conservatory in Schenley Park, to the Lord & Burnham Co., of Irvington-on-the-Hudson, N. Y., for about \$101,000. The plans call for a group of buildings about 454 feet long, divided as follows: Palm house, 60 x 132 feet; plant house, 84 x 35 feet; tropical house, 30 x 104 feet; fern house, 52 x 52 feet; hot orchid house, 30 x 104 feet; Victoria Regia house, 52 x 52 feet; general aquatic house, 35 x 34 feet; general office building, 30 x 50 feet; divided into a work room, 18½ x 30 feet; an office, 18½ x 19½ feet; a private office, 13½ x 14½ feet, and a corridor, 12 x 35 feet. Underneath this building is a room, 70 x 30 feet, to be used as a cellar for boilers, cold storage, etc. The foundation walls will be of Amherst sandstone. The corridors are to be laid in mosaic tile and the walks in cement. The inside is to be finished in hard wood, and all the fittings for heating and ventilating are to be of the latest improvements. The sides of the palm house are to be of American plate glass, while the roofs of all of them are to be of ground glass.—S. T. McClarren has prepared plans for a handsome dwelling to be erected for William R. Ford, on Neville Street, Fourth ward, at a cost of about \$11,000. It will be of brick, with shingle roof, handsome interior finish, modern improvements. The contract for the erection has been let to Rose & Fisher.—M. Jacobs will erect four two-story dwellings at a cost of \$12,000.—W. D. Beatty has prepared plans for a church building to be erected at Duquesne, Pa. The estimated cost is \$15,000. Also, plans for two dwellings to be erected for McCrea & Lindsay, at Baum's Grove. To cost \$15,000. Also, plans for a double dwelling for Carlisle Bros. To cost \$12,000. The builder is R. Dithridge. Also, plans for a dwelling for W. A. Dunlap, at East End.—C. W. Hodgson has prepared plans for two business blocks to be erected on Ferry Street, near Fourth Avenue.

#### Through New Jersey.

At Hackensack, Bergen Co., J. Clarendon will erect a dwelling to cost \$6000, from plans drawn by J. E. Terhune.

At Englewood, Bergen Co., H. A. Ogden will erect a dwelling to cost about \$12,000, from plans prepared by J. E. Terhune.

—At Harrison, Hudson Co., G. Louis & Bro. will erect a two-story buff brick and stone building, to cost about \$15,000, from plans prepared by Schweitzer & Diemer. It will be used for stores and a hall.

At Elizabeth, Union Co., a two-story frame dwelling will be erected by L. K. Hazard, to cost about \$5000. The plans have been prepared by A. L. C. Marsh.

At Paulsboro, Gloucester Co., the contract for the erection of the new Methodist Episcopal church has been awarded to E. E. Henry, of Woodbury, for \$12,000.

At Plainfield, Union Co., A. L. C. Marsh, has prepared plans for re-modeling the dwelling of H. B. Newhall. The cost will be about \$5000. Also, plans for alterations to the dwelling of E. H. Booth, to cost \$3000.

At East Orange, Essex Co., a colonial dwelling will be erected by F. L. Fieger, from plans prepared by Rose & Stone. It will be handsomely finished on the interior and furnished with modern improvements and conveniences.

At Rutherford, Bergen Co., plans have been prepared by Schweitzer & Diemer, for a colonial dwelling to be erected by W. J. Slingerland, at an estimated cost of about \$7000. The same architects have drawn the plans for a dwelling similar in design to cost \$6000.

At Newark the Clark O. N. T. Thread Co. has made arrangements to increase the present plant by the erection of a large building, to be used as a finishing department. The structure will be 61 feet x 250 feet, five stories high, of brick and stone. The estimated cost is \$100,000.

At Winslow, Camden Co., the large plant of the Winslow Glass Works was destroyed by fire last week at a loss of about \$20,000. W. Fox, of Philadelphia, is president of the company, and the works were operated by Messrs. Warrick Bros., of Glassboro, Gloucester Co., N. J.

At Camden, Lewis Holl is having the two dwellings at the northwest corner of Broadway and Berkley Street demolished, and will improve the site by the erection of a handsome residence for himself.—The building fund of the North Baptist Church has reached the sum of nearly \$16,000, and arrangements will be made in the near future for the erection of a church edifice on the lot on Linden Street, below Fourth Street.—It is probable now that the citizens of Camden will have a new public building at Third and Arch Streets, as Congressman Bergen has succeeded in getting the bill appropriating \$40,000 additional on the calendar. This, with the \$100,000 already available, will insure a large and handsome building.

#### Through Delaware.

At Middletown, New Castle Co., the Board of Trade has under consideration an offer by a New York syndicate to light Middletown and Odessa, and also to connect the two towns by an electric railway, provided the ground can be obtained for the motors.

At Centreville, New Castle Co., a site has been purchased upon which to erect a Roman Catholic church. It contains nearly an acre of ground. A priest's house will also be erected. The matter is in charge of Bishop Curtis, of the Catholic Diocese of Wilmington.

At Cape Henlopen City, P. O. Rehoboth, Sussex Co., all the unsold building lots have been purchased by James B. Hooper and J. I. Walker, of Baltimore, Md.; Commodore Shoeh, of Washington, D. C.; Dr. C. Jefferis, William Drein and J. Morton Poole, of Wilmington, Del., and H. P. Cannon, of Bridgeville. A number of improvements will be made.

At Farnhurst, New Castle Co., at the last meeting of the trustees of the State Hospital for the Insane, the special committee on mortuary building reported adversely on the proposal to arrange a mortuary and post mortem room under the hospital building, and recommended the erection of a mortuary chapel in the hospital cemetery. The report was adopted and the committee con-

tinued, with instructions to report plans and cost at the next meeting of the trustees. Dr. J. J. Black presided at the meeting. The Committee on Buildings and Grounds was instructed to purchase some furniture for several of the hospital wards and for attendants' rooms.

At Wilmington the city engineers have been instructed to drive the stakes for the proposed change and improvement of Gilpin Avenue. There will be a space of twenty feet between the curb and the building line, which will be sodded for eight feet and the remaining twelve will be used for sidewalks. Handsome shade trees will also be planted. The street bed will be thirty feet wide and laid with improved pavement, the kind not yet decided.—The Philadelphia, Wilmington and Baltimore Railroad Co. have not reached a decision in regard to a bridge for its tracks at Fourth Street.—The special committee of Council and the Street and Sewer Department have presented their ideas, and are waiting for a decision.—The trustees of the Epworth Methodist Episcopal Church have completed arrangements with Heald & Co. for the sale of the present church property on Tenth Street, and will purchase a more eligible site, upon which it is the intention of the congregation to erect a new and handsome edifice. The Rev. Isaac Jewell is pastor.

#### Through Maryland.

At Baltimore Messrs. Baldwin & Pennington are preparing plans for the new banking house for the Merchants' National Bank to be erected at the corner of Holliday and Water Streets. The structure will be eight stories high, and have two elevators. Douglas H. Thomas is President of the bank.—Architect Oster has prepared plans for an engine house to be erected on Twenty-first Street. It will be of brick, 35 x 70 feet, two stories high.—Architect W. F. Weber has made plans for a church to be erected at the corner of Fort Avenue and Charles Street. The front will be of pressed sand brick, with Potomac red stone and Falls Road blue stone.—The most important permits issued to date are as follows: To Dr. W. A. Moole to erect five two-story brick dwellings; to Friede Bros. to erect six two-story brick dwellings; to E. L. Oster to erect a three-story brick dwelling; to Charles Grasley to erect a three-story brick dwelling; to E. Brady & Son to erect six two-story brick and frame dwellings; to J. B. Hillis to erect two three-story brick dwellings; to J. W. Travers to erect two two-story brick dwellings.

#### Washington, D. C.

George Mason will erect two dwellings on O Street, between Twentieth and Twenty-first Streets, to cost about \$20,000. The plans have been prepared by Appleton P. Clark, Jr., and call for structures three stories high, of brick and stone, with slate roofs. The interiors will be trimmed with cherry, oak and white enamel, tiled vestibules, and bath rooms, sanitary plumbing, etc., will be introduced.—A handsome dwelling will be erected for Mrs. A. McMillan, at 1304 Rhode Island Avenue, from plans prepared by Nicholas T. Haller. It will be three stories high, of brick and Hummelstown brownstone, with handsome interior finish, two bath rooms, billiard rooms, antique oak wood work, cabinet mantels, tiled vestibules, fire places, steam heat and electric work.—D. B. Groff will erect eight two-story dwellings at Brightwood Park, at a cost of \$20,000, from plans by Julius Germauer. They will be of brick and Hummelstown brownstone. The same architect has prepared plans for two dwellings for S. I. Black, to be erected on Fourth Street, between C and D Streets. Also plans for seven two-story dwellings, to be erected at Third Street and North Carolina Avenue, at a cost of \$18,000.—Victor Mindeff is preparing plans for a number of improvements

An Economical, Non-Conducting, Incombustible and Durable FIRE PROOF CEMENT for Covering Steam Pipes, Hot Air Pipes, Cold Water Pipes, Drain Pipes, Sewer Pipes, Cellar Walls, Portable Heaters, Steam Boilers, Circulating Hot Water Boilers, Iron Columns in Buildings, Cementing Between Floors, Plastering Buildings.

to be made at Glen Echo, Chautauqua. These will include a public comfort pavilion of stone, two stories and tower. A feature of this building will be the plumbing. A ticket taker's lodge, also of stone, with shingle roof, will be erected. —A handsome residence will be erected by M. Berger on Fourteenth Street, extended. The estimated cost is about \$25,000. The plans will be drawn by T. F. Schneider, 933 F Street, N. W., and the material will be brick and frame, handsome interior finish, tiled vestibule, open fireplaces, bath rooms, sanitary plumbing, etc. The same architect has made plans for four three-story dwellings to be erected at Fifth and A Streets, S. E. —Glenn Brown has prepared plans for an addition to the residence of Thomas E. Young, on E Street, between Second and Third Streets. Also plans for a handsome residence to be erected on K Street, between Fifteenth and Sixteenth Streets. —Architect Schneider has prepared plans for a stable to be erected for Senator J. B. Henderson. It will be 100 x 100 feet, of Hummelstown brownstone, slate roof, and will contain the latest improvements for the purpose intended. The second floor will be arranged for servants' quarters. The same architect has prepared plans for alterations to the residence of Colonel Blanchard, at Dupont Circle. Also plans for an addition to the residence of Senator Cockrell, on R Street, between Fifteenth and Sixteenth Streets. —The stores of Henry Strasburger, at 404-06 Seventh Street, N. W., will be remodeled, from plans prepared by B. Patrick. Steam heat, electric lights and other improvements will be introduced.

#### Real Estate at Auction.

[When no sales are reported, it is because the auction firm omitted has had none.]

SOLD BY M. THOMAS & SONS, ON TUESDAY, MAY 31, 1892.

Bainbridge Street, Nos. 630, 632 and 634, three three-story brick stores and dwellings. Also Nos. 625, 627 and 629 Darcy Street, three three-story brick dwellings with four three-story brick dwellings in rear, lot 40 x 100 feet, subject to two irredeemable ground rents of each \$20 a year, \$13000

Front Street, North, No. 1321, three-story brick dwelling, and No. 1322 Adrian Street, a three-story frame dwelling, lot 20 x 100 feet, subject to an irredeemable ground rent of \$20 a year, \$3500

Queen Street, No. 408, three-story brick dwelling, lot 17 x 83 feet, subject to a ground rent of \$38.25 a year, \$2462.50

#### Wants.

NOTICE TO CONTRACTORS, CELLAR DIGGERS and others.—I have room for several thousand loads of clean earth at the Old Rising Sun Park, Allegheny avenue, from Broad Street to Germantown Avenue. Tickets for sale on premises at 10 cents a load. William T. B. Roberts, Builder.

NOTICE TO CONTRACTORS, CELLAR DIGGERS and others.—Dump can be had for all for good, clean earth for 10 cents a load at Roberts' buildings, N. W. corner Twentieth and Dauphin Streets. Tickets can be obtained on premises. WILLIAM T. B. ROBERTS, Builder.

R. I. Wilkinson, Mount Carmel, Ill., proposals for constructing a system of water works. (No date specified.)

Sylvester Lamb, city clerk, Toledo, Ohio, proposals until June 13, for paving and grading certain streets in that city.

The City Clerk of Cadillac, Mich., will negotiate a water franchise with responsible parties for a term of years. Immediate correspondence invited.

D. N. Carney, North Andover, Mass., proposals, until June 15th, for drafting plans, establishing grades and estimating cost of a sewerage system.

James B. Brooks, Secretary Water Board, Syracuse, N. Y., proposals, until June 14th, for furnishing a quantity of cast iron water pipe and special castings.

H. F. Hedden, president of the Board of County Commissioners, Tiffin, Ohio, proposals until June 14th, for the construction of three iron bridges in Seneca Co., O.

John A. Cole, Consulting Engineer, Room 30, No. 55 Dearborn Street, Chicago Ill., proposals, until June 20th, for the construction of several miles of sewers at Waukegan, Ill.

S. M. Mansfield, Lieut. Col. Engineer, Boston, Mass., proposals until June 20, for the delivery of 7500 barrels, more or less, of American hydraulic cement at Bennett's wharf, Boston Harbor.

Edwin Stewart, Paymaster-General United States Navy, Washington, D. C., proposals until June 10th, for furnishing New York Navy Yard with 2400 boiler tubes, 2 cast steel shaft struts and 2500 pounds cotton waste.

Captain Charles B. Thompson, Assistant Quartermaster, U. S. Army, Sacket's Harbor, N. Y., proposals until June 10, for the construction of certain roads and walks and for the tile draining at Madison Barracks, N. Y.

R. A. Chafee, Mayor of Aiken, S. C., wants to grant the franchise for construction and operation

of a water works system, under the most liberal conditions. Supply from spring, one and three quarter miles from city; estimated flow, 800,000 gallons per day.

W. H. Gilbert, Mayor of Albany, Ga., proposals until June 11th, for 1150 tons cast iron water pipe and specials, 4 inches to 12 inches diameter; 88 valves, 4 inches to 12 inches diameter; 80 hydrants; 25 tons soft American pig lead; 80 extension valve boxes.

Lawrence Boell, pastor of St. Mary's congregation at McKeesport, Pa., wants architects to submit plans and drawings on or before June 15, for a new church building. The plans not approved will not be paid for. For further particulars address the pastor.

Charles Foster, Secretary, United States Treasury, Washington, D. C., proposals until June 20, for furnishing such scales, beams, weights, and other weighing apparatus and repairs of the same, as may be required during the fiscal year, ending June 30, 1893, for use of the Treasury Department.

Bernard R. Green, Superintendent and Engineer Building for Library, No. 145 E. Capital Street, Washington, D. C., proposals until June 9th for furnishing and delivering the polished plate and double thick window glass required for the book stock windows of the building for the Library of Congress.

At Camden, N. J., office of Board of Public Works, until June 9, proposals for fire proof safe. Address, B. H. Shivers, clerk. Also, until June 15, by Benj. Lawton, chairman Lighting Committee at City Hall, proposals for furnishing the city of Camden with light for the year beginning July 1, 1892.

D. C. Bascom, president Board of Water Commissioners, Ticonderoga, N. Y., proposals until June 10, for furnishing material and construction of the water works complete. The works are gravity, and consist of a reservoir, conduit and distribution system, all let in one contract; about eight miles of pipe.

Acqueduct Commissioners, Office Room, 207 Stewart Building, No. 280 Broadway, New York, bids or proposals will be received until June 15th., for doing the work, and furnishing the materials called for in the approved form of contract, now on file in the office of the Commissioners; for building the new Croton Dam, at Cornell site, on the Croton River, in the Town of Cortlandt, West Chester County, N. Y.

Bids will be received until 12 o'clock on June 10 (Ten) for the quarrying and breaking for crusher of about 700 perches of stone for Williston township. The contract must be fulfilled by September 15th, the size of stone not to exceed 9 by 15 inches. The right to reject any or all bids is reserved. For further particulars address Wilmer B. Cox, at Sugartown Pa. Wilmer B. Cox, Lloyd Barr, Supervisors.

O. L. Spalding, Acting Secretary, Treasury Department, Washington, D. C., proposals until June 20, for manufacturing and placing in position, in complete working order in the United States court house and Post Office building at Pittsburg, Pa., additional combination electric lights and gas fixtures. Also, until June 22, for supplying four-ply rubber and seamless, unlined inen hose of the best quality with the necessary fixtures to all buildings under the control of the Treasury, east of the Rocky Mountains.

Notice to contractors. The Building Committee of the Chester Hospital will receive sealed proposals, accompanied by security, until 12 o'clock, noon, Tuesday, June 14, 1892, for making the necessary excavations and erecting the hospital building at Ninth and Barclay Streets, Chester, Pa. Plans and specifications may be seen at the office of P. A. Welsh, 429 Walnut Street, Philadelphia, on and after June 6, 1892. The committee reserves the right to reject any or all bids. T. J. Houston, Chairman, 620 West Eighth Street.

AN ARGUMENT IN FIGURES.

Respectfully submitted to Builders, Owners and those having charge of Estates, who will have Fire Risks to place during 1892.

EIGHTY-SECOND ANNUAL STATEMENT OF  
The American Fire Insurance Co.,  
OF PHILADELPHIA.

These Ranges and Heaters

Represent the highest possible type of mechanical and scientific construction. For reliability and durability they are positively without a superior, they truly represent the minimum of cost and the maximum of quality.

The small size of the **PROMPT RANGE** is just the thing for Builders of small Houses. It is compact in form and possesses all the advantages and requisites of the larger size. Builders, Owners and Agents having charge of properties should inspect these Ranges and Heaters before ordering.

For sale by all Dealers. They can be seen at the Company's Ware-rooms.

2-Sizes.

The High Base Home Heater.

N. H. Farquhar, Chief Bureau Yards and Docks, Navy Department, Washington, D. C., proposals until July 5th for the construction of one dry dock, 605 feet long, with 30 feet draught of water, with a body of timber and entrance of concrete and masonry, together with pump-house, pumping plant, floating gate, culverts and all other work pertaining thereto, in accordance with plans and specifications, which can be seen at the department or the office of the commanding officer of the Puget Sound Naval Station, at Sidney, State of Washington.

Improvement of ice-harbor at Marcus Hook, Pa.—U. S. Engineer Office, 1428 Arch Street, Philadelphia, Pa., June 2 1892.—Sealed proposals, in duplicate, will be received at this office until 11 A. M., Thursday, June 16, 1892, and then opened; for repairs to the two U. S. Landing Piers and the placing of seven groups of mooring piles and repairing one existing group in the ice-harbor at Marcus Hook, Pa. The attention of bidders is invited to the acts of Congress approved February 26, 1885, and February 23, 1887, Vol. 23, page 332, and Vol. 24, page 414 Statutes at Large. For all information apply to C. W. Raymond, Major, Corps of Engineers, U. S. Army.

At Norristown, Pa., proposals will be received by the undersigned committee until June 15, 1892, for furnishing the necessary labor and materials for erecting dry closets of the Smead, Wills & Co. system, in the basement of the Oak Street school house; the work to consist chiefly of brick and carpenter work. Bidders will be provided with the necessary drawings, specifications and information in the DeKalb Street school house, on Thursday evening, June 2, 1892, between 7½ and 10 o'clock. The committee reserves the right to reject any or all bids. By order of the Board of School Directors. James A. Welsh, Chairman of Committee on School Property.

Proposals for painting. The Almshouse Committee of Atlantic County invite sealed proposals for painting the Almshouse at Smith's Landing, N. J., with two coats of paint composed of Lewis' best, white lead and pure linseed oil, or John's Asbestos ready-mixed paint, to include one coat of Metallic paint on all tin roofs. Also proposals for painting, with two coats, the two barns on the premises, with a good standard quality of "barn paint," (bidder must name the make). State price for labor alone on each, as also for labor and material. The committee reserve the right to reject any or all bids. Proposals received until June 10, 1892, at 10 A. M., addressed "Almshouse Committee, care J. B. Turner, Steward, Smith's Landing, N. J.," marked "Proposals." Joseph S. Ull, John T. Irving, J. B. Townsend, Almshouse Committee.

J. W. Barnett, City Engineer, Athens, Ga. Proposals until June 16, for a complete system of water works, as follows: Construction of pump, boiler, filter and gate house, intake well, clear water basin, chimney (six feet in diameter, 115 feet high) and for laying twenty-inch intake main from river to intake well and improving the existing pond and grounds. Also for furnishing and laying 2200 tons cast-iron water pipes and specials from six to eighteen inches in diameter, 130 post hydrants, seventy-two valves, one stand-pipe (150 feet high), two compound, duplex condensing pumps of 1,500,000 gallons each and four fifty-horse-power return tubular boilers. Plans, profiles and specifications can be seen at the office of the city engineer, after May 28, 1892. A certified check of \$500 must accompany each bid. The right is reserved to reject any or all bids.

Asylum for the Chronic Insane.—Notice to builders and contractors. Notice is hereby given that sealed proposals for the erection of the Asylum for the Chronic Insane at Wernersville, Berks County, will be received at the office of Wharton Barker, president of the Commission to locate and erect said asylum, at No. 429 Chestnut Street, Philadelphia, till 12 o'clock M., of June 17, 1892, that the plans and specifications may be examined

and proposal blanks obtained meanwhile at the office of Rankin & Kellog, architects, room 703, of No. 1001 Chestnut Street, Philadelphia; all bonds to be accompanied with a bond in the sum of \$50,000, with adequate security, to be approved by the Commission before awarding the contract, for the faithful execution thereof; the Commission reserving the right to reject any or all bids. Wharton Barker, Pres. of Com., John M. Reynolds, Secretary.

Department of Public Works, Bureau of Surveys, office room, 418 City Hall, Philadelphia, June 3, 1892, sealed proposals, indorsed "Bids for Branch Sewers and Bridges," and addressed to the undersigned, at the office above mentioned, will be received until 12 o'clock noon, on Tuesday, June 14, 1892, for branch sewers, steel girder bridge on the line of Manayunk Avenue, over Shurs Lane. Separate bids for either the sub-structure or the super-structure. Specifications and blank forms upon which bids must be made, will be furnished upon application to the Chief Engineer. Bidders must be skilled and regularly engaged in the class of work bid for. No bid will be considered unless accompanied by a certificate from the City Solicitor that the provisions of an ordinance requiring proposal bonds when the bids exceed in amount five hundred dollars, approved May 25, 1860 (p. 81 West), have been complied with, and a certified check for a sum not less than two (2) per cent. of the amount of the proposal for any work as additional security, in excess of the amount already required by ordinance of Councils; said check to be drawn to the order of the Treasurer of the city of Philadelphia, and to be returned immediately after the award of contract has been made. (Ord. January 6, 1892.) No bid will be considered unless accompanied by a certificate from the City Solicitor that the provisions of an ordinance requiring proposal bonds when the bids exceed in amount five hundred dollars, approved May 25, 1860 (p. 81 West), have been complied with. The Director reserves to himself the right to reject any or all bids. as he may deem best for the interest of the city. James H. Windrim, Director.

Proposals for improving DeKalb Street.—The Chairman of the Street and Road Committee of the Borough of Norristown, Pa., will receive sealed proposals until 7 o'clock P. M., June 22d, and not thereafter, for the improvement of DeKalb Street from the south line of Main Street to the Schuylkill Bridge, by grading and paving with stone blocks, asphalt blocks and vitrified brick, according to plans and specifications. Bids must be made in the manner stated in the specifications and must be accompanied with samples of proposed material to be used. Approximate number of square yards, 3500. Within ten days of award the contractor must deposit with the Borough Solicitor security in one-half of the amount of the contract and execute a contract for the faithful performance of the contract and keeping the street in repair and surface for three years. Each bidder will be required to state in his proposal the names and addresses of his surety or sureties. Cash or a certified check made payable to Harry L. Sullivan, Borough Treasurer, to the amount of \$500, must accompany each bid as a guarantee that in case the contract is awarded, the successful bidders will within ten days after notification of award execute said contract and in default the money to be forfeited to the Borough. Bids must be sealed and indorsed, Proposals for improving DeKalb Street from Main to the Schuylkill Bridge. Plans and profiles may be seen, and specifications, contract, blank form of bid and other information obtained at the office of the engineer. The Council reserves the right to reject any and all of said proposals. Signed: Wm. Vaughan, Chairman of the Street, Road and Bridge Committee. Malcolm D. Patterson, Engineer.

Proposals for improving Main Street.—The Chairman of the Street and Road Committee of

the Borough of Norristown, Pa., will receive sealed proposals until 7 o'clock P. M., June 22d and not thereafter, for the improvement of Main Street, from the east line of Arch Street to east line of DeKalb Street, and from the southeast side of Swede Street to the tracks of the Junction R. R., by grading and paving with stone blocks, asphalt blocks and vitrified brick, according to plans and specifications. Bids must be made in the manner stated in the specifications and must be accompanied by samples of proposed material to be used. The work will be divided into two sections as follows: First, from Arch to DeKalb, approximate number of square yards, 5364. Second, from Swede to Junction Railroad, approximate number of square yards, 8028. Within ten days of award the contractor must deposit with the Borough Solicitor security in one-half the amount of the contract and execute a contract for each section, for the faithful performance of the contract and keeping the street in repair and surface for three years. Each bidder will be required to state in his proposal the names and addresses of his surety or sureties. Cash or a certified check made payable to Harry L. Sullivan, Borough Treasurer, to the amount of \$500, must accompany each bid as a guarantee that in case the contract is awarded the successful bidders will within ten days after notification of award execute said contract, and in default the money to be forfeited to the Borough. Bids must be sealed and endorsed, "Proposals for improving Main street from Arch to DeKalb, and from Swede to Junction Railroad." Plans and profiles may be seen, and specifications, contract, blank forms of bid and other information obtained at the office of the engineer. The Council reserves the right to reject any and all of said proposals. Signed, Wm. Vaughan, Chairman of the Street, Road and Bridge Committee. Malcolm D. Patterson, engineer.

Mint of the United States at Philadelphia, Pa., Superintendent's Office.—Sealed proposals endorsed "Proposals for supplies of" (naming the class or articles bid for) will be received by the undersigned until the tenth day of June, 1892, at 12 o'clock noon, for furnishing this Mint with the following named supplies during the fiscal year ending June 30, 1893, namely: Iron, copper, ingot sheet and bar, brass, brass castings, lead, berthazinc, iron castings, anthracite coal (Highland broken, pea and stove), charcoal, American glass, paint brushes, varnish brushes, whitewash brushes, dust and scrubbing brushes, floor sweeps, corn brooms, feather dusters, acids and chemicals, lumber, eight-ounce duck, double warp and filling, drygoods, buckskin mitts and gloves, oils and lubricators, namely, cylinder oil, engine oil, red vacuoline, cosmo lubric, or equal to, headlight oil, naphtha, seventy-six degrees, lard oil, lard, tallow, fire brick and fire clay, paving brick, stretcher brick, crucibles, hardware, files and rasps, tool handles, Yale locks, plumbers' supplies, with price list and discounts; Wrigley's mineral scouring soap (or equal to), deterative soap, Babbitt's soap powder, sapolio, castile soap, oak wood, crash mitts, leather belting, tinware, chamois skins, rubber goods, specie kegs, sweep barrels, (whisky barrels), ice, paints and oils, putty, sandpaper, emery paper, emery cloth, white rags, white cotton waste, bar sand, lime, Portland cement, sponge packing, vulcabeston, corrugated copper gaskets, candles, hauling ashes, between 9 o'clock and 10 o'clock A. M. per load direct from ash pit and other necessary articles to be delivered in such quantities as may be required from time to time. Price lists must show discounts. The right is reserved to reject any and all proposals. Proposals must be accompanied by a bond in the sum of \$2,000, with one or more satisfactory sureties, and must be accompanied by samples of the supplies to be furnished. Schedules of the kind and amount of supplies needed, together with blank bond, will be furnished on application. Parties submitting proposals can be present when they are opened, if they so desire. O. C. Bosbyshell, Supt.

## A Few Quiet Words with House Builders and Owners.

If the kitchen of your house is small, you need to economize room. You can do this by using a range with elevated boiler, such as the

### "FIDELITY."

It will reduce the cost of plumbing also. We make them with seven inch or eight inch boiler holes, ovens on right or left of fire, with or without hot closets, and also to heat an upper room. Splendid bakers. Hot water in abundance. The latest and best of their class.

FIDELITY HOT AIR RANGE WITH  
HORIZONTAL BOILER.

Excelsior Double Oven Range.

If the kitchen is roomy and large, cooking capacity is sought. You will want a brick-set range with a vertical circulating boiler, set in the usual way. The

### "EXCELSIOR RANGES"

are acknowledged all over Philadelphia, in which city and vicinity some 75,000 have been sold as the standard brick-set range. They are furnished with ventilated ovens, oven-door pedals, rocking grates, and all modern improvements. Made in seven and eight inch sizes; single, double and hot-air ranges. Send for descriptive pamphlet, entitled "PERFECT COOKING."

MANUFACTURED BY

**ISAAC A. SHEPPARD & CO.,**

N. E. COR. FOURTH STREET AND MONTGOMERY AVENUE, PHILADELPHIA, PA.

And for Sale by all Responsible Dealers.

Whether large or small, your house will require a heating apparatus of some kind. It will pay you to put in a *really good* hot air furnace. The

### "PARAGON"

has no superior. Perfectly self-cleaning, with fewest joints, free from dust and gas, largest radiating surface, heavy steel plate, drum casings, easy on fuel, and of superior durability, it will always give satisfaction. A descriptive circular will be mailed upon application.

PARAGON FURNACE WITH  
EQUALIZED DRAFT.

# DID YOU EVER EAT AT BOOTHBY'S Great Chestnut St. Restaurant?

If you have not, you can form no proper idea of its size, beauty and facilities. Its corps of superintendents, chefs and assistants, waiters and supernumeraries number over 100. Its seating capacity is over 1300, and every guest is made comfortable, besides receiving prompt and careful attention. Its menu embraces everything in season. The cooking represents the best efforts of prominent chefs, whose skill has given the place a national reputation. The prices are moderate and the service is unexcelled. OYSTERS ARE THE GREAT SPECIALTY. The Ladies' Restaurants are retired, light and elegant. For a social meal or a light lunch, you are recommended to

**BOOTHBY'S, 1231, 1233 AND 1235 CHESTNUT STREET.**

OYSTERS WHOLESALE, 307 SOUTH FRONT STREET.

Department of Charities and Correction, Philadelphia. Sealed proposals will be received at the office of the Department of Charities and Correction, corner Harmony and Hudson Streets, until Friday, June 10, 1892, at 2 o'clock P. M., for the following articles for the months July, August and September, 1892. To be delivered at such times and in such quantities as may be directed, freight to be pre-paid. The probable quantities required will be as follows: but these statements shall not be construed as affecting the contract as to quality or time of delivery. Schedule B, stationery; Schedule C, nails, gas stove, scales, shears, etc.; Schedule D, gas brackets, lead pipe, cast rings, bends, branches etc.; Schedule E, corn brooms; Schedule G, iron; Schedule H, lumber; Schedule I, paints; Schedule K, 10,000 lbs. hemlock sole; Schedule L, 1000 lbs., barley, 2500 lbs. beans, 1000 lbs., Java coffee, 2000 lbs. Rio coffee, 25 kits mackerel, 1000 lbs. rice, 30 bbls. sugar, "B," Franklin standard, 20 bbls. granulated sugar, Franklin, 5000 lbs. tallow, oil, soap and minor articles; Schedule M, feed; Schedule N, gum boots, 3000 yds. checks, 5000 yds. calico, buckles, buttons, cottons, combs, napkins, towels, straw hats, etc.; Schedule P, steam and garden hose; Schedule R, chairs; Schedule T, buckets, handles, rope; Schedule U, refrigerator, 15 clay retorts, Cyrus Borgner, and fire brick, tile, blocks, stoppers, ground fire clay and brick, fire clay. Blank forms of proposals and envelopes will be furnished at this office, and no bid will be considered unless made on said blanks, neither will said proposals be accepted if altered. Samples of all goods required may be seen at the office, Harmony and Hudson Streets. All the foregoing articles shall be subjected to inspection on each delivery, by an officer designated for that purpose, and if found inferior in quality called for by the contract, or not equal to the standard samples, or deficient in weight, measurement, workmanship or otherwise, the bureau or superintendent shall have the right to reject the whole or any part of the same, and purchase in open market, at the cost or expense of the contractor, an equivalent in quantity so rejected of each article, of the quality called for by said contract. Bidders must remove rejected goods promptly at their own expense. Bids from others than those engaged in actual business in the general branches herein mentioned will not be entertained or considered. No bid will be considered unless accompanied by a certificate from the City Solicitor that the provisions of an ordinance requiring proposal bonds when the bids exceed in amount five hundred dollars, approved May 25, 1860, have been complied with. The Bureau reserve to themselves the right to accept or reject any or all bids, as they may deem best for the interests of the city. James A. Freeman, President, Department of Charities and Correction.

### Lot Buyers.

Clinton Case, of Darby, Pa., lot at that place.

# TIVOLI EXPORT

Is beyond all question the purest as well as the best American beer brewed on this Continent.

**F. A. Poth Brewing Company,**  
PHILADELPHIA.

## JUDGMENTS.

## PHILADELPHIA.

## ABBREVIATIONS.

Where there are no figures to indicate the amount of the judgment, the damages have not been assessed.

The name first mentioned in each line is that of the judgment debtor.

A star (\*) denotes judgment confessed or bond and warrant conditioned.

The figures 1, 2, 3 and 4 immediately after the name of the plaintiff indicate the number of the Court. The term of the Court is indicated as follows: D, for December Term; M, for March Term; J, for June Term and S for September Term.

## HART CYCLE CO

PIONEER CYCLE HOUSE.

SECOND-HAND BICYCLES.

It has become well understood that high grade Bicycles, second-hand, if in good condition, are a better investment than medium grade machines at even prices. We now have more than a hundred second-hand high grade Safety Bicycles on hand, many of them COLUMBIA, every machine guaranteed. Some with cushion tires, some pneumatics, all at low prices. We invite inspection and comparisons.

Our 80-page catalogue of new goods, and price-list of second-hand machines mailed free on application.

The Past shows Over a Thousand Years with no Improvement in Wall Plaster.

THE PRESENT GIVES US

# ADAMANT WALL PLASTER,

The Par Excellence of Plastering Materials.

### SOME OF ITS ADVANTAGES:

- |                              |                             |                                      |
|------------------------------|-----------------------------|--------------------------------------|
| 1. Always Ready.             | 5. Very Adhesive.           | 9. Keeps out Dampness.               |
| 2. Easily Applied.           | 6. Saves Saturating Lumber. | 10. Does Not Absorb Gases or Disease |
| 3. Hard as its Name Implies. | 7. Saves Time.              | 11. Vermin Proof. [Germs.]           |
| 4. Elastic.                  | 8. Fire Proof.              | 12. No Pitting or Cracking.          |

No More Falling Ceilings or Battered Walls. Medal of Excellence, American Institute of New York.

### OPINIONS OF THE PRESS.

[From the Northwestern Architect.]

MINNEAPOLIS, MINN.

"As is compatible with this progressive period, even wall plaster has succumbed to inventive genius, and 'the day is nearly done' when our handsomely decorated walls and ceilings shall be ruined by reason of the utter unreliability of the old style mortar. To meet this demand for a non-porous plaster, Adamant has appeared on the market, and is now being manufactured in nearly every State in the Union."

[From the Scientific American.]

"Some of the advantages Adamant possesses above the other plaster is the extreme hardness of the wall. It will neither crack nor crumble. It is a strong support to a building. It does not swell timbers by an absorption of the moisture, as the material itself absorbs most of it. It dries so quickly after it is applied to the wall, that in a few hours frost will have no effect on it. We are convinced that this Adamant is destined to revolutionize the business of house plastering."

[From the Baltimore Commercial.]

"Adamant makes a wall as hard as marble, at a slight cost."

[From the Leader and Herald.]

CLEVELAND, O., March 22, 1889.

"The problem has been to provide a substitute that would not only produce a perfect wall, but be comparatively cheap and easily applied as well. 'Repeated tests, under the most exacting conditions, clearly prove that such a happy combination has at last been secured in the plastering material called 'Adamant,' now being so extensively introduced in this city.'"

[From the Builder, Decorator and Wood-Worker.]

PHILADELPHIA, PA.

"Nothing in house building has so long withstood the 'march of improvement,' notwithstanding it has failed to give a substantial wall, while many houses become defaced and old in a few months on account of broken walls and ceilings. 'Adamant' obviates all this, and is the coming plaster."

[From the New York Commercial News.]

"There is not the least doubt about 'Adamant' wall plaster will last as long as the building upon which it is used."

JOHN N. GALLAGHER, Proprietor.

JOHN F. BRISBANE, City Editor.

PHILADELPHIA, WED'Y, JUNE 15, 1892.

On July 6th next we will publish our regular semi-annual report of building operations and sales of real estate for 1892. Our edition on that date will be a particularly heavy one, as we have made it a point for years to cover the whole field with the issue containing our reports, the value of which is, beyond all question, pre-eminently great to the building and real estate interests generally. A grand opportunity is therefore offered for the enterprising to present a strong bid for patronage through suitable and well-written advertisements in that issue. We will cheerfully aid our patrons in writing for them such advertisements as they require, submitting proof of the same without cost, further than the space contracted for.

We trust our readers and others will determine upon the size of the advertisement desired in order that we may not be delayed, as the amount of extra work to be performed will necessitate our receiving copy for that issue as early after this announcement as possible.

The Traders' League is certainly doing creditable work in the way of advancing the business interests of this city, with the view of impressing upon the railroad ticket sellers of the country, who are to hold a convention in this city on September 14th next, the importance of Philadelphia as a business centre. The League will take the visitors in hand with the view of making their visit both pleasurable and profitable. An entertainment fund is to be raised, besides which all points of interest are to be visited.

It is with profound regret we are called upon to note the sudden death of one of our most prominent builders and real estate operators, Mr. James H. Stevenson, who was stricken down in the fullness of life and vigor on the 10th inst. Mr. Stevenson was regarded as one of the substantial and progressive men of our day, and had, by his industry, aided largely in the development of the city. His loss will be deeply felt in the

northwestern section, where the firm of which he was the head, has, during the last five years, done much for its development and prosperity.

James T. Davis & Co., Limited, Builders' Exchange, has issued an unusually useful Architects' and Builders' Directory of Pennsylvania, for the year 1892. It contains the names and addresses of firms and individuals engaged in the building trade and in the supply of building material in Philadelphia, besides a complete list of architects and builders of Pennsylvania. The value of the work is further augmented by a complete resume of the building laws, and other useful features, making it one of the most valuable books of the kind published in this section of the country.

**Architect Notes.**

Hazlehurst & Huckel, architects, Drexel Building, have completed plans for a new church for St. Paul's Lutheran Congregation, on Twenty-second Street, above Columbia Avenue, only the first floor of which will be contracted for and finished at this time.

Wilson Eyre, architect, 927 Chestnut Street, has made plans for alterations and an addition to the house, 1601 Chestnut Street. These will include a back building also an entire renovation of the main building, introducing electric work, and all modern improvements. Mr. Eyre will supervise the work.

J. D. Allen, architect, 1017 Chestnut Street, is preparing plans for a series of improvements at the Chestnut Street Theatre above Twelfth, these contemplate many fire proof characteristics, an asbestos curtain and a fire wall will be part, as well as upholstering and some decorations. The front will receive attention and the stairs will be remodeled.

J. F. Stuckert, architect, 524 Walnut Street, has made plans for a fine office building, to be erected by Robert W. and Jos. Fitzell, real estate operators, at 49 North Thirteenth Street. The building will be three stories high with stone, glass and metal work in front, with slag roof. Interior will be fitted for steam heat, electric work, toilet rooms and all the latest appliances for offices en suite or otherwise. Estimates are being made by contractors.

Peter J. Criste, architect, Milton, Northumberland Co., Pa., has recently prepared plans for a substantial dwelling house for E. W. Hull, M. D., at Montgomery Station, on the Philadelphia & Erie Railroad. Building to be frame, heated with hot air, have hardwood floors, quartered oak wainscoting, wooden mantels, bath room, water closets, etc. Also, plans for a Catholic church, at Lykens, Dauphin Co., Pa., size 50x80 feet, walls to be of red brick, trimmed with brownstone, stained glass windows, slate roof. Manner of heating not yet determined.

Yarnall & Goforth, architects, 14 South Broad Street, have completed drawings for a fine office building at 1414 South Penn Square, for Mr. Thos. E. Baxter. The structure will be 18x92 feet, seven stories high, the first of which will be red stone, and a large bay window, extending from

second to fourth, will be in terra-cotta and iron work, with sides of top stories of Tiffany brown brick, tile roof. The interior will be in hardwood, steam heat, electric work, one passenger elevator, and fine toilet rooms on each story from basement to sixth floor. All the latest and most approved accommodations will be introduced. Estimates are being made on the work.

Harold Godwin, architect, 905 Walnut Street, has finished all plans in detail for the erection of the six-story laundry building for Charles J. Miller, at Twelfth Street and Columbia Avenue, and has awarded the contract to Ralph Gregg, who has begun operation of tearing down the old structure. The new one will be of buff brick with terra-cotta trimmings, first floor of iron columns and plate glass front. Second and third will be used for society purposes, whilst the basement, first floor, fourth, fifth and sixth will be utilized for laundry business. The whole will be fitted with steam heat and power, electric work, best of plumbing, one freight lift and all conveniences.

M. Fielding, architect, 110 South Fourth Street, has made plans for alteration and additions to the house of J. B. Morgan, on Cheltenham Avenue, Germantown. These include interior work to main building and a stone addition in rear with the introduction of electric work, best of plumbing and all modern conveniences. Also, drawing for alterations and additions to house of F. J. Firth, on Church Lane, Germantown. These include introduction of steam heat by the Philadelphia Steam Heating Co. and electric work, plumbing of the best system, and a new stable, two stories high, with cement floor, etc. Mr. Fielding has also on boards, plans for a dwelling house for the Germantown Academy on School Lane near Green Street. This will be used as a dormitory as well as school purposes. Plans have been prepared by the same architect for a row of twin houses for Conyers Button, to be erected on Hancock Street near Green Lane, all to be three stories high and built of the Jarden buff brick with terra-cotta trimmings. Interior of hardwood with best accommodations.

Edwin F. Bertolette, architect, 1218 Filbert Street, Philadelphia, has completed plans for a large store building, to be erected at Huntingdon, Pa., for William Reed. The first floor front will be of iron and glass, whilst the rest will be of press brick, with terra cotta trimmings, with tin roof and copper cappings and cornice. The structure will be in area 50 x 90 feet, and a gallery will extend around top of the first floor on interior for sale of merchandise in connection with the store room in the main room. The whole will be heated by steam, lighted by electricity, and an elevator will run from first to third story for accommodation of the patrons. The design is unique and handsome and possesses all the advantages of large establishments. Mr. Bertolette has also designed plans for a very handsome porte-cochere for the residence of L. Beecher, Esq., at Pottstown, Pa. To be built of stone, iron columns and fancy wrought iron grille work, with a slate roof. Also plans for a porte-cochere and solarium, to be attached to the residence of Mr. Edgar Cook, Pottstown, Pa. This to be of press and ornamental brick work, with a slate roof. Interior will be fitted for sitting

room overhead; also a handsome bath and toilet room, with best sanitary work. Also plans for a handsome residence for Mr. Edward Green, of Norristown, Pa. To be three stories high, of press brick, with stone trimmings and slate roof. A number of bays will be in front, with French plate windows, also stained glass windows, and interior in hard wood, with steam heat and electric bells and light as well as all modern and best conveniences.

### Building and Real Estate Notes.

The Paxson homestead, in Buckingham township, Pa., has been purchased by ex-Recorder George Pierie, of Philadelphia. The price paid was \$6000.

The property at the southeast corner of Chestnut and Tenth Sts., was sold a short time since for \$147,500. It is eighteen feet front, making the selling price a little over \$8,200 per foot.

The Quaker City Mortar Co. is pushing forward the work of constructing a factory at Twenty-third and Filbert Streets, a notice of which was made in a previous issue of this journal.

The P. R. R. will at an early day erect a new freight station at the corner of Delaware and Washington Avenues. It will be 25x55 feet in size, and two stories high with a slate roof.

Stirling & Sharp, builders, will at once start an operation of twenty-six two-story houses at Tenth and Clearfield Streets. All to be of press brick, stone facings and best of modern improvements.

Wm. Tecklenberg, contractor, 1614 Cadwalader Street, will erect an addition to the factory on East side of Howard North of Norris Street. It will be 54 x 43 feet, four stories high and fitted with steam.

C. C. Moore, builder, 2001 North Broad Street, will at once begin an operation of eighteen two-story brick houses, on the North side of Monmouth East of Frankford Avenue. All to have best modern conveniences.

All Saint's Evangelical Lutheran Church, has purchased a lot of ground from M. R. Smith, for \$6000, on the northeast corner of Germantown Avenue and Cayuga Street, the lot is 63.3 x 150.3/8 feet, on which to build at an early day.

H. John Vesry, 2000 North Twelfth Street is about to begin an operation of eleven three-story dwellings, on West side of Forty-seventh Street, near Adeline Street, to be of press brick, stone facings with best interior accommodations.

John J. Cassidy, builder, 1948 Moyamensing Avenue, is at once to start an operation of two-story houses, fourteen in number, on East side of Letitia Street, South of Snyder Avenue, all to be of brick with stone trimmings and best modern improvements on interior.

Jno. M. Sharp, builder, 1936 South College Avenue, will start the erection of ten fine three-story houses, on Diamond Street, East of Twentieth Street. These will be of fine press brick, with brown stone trimmings and interior to have best modern conveniences.

John W. Fritzinger, contractor and builder, Manayunk, Philadelphia, has been awarded the contract for the glass factory for Whitehall, Tatum & Co., to be erected at Millville, N. J., from plans prepared by R. G. Kennedy, as reported in our last issue.

The work of laying the foundations for the superstructure of the new sugar refinery to be erected by Wm. J. McCahan, at Delaware Avenue and Morris Street, has been started, and in a short time, it is understood, bids will be asked for construction of the work thus started.

The Vulcanite Paving Co., of Philadelphia, has been awarded the contract for all the asphalt paving to be done upon Broad Street, between Columbia Avenue and Christian Street, during

the current year, and it is expected that work will be commenced at an early day.

Hughes & Patterson, iron manufacturers, at Beach and Vienna Streets, having bought, as noted by this journal in a previous number, the old Robbins mill, will erect another branch mill at that point. It will be entirely of iron, one story high, fitted with steam and furnaces for the work.

Joseph Bird, contractor, 1029 Race Street, will erect a fine hotel on the southwest corner of Twelfth and Filbert Streets. This structure was noted in a previous number of this journal. It will be fitted with electric work, elevator and every modern appliance. Work to begin at once.

John O'Donnell, contractor, 1161 South Thirteenth Street, will at once begin a series of alterations and additions to the Continental Brewing Co.'s plant, at Twenty-first Street and Washington Avenue. This work was contemplated about six months ago, but were delayed until now on account of rush of business.

Geo. L. Sipps, contractor, 619 Walnut Street, has received the contract to erect the new structure at southwest corner Eighth and Sansom Streets for Mr. Thomas Bowes, and noted in architect notes of this journal June 1st. The plans were made by Frank R. Watson, architect, 518 Walnut Street, who will supervise the work of construction.

It is currently reported that negotiations are now pending between William H. Wanamaker & Co. and the owners of 1204-6 Market Street for control, upon lease, of that property with a view of adding it to the already extensive establishment at Twelfth and Market Streets. If the deal be consummated considerable alteration will be made and the building adapted for the increase in trade.

Thos. Bately, builder, 909 Lehigh Avenue, has broken ground for 12 dwellings, three-stories high, on Broad Street, North of Somerset Street. Also, seventeen more two-story houses and twenty-five of the same kind on the North and South side of Richfield Street, West of Broad Street and five, on East side of Glenwood Avenue, North of Somerset Street. All of these are to be of best material on exterior and interior.

The Board of Charities at a meeting on the 10th inst., had under consideration the plans for an isolated ward for contagious diseases, as presented, these plans contain many new features in sanitary effect, and each room will be separate from the others, the whole ventilated from the roof. The new building will be 68x86 feet, two stories high. Proposals will next be in order, which will be advertised in due time.

Thomas Fox, Esq., Bullitt Building, and a number of Philadelphia gentlemen, have formed a syndicate that now controls about seven hundred acres of land at southern extremity of "Seven Mile Beach," and known as "Stone Harbor." A large hotel is now being constructed, and it is the intention of the syndicate to erect a number of houses for the individual members, information about which can be had of Mr. Fox, who is the agent of the operation.

Lewis Havens, contractor, Girard Building, Broad and Chestnut Streets, has been awarded the contract to erect the new building to be occupied by the Curtis Publishing Co., at 421 to 427 Arch Street. It will be remembered, H. J. Hardenberg, architect, of New York City, drew the plans for Mrs. Creutzenberg, the owner, and will supervise the construction. A full description of building and the material to be used has been given in architectural notes of a previous number of this journal.

Geo. S. Gandy, vice-president of the Fifth and Sixth Street Passenger Railway, and Adolph Woll, of the firm of Peter Woll & Sons, merchants, have bought from James H. Stevenson & Sons, 510 feet on Thirty-third Street, facing Fairmount Park

above Diamond, and 140 feet deep. On this plot a large number of fine residences will be erected by the above purchasers, as a matter of investment. The houses will be of unique pattern and furnished on interior with every convenience, each of the owners will occupy the respective corners of the block.

The Board of Directors of the Commercial Exchange of Philadelphia, have appointed a Committee to open negotiation looking to a purchase of the Chamber of Commerce Building, on Second Street above Walnut Street. Also, a Committee to examine into and report upon the expense of alteration and additions to the structure such as are needed and desired by them, the Committee to purchase consists of Lincoln K. Passmore, Walter F. Hagar and Antonio Sans, and that upon plans and cost of the work above noted is J. C. Klauder, H. J. Hinchman and Alfred Brooke ex-president.

An ordinance recently introduced in Councils to authorize the Connecting Railroad Co. to construct a branch freight and coal line southward from a point near the proposed extension to Bustleton, between Ormes and Rosehill Streets, to the north side of Cambria Street, reveals an interesting situation in real estate affairs in the vicinity. The proposed line will run through about 150 acres which have been greatly improved by the erection of mills and dwellings thereon during the past two years, and agents, it seems, have been at work securing the land that will be needed for the route. It is said they have purchased a property of the William Jenks Fell estate, at Indiana Avenue and Cambria Street, for \$25,000, and another of John M. Kennedy, in the same locality, for \$19,000. In addition to these, it is reported, the agents have purchased fourteen new two-story dwellings, put up by Jacob Marsh, on Indiana Avenue, between Rosehill and Ormes Streets, and twenty-eight others that are nearly completed, for \$57,000. Builder Kennedy has also sold a strip through a 40-acre tract, from Allegheny Avenue to Tioga Street, for \$15,000 an acre. This completes the proposed route to the Wilkey homestead, where, it is said, the trouble in securing land begins. The agents, however, express no doubt about securing all the land that is needed to complete the branch.

### Through Pennsylvania.

 When any of the following are not post office towns they will be so designated.

—At Kennett, Chester Co., Henry L. Ewart, will erect a new barn.

—The Franklin County Children's Aid Society have purchased ten acres of land for a site for the proposed asylum.

—At Ashbourne, Montgomery Co., A. S. Benner has purchased a lot in the rear of his dwelling and will erect a fine stable.

—At Bristol, Bucks Co., Contractor York has been awarded contracts for the erection of a number of dwellings.

—At Penn's Station, Westmoreland Co., the Barnes Safe & Lock Company is negotiating for a location for its works.

—At York, York Co., Gilbert & Co. are the contractors for the new school building to be erected on Water street.

—At Everett, Bedford Co., the foundation walls of the new Episcopal Church edifice are now ready for the superstructure.

—At Quakertown, Bucks Co., the Society Hall Association Committee is looking around for a site upon which to erect a building.

—At New Paris, Bedford Co., George W. Blackburn has been awarded the contract for the erection of a new school building at that place.

—At Media, Delaware Co., the members of the Campbell A. M. E. Church have purchased the old Fifth Street hall and will remodel it for church purposes.

—At Hazleton, Luzerne Co., the Diamond Water Co. has awarded the contract for the construction of the new dam to C. F. King, of Mahanoy City.

—At Lehigh, Carbon County, J. & H. Seaboldt can give information as to the proposed extending of the water mains of the Lehigh Water Company.

—At Chester, Delaware Co., the plans for the new power house of the Chester Electric Railway are about completed, and work will be begun on the structure in a short time.

—At Mt. Carmel, Northumberland Co., the contract for the erection of the new opera house has been awarded to W. F. Weise, of Tyrone, Pa. Work will be begun at once.

—At Jenkintown, Montgomery Co., the citizens have decided by vote to borrow \$30,000 for the purpose of macadamizing all the streets of the borough. Work will be begun at once.

—At Boyertown, Berks Co., a number of improvements will be made to the old school building. L. M. Wartman is president of the School Board, and D. B. Bower, secretary.

—At Clifton Heights, Delaware Co., H. E. Cooper has purchased of William McCormick two building sites on Madison Street, upon which he will erect two three-story brick dwellings.

—At Mahaffey, Clearfield Co., work commenced in the construction of the foundation walls for a new school building. Also, the erection of a new railroad depot and a bridge across Chest creek.

—At Chalfont, Bucks Co., extensive improvements will be made to their mill by Hartzell Bros. It will be remodeled and new machinery put in. Wolfe & Co., of Chambersburg are the contractors.

—At Reading, Berks Co., the Germania Building Association No. 3, has awarded contract to Matz & Bridgman for the erection of ten dwellings on Tenth street, between Spring and Robeson streets.

—At Norristown, Montgomery Co., a soap factory will be established by the Bristol Soap Manufacturing Co., of Boston. Mr. Warner, the superintendent, has been in the town looking up a building.

—At Oil City Venango Co., the Grace M. E. Church to be erected, from plans prepared by architect E. A. Curtis, of Fredonia, N. Y., will cost about \$25,000. It will be 80 x 82 feet, of common brick and two stories high.

—At Girardville, Schuylkill Co., council has awarded the contract for the construction of the new bridge over the Mahanoy creek on Ogden Street. The structure will be of stone abutments, with iron girders forty feet in width.

—At Conshohocken, Montgomery Co., the Heavenly Recruits will erect a parsonage on Ford Avenue, West Conshohocken. It will contain eight rooms and all modern conveniences. Alfred Noblitt has been awarded the contract for the erection.

—At Ashland, Schuylkill Co., the plans for the P. O. S. of a building are now in charge of the directors, and work will soon commence on its erection.—A. L. Laubenstein, J. D. McConnell and B. W. Payne are the building committee for the Washington Hall Association's new building to be erected.

—At Connellsville, Fayette Co., at the last meeting of Town Council, the Street Committee was instructed to advertise for bids for paving and macadamizing a number of streets. The Ordinance Committee was also instructed to frame an ordinance for the paving of Main Street from Arch Street to Pittsburgh Street and from Water Street to Pittsburgh Street.

—At Altoona, Blair Co., the congregation of the Eighth Avenue Methodist Episcopal Church has decided to make extensive alterations and

improvements to the present edifice, from plans prepared by William L. Plack, of Philadelphia, at a cost of about \$25,000. The new front will be of brick and terra cotta, galvanized iron roof and large windows. The interior will be in hard wood, handsome new furniture, steam heat, etc. The pastor is Rev. H. R. Bender.

—At Harrisburg, J. J. Lynch, contractor and builder, has purchased twelve acres of land on the McFarland tract near Lucknow. He will improve the site by the erection of a number of dwellings.—Swift & Co., will soon commence the erection of a meat warehouse, on South Second Street, between the Philadelphia and Reading bridge and the German Lutheran Church.—Mr. N. Russ, proprietor of the "Gross House," has purchased a piece of ground adjoining his hotel, upon which he will erect a four-story building, to be used in connection with the "Gross House." It will be fitted up with all modern conveniences, and have a first class underground restaurant attached. Work has been commenced on the removal of the old structure.

—At Pottstown, Montgomery Co., a residence will be erected by Philip Swinehart, on Walnut Street. The lot was purchased from the trustees of the Salem Evangelical church for \$1250.—Thomas Taylor, the owner of the Madison House contemplates the erection of a new hotel next year.—Prof. John Meigs has purchased a lot 300x300 feet, which will be fitted up for athletic sports.—A brush factory will be erected by Adam Harnley, on Third Street.—Lyman Beecher, of Pottstown, has purchased the Pleasant View hotel in Lower Pottsgrove, from Lewis H. Bechtel. It is said that extensive improvements and alterations will be made to the property in order to fit it for a summer resort.—While excavating for an addition, the rear wall of the Opera House fell to the ground, causing a loss of about \$5000.

—At Wilkesbarre, Luzerne Co., Messrs. Hall & Sherred have received the contract for the new hospital to be erected, and work will commence at once. The main building is to be three stories high and has been designed for ultimate use as an administration building, when the old building is torn down and replaced by a new one; for the present, however, the new structure will have about twelve private wards, space for a half dozen additional ones on the third floor, and on the first floor, there will be an office and reception room. The entrance doors will set well under a deep arch. The brick will be set in red mortar and the trimmings will be red stone and terra cotta. Between this building and the old one, and joined to the new by generous corridor, will be the operating building of two stories. On the first floor will be a dispensary and on the second a preparing room and operating room. The elevator will be convenient to the driveway, so that the patient can be easily taken from the ambulance on the lift. The operating room will be floored with a very hard and non-absorbent tiling, and the same will be used for a wainscoting, so that the room can be easily and thoroughly cleansed. The total cost, with chandeliers, open fire places in each room, etc., plumbing and heating apparatus, will be just under \$20,000, though the details mentioned are not in Hall & Sherred's contract. It is not expected that the building will be entirely finished until about a year from now, as the walls will be allowed to settle thoroughly before the interior is completed. By this time the state appropriation will be available in its entirety, and it is thought that this will meet all the requirements of the case.

#### Through New Jersey.

At Irvington, Essex Co., M. D. Dennison can give particulars as to proposals for a quantity of new school house work.

At Woodstown, Salem Co., at a special election held on June 7, Borough Council was authorized

to issue bonds to the amount of \$30,000, for the purpose of erecting waterworks.

At Pavonia, Hudson Co., William T. Bailey has been awarded the contract for the extension to the Pennsylvania Railroad shops at that place, and work has been commenced.

At Mount Holly, Burlington Co., the contract for the erection of the new building for the Relief Fire Engine Co., has been awarded to Isaac B. Huff, for \$4570. Work will be begun at once, so as to have the building ready for occupancy by the middle of October.

At Atlantic City, work is progressing favorably in raising a sum sufficient for the erection of a handsome edifice by the congregation of the Episcopal Church of the Ascension, of which Rev. J. H. Townsend is rector. It is probable that the work will be started in a few months on the erection of the proposed building. It will be 75 x 100 feet, of buff brick, handsome interior finish. Estimated cost, \$25,000, which does not include interior finish and furniture.

At Lakewood, Ocean Co., Prof. Herman Siegel will erect a building for seminary purposes at South Lakewood from plans prepared by J. C. Delalusk, of Lakewood. Prof. Siegel is the proprietor of the Daheim Kindergarten, at 25 East Thirty-first Street, New York city.—A company of which J. W. Ryckman, Mills Building, New York city, is manager, has been formed for the purpose of erecting a large hotel at South Lakewood Park. It will be four stories high, with a frontage of 450 feet. It will be fitted with all modern improvements. Plans are being drawn by Romaine, of New York city, and Dabney & Wall, of Boston. South Lakewood Park adjoins Lakewood.

#### Through Maryland.

At Baltimore, building permits have been issued as follows: To the Traction Co., to erect a one-story frame shed 170 x 234 feet; to J. O. Pursley, to erect three two-story brick dwellings; to C. M. Wartman, to erect nine three-story brick dwellings; to G. H. Klank, to erect two three-story brick dwellings; to A. B. Lultzbuhr, to erect one three-story brick dwelling; to E. Urbanski, to erect one three-story brick dwelling; to P. Baer, to erect one two-story brick dwelling; to W. H. Hehn, to erect twenty two-story brick dwellings; to T. S. Whittle, to erect one three-story brick dwelling.

#### Through Delaware.

At Wilmington, an addition will be made to school building No. 14, from plans prepared by architect, Frank R. Carswell, 101 West Sixth Street, Wilmington. Bernard Donohoe is chairman of the Building Committee. It is probable that the methodists will erect a home for Deaconesses. At a meeting held in Grace M. E. Church, William M. Field offered to donate a lot for the purpose in Kentmere. The lot in question is 100 x 150 feet and there is every prospect that it will be accepted. No plans have been prepared for the structure.—The property 1012 French Street will be converted into a home for colored Catholic boys. Rev. J. A. De Ruyter, of St. Joseph's Roman Catholic Church for Colored People, has the matter in charge. Room will be prepared for twenty-four boys, but as required the home will be enlarged.

#### Washington, D. C.

Plans have been prepared by Denson & Schneider for five dwellings to be erected at Oregon Avenue and Nineteenth Street, at a cost of \$40,000. They will be of brick, with stone trimmings, hard wood interior finish, steam heat, electric lights, etc.—Joseph W. Collins will erect a dwelling on V Street, between Fourteenth and Fifteenth Streets, to cost about \$10,000, from plans prepared by Wm. J. Palmer.

**LANDSCAPE AND ENGINEERING DEPARTMENT**

**DAVID G. YATES & CO.**

Mt. Airy Nurseries, 5774 Germantown Avenue, Philad'a.

Under the personal supervision of Mr. Alfred R. Egerton, late Landscape Architect and Engineer of Washington Park, Albany, N. Y.; Burnet Park, Syracuse, N. Y.; Bemis Park, Omaha, Neb.

Surveys, planting maps and planting lists, detailed working drawings, finished designs and estimates furnished for laying out and improving Public and Private Parks, Grounds, Country Seats, Cemeteries, &c. Suburban tracts laid out and developed, either on the rectangular or irregular systems of platting. Roads, Drives, Avenues and Boulevards located and constructed. Work executed by contract or by day labor. Correspondence respectfully solicited.

A. F. HANSON, Manager.

GEO. H. WHITE, Acting Superintendent.

Electric Wiring, Installing of Electric Plants, Electrical Construction of all kinds, Incandescent Lights, Electric Gas Lighting, Annunciators, Bells, Burglar Alarms, Watchmen's Clocks, Etc.

ESTIMATES FURNISHED ON APPLICATION.

**GONDA ELECTRICAL CONSTRUCTION COMPANY,**

City Trust Building, Room No. 4. 927 CHESTNUT STREET, PHILADELPHIA.

**PHILADELPHIA BOURSE.**

AUTHORIZED CAPITAL, \$1,000,000.

The subscription books are now open for the remaining \$200,000 of unsubscribed capital, and the privilege of becoming stockholders and members is offered to all men doing business in or with Philadelphia.

Shares are \$50 each. The minimum subscription received is for four shares.

Subscribers to four shares or more will be entitled to all the rights and privileges of membership.

There will be no annual dues or assessments.

The offices in the Bourse will be very desirable and are already in demand. The capital invested in this building will pay large returns, and it is expected that stockholders will not only receive great business advantages, but a fair interest on their investment.

SUBSCRIPTION BOOKS ARE OPEN AT THE EXECUTIVE OFFICES.

Baring Street, No. 3835, three-story brick dwelling, lot irregular in shape \$4200

### Architect Notes.

*Too late for Classification.*

Thomas P. Lonsdale is preparing plans for a new three-story hotel for Walter J. Corrigan, which is to be erected at Spring City. The building will be of stone on the street fronts and elsewhere constructed of bricks. There will be fifty rooms. The building will have a frontage 50 feet and a depth of 100 feet, besides having a wing 40 by 50 feet. It will be erected on the corner of Main and New streets. It will be fitted up in modern style and will be lighted by electricity. Besides the hotel there will be in connection with it a large stable erected and sheddings for the shelter of teams. The difficulty over the material to be used in the construction of the tower for the

Pennsylvania Building, which is in course of erection at the World's Fair Grounds, Chicago, has been settled and iron has been chosen. The tower of Independence Hall in this city is constructed of wood and as the Pennsylvania Building is somewhat of a fac-simile, the architect was undecided what to use in the Windy City, owing to the severe gales and winds on Lake Michigan. After consultation with the Fair management it was thought best to construct the tower from the base to the apex of iron.

### Building and Real Estate Notes.

*Too late for Classification.*

Work upon the alteration to the front of the Quaker City Bank, Chestnut Street above Seventh will be started at once, under the supervision of Mr. Charles Balderson, architect, 324 Walnut Street, who prepared the drawings for the work.

Jacob Marsch, builder, will at once start an operation of seven two-story houses, on east side of D Street, north of Indiana Avenue, and one three-story store and dwelling, on east side of Germantown Avenue, north of Somerset Street, all to be of press brick, stone facings and steps, with best modern conveniences on interior.

The delegates of the National Association of Master Plumbers left this city on the 14th inst. for Washington, to attend the convention of the National Association of Master Plumbers, which is to be held in that city. The delegates from the East passed through this city yesterday afternoon. The following Master Plumbers will represent the Philadelphia Association: William McCoach, John E. Eyanson, Enoch Remick, William Harkness, Jr., A. M. Hicks, F. P. Brown and William H. Doyle.

The plans for the new normal school at Thirteenth and Spring Garden Streets were presented to the Board of Building Inspectors on the 13th inst. The building will be four stories high. On the first floor there will be thirteen class rooms, gymnasium, coat rooms and reception and teachers rooms. On the second floor there will be nine class rooms; on the third, sixth and fourth floors, four rooms, assembly room and gallery on each side. On the rear will be two fire escapes. The Board of Building Inspectors refused to grant permission for the erection of the building until the fire escapes had been approved by the Board of Fire Escapes.

The Board of Trustees of Jefferson Medical College met on the 13th inst., and unanimously approved of the plans for the new buildings at Broad and Christian Streets, which have been drawn by James H. Windrim, the architect. The new structure will be of Indiana limestone and pressed yellow brick, and will cost \$545,472 complete. The board expects to have it finished by October of next year. Three separate structures, the hospital, the college and the laboratory, will form the college buildings. The hospital will be situated at Broad and Christian Streets, and will be seven stories in height and 95x150 feet in its other dimensions. It will contain 140 beds and 30 private rooms, and will be constructed throughout on the slow-burning principle, with automatic fire sprinklers scattered about in abundance. The dispensary will occupy the four sides of the building, by which arrangement all transient cases will be kept as far as possible from the hospital proper. It will also contain an amphitheatre with accommodations for 650 spectators, and a lecture-room seating 175. The college buildings will be situated between the hospital and the laboratory; its dimensions will be 95x150 feet. Four stories in height, it will contain an amphitheatre of 650 seats and a lecture room of 450, together with a museum 95x60 feet. The laboratory, placed as it will be, as far as possible from the hospital, will contain two lecture rooms, laboratories of pharmacy, chemistry, bacteriology, hygiene, pathology and minor surgery, and a dissecting room, 118 feet in length and 50 feet in width. This building will be of six stories, 80 feet wide and 120 feet long.

## AN ARGUMENT IN FIGURES.

Respectfully submitted to Builders, Owners and those having charge of Estates, who will have Fire Risks to place during 1892.

## These Ranges and Heaters

Represent the highest possible type of mechanical and scientific construction. For reliability and durability they are positively without a superior, they truly represent the minimum of cost and the maximum of quality.

The small size of the **PROMPT RANGE** is just the thing for Builders of small Houses. It is compact in form and possesses all the advantages and requisites of the larger size. Builders, Owners and Agents having charge of properties should inspect these Ranges and Heaters before ordering.

For sale by all Dealers. They can be seen at the Company's Ware-rooms.

123 N. 2d St., Philadelphia.  
17 E. Lombard St., Baltimore, Md.

## Miscellaneous.

At Dadeville, Tallapoosa Co., Ala., H. J. Gilham, will give particulars as to the school building, to be erected at a cost of \$5000.

At Little Rock, Ark., contract for the erection of the Rider Block, has been awarded to W. R. Casey, for about \$35,000, F. W. Gibbs is the architect.

At Chicago, Ill., the gymnasium to be erected at the Baptist University will cost \$200,000. The chief instructor will be A. A. Stagg, the Yale base ball pitcher of West Orange, N. J.

At New Decatur, Morgan Co., Ala., the Baptist church congregation will erect a chapel, of brick with stone trimmings, cost about \$25,000. George W. Laine, architect. Also, plans for an Episcopal church, of frame, to cost about \$3,000.

At Gardner, Worcester Co., Mass., the first congregational Society will improve and enlarge its church, at a cost of about \$35,000, Henry Heywood, A. M. Greenwood, George Heywood, A. P. Derby and Charles W. Conant, building committee.

At St. Louis, Mo., J. G. Cairus, architect, has prepared plans for the Fourth Baptist church congregation, for a new church to be erected at the corner of Thirteenth and Sullivan Avenue, 63x66 feet, of common and ornamental brick. Cost about \$10,000.

At Binghamton, N. Y., T. I. Lacey & Son have prepared plans for the First Baptist church congregation, for a church to be erected at that place. To be of frame, 54 feet 4 inches x 64 feet 4 inches. Cost, about \$8,000. Rev. James Rainey is the pastor.

## Wants.

**NOTICE TO CONTRACTORS, CELLAR DIGGERS and others.**—I have room for several thousand loads of clean earth at the Old Rising Sun Park, Allegheny avenue, from Broad Street to Germantown Avenue. Tickets for sale on premises at 5 cents a load. William T. B. Roberts, Builder.

**TREASURY DEPARTMENT, OFFICE SUPERVISING ARCHITECT, Washington, D. C., June 13th, 1892.** Sealed proposals will be received at this office until 2 o'clock P. M. on the 7th day of July, 1892, and opened immediately thereafter, for all the labor and materials required for the low pressure, return circulation steam heating and ventilating apparatus for the U. S. Post Office, etc., building at Sedalia, Missouri, in accordance with the drawings and specifications, copies of which may be had at this office or the office of the Custodian at Sedalia, Missouri. Each bid must be accompanied by a certified check for a sum not less than two per cent. of the amount of the proposal. The right is reserved to reject any or all bids or to waive any defect or informality in any bid, should it be deemed in the interest of the Government to do so. All bids received after the time stated will be returned to the bidder. Proposals must be enclosed in envelopes, sealed and marked, "Proposal for the Low Pressure, Return Circulation, Steam Heating and Ventilating Apparatus for the U. S. Post Office, etc., Building, at Sedalia, Missouri," and addressed to W. J. Edbrooke, Supervising Architect.

August Hermann, President Board of Administration Cincinnati, Ohio, proposals, until July 16th, for macadamizing and paving certain streets in that city.

J. Giren, Chairman Committee on Lighting at Elgin, Ill., proposals, until June 24th, for constructing certain extensions of the local electric lighting plant at that place.

John A. Cole, Consulting Engineer, Room 30, No. 55 Dearborn Street, Chicago Ill., proposals, until June 20th, for the construction of several miles of sewers at Waukegan, Ill.

S. M. Mansfield, Lieut. Col. Engineer, Boston, Mass., proposals until June 20, for the delivery of 7500 barrels, more or less, of American hydraulic cement at Bennett's wharf, Boston Harbor.

R. A. Chafee, Mayor of Aiken, S. C., wants to grant the franchise for construction and operation of a water works system, under the most liberal conditions. Supply from spring, one and three

quarter miles from city; estimated flow, 800,000 gallons per day.

Charles Foster, Secretary, United States Treasury, Washington, D. C., proposals until June 20, for furnishing such scales, beams, weights, and other weighing apparatus and repairs of the same, as may be required during the fiscal year, ending June 30, 1893, for use of the Treasury Department.

The Board of Metropolitan Sewerage Commissioners of Massachusetts. Edward A. Carson, Chief Engineer, 93 Lincoln Street, Boston, Mass. Proposals until June 25, for constructing section 7 of the Metropolitan sewerage system in Winthrop and East Boston.

John Millis, First Lieutenant Corps of Engineers, U. S. Army, No. 1 Prytania Street, New Orleans, La., proposals, until August 1, 1892, for building or leasing a dredging plant for use at the works of improvement at the junction of the Mississippi, Red and Atchafalaya rivers, near Turnbull Island, Louisiana. Further information and blanks furnished on application.

O. L. Spalding, Acting Secretary, Treasury Department, Washington, D. C., proposals until June 20, for manufacturing and placing in position, in complete working order in the United States court house and Post Office building at Pittsburg, Pa., additional combination electric lights and gas fixtures. Also, until June 22, for supplying four-ply rubber and seamless, unlined linen hose of the best quality with the necessary fixtures to all buildings under the control of the Treasury, east of the Rocky Mountains.

N. H. Farquhar, Chief Bureau Yards and Docks, Navy Department, Washington, D. C., proposals until July 5th for the construction of one dry dock, 605 feet long, with 30 feet draught of water, with a body of timber and entrance of concrete and masonry, together with pump-house, pumping plant, floating gate, culverts and all other work pertaining thereto, in accordance with plans and specifications, which can be seen at the department or the office of the commanding officer of the Puget Sound Naval Station, at Sidney, State of Washington.

Treasury Department, Washington, D. C., June 6, 1892.—Sealed proposals for a new boiler for and repairing the hull and machinery of the Revenue Steamer "Hamilton" will be received at this Department until 2 o'clock P. M., Thursday, June 23, 1892. Bids must be in accordance with instructions accompanying the specifications. Specifications for the work will be furnished to parties desiring to submit bid on application to the Department or the Collector of Customs, at Philadelphia, Pa. The right is reserved to reject any or all bids and to waive defects if deemed for the interest of the Government. The vessel can be seen at the port of Philadelphia. (Signed) Chas. Foster, Secretary, L. G. S.

Proposals for the masonry of a bridge. Sealed proposals will be received by the Commissioners of Montgomery County, at their office in Norristown, Pa., up to 10 o'clock, A. M., on Tuesday, the 21st day of June, A. D., 1892, for the repairs of a stone arch bridge over Saw Mill run creek, on the Germantown pike, in Plymouth township. Full specifications will be sent on application or may be seen at the Commissioners office. The work when finished must be according to the specifications. Contractors must give security for the satisfactory performance of the work. Each bid must be accompanied by a bond with two securities conditioned for the faithful performance of the contract. Commissioners reserve the right to reject all or any bids. Samuel K. Anders, Daniel Yeakel, Charles D. Loch, Commissioners, Edward Elsenhans, Clerk.

W. J. Edbrooke, Supervising Architect, Treasury Department, Washington, D. C., proposals, until June 22d, for all the labor and materials required for the trench excavation, foundations, cut stone work and brick work of the basement and area walls, basement columns,

first floor beams, girders and wood joists of the U. S. Post Office Building, at Danville, Ill., June 14th, for all the labor and materials required for furnishing and fixing in place complete the steam heating and ventilating apparatus for the U. S. Court House and Post Office Building at Chattanooga, Tenn., June 21, for furnishing and delivering at Freight Depot in city where required, safes for the U. S. Government buildings, at the following cities: Augusta, Ga., Cairo, Ills., Norfolk, Va., Paducah, Ky., and Sedalia, Mo.

Asylum for the Chronic Insane.—Notice to builders and contractors. Notice is hereby given that sealed proposals for the erection of the Asylum for the Chronic Insane at Wernersville, Berks County, will be received at the office of Wharton Barker, president of the Commission to locate and erect said asylum, at No. 429 Chestnut Street, Philadelphia, till 12 o'clock M., of June 17, 1892, that the plans and specifications may be examined and proposal blanks obtained meanwhile at the office of Rankin & Kellog, architects, room 703, of No. 1001 Chestnut Street, Philadelphia; all bonds to be accompanied with a bond in the sum of \$50,000, with adequate security, to be approved by the Commission before awarding the contract, for the faithful execution thereof; the Commission reserving the right to reject any or all bids. Wharton Barker, Pres. of Com., John M. Reynolds, Secretary.

Proposals for furnishing stationery, furniture, fuel and other supplies. In compliance with the Constitution and laws of the Commonwealth of Pennsylvania, I hereby invite sealed proposals, at prices below maximum rates fixed in schedules, to furnish stationery, furniture, fuel and other supplies for the several departments of the State Government, and for making repairs in the several departments, and for the distribution of the public documents, for the year ending the first Monday of June, A. D., 1893. Separate proposals will be received and separate contracts awarded as announced in said schedules. Each proposal must be accompanied by a bond with approved sureties, conditioned for the faithful performance of the contract, and addressed and delivered to me before twelve o'clock, M., of Wednesday, the 29th day of June, A. D., 1892, at which time the proposals will be opened and contracts awarded in the reception room of the Executive Department, at Harrisburg. Blank bonds and schedules containing all necessary information can be obtained at the Department. William F. Harry, Secretary of the Commonwealth.

Notice to Contractors. Building sewer and appurtenances. Northern section. Sealed proposals for the above work, endorsed with the above title, and the name and address of the party making the same, and addressed to the Sewer Committee, will be received at the office of the City Clerk, Orange, N. J., until 5 P. M. June 27, 1892. Plans and specifications, proposal blanks and specifications can be seen at the office of the Chief Engineer, Carol Ph. Bassett, corner of Day and Snyder Streets, Orange, N. J. The proposed work consists of approximately eight (8) miles of pipe sewers from eight (8) to twenty-four (24) inches in diameter, with manholes, flush tanks, lampholes, etc. Each proposal must be accompanied by a certified check for \$5000. A bond of twenty-five (25) per cent of the cost will be required. The Common Council expressly reserve the right to reject any or all proposals. Wm. Harrington, Chairman, Martin A. Brennan, William Hanley, Wm. F. Hamilton, John A. Walsh, Sewerage Committee; Carol Ph. Bassett, Chief Engineer. Horace Stetson, City Clerk. P. O. Address: Orange National Bank Building, Orange, N. J.

Furnishing and delivering sand.—U. S. Engineer's Office, 1428 Arch Street, Philadelphia, Pa.—Sealed proposals, in duplicate, will be received at this office until 11.30 A. M. Saturday, June 25, 1892, and then opened, for furnishing and delivering at the Fort opposite Fort Delaware, Del.,

## A Few Quiet Words with House Builders and Owners.

If the kitchen of your house is small, you need to economize room. You can do this by using a range with elevated boiler, such as the

### "FIDELITY."

It will reduce the cost of plumbing also. We make them with seven inch or eight inch boiler holes, ovens on right or left of fire, with or without hot closets, and also to heat an upper room. Splendid bakers. Hot water in abundance. The latest and best of their class.

FIDELITY HOT AIR RANGE WITH  
HORIZONTAL BOILER.

Excelsior Double Oven Range.

If the kitchen is roomy and large, cooking capacity is sought. You will want a brick-set range with a vertical circulating boiler, set in the usual way. The

### "EXCELSIOR RANGES"

are acknowledged all over Philadelphia, in which city and vicinity some 75,000 have been sold as the standard brick-set range. They are furnished with ventilated ovens, oven-door pedals, rocking grates, and all modern improvements. Made in seven and eight inch sizes; single, double and hot-air ranges. Send for descriptive pamphlet, entitled "PERFECT COOKING."

MANUFACTURED BY

**ISAAC A. SHEPPARD & CO.,**

N. E. COR. FOURTH STREET AND MONTGOMERY AVENUE, PHILADELPHIA, PA.

And for Sale by all Responsible Dealers.

Whether large or small, your house will require a heating apparatus of some kind. It will pay you to put in a *really good* hot air furnace. The

### "PARAGON"

has no superior. Perfectly self-cleaning, with fewest joints, free from dust and gas, largest radiating surface, heavy steel plate, drum casings, easy on fuel, and of superior durability, it will always give satisfaction. A descriptive circular will be mailed upon application.

PARAGON FURNACE WITH  
EQUALIZED DRAFT.

# DID YOU EVER EAT AT BOOTHBY'S Great Chestnut St. Restaurant?

If you have not, you can form no proper idea of its size, beauty and facilities. Its corps of superintendents, chefs and assistants, waiters and supernumeraries number over 100. Its seating capacity is over 1300, and every guest is made comfortable, besides receiving prompt and careful attention. Its menu embraces everything in season. The cooking represents the best efforts of prominent chefs, whose skill has given the place a national reputation. The prices are moderate and the service is unexcelled. OYSTERS ARE THE GREAT SPECIALTY. The Ladies' Restaurants are retired, light and elegant. For a social meal or a light lunch, you are recommended to

**BOOTHBY'S, 1231, 1233 AND 1235 CHESTNUT STREET.**

OYSTERS WHOLESALE, 307 SOUTH FRONT STREET.

9000 cubic yards of sand. Also, sealed proposals, in duplicate, will be received at this office until 11 A. M. Saturday, June 25, 1892, and then opened, for furnishing and delivering at Pea Patch Island, Del., 12,000 cubic yards of sand. The attention of bidders is invited to the Acts of Congress approved February 26, 1885, and February 23, 1887, Vol. 23, page 333, and Vol. 34, page 414, Statutes at Large. For all information apply to C. W. Raymond, Major, Corps of Engineers, U. S. Army. Also until June 24, for furnishing all the labor and materials and erection complete, either a hydraulic passenger elevator, including pumps, tanks, piping, car, etc., or a steam passenger elevator; also a new steam boiler, injector, new smoke stack, etc., for the U. S. Court House and P. O. Building at Leavenworth, Kan. Also, until June 28, for all the materials required for the repairs and improvements to the U. S. Custom House Building at Philadelphia, Pa. Also, until same date, for all the labor and materials required for the general excavation and temporary drainage for the U. S. Post Office Building at York, Pa.

Proposals for improving DeKalb Street.—The Chairman of the Street and Road Committee of the Borough of Norristown, Pa., will receive sealed proposals until 7 o'clock P. M., June 22d, and not thereafter, for the improvement of DeKalb Street from the south line of Main Street to the Schuylkill Bridge, by grading and paving with stone blocks, asphalt blocks and vitrified brick, according to plans and specifications. Bids must be made in the manner stated in the specifications and must be accompanied with samples of proposed material to be used. Approximate number of square yards, 3500. Within ten days of award the contractor must deposit with the Borough Solicitor security in one-half of the amount of the contract and execute a contract for the faithful performance of the contract and keeping the street in repair and surface for three years. Each bidder will be required to state in his proposal the names and addresses of his surety or sureties. Cash or a certified check made payable to Harry L. Sullivan, Borough Treasurer, to the amount of \$500, must accompany each bid as a guarantee that in case the contract is awarded, the successful bidders will within ten days after notification of award execute said contract and in default the money to be forfeited to the Borough. Bids must be sealed and indorsed, "Proposals for improving DeKalb Street from Main to the Schuylkill Bridge. Plans and profiles may be seen, and specifications, contract, blank form of bid and other information obtained at the office of the engineer. The Council reserves the right to reject any and all of said proposals. Signed: Wm. Vaughan, Chairman of the Street, Road and Bridge Committee. Malcolm D. Patterson, Engineer.

Proposals for improving Main Street.—The Chairman of the Street and Road Committee of the Borough of Norristown, Pa., will receive sealed proposals until 7 o'clock P. M., June 22d and not thereafter, for the improvement of Main Street, from the east line of Arch Street to east line of DeKalb Street, and from the southeast side of Swede Street to the tracks of the Junction R. R., by grading and paving with stone blocks, asphalt blocks and vitrified brick, according to plans and specifications. Bids must be made in the manner stated in the specifications and must be accompanied by samples of proposed material to be used. The work will be divided into two sections as follows: First, from Arch to DeKalb, approximate number of square yards, 5364. Second, from Swede to Junction Railroad, approximate number of square yards, 8028. Within ten days of award the contractor must deposit with the Borough Solicitor security in one-half the amount of the contract and execute a contract for each section, for the faithful performance of the contract and keeping the street in repair and surface for three years. Each bidder will be required to state in his proposal the names and ad-

resses of his surety or sureties. Cash or a certified check made payable to Harry L. Sullivan, Borough Treasurer, to the amount of \$500, must accompany each bid as a guarantee that in case the contract is awarded the successful bidders will within ten days after notification of award execute said contract, and in default the money to be forfeited to the Borough. Bids must be sealed and endorsed, "Proposals for improving Main street from Arch to DeKalb, and from Swede to Junction Railroad." Plans and profiles may be seen, and specifications, contract, blank forms of bid and other information obtained at the office of the engineer. The Council reserves the right to reject any and all of said proposals. Signed, Wm. Vaughan, Chairman of the Street, Road and Bridge Committee. Malcolm D. Patterson, engineer.

### Lot Buyers.

Alice M. Gillam, of Philadelphia, has purchased two lots from the Swarthmore Improvement Co.

Charles Barrett, of Darby, Pa., lot at Fernwood, Pa.

## JUDGMENTS.

## PHILADELPHIA.

## ABBREVIATIONS.

Where there are no figures to indicate the amount of the judgment, the damages have not been assessed.

The name first mentioned in each line is that of the judgment debtor.

A star (\*) denotes judgment confessed or bond and warrant conditioned.

The figures 1, 2, 3 and 4 immediately after the name of the plaintiff indicate the number of the Court. The term of the Court is indicated as follows: D, for December Term; M, for March Term; J, for June Term, and S for September Term.

PHILADELPHIA, WEDNESDAY, JUNE 22, 1892.

PRICE 15 CENTS

### Architect Notes.

Angus S. Wade, architect, 20 South Broad Street, has made plans for alteration to house 861 North Broad Street, for Dr. G. Granville Faught. This will be principally interior work and will embody all modern comforts and conveniences.

Walter H. Geissinger, architect and engineer, Twelfth and Chestnut Streets, has made plans for an addition to factory of H. O. Wilber & Sons; these consist of an engine and boiler room with smoke stack and storeroom, all to be of brick, two-story high. Estimates have been made.

Jas. D. Austin, architect, 713 Filbert Street, has completed plans for three new school houses, one at Somerset, one for the Twenty-seventh Section, and the other at Fairhill and Somerset Streets, and placed the drawings for estimate; these are now being made, and the successful bidders will be announced at an early day.

Angus S. Wade, architect, 20 South Broad Street, has made plans for a handsome residence for Charles D. Cramp, shipbuilder, to be erected at Wyncote, on main line P. R. R. The structure will be of stone and frame construction, three stories high, 60x60 feet. A large porch will extend around three sides. Fitted on interior with hardwood, steam heat, electric work, best of sanitary plumbing, and all modern conveniences, etc. Cost about \$15,000.

J. Franklin Stuckert, architect, 524 Walnut Street, has completed plans for a factory, for Mr. E. Heid, to be erected at Thirteenth and Heid Streets. The structure will be fitted with steam power and heat as well as electric appliances, elevator lift, speaking tubes and modern conveniences. Estimates are being made for the work. Mr. Stuckert has just awarded a contract to William Steele & Son, for erection of two warehouses for the Ratch estate on Delaware Avenue.

Cope & Stewardson, architects, 324-26 Walnut Street, have just completed plans for a large additional building for the Deaf and Dumb Asylum at Mt. Airy. The structure will be semi-circle shape, two stories high, the one side being 25x90 feet and the other 25x112 feet. The material to be used will be similar to other buildings now about being completed. This will be used as a workshop for the various trades taught the pupils. It will be heated by steam and possess all the latest improvements for comfort.

James H. Windrim, architect, 132 South Third Street, has placed the plans on boards for estimate upon the foundations and brick work of the new "Times Annex Building" upon the site of the one recently destroyed by fire. The material for walls will be changed to a dark cherry-red brick laid in French's Peerless mortar, whilst the facing brick in lavatories will be of enameled

brick of selected colors. The structure will be five stories high and fitted with steam heat and power, electric work and best sanitary plumbing and all conveniences.

Stephen Decatur Button, architect, 430 Walnut Street, celebrated in a quiet manner his eightieth birthday on the 15th inst. Mr. Button was the happy recipient of many tokens of esteem and congratulations. Among other things he was the recipient of a handsome illuminated address in folio form, signed by a great number of admirers and associates, this was specially prepared through the energy and skill of Mr. H. Bloomfield Bare, his office associate. This journal tenders Mr. Button happy wishes for many more years of life and prosperity in his chosen profession.

T. Frank Miller, architect, 1221 Arch Street, has on boards plans for a Baptist Church at Ambler, Pa. Structure to be 60x100 feet, one story high, Gothic in style, walls to be of stone, with Indiana limestone trimmings, slate roof. Interior will be in amphitheatre style of seating, steam heat and electric light and all modern comforts and best furnishings for pulpit and pew. Also, plans for alterations to Sunday school, which will be quite elaborate. Mr. Miller has awarded contract for house of Mr. J. H. Bentley, at Ridley Park, to Jno. W. Mechert, of same place. Same architect has made complete plans for a new Sunday school building for the Presbyterian Church at Ambler, Pa. To be of stone, slate roof, all modern convenience and comforts. Also, plans for a parsonage for the Lutheran Church at North Wales, Pa. To be of stone and brick, slate roof, all modern conveniences, and the style of architecture will be in conformity with that of the church building.

Hazelhurst & Huckel, Architects, Drexel Building, Phila., have completed plans for a rectory building for St. Marks P. E. Church to be erected on the west end of the grounds, Locust above Sixteenth street. The structure will conform architecturally with the Sunday school and church adjoining, and will enhance the beauty of the group considerably. It will be four stories high, the facade being built of serpentine and brownstone, of which materials the church is constructed. High gables will ornament the front and side and add space to the garret. A two-story casement bay window will overlook the church yard. The entire house will be finished in hard wood and every modern improvement will be introduced in the construction. The basement will give room to the laundry, store-room and kitchen. On the first floor there will be a large hall, reception rooms, parlors, dining room, a sitting-room for the verger and several smaller apartments. A library 20x30 feet will be the feature of the second floor, which, like the third and fourth floors, will be given up to bed rooms and studies. A large bath room on every floor and many other important conveniences will go to make the new

rectory one of the most complete houses of the kind in the city.

For quite a long time the architectural profession of this city, have been dissatisfied with the conditions made by the Bourse authorities, regarding the competitive preparation of plans, and the subsequent position in which the winner of the prize may find himself placed, by the rules laid down in the circular of information, and in consequence a protest has been prepared showing the position taken in the matter, which is as follows: The Bourse has definitely taken issue with the architectural profession of Philadelphia. It has come to the architects for the design for its building, but proposes not to put the architect in his usual position as chief professional advisor in full control of his work. If successful in carrying out its scheme, it will set a precedent which may work irreparable injury to architects, reducing them virtually to the position of draftsmen, with someone placed over them, "who relieves them of responsibility," and directs all their work. This injury will be to the profession as a whole, and to every individual member of it. Repeated interviews by members of the Committee of Architects, have only brought out this fact more plainly. The Bourse does not trust the architect, and yet proposes an indefinite amount of work for him with a definite and insufficient pay. Most of the architects of this city have declined to have anything to do with the competition, unless the Bourse recognizes what an architect really is—one who knows more about building than any one else—not a mere draftsman, to be directed by one who probably knows less about the building than himself, and who could not design it. The architects who have taken this position number among them those who have been most successful and who have had most experience in dealing with clients who have large work to execute. They are very sure that any architect who does not now take the stand they have taken, will place himself on a lower level than he is justly entitled to, and that he will make the practice of his profession more onerous and unremunerative. The question is no longer one of individual action. The Bourse has all along dealt with the profession as a whole; they have asked to send a committee representing the profession, and have then acted deliberately against the advice or request of that committee. The architects have no animosity against the Bourse, and they wish it success, but they do not see why it should succeed at the expense of the architectural profession. This issue is of the greatest importance, and as a test case will make itself felt for years to come. The Bourse has not treated the architects as they deserve, and the prospects of architecture in the future will depend very much upon the issue of this controversy. John Ord and Walter Cope, Secretaries; Frank Miles Day, Wilson Eyre, T. P. Chandler, George T. Pearson, A. G. Boyden, and T. Roney Williamson, Committee.

Subscription for less than One Year will not be received

JOHN N. GALLAGHER, Proprietor.

JOHN F. BRISBANE, City Editor.

PHILADELPHIA, WED'Y, JUNE 22, 1892.

On July 6th next we will publish our regular semi-annual report of building operations and sales of real estate for 1892. Our edition on that date will be a particularly heavy one, as we have made it a point for years to cover the whole field with the issue containing our reports, the value of which is, beyond all question, pre-eminently great to the building and real estate interests generally. A grand opportunity is therefore offered for the enterprising to present a strong bid for patronage through suitable and well-written advertisements in that issue. We will cheerfully aid our patrons in writing for them such advertisements as they require, submitting proof of the same without cost, further than the space contracted for.

We trust our readers and others will determine upon the size of the advertisement desired in order that we may not be delayed, as the amount of extra work to be performed will necessitate our receiving copy for that issue as early after this announcement as possible.

#### THE READING'S SUITS.

##### Peculiar Relationship of Counsel in the Pennsylvania-New Jersey Litigation.

In the attempt being made to set aside the Reading leases, the following editorial, taken from the Eastern Free Press, of June 7th, shows the peculiar and close connection and relationship existing between the special counsel engaged by the State of New Jersey to assist in the litigation instituted by the Attorney General of that state and the complainants in the bill in equity recently filed in the Common Pleas of Northampton County, at Easton, Pa. "The suit brought in our Northampton County Court on Saturday, against the Lehigh Valley and Philadelphia and Reading Railroad Companies, growing out of the Reading lease, has given rise to considerable speculation in the direction of cause or motive upon which light can be thrown by one or two reflections of a historical character. The plaintiffs are Elizabeth S. Gummere, Hugh N. Hammill and others, mainly

of Trenton, N. J. Mr. Hammill is a clergyman and the son-in-law of Barker Gummere, one of the counsel of the Pennsylvania Railroad Company at Trenton. Elizabeth S. Gummere is the wife of Barker Gummere. Mr. Hammill sues also as guardian of John D. Hoes and Isabella D. Hoes, minors. The Hoes are the grandchildren of Ashbel Welsh, formerly president of the United Railroads of New Jersey. In other words, the action is a scarcely veiled attack, through the courts, of the great rival upon its neighbor the Reading. The policy outlined by Mr. Cassatt in his celebrated interview, when the leases were announced, is being steadily pressed. The people would have an intelligent conception of the animus of this strange suit if the position of the Pennsylvania Railroad was acknowledged and not hidden. It purports to be a suit brought by stockholders of the Lehigh Valley Railroad Company to set aside the lease, and prays for a receiver of the Lehigh Valley Railroad Company, a seemingly anomalous proceeding for a stockholder to take, inasmuch as the lease guarantees a minimum dividend of seven per cent., and the company is reported to be earning more than it earned at the same period of last year, and its stock is now selling in the market at about twenty per cent. higher than it sold before the lease."

At the regular monthly meeting of the Board of Managers of the Trades' League, held on June 9th, the following resolution was unanimously adopted.

Whereas: In the judgment of the Board of Managers of the Trades' League, the time is now opportune for the inauguration of some concerted plan towards encouraging exports of manufacturers and merchandise to foreign countries, therefore, be it

Resolved: That a committee be appointed to consider ways and means for organizing an "Exporters' League," and to report the same to the Board of Managers at their meeting in September next.

In pursuance of this action, the president appointed the following committee, of which Fayette R. Plumb is the chairman, Thomas Martindale, A. G. Elliott, Charles M. Biddle and R. B. Allen.

#### Building and Real Estate Notes.

The Baptist Centennial Memorial Church, Rev. Dr. MacGregor in charge, intend to enlarge the seating capacity to nearly double its present space at an early day.

During the Summer season nearly all the real estate offices and architects offices will be closed on Saturday at noon, so as to allow the employees the privilege of the half holiday.

J. Culbertson & Son will at once begin the erection of a four-story factory at Twenty-third and Hamilton Streets, to be of brick, stone trimmings and modern conveniences.

T. W. Smaltz, builder, will erect 32 two-story houses at Hancock and Somerset Streets, all to be of press brick, with brownstone trimmings and best interior work and accommodations.

W. S. P. Shields, builder, 735 Walnut Street, will at once start an operation of six two-story

houses at Fiftieth and Greenway Avenue, to be of the same material and class of houses built by Mr. Shields in that neighborhood.

The Carleton Mills Company, on the 14th inst., purchased quite a large piece of ground bounded by Walnut, High and Main Streets and Shur's Lane, upon which, it is learned, they propose to extend the plant at an early day; price paid, \$128,000.

The J. G. Brill Car Company, at Sixty-second and Woodland Avenue, will erect at once a large blacksmith shop, upon the additional ground which was purchased a few days since. It will be 56 x 122 feet, one story high, of brick with stone trimmings.

Martin Hetzel, carpenter, 45 Church Street, Germantown, has contracted with Rev. William A. Schaeffer, to erect a handsome stone house, on Church Lane, to be fitted with every modern appliance for comfort and convenience. Work will be started at once.

J. J. Cassidy, builder, Moyamensing Avenue and McKean Street, will erect thirty-eight two-story houses on Letitia and Front Streets, all to be of the same class of dwellings erected in that vicinity, press brick, stone facing and best of modern accommodations.

Weeks and Michaelson, the well known builders are about to start an operation of six two-story houses on Forty-fifth Street north of Parrish Street and six more, of the same kind on Mica Street, north of Parrish. All to be of press brick, stone facings and best modern conveniences.

Greble Post No. 10, G. A. R., whose headquarters are now at Passyunk Avenue and Fifth Street, has purchased a fine property on Wharton Street, east of Eighth, from A. Hermann, and it is understood intends altering it for the purposes of a hall and club room. It is bought subject to a mortgage of \$4000.

Stacy Reeves & Sons, J. R. Garber, Lindsey Little and Wm. McPherson & Son, contractors, of this city, are estimating upon a large abattoir to be erected for a syndicate at Baltimore, Md., with President Bastadle at the head of the concern. It will be very similar to the one now in operation on the west bank of the Schuylkill river in West Philadelphia.

Robert Beatty and Bro., 2321 Townsend Street, has been awarded the contract to erect the new church for the East Allegheny Avenue M. E. congregation. A full description of the structure has been given of the plans and material from drawings by Thomas P. Lonsdale, architect, Manhattan Life Building and who will supervise the work of construction.

W. R. McGlenn is now building a large hall and store building at the corner of Amber and Norris Streets. The structure will be 52 x 110 feet, three stories high, of brick stone trimmings. The first floor will be fitted for stores, second a hall and third for society purposes. All the latest and best improvements will be introduced, electric lights, steam heat, etc.

The corner stone of the new "New Harmonie Hall," at Eleventh and Wistar Streets, was laid on the 14th instant with considerable ceremony.

The superstructure will now be erected under the supervision of R. Godeffray, architect, 1219 Arch Street, Philadelphia, who drew all the plans in detail. A full description of the building was given in this journal in a previous number.

Councils' Committee on Schools, on the 16th inst., ordered a report favoring the repeal of the ordinance providing for the purchase of a lot for school purposes at Girard Avenue and Howard Street. Mr. McMurray stated that the property is worth only \$6000, while the owner wanted \$12,000 for it. A jury has given an award of \$10,000, but the City Solicitor threatened to enjoin the purchase.

The Board of Education has decided, if it can be done, to secure a building for the use of the Girl's Normal School, to furnish the same with the necessary furniture, etc., and to use until the new Normal School, at Thirteenth and Spring Garden Streets is finished. The resolution to this effect was offered by Mr. Simon Gratz, the chairman of the Normal School Committee, and was unanimously adopted.

On Friday, June 17th, proposals were opened for the erection of the State Asylum for the Chronic Insane, at Wernersville, Berks Co., in the office of Wharton Barker, President of the Commission. Each proposal was accompanied by a bond for \$50,000. On Saturday the Commission held a meeting to consider the proposals, and threw out all but the three lowest bidders, who are John D. Hart, Norristown, \$260,000; George W. Stewart, Philadelphia, \$265,975; Frederick Amweg, Philadelphia, \$280,381.22.

Work has been started by Wm. Steele and Son, contractors, 506 Walnut Street, upon the large plant of the Northern Electric Light Company, on American Street above Susquehanna Avenue. This will probably be the largest station in the city when completed. Material to be used in construction will be Port Deposit stone, rock faced, granite, bricks, and iron columns, girders and frames. Two Corliss-engines 1000-horse power each, large dynamos, and general electric machinery, a smoke stack of brick, 123 feet high, will be built, and it is proposed to complete all by the middle of August. The present plant of this company is at Germantown.

The reported construction of a hotel at Twelfth and Arch Streets, by Jno. M. Sharp, upon property purchased from Wm. Weightman, cannot at this time be verified, as Mr. Sharp has not arrived at any conclusion as to the disposition he will make of the site. The matter is however being held under consideration. Mr. Sharp is about starting the superstructure of the Hotel Metropole, on Broad Street, South of Locust Street. The plans have been materially altered in some features, the principal one being that it will now be a strictly fire proof structure; many of the contracts for material and mill work have been made, all of which were sub let. The entire construction will be supervised by Angus S. Wade, the architect who prepared all the plans; a full description of the building has been given in this journal in a previous number.

On Wednesday, the 22d instant, the regular annual examination and graduation of students will take place at the Builders' Exchange. These young men are fully equipped for life in the world of artisans. Forty-one out of a school of sixty-five will be graduated and receive their diplomas as competent to labor in their chosen grades as follows: Carpentry—F. C. Eichel, Jr., John E. Morton, Gilbert S. Levering, Louis B. Carpenter, Emil Behr, John Beatty, Benoni Duesden, William S. Hilsley, Benjamin E. Keeler, Charles S. Ringel. Bricklaying—Harry C. Lansley, Charles P. Meeker, Cassius C. Pennel. Stonecutting—Francis H. Troughton, William Pendlebury. Blacksmithing—George W. Coleman. Painting—Hugh Ardron. Plumbing—Paul Liedike, Jr., Richard Ormrod, Frank H. Rile, Richard Firth, Jr., Harry M. Kehl, Thomas

J. Flatley, William Harshaw, John Hanna, Frank D. Welsh, Robert J. Dixon, Edmund G. Pownall, George Schwamb, Carl W. Bode, Frederick A. Kuesel, Charles E. Jones, John C. Doyle, S. C. Rinehart, Edward Thomas, Edward Buchholz, Jr., Thomas Matlack, Victor Simonin, Charles W. Schnerr, Jr., Francis P. Donahue, Charles F. Morford.

At the annual reunion of the alumni of the University of Pennsylvania in the library building upon the ground, Provost Pepper made a few remarks upon the needs of the institution in the course of which he said: "On such an informal occasion a speech is out of place. I only want to say one thing to you to-night. I do not think that you can fail to appreciate that the college part of the University is being carried on in the face of great and increasing difficulties owing to the competition of other colleges. The success of a collegiate department comes from having greater facilities than its rivals. We have reached the high water mark in the number of students, having almost doubled the number in five years. But we want to make the collegiate department successful and to do this we must have a dormitory. Last year we talked about this, but we have failed to do anything. Plans have been made by an architect who has visited all the colleges of note that will cost about \$150,000, and will be the most perfect dormitory on the continent. We must have this dormitory if we want to make the collegiate department forge to the front. We offered bonds for the raising of this money and you did not take them. Now if the alumni raise \$30,000, I will advance \$120,000 so as to get the dormitory finished by September, 1893." The alumni received this offer with cheers, and a considerable portion of the amount necessary was pledged. Afterward they made a detour of the library building and viewed the collection on exhibition there. At the regular business meeting of the alumni the following officers were elected: President, Effingham B. Morris, '75; Vice-Presidents, Rev. James W. Robbins, '50, Wm. S. Blight, Gen. S. Wylie Crawford, '46, and J. G. Rosengarten, corresponding Secretary; Frank Miles Day, '84; Recording Secretary, Prof. Felix E. Schelling and Edward W. Mumford, '89.

Common Council on the 16th inst., took action on ordinances as follows and adjourned until September. Owing to a lack of money available for appropriations, eleven appropriation bills, aggregating \$275,827.50 were laid over. The bills unappropriated are: To repair railroad streets, to repave macadamized roads, to pave Frankford Avenue, for branch sewers, for police fire boat, for fire patrol station in the Twentieth Ward, to complete the Robert Morris School. The ordinance to authorize the Director of Public Works to advertise for proposals and award a contract to erect a filter at Belmont Pumping Station was called up. Mr. Hawkes moved to indefinitely postpone further consideration of it. Mr. Anderson and Mr. Crowell argued against postponement. Mr. Smithers argued in favor of the postponement. The motion to indefinitely postpone was lost: 46 to 37. The bill then passed: 60 to 24. The bill to transfer \$11,700 from the regular appropriation to the County Prison for the completion of the electric light plant in the prison was passed by a vote of 79 to 3. The ordinance to authorize the Philadelphia, Germantown & Chestnut Hill Railroad Company to run a branch road to the Midvale Steel works in the Twenty-eighth ward was passed. To authorize the grading of Twenty-seventh, Upsal, Price, Church, Oakford, Thirty-first, Nineteenth, Moro and Crispin Streets and Magnolia and Pulaski Avenues. To authorize the paving of Morton, Cresson, Thirty-ninth, Fernon, Twenty-ninth, Clearfield, Forty-ninth, Franklin, Sprague, Tacoma, Hancock, Oakford, and Fifty-first Streets, Fairmount, Wissahickon, Willow and Allegheny avenues. To authorize the opening of Orthodox, Thirty-eighth, Shunk, Nineteenth, Hope, Fourth, Fifth, Ranstead and Merchant Streets and Kingessing Avenue. To authorize the paving of Mantua

Avenue, from Orion to Thirty-fifth Street, and to bring Aspen and Thirty-fifth Streets to the established grade. Granting permission to the trustees of the University of Pennsylvania to lay conduits under the streets in the vicinity of the college buildings. To place on city plan American, Bellmore, Birch, Bucknell, Judson, Thirty-third, Ogden, Myrtle, Clinton, Cleveland, Gratz, Gurney, Kimball, Latonia, Lingo, Lambert, Lawrence, Myrtlewood, Mt. Holly, Monmouth, Neff, Orleans, Philip, Potter, Thomas, Taylor, Cross, Titan, Upsal, Walker and Woodstock Streets, and Lincoln, Stella and Northwestern Avenues. To revise the lines and grades in the district bounded by Queen and School Streets and Germantown and Wissahickon Avenues; also, to revise the grades in plans Nos. 246 and 247. To strike from city plan Sylvan Street, between Thirty-eighth and Fortieth Streets, and substitute therefor Wyalusing Street, and revise the lines of Pennsgrove Street, between Thirty- and Fortieth Streets. To widen Walnut Street, between Fifth and Twenty-second Streets. The width of the street is to be uniform in each block, the width to be "such as shall conform to the buildings thereon erected, as the same may be deemed practicable." To strike from the city plan Lippincott Street, between American Street and Fourth Street. To change the grade of Hutchinson, Darien and Ninth Streets to conform to the change upon Columbia Avenue. To lay water pipe in Bucknell, Judson, Twenty-third, Ogden, Myrtle, Percy, Lauriston, Manor, Magnet, Tioga, Sixtieth, Forty-ninth and Morrell Streets, Columbia Avenue and Gray's Ferry Road; also in Thayer, Laurens, Wingohocking, Courtland, Taylor, Cross, Tasker, Park, Inquirer, Sixteenth, Eighteenth, Nineteenth and Twentieth, Butler and Marshall Streets, Lindsley, Wyalusing, Logan and Glenwood Avenues. To lay water pipe in Walker, Bockius, Thirty-fourth, Monmouth, Birch, Mount Holly, Lingo, Cumberland, Nineteenth, Gratz, Clearfield and Forty-ninth Streets and Wyalusing Avenue. To macadamize Monument Road from city line to Five Points, and from Five Points to Belmont Avenue, at a cost of \$4500. To allow the Pennsylvania Railroad to build a branch line from its Chestnut Hill road to the Midvale Steel Works at Nicetown. To authorize the purchase of a lot of ground adjacent to the Weccacoe Public School, at Second and Reed Streets, for \$6000. To authorize the purchase of a lot of ground at Thirtieth and Norris Streets, for school purposes, for \$20,000. To make an appropriation to the County Prison for electric lighting purposes.

### Through Pennsylvania.

 When any of the following are not post office towns they will be so designated.

—At Brushton, (not a P. O. town), ten dwellings will be erected for Mr. Patrick Doran of Wilkesburg.

—At New Castle, Lawrence Co., a hospital will be erected from plans prepared by C. C. Thayer, of New Castle.

—At Homewood (P. O. Pittsburgh), C. W. Childs will erect a dwelling from plans prepared by J. P. Brennan.

—At Carbondale, Lackawanna Co., R. D. Stuart, City Clerk, will receive proposals for the construction of sewers at that place, see want column.

—At Monongahela city, Washington Co., a handsome bridge will be constructed to take the place of the one destroyed by the flood a short time since.

—At Chicora, a fire last week destroyed about one hundred buildings, including the post office, Butler County brick building, the United Pipe Line's office, Forquer's Hotel, etc.

—At Fernwood, Delaware Co., ground has been broken by Postmaster Evans, for a Queen Anne dwelling, on East Church Lane. The contract has been awarded to Sylvester Cridland.

—At Wilkinsburg, Allegheny Co., two dwellings will be erected on Rebecca Street, for W. H. Devore. C. L. Reno, will erect a press brick Queen Anne cottage on North Highland Avenue.

—At East Nottingham, Chester Co., the School Board has accepted the lot donated by the Oxford Land and Improvement Co., M. J. Wilson is President, and J. W. Anderson, Secretary of the Board.

—At West Chester, Chester Co., Isaiah Rambo, has purchased the lot adjacent to his present property, from the Lewis estate, through Thomas H. Darlington. It is understood that the lot will be improved in the near future.

—At Pottstown, Montgomery Co., since the caving in of the wall of the opera house, at which time much damage was done to the Masonic furniture and paraphernalia, there has been considerable talk of erecting a suitable building by the Masonic fraternity.

—At Flourtown, Montgomery Co., the "Blue House" on the Chestnut Hill turnpike near Flourtown, has been sold by the owner, Charles C. Leaf, of Fort Washington, Pa., to Samuel T. Godfrey, of Ambler, Pa., who will remodel the property for hotel purposes.

—At Quakertown, Bucks Co., at the regular meeting of the School Board, held a short time since, it was decided to build a two-story addition to the school building on Sixth Street. John A. Ozias, and Thomas T. Ochs are members of the Board and can give information.

—At Spring City, Chester Co., a survey has been made from Spring City to Royersford by the Schuylkill Valley Railroad, for the purpose of constructing a branch road one mile long. The estimated cost when complete is about \$100,000. A bridge will span the river between the two towns.

—At Braddock, Allegheny Co., work will begin at an early date on the gymnasium, for which money has been given by Andrew Carnegie to build. The plans have not been drawn yet for the structure.—It is said that the Carnegie Steel Company will erect four additional blast furnaces and, also, construct a "hot metal route," from that place to the Duquesne and Homestead Steel Works. The new bridge for this route will cost nearly \$500,000.

—At Bridgeport, Montgomery Co., negotiations have been concluded for the purchase of a lot upon which to erect a new Roman Catholic Church. The lot is situated at the corner of Rambo and Ford Streets, and is 259 ft x 300 feet, a frame structure will be erected temporarily, which will be succeeded by a handsome edifice, to cost from \$50,000 to \$75,000. Rev. M. G. Gately, of St. Clair, Schuylkill Co., Pa., will have charge of the new congregation.

—At McKeesport, Allegheny Co., the new theatre to be erected by George Altmeyer, will cost about \$125,000. It will be five stories high, the upper floor to be fitted up for lodge purposes. Of brick-stone, and the interior will be handsomely finished and furnished, and supplied with modern conveniences and improvements. It is expected to have it finished so as to be opened in the Autumn.—B. B. Coursin is considering the subject of the erection of a large hotel to adjoin the theatre.

—At Wayne, Delaware Co., a company has been organized, to be known as the Darby Creek Sewerage Co., for the purpose of laying a pipe line along Darby Creek and its branches, to carry the sewerage from all the land between Ardmore and Paoli. About twenty-five miles of pipe will be put down. The incorporators are Lemuel Coffin, Edward T. Teil, Joseph B. Altemus, Lemuel C. Altemus and Edward Paist. The engineers in charge are General Mayer, Rudolph Herring, of New York, and Mr. Murphy, of the State Board of Health.

—At Chester, Delaware Co., an Episcopal church will be erected in the second ward. The committee met Bishop Whittaker not long since and completed arrangements.—Ground has been broken at Third and Tilghman Streets for two buildings to be erected for John W. Gray & Bro., of South Chester. One of the buildings will be fitted up for a store.—It has been decided by the Chester Hospital Committee to extend the time of receiving bids for the new hospital ten days.—There is considerable talk of purchasing the sugar mill property at Front and Market Streets, and to have a line of steamers to run from Chester to Philadelphia. It is understood that a fine waiting room will be erected, and facilities for handling freight will be provided.

—At Pittsburgh, work will be begun in a short time on the erection of Christ Methodist Episcopal Church, for which plans have been prepared by Architect Kramer, of Akron, Ohio. Bids will be received at an early date.—The congregation of St. Paul's Protestant Episcopal Church will erect a new edifice on Centre Avenue near Devilliers Street. The lot is 175 x 93 feet. No plans have been prepared for this structure.—A handsome dwelling will be erected by William M. Granger at Dithridge and Bayan Streets, at a cost of \$10,000. The plans have been prepared by James T. Steen, of Pittsburgh.—Plans are being prepared by S. W. McClarren for a church to be erected in the East End by the Presbyterians.—An addition will be built to St. Joseph's Convent, East End.—A large business building is to be erected on Fifth Avenue, at a cost of \$500,000. The site consists of six lots with a united frontage of 120 feet and a depth of 110 feet, extending to relief alley.—Architect J. L. Beatty is making plans for two churches.

### Through New Jersey.

At Shirley, Salem Co., a Union Chapel will be erected.

At Quinton, Salem Co., a new iron bridge will be erected.

At Bridgeton, Cumberland Co., the English Lutherans will erect a new church.

The Board of Freeholders, of Sussex Co., has adopted plans for a jail to cost \$11,000.

At Freehold, Monmouth Co., sewers are to be constructed throughout the entire town.

At Hackensack, Bergen Co., a dwelling will be erected by J. Clarendon, to cost about \$6000.

At Newark, The Newark Hat Manufacturing Company's building has been destroyed by fire, causing a loss of about \$40,000.

At Elizabeth, Union Co., a block of buildings in the business portion of the town was destroyed by fire on June 16th, at a loss of about \$90,000.

At West Moorestown, Burlington Co., a handsome brick passenger station will be erected. Mr. Ellmaker, Superintendent of the railroad can give information.

At Wenonah, Gloucester Co., about \$40,000 will be spent in making improvements to the Wenonah House. Seventy-five more rooms will be added and modern improvements introduced.

At Woodstown, Salem Co., a vote has been cast in favor of bonding the town for the construction of a system of water works, and it is reported that bids for the work will soon be asked for.

At Englewood, Bergen Co., a stone and frame dwelling will be erected by H. A. Ogden, at a cost of \$12,000. The interior will be finished in hardwood and pine, and modern conveniences and improvements will be introduced.

At Rutherford, Passaic Co., at a special election it has been decided to authorize the issuing of bonds to the amount of \$50,000, for macadamizing the streets, roads and avenues, and bonds to the amount of \$25,000 for the construction of sewers.

At Summit, Union Co., the factory property on Morris Avenue has been purchased by Messrs. W. H. De Forest, Jr. and Othniel De Forest for the purpose of converting it into a silk factory. A number of cottages will be erected for the employees.

At Princeton, Mercer Co., work will begin at once on the erection of the University field house. The estimated cost is about \$8000. The structure will be of brick, laid in colored mortar. The plumbing and heating will be of the best. Three needle and shower baths will be introduced.

At Plainfield, Union Co., J. G. Musgrove, banker, is having a handsome residence erected. It will be of brick and shingle, three stories high, hardwood finish, modern improvements, etc. C. A. Marsh is to have a Queen Anne cottage erected. The ceiling and walls will be in paneled oak.

At Paterson, Passaic Co., the shops and terminal of the New York, Susquehanna & Western Railroad will be moved from Riverside to North Paterson. The new machine shop will be 220 x 170 feet, and fitted with the most improved machinery, and the paint and car shop will be 80x100 feet.

At Westfield, Union Co., a building for banking purposes will be erected. It will be three stories high, of press brick, and stone trimmings. The estimated cost is \$20,000. The second floor will be fitted up as offices, and the third floor as a lodge room. Modern improvements will be introduced.

At Cape May Point, Cape May Co., Judge Howard Carrow, of Camden, and representing Mathew Randall, of Phila., has purchased a number of the lots at the Sheriff's sale of the property of Anson H. Hamilton. William V. McKean, of Phila., bought two lots adjoining the cottage of President Harrison.

At Bayonne, Hudson Co., surveys are being made for a railway across the Hackensack meadows to Bayonne, where terminal and dock facilities will be supplied. The work is being done by the Canadian & New York Railway Co. This will give the Canadian Pacific Railroad direct communication between New York and Japan.

At East Orange, Essex Co., the congregation of Trinity church has decided to erect a new edifice to cost about \$15,000. It will be of brick, stone, and terra-cotta, 80 x 75, and slate roof. The interior will be handsomely finished in oak, and the windows will be of stained glass. The plans have been prepared by Stephenson & Greene.

At Jersey City, about one dozen sets of drawings have been received in the competition for the new City Hall, but the award of plans will not be made for some days. Common Council has authorized the expenditure of about \$225,000, but it is thought the actual cost when completed will be about \$400,000. The proposed building will be 140 feet square and will provide accommodations for the Mayor, City Clerk, City Treasurer, Common Council, Register and other city and county officers.

### Through Maryland.

The School Board of Caroline Co. has advertised for proposals for the erection of school buildings at Federalsburg, Greensborough, Hynson, Ridgely and Keene's X Roads.

At Ellicott City, Howard Co., City Council has accepted the offer of Joseph Schreiber to supply the city with water. Mr. Schreiber will put in works at an expense of about \$10,000.

At Annapolis, a large gymnasium will be erected at the Naval Academy, from plans prepared by Architect O. Von Nerta, of Washington, D. C. It will be of iron, brick and wood, two stories high, running gallery, and modern conveniences.

At Cumberland, Allegheny Co., a new cement mill will be erected. The Humbird Land Im

provement Company can give information.—Additional buildings will be erected by the Cumberland Steel and Tin Plate Company. John E. Jones is the superintendent.

It has been decided to erect a number of school houses in Frederic County. They will be located at the following towns, all in Frederic County. Feagaville, Brunswick, Pleasant Walk, Emmitsburg and Woodsboro.—At Brunswick a reservoir will be constructed and pipes laid for the distribution of water.

At Baltimore, the wharf and freight sheds of the Bay Line Company, which was 500 feet long and 200 feet water front, together with a large warehouse, a large laundry and a newly erected office building, was destroyed by fire last week, causing a heavy loss.—The Reformed (German) Church congregation has purchased a lot at the northeast corner of Guilford Avenue and Twenty-third Street, 100 x 120 feet, and will erect a handsome church thereon.—Mr. Charles C. McColligan, has purchased the old Oriole Park, wherein he will erect twenty-five dwellings. They will be of rough white marble, three-stories high finished in hard wood and contain all modern improvements and conveniences.—The most important building permits issued to date, are as follows: To A. M. Zimmers, to erect two three-story brick dwellings.—To William Suess, to erect two three-story brick dwellings.—To F. D. Souerwein, to erect five three-story brick dwellings.—To H. R. Linthicum, to erect one three-story brick dwelling.—To G. V. Smith, to erect a three-story brick dwelling.—To J. H. Aull, to erect three two-story brick dwellings.—To the Fuller Memorial Baptist Church, to erect a one-story frame building, to be used for church purposes.

### Through Delaware.

At Wilmington, the Street and Sewer Department has decided to improve Union Street, making it similar to Gilpin Avenue. The street bed will be forty feet wide, and the sidewalks twenty feet wide, twelve of which will be in a grass plot, and the balance of eight feet will be paved.—The Edgemore Bridge Co. has been given contracts for eleven bridges by the New York, Susquehanna & Western Railway Co. They will be used to replace the wooden structures between Pompton and Stroudsburg.—The trustees of Silverbrook Methodist Church have decided to erect a church on the lot donated by Mr. Joseph Pyle, at Lancaster and Woodland Avenues. The estimated cost is \$10,000, and the material will probably be of stone, with interior handsomely finished. Frank R. Carswell, of Wilmington, will draw the plans.

### Washington, D. C.

Plans are being prepared by Harvey L. Page for the new building to be erected for A. Lisner, the owner of the Palais Royal, at Eleventh and G Streets.—William Lee, undertaker, has had plans prepared by Philip N. Dwyer, Four-and-one-half and E Streets, S. W., for a chapel to be erected for his establishment on Pennsylvania Avenue, between Third and Four-and-one-half Streets. The structure will be 25 x 127 feet, five stories high, brick and stone, iron ceiling, tiling, stained and plate glass, steam heat, elevator, copper trimmings, etc. The cost will be about \$30,000. The same architect has prepared plans for eight dwellings, to be erected for Mrs. E. P. Selhausen, at Van Street and Quander Place. Also plans for a brick stable for John Riddle, at Maine and Maryland Avenues.—Plans have been prepared by George S. Cooker for a block of six three-story dwellings, to be erected at the Northwest corner of Ninth and S Streets, at a cost of \$30,000. They will be of press brick and Hummelstown brown stone, and modern improvements will be introduced.—A chapel will be erected at M and One-half Streets, S. E., by

the Mission of Christ Church. It will be of brick and Hummelstown brownstone, slate roof, eleven stained glass windows, etc. The estimated cost is \$9000.—Johnson & Luttrell will remodel their store from plans prepared by William J. Palmer, 918 F Street. There will be a new front of cream-colored brick and terra cotta, plate glass windows, electric elevator, etc. The interior will also be remodeled.—Wm. J. Palmer has made plans for a handsome dwelling to be erected for Joseph W. Collins, on V Street, between Fourteenth and Fifteenth Streets.—J. A. Taylor will erect a block of six two-story dwellings on Fourth Street, between G and H Streets. The estimated cost is \$15,000.—N. T. Haller has made the plans for the apartment house to be erected for B. H. Warder, on G Street, between Eleventh and Twelfth Streets. It will be of press brick and Hummelstown brownstone, plate glass windows, steam heat, electric lights, etc. The same architect has prepared plans for a dwelling to be erected at Twenty-first and R Streets, to cost \$7000.—George Emmert, Jr., has prepared plans for a dwelling to be erected for V. T. Elliott, on Eighth Street, between M and N Streets. The estimated cost is about \$7000. Also plans for seven two-story dwellings, to be erected for Robert A. Boyd, at Eleventh Street and Georgia Avenue.—Fred. G. Atkinson has prepared plans for a dwelling for Richard Rothwell, to cost about \$7000.

Rittenhouse Lane, Jennett Avenue, West Walnut Lane and Lucas Street, Roxborough, thirty-one acres of land, \$32,550

### Wants.

NOTICE TO CONTRACTORS, CELLAR DIGGERS and others.—I have room for several thousand loads of clean earth at the Old Rising Sun Park, Allegheny Avenue, from Broad Street to Germantown Avenue. Tickets for sale on premises at 5 cents a load. William T. B. Roberts, Builder.

TREASURY DEPARTMENT, OFFICE SUPERVISING ARCHITECT, Washington, D. C., June 13th, 1892. Sealed proposals will be received at this office until 2 o'clock, P. M., on the 7th day of July, 1892, and opened immediately thereafter, for all the labor and materials required for the low pressure, return circulation steam heating and ventilating apparatus for the U. S. Post Office, etc., building at Sedalia, Missouri, in accordance with the drawings and specifications, copies of which may be had at this office or the office of the Custodian at Sedalia, Missouri. Each bid must be accompanied by a certified check for a sum not less than two per cent. of the amount of the proposal. The right is reserved to reject any or all bids or to waive any defect or informality in any bid, should it be deemed in the interest of the Government to do so. All bids received after the time stated will be returned to the bidder. Proposals must be enclosed in envelopes, sealed and marked, "Proposal for the Low Pressure, Return Circulation, Steam Heating and Ventilating Apparatus for the U. S. Post Office, etc., Building, at Sedalia, Missouri," and addressed to W. J. Edbrooke, Supervising Architect.

S. P. Langley, Secretary Smithsonian Institute, proposals, until June 28, for miscellaneous supplies.

F. A. Brown, Auditor, at Lancaster, Ohio, proposals, until July 5, for certain bridge work in Greenfield Township.

J. J. Ramage, County Auditor, at Delaware, Ohio, proposals, until July 7, for constructing a bridge in Berlin Township.

R. C. Stuart, City Clerk, at Carbondale, Pa., proposals until July 2, for the construction of about 18,000 lineal feet of pipe sewers.

J. S. Thomson, Mayor of Lacon, Marshall Co., Ill. Proposals until July 8th, for furnishing materials and constructing a water works at that place.

H. H. Carter, Superintendent of Streets, at Boston, Mass. Proposals until June 30 for paving and regulating Washington Street, from Boylston Street to Adams Square, with granite blocks.

Stephen E. Babcock, engineer, Glen's Falls, N. Y., proposals, until July 14th, for the construction of about twenty-five miles of brick and vitrified pipe sewers. Blank forms of proposals, specifications, form of contract, etc., may be obtained at the engineers' office.

## AN ARGUMENT IN FIGURES.

Respectfully submitted to Builders, Owners and those having charge of Estates, who will have Fire Risks to place during 1892.

## These Ranges and Heaters

Represent the highest possible type of mechanical and scientific construction. For reliability and durability they are positively without a superior, they truly represent the minimum of cost and the maximum of quality.

The small size of the **PROMPT RANGE** is just the thing for Builders of small Houses. It is compact in form and possesses all the advantages and requisites of the larger size. Builders, Owners and Agents having charge of properties should inspect these Ranges and Heaters before ordering.

For sale by all Dealers. They can be seen at the Company's Ware-rooms.

The High Base Home Heater.

J. C. Lulley, Secretary of Aqueduct Commissioners, New York City, proposals, until June 29, for doing the work and furnishing the materials for building the new Croton dam at Cornwell site on the Croton River, in the town of Courtland, West Chester Co., N. Y.

M. Nicholson, City Engineer, at Knoxville, Tenn. Proposals until July 7th, for constructing a system of sewerage divided into two sections, composed of two miles of brick sewer, from 24 x 36 to 38 x 57 inches, and 27 miles of pipe sewer, from 8 to 24 inches, 683 manholes, 336 flush tanks.

John Millis, First Lieutenant Corps of Engineers, U. S. Army, No. 1 Prytania Street, New Orleans, La., proposals, until August 1, 1892, for building or leasing a dredging plant for use at the works of improvement at the junction of the Mississippi, Red and Atchafalaya rivers, near Turnbull Island, Louisiana. Further information and blanks furnished on application.

Proposals wanted.—Proposals will be received until 12 o'clock, noon, on the 1st (First) day of July, 1892, for the paving of a portion of West State Street, Kennett Square, with a Telford pavement. Plans and specifications may be had by application to Street Committee, of the Borough Council of Kennett Square, Pa. The committee reserves the right to reject any or all bids. By order of Borough Council, Kennett Square, Pa.

Separate proposals will be received at the office of the Water Department, southwest corner Sixth and King Streets, up to Tuesday, June 28th instant, at 4 p. m., for the building of a Brick Tower for stand-pipe; also for the digging and walling of a 20-foot deep well; also, for about 3000 feet of 3-inch tarred wrought iron pipe and fittings. Plans and specifications can be seen at the office of the Water Department. The right to reject any or all bids is reserved. J. A. Bond, Chief Engineer.

Proposals for ordnance supplies.—Frankford Arsenal, Philadelphia, Pa.—Sealed proposals, in triplicate, will be received until 1 o'clock, p. m., Friday, July 1, 1892, for furnishing machinery, leather, coal, iron, steel, hardware, lumber, forage, fuel, cartridge copper and brass, pig lead, pig tin, etc., during the fiscal year ending June 30, 1893. Printed lists of supplies needed, with full instructions, stipulations, etc., can be had on application to Lieut. Col. J. P. Farley, Ord. Dept., U. S. A., Commanding.

Proposals will be received until 10 o'clock, a. m., Tuesday, July 5th, 1892, for all labor and material and constructing complete, an iron highway bridge over White Clay creek, near Thompson Station, New Castle Co., Del., and also for abutments and wing walls for same. Bids may be made for both bridge and masonry complete or for either. Plans and specifications are to be seen at the Court House, in charge of the janitor. The committee reserve the right to reject any and all bids. Paul Gillis, chairman.

Proposals for ordnance supplies.—Sandy Hook Proving Ground, office, Governor's Island, New York.—Sealed proposals, in triplicate, will be received until 1 o'clock, p. m., on Thursday, June 30, 1892, for furnishing iron, steel, hardware, lumber, forage, fuel, electric material, and supplies, oils, etc., during the fiscal year ending June 30, 1893. Printed lists of supplies needed, with full instructions, stipulations, etc., can be had on application to Captain Frank Heath, Ordnance Department, U. S. A., Commanding.

Notice to contractors. The Building Committee of the Chester Hospital will receive sealed proposals, accompanied by security, until 12 o'clock, noon, Tuesday, June 24, 1892, for making the necessary excavations and erecting the hospital building at Ninth and Barclay Streets, Chester, Pa. Plans and specifications may be seen at the office of P. A. Welsh, 429 Walnut Street, Philadelphia, on and after June 6, 1892. The committee reserves the right to reject any or all

bids. T. J. Houston, Chairman, 620 West Eighth Street.

N. H. Farquhar, Chief Bureau Yards and Docks, Navy Department, Washington, D. C., proposals until July 5th for the construction of one dry dock, 605 feet long, with 30 feet draught of water, with a body of timber and entrance of concrete and masonry, together with pump-house, pumping plant, floating gate, culverts and all other work pertaining thereto, in accordance with plans and specifications, which can be seen at the department or the office of the commanding officer of the Puget Sound Naval Station, at Sidney, State of Washington.

Proposals for ordnance supplies.—New York Arsenal, Governor's Island, New York Harbor.—Sealed proposals, in triplicate, will be received until 1 o'clock, p. m., on Tuesday, June 28, 1892, for furnishing cloth, rope, thread, etc.; forage, ironmongery, etc.; plumbers' supplies and materials; stoves, lumber, fuel, tools and utensils, etc., during the fiscal year ending June 30, 1893. Printed lists of supplies needed, with full instructions, stipulations, etc., can be had on application to Major Clifton Comly, Ord. Dept., U. S. A., Commanding.

Furnishing and delivering sand.—U. S. Engineer's Office, 1428 Arch Street, Philadelphia, Pa.—Sealed proposals, in duplicate, will be received at this office until 11.30 A. M. Saturday, June 25, 1892, and then opened, for furnishing and delivering at the Fort opposite Fort Delaware, Del., 9000 cubic yards of sand. Also, sealed proposals, in duplicate, will be received at this office until 11 A. M. Saturday, June 25, 1892, and then opened, for furnishing and delivering at Pea Patch Island, Del., 12,000 cubic yards of sand. The attention of bidders is invited to the Acts of Congress approved February 26, 1885, and February 23, 1887, Vol. 23, page 333, and Vol. 34, page 414, Statutes at Large. For all information apply to C. W. Raymond, Major, Corps of Engineers, U. S. Army.

W. J. Edbrooke, Supervising Architect, Treasury Department, Washington, D. C., proposals, until June 28, for all the materials required for the repairs and improvements to the U. S. Custom House Building at Philadelphia, Pa. Also, until same date, for all the labor and materials required for the general excavation and temporary drainage for the U. S. Post Office Building at York, Pa. Until July 20, proposals for all the labor and materials required to fix in place the low pressure, return circulation, steam heating and ventilating apparatus for the U. S. Custom House and Post Office Building at Port Townsend, Wash. Until July 11, proposals for all the labor and materials required for the approaches to the U. S. Court House and Post Office Building at Helena, Ark.

Notice to contractors.—Sealed proposals for the grading, paving and curbing of Main Street from Hill Alley to Pittsburgh Street, and Peach Street from Water Street to Pittsburgh Street. Also, for the grading and macadamizing of Main Street from Pittsburgh Street to the borough line, on Pittsburgh Street from Grave Street to Greene Avenue, on Eighth Street from East Alley to Pittsburgh Street, on Sherman Street from Pittsburgh Street to York Avenue, and on Gibson Avenue from Pittsburgh Street to the shops of the C. M. & C. Co., will be received by the Street Committee of the Borough of Connellsville, Pa., until the 28th day of June, 1892, at 7 o'clock, p. m. Bids will be received separately on grading, paving and curbing and macadamizing. Plans and specifications can be seen at the office of the Borough Engineer. By order of the Council, P. J. Harrigan, Burgess.

Proposals addressed to the president will be received until Thursday, June 23d, at 3 o'clock p. m., at the office of the Board of Public Works, City Hall, Camden, N. J., for furnishing material and labor to perform the following work from

July 16th, 1892, to July 16th, 1893, in pursuance with specifications to be seen at the office of the City Surveyor, for cleaning the paved streets, paved gutters and crossings, for removing slops, garbage and ashes. For cleaning streets, removing ashes and garbage combined in one bid. For repair of brick sidewalks and paving new sidewalks. For new curb, gutter, flag-stones, rubble paving, etc. For furnishing iron and brick inlets, manhole covers and heads, terra-cotta pipe and bends. By order of the Board of Public Works, who reserve the right to reject any or all bids. E. A. Armstrong, President Board of Public Works.

Proposals for furnishing stationery, furniture, fuel and other supplies. In compliance with the Constitution and laws of the Commonwealth of Pennsylvania, I hereby invite sealed proposals, at prices below maximum rates fixed in schedules, to furnish stationery, furniture, fuel and other supplies for the several departments of the State Government, and for making repairs in the several departments, and for the distribution of the public documents, for the year ending the first Monday of June, A. D., 1893. Separate proposals will be received and separate contracts awarded as announced in said schedules. Each proposal must be accompanied by a bond with approved sureties, conditioned for the faithful performance of the contract, and addressed and delivered to me before twelve o'clock, M., of Wednesday, the 29th day of June, A. D., 1892, at which time the proposals will be opened and contracts awarded in the reception room of the Executive Department, at Harrisburg. Blank bonds and schedules containing all necessary information can be obtained at the Department. William F. Harrity, Secretary of the Commonwealth.

Notice to Contractors. Building sewer and appurtenances. Northern section. Sealed proposals for the above work, endorsed with the above title, and the name and address of the party making the same, and addressed to the Sewer Committee, will be received at the office of the City Clerk, Orange, N. J., until 5 P. M. June 27, 1892. Plans and specifications, proposal blanks and specifications can be seen at the office of the Chief Engineer, Carrol Ph. Bassett, corner of Day and Snyder Streets, Orange, N. J. The proposed work consists of approximately eight (8) miles of pipe sewers from eight (8) to twenty-four (24) inches in diameter, with manholes, flush tanks, lampholes, etc. Each proposal must be accompanied by a certified check for \$5000. A bond of twenty-five (25) per cent of the cost will be required. The Common Council expressly reserve the right to reject any or all proposals. Wm. Harrington, Chairman, Martin A. Brennan, William Hanley, Wm. F. Hamilton, John A. Walsh, Sewerage Committee; Carrol Ph. Bassett, Chief Engineer. Horace Stetson, City Clerk. P. O. Address: Orange National Bank Building, Orange, N. J.

Antonio C. Swayne, of Darby, Pa., lot at that place.

George W. Lehman, of Philadelphia, lot of ground in Ridley township, Pa.

Mary Green, of Chester, Pa., lot at that place.

J. Martin Gickler, of Clifton Heights, Pa., piece of land in Upper Darby township, Pa.

Richard A. Wagner, of Philadelphia, lot in Darby township, Pa.

Elizabeth Railey, of Philadelphia, lot in Upper Darby township, Pa.

## A Few Quiet Words with House Builders and Owners.

If the kitchen of your house is small, you need to economize room. You can do this by using a range with elevated boiler, such as the

### "FIDELITY."

It will reduce the cost of plumbing also. We make them with seven inch or eight inch boiler holes, ovens on right or left of fire, with or without hot closets, and also to heat an upper room. Splendid bakers. Hot water in abundance. The latest and best of their class.

FIDELITY HOT AIR RANGE WITH  
HORIZONTAL BOILER.

Excelsior Double Oven Range.

If the kitchen is roomy and large, cooking capacity is sought. You will want a brick-set range with a vertical circulating boiler, set in the usual way. The

### "EXCELSIOR RANGES"

are acknowledged all over Philadelphia, in which city and vicinity some 75,000 have been sold as the standard brick-set range. They are furnished with ventilated ovens, oven-door pedals, rocking grates, and all modern improvements. Made in seven and eight inch sizes; single, double and hot-air ranges. Send for descriptive pamphlet, entitled "PERFECT COOKING."

MANUFACTURED BY

**ISAAC A. SHEPPARD & CO.,**

N. E. COR. FOURTH STREET AND MONTGOMERY AVENUE, PHILADELPHIA, PA.

And for Sale by all Responsible Dealers.

Whether large or small, your house will require a heating apparatus of some kind. It will pay you to put in a *really good* hot air furnace. The

### "PARAGON"

has no superior. Perfectly self-cleaning, with fewest joints, free from dust and gas, largest radiating surface, heavy steel plate, drum casings, easy on fuel, and of superior durability, it will always give satisfaction. A descriptive circular will be mailed upon application.

PARAGON FURNACE WITH  
EQUALIZED DRAFT.

# DID YOU EVER EAT AT BOOTHBY'S Great Chestnut St. Restaurant?

If you have not, you can form no proper idea of its size, beauty and facilities. Its corps of superintendents, chefs and assistants, waiters and supernumeraries number over 100. Its seating capacity is over 1300, and every guest is made comfortable, besides receiving prompt and careful attention. Its menu embraces everything in season. The cooking represents the best efforts of prominent chefs, whose skill has given the place a national reputation. The prices are moderate and the service is unexcelled. OYSTERS ARE THE GREAT SPECIALTY. The Ladies' Restaurants are retired, light and elegant. For a social meal or a light lunch, you are recommended to

**BOOTHBY'S, 1231, 1233 AND 1235 CHESTNUT STREET.**

### JUDGMENTS.

#### PHILADELPHIA.

#### ABBREVIATIONS.

Where there are no figures to indicate the amount of the judgment, the damages have not been assessed.

The name first mentioned in each line is that of the judgment debtor.

A star (\*) denotes judgment confessed or bond and warrant conditioned.

The figures 1, 2, 3 and 4 immediately after the name of the plaintiff indicate the number of the Court. The term of the Court is indicated as follows: D, for December Term; M, for March Term; J, for June Term and S for September Term.

# THE PHILADELPHIA Real Estate Record AND BUILDERS' GUIDE.

DEVOTED TO REAL ESTATE, BUILDING, ARCHITECTURAL AND INSURANCE INTERESTS.

[ ENTERED AT THE PHILADELPHIA POST OFFICE AS SECOND CLASS MATTER. ]

VOL. VII.—No. 26.

PHILADELPHIA, WEDNESDAY, JUNE 29, 1892.

PRICE 15 CENTS

## Architect Notes.

Chas. W. Bolton, architect, 1510 Chestnut Street, will prepare plans for a house for Mr. D. Getz, of Delaware Co., Pa., and to be erected on the West Chester Pike, details not yet completed. Mr. Bolton has also prepared plans for a new Sunday school for St. Paul's Congregation (Reformed), at Reading, Pa., to be brick and stone, two stories high.

W. Frisbey Smith, architect, N. E. Cor. Broad and Arch Streets, has on boards plans for a fine house to be erected in West Philadelphia. The structure will be of Pompeian brick and red sandstone trimmings, three stories high, slate roof, and will be fitted with every modern convenience; the work, when ready for building, will be done under direct supervision of the architect.

Walter Smedley, architect, 435 Chestnut Street, has prepared plans for four fine stores and dwellings to be erected on Lancaster Avenue near Fortieth Street. The contract has been given to F. Michaelson, carpenter, who has just broken ground. These are to be of fine press brick, stone facings, large windows upon store fronts and the interiors will be models in the way of comfort and conveniences.

W. Albert Wood, architect, Pulaski Avenue, Germantown, has completed plans for a handsome residence for Mrs. Mary J. Donegan, to be erected in Nicetown. The front to be of Indiana limestone and Pompeian bricks, fitted on the interior with hardwood, electric bells, best of sanitary plumbing, and all modern conveniences. The drawings have been placed on the boards, and estimates are now being made.

Frank R. Watson, architect, 518 Walnut Street, has on boards in course of preparation, plans for a large six-story store for the owner, James A. Stone, at 1013 Market Street. The structure, when erected, will be occupied by Liverwright & Greenwald, manufacturers of clothing, now on Third Street above Market. The material for the front has not as yet been fully determined upon, but the first two floors will likely be of stone, iron and glass, whilst the rest will be of brick, yet to be determined as to kind. The interior will be fitted with elevators, steam heat, hardwood finish, best of sanitary plumbing, and all modern improvements. It is understood that the electric work will be put in under contract with the firm. Plans not yet completed.

Minerva Parker Nichols, architect, 14 South Broad Street, has on boards plans for a fine residence for Mr. M. Barber, to be erected on Broad above Dauphin Streets. Structure will be three stories high, of Pompeian brick and Lake Superior sandstone, tile roof and copper finishing. Inside halls and library will be in quartered oak, parlor in white and gold finish and the building

fitted with electric bells and light, as well as all modern conveniences. Also, furnishing drawings for a dwelling for Dr. M. N. Johnson, of San Francisco, Cal. Same architect has just awarded the contract to John B. Johnson, of Wilmington, Del., to erect the New Century Club building at that place, a full description of which appeared in a previous issue of this journal.

Addison Hutton, architect, 400 Chestnut Street, has plans on boards for the erection of a seven-story annex or factory for Strawbridge & Clothier, to be built on what is known as the Cresswell estate, beginning at 812 and taking in several lots on Race Street West of Eighth. The structure will be bounded by Race, Hutton and Mint Streets, with a front of 105 feet and 144 feet deep. The front will be of press brick with stone trimmings. The first floor will be divided into fine large stores for sale of cloaks, dresses, etc., whilst all the rest will be utilized for manufacturing purposes. The whole building will be heated by steam from the power room as well as furnishing the motive action, elevators, both freight and passenger, will be placed, electric plant in basement, and structure wired throughout, toilet and retiring rooms for employees and patrons, best of sanitary plumbing and lavatories, fire escapes of the most approved design will be an adjunct of great importance, two 400 horse-power engines will be placed in basement. The architect hopes to have all details complete at an early day, when estimates will be invited. The cost of this great building will approximate \$200,000, and will be one of the most complete in the country.

## Building and Real Estate Notes.

The Episcopal Church at Forty-first and Brown Streets, of which Rev. Mr. Hutchins is pastor, will be renovated and repaired during the month of July.

Conrad P. Day has bought ten acres of ground at Fifty-sixth Street and City Line Avenue, upon which he intends to erect quite a handsome house, which, it is said, will cost \$50,000.

Tout and McGlaughlin, contractors, 317 Cook Street, have received a contract to make considerable alteration and additions to the Church of the Mediator, at Nineteenth and Lombard Streets.

The property at the northeast corner of Eleventh and Clinton Streets has been purchased by the Pennsylvania College of Dental Surgery, and will be fitted up for purposes of the dental college.

Armstrong & Printzinhoff, contractors, 136 South Fourth Street, will erect the freight station for the P. R. R. at Swanson Street and Washington Avenue, noted in a previous number of this journal.

John G. Ruff, carpenter, 619 Cherry Street will start work at once on twenty two-story houses at Forty-sixth and Market Streets, all to be of press

brick and stone fronts with best modern conveniences on interior.

John R. Wiggins, a master builder of the Exchange in this city, has just been chosen a School Director in the Twenty-ninth Section. This is a wise selection, and the board will be much benefited by the choice.

R. A. Raff, carpenter, 1327 Buttonwood Street, will erect a new dye house at 1608 Columbia Avenue and another by Joseph Crouse, carpenter, 2076 E. Cumberland Street, on Fox Street, West of Trenton Avenue, each to be one story high.

Arthur H. Williams' Sons, contractors, 420 Tenor Place, will erect the new clergy house for St. Marks congregation, from plans prepared by Hazellhurst and Huckel, architects, Drexel Building, and fully noted in a previous number of this journal.

Dallas Saunders, Esq., has purchased thirty-one acres of ground on Rittenhouse Lane near Chestnut Hill, which he intends to improve. Price paid was \$1050 per acre, and lies on the new proposed route of railroad from Barren Hill to Chestnut Hill.

The Trustees of Orthodox Street M. E. Church contemplate a much-needed improvement, the remodeling and beautifying of their church with all additional rooms to accommodate the infant department, and the Young People's Society of Christian Endeavor.

Jno. M. Anderson, 212 Dock Street, contractor, will erect the new factory buildings of Hoyle, Harrison & Kaye, on Filmore Street below Indiana Avenue; these have been fully described from drawings by Walter H. Geissinger, architect, who will supervise the construction.

On the 20th inst. the Building Inspectors of Philadelphia resolved to adjourn over until September their weekly meetings. This can be done very well without detriment to the interests of the city, owing to the lull that occurs in building operations at this particular season.

R. & A. Wilson, builders and owners, 2018 Moore Street, will at once begin the erection of twenty-four dwellings two-story high, on south side of Kimball Street west of Twenty-fourth Street, all to be of fine press brick, stone trimmings and best of interior improvements.

Some minor additional work is being considered by the House Committee of the Union League, on Broad Street. This will likely be done in conjunction with alterations now in progress. The work will consist of enlargement of porch, erection of awning and other comforts on exterior of buildings.

Andrew Mowbray, contractor, 1236 South Fifteenth Street, will at once erect eight two-story houses, on Snyder Avenue East of Juniper Street, also, four more three-story houses on Thirteenth Street, North of Snyder Avenue. All to be of best press brick, stone trimmings and modern conveniences.

PHILADELPHIA, WED'Y, JUNE 29, 1892.

On July 6th next we will publish our regular semi-annual report of building operations and sales of real estate for 1892. Our edition on that date will be a particularly heavy one, as we have made it a point for years to cover the whole field with the issue containing our reports, the value of which is, beyond all question, pre-eminently great to the building and real estate interests generally. A grand opportunity is therefore offered for the enterprising to present a strong bid for patronage through suitable and well-written advertisements in that issue. We will cheerfully aid our patrons in writing for them such advertisements as they require, submitting proof of the same without cost, further than the space contracted for.

We trust our readers and others will determine upon the size of the advertisement desired in order that we may not be delayed, as the amount of extra work to be performed will necessitate our receiving copy for that issue as early after this announcement as possible.

**Building and Real Estate Notes.**

B. D. Gardiner, builder, will at once erect seventeen two and three-story houses at Preston and Baring Streets. All to be duplicates of those built by the same owner on Spring Garden Street, between Preston and Budd, press brick ornamental fronts, stone trimmings, and best modern conveniences on interior.

Frank H. Rhodes, builder, 401 Chestnut Street, is about to build 126 dwelling houses, two and three stories high. Fifty-six will be on east and west sides of Eighteenth Street near Cleveland Avenue, and seventy on both sides of Cleveland Avenue. All press brick, stone facings and best Modern conveniences.

Doyle & Doak, carpenters, 1511 Moravian Street, have received a contract to erect the six-story office building for James H. Windrim, Director of Public Works. The structure will be built on Walnut Street above Eleventh. A full description

of the structure was given in this journal, Architect Notes, of May 25th.

Jacob R. Jordan, builder, Thirty-fourth Street and Lancaster Avenue, will at once start the erection of thirty dwellings at Forty-first and Baring Streets. Also, twelve stores and dwellings, on Haverford Avenue above Thirty-eighth Street. These will be of first-class material in every respect and all modern conveniences.

Burd P. Evans, contractor, Manheim and Knox Streets, Germantown, will erect the new English Lutheran Church of St. Paul, at Twenty-second Street and Columbia Avenue, after plans by Hazelhurst & Huckel, architects, and who will also supervise its construction; a description of the building appeared in a former number of this journal.

The Philadelphia Order of the Irish Catholic Benevolent Union, at a meeting held at Philopatrian Hall on Sunday, received a favorable report from the committee having charge of the matter of the erection of a building as a home for working women, to cost about \$25,000. John J. Tierney is president and J. J. Wall is chairman of committee.

W. S. P. Shields, builder and real estate operator, 735 Walnut Street, has bought the old Storm glass works property on Market west of Thirty-third Streets. The lot is 150x175 feet, and it is Mr. Shields' intention to erect an immense warehouse upon the site, six stories high and fitted with all late improvements and conveniences. The entire site will be utilized for light and heavy storage of all kinds.

A proposition has been made by the Philadelphia & Reading Railroad authorities to the owners of stores and other properties along the line of Market Street east and west of their new depot, to erect a uniform system of awnings either of corrugated iron or other material. The line of demarkation on the east to be Eighth and on the west to be Broad Street. No definite action has yet been taken except by the Reading Company.

At a meeting of the Young Republican Club on the evening of the 20th inst., it was unanimously resolved that they purchase at a stipulated price of \$100,000, the Wanamaker house at 1336 Walnut Street, and towards which Mr. Wanamaker gives his check for \$5000. Also, a committee was appointed to consider ways and means. \$10,000 will be expended upon the structure in alteration and embellishment. Possession will not be obtained until about August 1st of the current year.

A company is now being formed by a number of prominent business men in Philadelphia, for the purpose of establishing a large plant to manufacture refrigerators upon an entirely new principle, invented by John Erny. At the head of the new organization will be John Huggard as president and Eugene Townsend, secretary and treasurer, and associated as interested parties, such men as Wm. Boothby, John F. Betz and others. These gentlemen are pushing matters in the way of preliminaries.

Judge Fell has made an order giving leave to the city to file a bond for \$100,000 to secure the payment of damages in the taking of the properties Nos. 1313, 1315 and 1317 Spring Garden Street

for School purposes. The Court also directed that upon the approval of the bond the Board of Education is authorized to enter upon and take the condemned premises. No. 1313 Spring Garden Street is owned by Bartholomew Shea and is assessed for taxation at \$12,000. No. 1315 is owned by Rachel A. Brinkle and is assessed at \$11,500. No. 1317 is owned by Dr. Mordecai Price and is assessed at \$12,000. Each property has a frontage on Spring Garden Street of 22 feet and runs back 150 feet to Brandywine Street. The bond of the city has not yet been filed.

Frederick J. Amweg, contractor and engineer, Hale Building, Southwest corner of Juniper and Chestnut Streets, has been awarded the contract to erect the State Hospital for the chronic insane at Wernersville, Pa. Mr. Amweg was the next best bidder, it being \$280,381.22, exclusive of heating and ventilation, this included brings the bid to \$304,121.22. The work will now be started at an early day under supervision of Messrs. Rankin & Kellogg, architects, 1001 Chestnut Street, these gentlemen having prepared all plans and specifications and which have been pronounced very complete. The same contractor will also erect a Union Passenger Depot for the Norfolk and Western, the Chesapeake and Ohio River Railroad, at Kenova, West Va., and has made contract to build car shops for the Norfolk and Western at same place.

As we approach the period of midsummer, we find quite a large number of building operations under way and in various stages of completion, among which may be classed the largest of all, the great Reading Terminal and its approaches, the John F. Betz office building, Hotel Metropole, Hotel at Twelfth and Market Streets, also, one at Twelfth and Filbert Streets, another being fitted at Nos. 21-23 North Tenth Street. Also, quite a number of churches, among which is Mantua Presbyterian, at Fortieth and Preston Streets, East Allegheny Avenue M. E. church, Synagogue Keneseth Israel, Broad Street and Montgomery Avenue; McDowell Presbyterian, at Twenty-first and Columbia Avenue; South Memorial, at Eighteenth and Diamond Streets; Church of St. Veronica, at Fifth and Tioga Streets, and a number of Chapels in different localities heretofore noted. Also, a large number of parish buildings, and schools and a goodly number of public buildings. All of which have been fully noted and described in former numbers of this journal.

The work on the new club house for the Bel-field Club, Germantown, is being rapidly pushed, and they expect to have it completed by the middle of July. The house is frame, 40x65 feet, not including porches or port cochere. In the basement is located two large heaters, a large store room for tennis nets, cricket bats, etc. Also, a double bowling alley, built under entire length of porch. In first story is a large reception hall, with open fire place, billiard room, smoking room, stair hall, ladies' parlor and retiring room, kitchen and toilet room, port cochere 12x15 feet, first story porch 16x85 feet. In the second story is a retiring room for ladies, a serving room with dumb water to kitchen, and a large dance hall, with portable stage and fixtures, second story porch is 16x35 feet. On south-east end in third story is located a living room and two bed rooms

with toilet room for janitor. The building is in the colonial style, painted in yellow and white, to cost \$12,000. The plans were prepared and work superintended by Mr. Albert Wood, architect, Germantown.

### Through Pennsylvania.

 When any of the following are not post office towns they will be so designated.

—At Shenandoah, Schuylkill Co., a water works will be constructed at a cost of about \$100,000.

—At Ebensburg a dwelling will be erected for J. A. Shoemaker. Ollie Evans is the contractor.

—At Nanticoke, Luzerne Co., the contract for the big sewer has been awarded to Coon & Mooney.

—At Sharpsburg, Allegheny Co., a vote has been cast in favor of constructing an electric light plant.

—At Lebanon, Lebanon Co., a Mr. Stein is arranging to erect a large addition to his residence.

—At London Grove, Chester Co., Marshall P. Yeatman will erect a dwelling on West State Street.

—At Morton, Delaware Co., ground has been broken for the erection of a dwelling for Frank Strickland.

—At West Chester, Chester Co., the Borough Council is considering means of increasing the water supply.

—At Reading, Berks Co., the P. and R. Transfer Co.'s stables, on Sixth and Oley Streets, have been destroyed by fire.

—At Dunbar, Fayette Co., a lot has been purchased by the Baptist congregation, upon which a church will be erected.

—At Downingtown, Chester Co., the Pennsylvania Railroad Company will erect an overhead bridge at Chestnut Street.

—At Columbia, Lancaster Co., Conrad Bitner will erect a modern hotel on the site of the old brewery, on Walnut Street.

—At Indiana, Indiana Co., the contract for the erection of the Indiana Glass Co.'s plant has been awarded to John S. Hastings, of Indiana.

—At Connellsville, Fayette Co., a three-story business building will be erected on the site of the Henry Welkey house, on Main Street.

—At Pottstown, Montgomery Co., a large hotel will be erected at the corner of Jefferson Avenue and Charlotte Street, by Jahob H. Brendlinger.

—At Masontown, Fayette Co., I. O. and J. W. Sangston, have been awarded the contract for the erection of a school house, in Pleasant Hill district.

—At Scranton, Lackawanna Co., the First Presbyterian Church was damaged to the extent of \$2000 last week by fire, caused by an electric wire.

—At Bristol, Bucks Co., a three-story frame dwelling will be erected by Arthur Lefe on Jefferson Avenue. Wright & DeGroot are the contractors.

—At Lederachville, Montgomery Co., after considerable trouble the Commissioners of Montgomery Co., have decided on Lederbachville, as the site for the new bridge.

—At Pottstown, Montgomery Co., L. W. B. Fillman has sold two building lots to Cyrus Kline. They are 30 x 140 feet each, and will doubtless be improved.

—At Fairchance, Fayette Co., at a recent meeting of the School Board it was decided to enlarge the present building by a two-story annex, also, to remodel and otherwise improve the old building.

—At McKeesport, Allegheny Co., Daniel Stratton has been awarded the contract for the erec-

tion of the superstructure of the hospital building for the McKeesport Hospital Association; price \$28,800.

—At Corry, Erie Co., there is a probability of removing the Titusville Radiator Works to Corry. Mr. Moosie, the proprietor, has been in Corry looking for a site, having had his plant destroyed by the recent flood.

—At Carlisle, Cumberland Co., Edward D. Tannehill has purchased a lot from the Carlisle Land and Improvement Co., and will erect a handsome residence on the site. It will contain all modern improvements.

—At Rutledge, Delaware Co., Mr. Hicks, of Philadelphia, will erect a dwelling.—Samuel Hall Day, 910 Drexel Building, Philadelphia, has purchased a lot at Morton and Amherst Avenues, and will erect a colonial dwelling.

—Application has been made for a charter for the Brownsville and Bridgeport Water Companies, the object being to furnish water by pumping the water from the Monongahela, to reservoirs on the hill tops above the two towns.

—At Selin's Grove, Snyder Co., the Board of Directors of Missionary Institute are making arrangements for the erection of an additional building for society halls, library and recitation rooms, at a cost of about \$20,000.

—At Pittsburg, Architects Geo. S. Orth & Bro., 43 Sixth Avenue, have prepared plans for a handsome residence to be erected at Homewood for W. W. Card, at a cost of about \$30,000. It will be of stone, fine interior finish and modern conveniences.

—At Bethlehem, Northampton Co., a new social club has been organized, and the Lehman property on Market Street has been leased for the use of the club. The house will be renovated and handsomely furnished throughout. Captain Ira McNutt, William B. Myers and Geo. H. Myers are members of the club and can give information.

—At Chester, Delaware Co., the contract for the erection of the power house for the Chester and Media electric road has been awarded to J. Harry Slawter.—Councilman Edward Dickerson, of the First Ward, has made arrangements for the erection of three dwellings on Twenty-third Street. They will be of brick, handsomely finished on the interior and modern conveniences and improvements will be introduced.

—At Charleroi, Washington Co., council has made an appropriation of \$2000 for the erection of a lockup. On Friday, July 8, a special election will be held to decide as to the advisability of increasing the town debt by \$25,000, for the purpose of obtaining funds for the erection of a new school house. The Charleroi and Bellevue Railroad Company has been chartered with a capital stock of \$30,000. It will be three miles long. William D. Hartup is the president of the new road.

—At McKeesport, Allegheny Co., the new hospital will cost \$28,800.—The following estimate has been recommended to Council by the Water and Light Commissioners, Mr. Inskeep Chairman: The purchase of land capable of containing a 10,000,000 gallon reservoir, together with the foundations and connections, \$40,000; new boiler, \$5000; rising mains to the new basin, \$12,000; two 1,500,000 gallon pumps, \$11,000; distributing mains and hydrants, \$30,000; total, \$115,500.

—At Media, Delaware Co., the large lot, bounded by South Avenue, Washington and Baker Streets, has been sold by Mary C. Palmer, of Media, to McIlvaine and Strong, builders, who will doubtless improve the site by the erection of a number of dwellings. Mr. Strong, is a resident of Media. The same firm has recently given Carey & Bro., of Media, the contract for roofing, plumbing and heating twenty-one dwellings, which are being erected by them, at Frankford Road and Tioga Street, Philadelphia.

—At Harrisburg, a charter has been granted at the State Department, to the York Springs and Dillsburg Railroad Company, capital \$100,000. The line will run from York Springs, in Adams Co., to Dillsburg, in York Co., a distance of nine miles. The President is Thomas G. Neely and the directors are E. W. Cushman, C. E. Myers, H. B. Pearson, J. B. Myers, D. M. Stewart, J. W. Pearson, Jr., J. A. Grove and Anthony Deardroff. This line has already been graded from York Springs to within two miles of Dillsburg.

—At Uniontown, Fayette Co., John C. Fulton, has been invited to furnish the plans for the new town hall, to be erected by the borough of Bridgeport. The estimated cost of the building is \$20,000.—Architect Kauffman, 605 Smithfield Street, Pittsburgh, has prepared plans for the proposed new Presbyterian Church of Uniontown. The plans have been approved by the Building Committee. Mr. Bryson has the plans on exhibition at his furniture store.—F. M. Seamans, has let the contract for a residence on Shady Lane.

—At Lancaster, Lancaster Co., the Keely farm consisting of about 80 acres, has been purchased by Messrs. John A. Coyle, Dr. M. L. Herr and John Hiemenz. Streets will be opened through the property and it will be otherwise improved.—Architect J. H. Warner, 45 North Duke Street, is preparing plans for a new building for the Lancaster Watch Co. Captain George M. Franklin, H. S. Williamson and Frank P. Coho constitute the committee on the erection of the new building. New engine and boilers will be put in. It is probable the Aurora Watch Factory, of Aurora, Ill., will be consolidated with the Lancaster plant.

—At Cresson, Cambria Co., the Sisters of Mercy will have a new academy erected on the ground formerly owned by William Thaw, at a cost of about \$250,000, contributed by Mother DeSales and Sister Xavier, formerly the Misses Ihmsen of Pittsburgh, Miss Phelan, also of Pittsburgh and Miss Dailey, of Phila. The plans have been drawn by M. A. Malone, of Pittsburgh and call for a main building of sandstone front and brick walls 200 x 250 feet. There will be three dormitories, two refectories, a chapel and a suite of rooms for the Bishop. It will be heated by steam and lighted by electricity from a plant on the grounds. In each of two towers fire escapes will be placed. All modern conveniences and improvements will be introduced. Mr. Malone will supervise the construction.

—At Norristown, Montgomery Co., Howard K. Regar, of the hosiery manufacturing firm of Rambo & Regar has purchased a lot on DeKalb street, sixty feet front, upon which he will erect a handsome dwelling in the near future.—Plans have been accepted by R. S. Newbold & Son, of the Eagle Iron Works, on Washington Street, for a new foundry, 50 x 105 feet. A machine shop will be erected later. The new building will be almost wholly of iron, and the best of machinery will be put in.—It is said Mr. Levi Shaffer, of Shaffer Bros., will be given the contract to make the brick for the Insane Hospital, to be erected at Wernersville. Clay has been discovered near the site of the proposed structure and Mr. Shaffer will erect works at a cost of \$20,000, which will subsequently be removed to Norristown. The most improved machinery will be put in.

—At Ariel, Wayne Co., a syndicate has purchased the land surrounding Lake Ariel, and will erect a large summer hotel, to cost \$100,000. Hon. W. H. Dimmick, of Honesdale, Wayne Co., Pa., representing a New York syndicate can give information. A New York architect is at work on the plans. Every convenience and improvement will be introduced. The name will be the Hotel Anthracite, and is designed mainly for the accommodation, of coal men. It is also the intention to sell lots to prominent coal men on which to erect cottages. The same syndicate in connection with the Honesdale and Lackawanna Railroad Company will rebuild the Irving Cliff

Hotel, which was destroyed by fire last summer. Sheriff Wright, H. C. Russell of Honesdale; and E. P. Kingsbury, J. H. Blackwood, T. T. Duffy, J. J. Lawler, Geo. B. Jermyn and others of Scranton, recently visited the site and drove the stakes to locate the new hotel. About \$500,000 will be expended on the two places.

### Through New Jersey.

At Rahway, Union Co., the congregation of the Methodist church, contemplate the erection of a new church edifice, to cost about \$15,000.

At Budd's Lake, Morris Co., the large hotel to be known as the Hakatawana Inn, is about finished and will be prepared for occupancy at once.

At Atlantic City, the corner stone of the new Odd Fellow's Hall was laid last week; the structure will be of brick and stone, handsome interior finish and modern improvements. The estimated cost is \$20,000.

At Netcong, Morris Co., the trustees of the Netcong school district, have posted notices for a special school meeting for the purpose of voting to authorize the trustees to borrow \$2,000 for the erection of a new school house, and, also, to purchase desks, seats, chairs, heating apparatus, etc.

At Union Hill, Hudson Co., the school trustees have decided to purchase sixteen lots on Bergen-ville Avenue, to cost not more than \$14,000, upon which to erect a brick school house at a cost not exceeding \$25,000. A number of repairs and alterations will also be made to the present school house, at a cost of about \$5000.

At Jersey City, six dwellings will be erected on Van Reipen Place, near Highland Avenue, by Condict & Co., of New York.—A handsome building for business purposes will be erected by Charles S. Furst. It will be of brick and iron, and will be handsomely finished on the interior and all modern conveniences and improvements will be introduced.

At Westfield, Union Co., quite an amount of building is contemplated. Mr. H. Mitchell will erect a dwelling on Cumberland Street, and Dr. Ripley has sold a large number of lots which will be improved by the erection of handsome dwellings. Mr. C. A. Smith and Mr. John Coger will erect dwellings on the Boulevard. They will be finely finished and furnished with modern conveniences and improvements. Messrs. Welch, J. W. Cox and Russel are about completing fine residences on Park Street.

At Trenton, the County Engineer, has prepared the plans for the wings to be added to the State Insane Asylum, near Trenton. They will be of brick and stone and the estimated cost is about \$60,000.—Articles of incorporation have been filed at the office of Secretary of State, by the Passaic & Newark Electric Railway Company. The capital is \$100,000, and the incorporators are ex-Mayor W. R. Brown, Thomas Moore, Gen. Bird Spencer, John Kennel and ex-Judge Richard, of Passaic; August Stein, of 125 Hudson Street, Hoboken; and Gen. W. C. Hepenheimer, of Jersey City. The new line will extend from Bellville to Haledon, two miles beyond Paterson, and will be constructed under the act of last winter which authorized the Passaic Electric Light Company to consolidate with the traction company.

### Through Maryland.

At Baltimore, a syndicate of Philadelphia and Baltimore capitalists are now arranging to erect one of the largest abattoirs in Baltimore. Ex-City Treasurer Joseph J. Martin, Alfred M. Fuller, William M. Fuller, Thomas B. Shriver, Dr. Ludwig S. Filbert and Senator Chas. A. Porter, are among the Philadelphians who are interested; Stacy Reeves & Sons, Jacob R. Garber and Franklin M. Harris & Co., are preparing estimates for the plans.—The most important building permits issued to date are as follows: To John C. Weems, to erect one three-story brick dwelling

and three two-story frame dwellings.—To J. F. Morgan, to erect seventeen two-story brick dwellings.—To R. Davis to erect one three-story brick dwelling.—To J. H. Aull, to erect nine three-story buildings.—To the Baltimore United Brethern, to erect a stone church.—To L. E. Wetter, to erect fourteen two-story frame dwellings.—John B. Yeatman has been awarded the contract to erect the new fire engine house at Maryland Avenue and Twenty-first Street for \$7800.

### Through Delaware.

At Wilmington, at a recent meeting of the Board of Education, plans were accepted for an addition to school house No. 10. It will be 23x68 feet, two stories high, and will contain four school rooms, two cloak rooms and a side entrance. The committee was authorized to advertise for bids.

### Washington, D. C.

C. B. Keferstein has prepared plans for a block of five dwellings to be erected at First and C streets north east, for Jacob Karr. They will be of brick and Hummelstown brownstone, with handsome interior finish and modern improvements. The estimated cost is \$30,000. Frank L. Harvey is the builder.—J. M. Coleman will have a handsome residence erected from plans prepared by Nicholas T. Haller, at a cost of about \$8,500. It will be of brick, with a front of Hummelstown brownstone. The interior will be trimmed in ash. cabinet mantels, electric lights, &c.—Julius Germailler is preparing plans for two dwellings to be erected on D Street, between Eighth and Ninth Street, to cost \$6,000. Also plans for a dwelling to be erected at Bloomingdale, D. C., to cost about \$4,000.—N. R. Grimm has prepared plans for a block of twenty-two dwellings to be erected at Fourteenth and Warner Streets north east, for Thomas Darneille. They will be of brick and Ohio stone and furnished with modern improvements.—The Washington Post contemplates the erection of a handsome building on Pennsylvania Avenue near Fourteenth Street. It will be magnificently finished, and will be furnished with all modern improvements. The plans have not yet been prepared.—John F. Davidson has made arrangements for the erection of a store and apartment house on Ninth Street, between L and M Streets. It will be six stories high, of brick and Hummelstown brownstone, copper ariel bays, tiled tower, &c. Each floor will contain a suite of seven rooms with hardwood trimmings, cabinet mantels, tiled vestibules, bath room, open fire places, &c. An electric elevator will also be put in. The first floor will be fitted up as a store with plate glass show window, fixtures &c. George S. Cooper has prepared the plans.—Blundon & Watts will erect ten medium size dwellings to cost about \$25,000.—Joseph C. Johnson, 64 Corcoran Building, has prepared plans for the Douglass Memorial Church to be erected at the corner of Twelfth and H Streets, at a cost of about \$20,000. It will be of brick and stone, white pine interior finish, steam heat, cathedral glass, &c. The same architect has made plans for a large building to be erected on Pennsylvania Avenue, between Third and Fourth Streets, at a cost of about \$16,000. It will contain modern improvements. A large public hall will occupy the upper two stories.

### Real Estate at Auction.

[When no sales are reported, it is because the auction firm omitted has had none.]

SOLD BY M. THOMAS & SONS, ON TUESDAY, JUNE 21, 1892.

Unity and Franklin Streets, north corner Frankford, two-story brick stable and carriage house, lot irregular in shape, subject to a mortgage of \$1592.88, \$1110

AUTHORIZED CAPITAL, \$1,000,000.

The subscription books are now open for the remaining \$200,000 of unsubscribed capital, and the privilege of becoming stockholders and members is offered to all men doing business in or with Philadelphia.

Shares are \$50 each. The minimum subscription received is for four shares. Subscribers to four shares or more will be entitled to all the rights and privileges of membership. There will be no annual dues or assessments.

The offices in the Bourse will be very desirable and are already in demand. The capital invested in this building will pay large returns, and it is expected that stockholders will not only receive great business advantages, but a fair interest on their investment.

SUBSCRIPTION BOOKS ARE OPEN AT THE EXECUTIVE OFFICES.

## These Ranges and Heaters

Represent the highest possible type of mechanical and scientific construction. For reliability and durability they are positively without a superior, they truly represent the minimum of cost and the maximum of quality.

The small size of the **PROMPT RANGE** is just the thing for Builders of small Houses. It is compact in form and possesses all the advantages and requisites of the larger size. Builders, Owners and Agents having charge of properties should inspect these Ranges and Heaters before ordering.

For sale by all Dealers. They can be seen at the Company's Ware-rooms.

123 N. 2d St., Philadelphia.  
17 E. Lombard St., Baltimore, Md.

The High Base Home Heater.

**Miscellaneous.**

At Madison, Lake Co., Ohio, a new brick school house will be erected.

At Waycross, Ware Co., Ga., the Methodist congregation will erect a new church.

At Madison, Somerset Co., Me., a vote has been cast in favor of erecting a school house.

At Atlanta, Ga., the Odd Fellows' Orphans' Home to be erected will cost about \$30,000.

At Farmington, Franklin Co., Me., a system of water works will be constructed at a cost of \$25,000.

At Chattanooga, Tenn., the City Water Work Co., contemplate improvements to cost about \$75,000.

At Taunton, Bristol Co., Mass., the new Winthrop clubhouse to be constructed will cost about \$20,000.

At Statesboro, Bulloch Co., Ga., a movement is on foot for the erection of a handsome hotel building.

At Wellesley, Norfolk Co., Mass., the town has appropriated \$20,000 for a new school building to be erected.

At Columbus, Ohio, Isaac Eberly, will erect a block of buildings for business purposes to cost about \$47,000.

At Cuthbert, Randolph Co., Ga., the female college building recently destroyed by fire will be rebuilt at once.

At Hellenwood, Scott Co., Tenn., S. C. Parker can give particulars as to the erection of a Masonic Hall at that place.

At Geneva, N. Y., it is reported that the Lehigh Valley Railroad Company will erect a brick depot to cost about \$35,000.

At Revere, Suffolk Co., Mass., W. H. Swift has the contract to construct the new Shurtleff school building at a cost of \$22,335.

At Alton, Harrison Co., W. Va., the plans for the new iron bridge to be constructed, have been approved by the county court.

At Melrose, Middlesex Co., Mass., the corner stone of the Melrose clubhouse has been laid. The building will cost about \$12,000.

At Holyoke, Hampden Co., Mass., Architects Clough & Reid have prepared plans for a coach house to cost \$5000, for Robert B. Crane.

At Ware, Hampshire Co., Mass., H. P. Cummings & Co. have the contract for the erection of the Y. M. C. A. building at a cost of \$60,000.

At Salem, Essex Co., Mass., the city has appropriated \$27,000 to construct a street over South River from Lafayette Street to Washington Street.

At Hopkinsville, Christian Co., Kentucky, City Council has authorized J. P. Martin, of Xenia, Ohio, to erect a water works plant, also an electric light plant.

At Manchester, N. H., a stone terrace, to cost about \$75,000, is to be constructed in Stark Park. It is proposed to erect a monument of Gen. Stark in a granite enclosure.

At Whitman, Plymouth Co., Mass., Geo. O. Jenkins has purchased the estate at the corner of Washington Street and Whitman Avenue, and will erect a large business block thereon.

At Gardiner, Worcester Co., Mass., Nichols Brothers will erect a large chair factory, 150 x 42 feet, and an additional building 100 x 42 feet. The cost of the structure will be about \$40,000.

At Cincinnati, Ohio, a brick apartment house will be erected on McClellan Street near Gilbert Avenue, to cost about \$20,000. The plans are being prepared by Des Jardins & Hayward for the owner, Geo. Stribley.

The New Hampshire World's Fair Commission has awarded the contract for cut-stone for the

State Building at Chicago to Thomas Nawn, of Concord, and the Maine and New Hampshire Granite Company of Conway.

At Montgomery, Alabama, W. Y. Wharton will erect a three-story brick storehouse on Commerce Street, to cost \$13,000. The plans have been prepared by R. N. McGrath. McIntyre Brothers will erect a storehouse to cost about \$15,000, from plans prepared by the same architect.

At North Adams, Mass., the new Universalist Church to be erected will be of Pompeian brick with terra-cotta trimmings and will have a tile roof. The interior finish will be mostly of cypress wood. The dimensions will be 30 x 100 feet. Architect Wilson, of Pittsfield, has prepared the plans.

At Minneapolis, Minn., the Great Northern Railroad will erect a passenger station and baggage depot to cost \$25,000, from plans prepared by J. Brodie. Patterson & Co. are the contractors.—George E. W. Wheeler will erect a three-story brick building for flats to cost \$30,000. Orff Bros. are the architects.

At Plymouth, Plymouth Co., Mass., the Plymouth Foundry Co. will make an extensive addition to its plant and have applied to the Board of Harbor and Land Commissioners for leave to construct a bulkhead and make a solid filling in where tide water now exists, adjoining the wharf on Union Street.

At Springfield, Mass., the Mayor has signed an ordinance providing for a new police building and work on the same will soon be commenced. Bids for heating the building are wanted until July 6.—Charles W. Goodhue is having plans prepared for a residence 68 x 85 feet, to be of old gold and Pompeian brick, to cost about \$35,000.

At Birmingham, Jefferson Co., Alabama, A. C. Lowrey has prepared plans for a dwelling for Dr. C. S. Drennan, to cost about \$8000. It will be two stories high, of brick, modern conveniences. The same architect has prepared plans for a three-story brick dwelling for W. P. Bower, to cost \$8000. Also, plans have been prepared for a handsome dwelling for Mrs. W. L. Bragg, by the Mechanics Building Co. The estimated cost is \$15,000.

At New York City J. B. McElpatrick & Son, of No. 1195 Broadway, have made plans for a theatre and office building to be erected at Nos. 117 to 123 West Thirty-eighth Street, for R. & O. Goetel, of No. 591 Fifth Avenue. The structure will be 98 x 140 feet, six stories high, of brick, with stone and terra-cotta trimmings. Cost about \$350,000.—Architect G. H. Edbrooke, Temple Court has made plans for a theatre to be erected at Nos. 160 to 164 East Thirty-fourth Street for Sauce & Leach, of No. 49 West Thirty-second Street, to be 72 feet ten inches by ninety-eight feet, one story high, of brick, with stone and terra-cotta trimmings, cost about \$70,000.—Architect A. Wagner, No. 67 University Place, has prepared plans for a factory and store building, to be erected at the corner of Mercer and Fourth Streets, to be 40 x 80 feet, six stories high, of brick, with stone trimmings, cost about \$75,000.—Architect G. P. Chappell, 24 State Street, has made plans for a factory, to be erected at No. 465 and 467 E. Tenth Street, for W. E. Uptegrove of 1180 Dean Street, Brooklyn, N. Y. It will be 40 x 94 feet 9 inches, of brick, cost \$20,000.

## A Few Quiet Words with House Builders and Owners.

If the kitchen of your house is small, you need to economize room. You can do this by using a range with elevated boiler, such as the

### "FIDELITY."

It will reduce the cost of plumbing also. We make them with seven inch or eight inch boiler holes, ovens on right or left of fire, with or without hot closets, and also to heat an upper room. Splendid bakers. Hot water in abundance. The latest and best of their class.

Excelsior Double Oven Range.

Whether large or small, your house will require a heating apparatus of some kind. It will pay you to put in a *really good* hot air furnace. The

### "PARAGON"

has no superior. Perfectly self-cleaning, with fewest joints, free from dust and gas, largest radiating surface, heavy steel plate, drum casings, easy on fuel, and of superior durability, it will always give satisfaction. A descriptive circular will be mailed upon application.

FIDELITY HOT AIR RANGE WITH HORIZONTAL BOILER.

If the kitchen is roomy and large, cooking capacity is sought. You will want a brick-set range with a vertical circulating boiler, set in the usual way. The

### "EXCELSIOR RANGES"

are acknowledged all over Philadelphia, in which city and vicinity some 75,000 have been sold as the standard brick-set range. They are furnished with ventilated ovens, oven-door pedals, rocking grates, and all modern improvements. Made in seven and eight inch sizes; single, double and hot-air ranges. Send for descriptive pamphlet, entitled "PERFECT COOKING."

MANUFACTURED BY

And for Sale by all Responsible Dealers.

PARAGON FURNACE WITH EQUALIZED DRAFT.

# DID YOU EVER EAT AT BOOTHBY'S Great Chestnut St. Restaurant?

If you have not, you can form no proper idea of its size, beauty and facilities. Its corps of superintendents, chefs and assistants, waiters and supernumeraries number over 100. Its seating capacity is over 1300, and every guest is made comfortable, besides receiving prompt and careful attention. Its menu embraces everything in season. The cooking represents the best efforts of prominent chefs, whose skill has given the place a national reputation. The prices are moderate and the service is unexcelled. OYSTERS ARE THE GREAT SPECIALTY. The Ladies' Restaurants are retired, light and elegant. For a social meal or a light lunch, you are recommended to

### Architect Notes.

*Too late for Classification.*

Frank R. Watson, architect, 518 Walnut Street, has taken out a permit, to begin the foundations of the new Church of the Epiphany at Eleventh and Jackson Streets, the area covered will be 65 ft x 145 ft. A full description has been given in a previous number of this journal. The congregation is at present located in a Chapel, built some time since.

### Building and Real Estate Notes.

*Too late for Classification.*

Hudson and Dillon, contractors, 1341 Cuthbert Street, will make a four-story alteration and addition to factory at Sixteenth and Reed Streets.

R. C. Ballinger & Co., contractors, 218 North Thirteenth Street, have received a contract to build the burned portion of the Reading Railroad freight depot, at Front and Willow Streets, and will at once begin the work.

Burd P. Evans, contractor, Manheim and Knox Streets, Germantown, will at once begin the erection of the machine shop, for the Midvale Steel Works. Structure will be 112 x 198 feet and two-stories high, of brick, stone and iron.

John M. Sharp, builder and real estate operator, 1936 South College Avenue, has begun operation of clearing the old House of Refuge grounds of the buildings as noted before in this journal. Mr. Sharp intends to erect a full block of very handsome, two and three story houses upon this site.

### Through Pennsylvania.

*Too late for Classification.*

—At Downingtown, Chester Co., A. P. Tutton, is about to sell a tract of ground comprising several acres to a syndicate for the purpose of erecting a paper manufactory thereon.

—At Allegheny, Allegheny Co., Boggs & Buhl, will increase their present store by an addition, to cost \$10,000. C. M. Britz has prepared the plans and R. McCain is the builder.

—At Royersford, Montgomery Co., John W. Shaffer, of Chadd's Ford, has purchased the property of J. M. Lewin and will make alterations to the same. —John L. Pennypacker, has the contract for the erection of a double dwelling, for Frank Missimer.

—At Scranton, Lackawanna Co., a large building to be used for store purposes, will be erected by William Connell, from plans prepared by L. C. Holden. The estimated cost is \$35,000. Conrad Schroeder is the contractor. The structure will be of stone and brick, and will be furnished with modern improvements and conveniences.

### Wants.

*Too late for Classification.*

Sealed proposals will be received at Engine House No. 2, northwest corner Fifth and Arch Streets, Camden N. J., until Monday evening, July 11, 1892, for furnishing the Camden Fire Department with 1000 feet of 2½-inch rubber lined cotton hose, to be in 50-foot lengths. Also, 20 sets of Jones' Patent Couplings. The committee reserve the right to reject any or all bids. Address proposals to Robert F. Smith, Chairman Fire Committee.

Sealed proposals will be received at Engine House No. 2, northwest corner Fifth and Arch Streets, Camden, N. J., until Monday evening, July 11, 1892, for furnishing the Camden Fire Department with one 6-circuit repeater and seven galvanometers, one switch board and lightning arresters complete, also 40 miles of No. 9 extra best galvanized iron wire, the two-circuit repeater now in use to be taken in exchange. The committee reserve the right to reject any or all bids. Address proposals to Robert F. Smith, Chairman Fire Committee.

Department of the Interior, Washington, D. C., June 20, 1892.—Sealed proposals will be received at this Department, until 1 o'clock P. M., Thursday, July 28, 1892, for furnishing and putting in place, ready for operation, in the Pension building, in this city, one hydraulic freight elevator, suitable for passengers also. Bidders will examine the premises and furnish their own specifications and plans in detail, and estimate for the whole work. Proposals to be addressed to "The Secretary of the Interior," indorsed on envelope, "Proposals for Elevator, Pension Building." For further information apply to the Chief Clerk of the Department. John W. Noble, Secretary.

### JUDGMENTS.

#### PHILADELPHIA.

#### ABBREVIATIONS.

Where there are no figures to indicate the amount of the judgment, the damages have not been assessed.

The name first mentioned in each line is that of the judgment debtor.

A star (\*) denotes judgment confessed or bond and warrant conditioned.

The figures 1, 2, 3 and 4 immediately after the name of the plaintiff indicate the number of the Court. The term of the Court is indicated as follows: D, for December Term; M, for March Term; J, for June Term and S for September Term.

# EVERY MAN

Should be capable of forming his own estimate of an Advertising Medium whether a Daily or Weekly Newspaper, or any of the many ephemeral schemes almost momentarily placed before him. . . . .

## REAL ESTATE OWNERS, BROKERS AND AGENTS HAVING REAL ESTATE FOR SALE AND TO RENT

And who from absolute necessity must adopt a short as well as an inexpensive way to the millions who buy and rent, are specially invited to consider earnestly the following significant facts, which to advertisers, should equal volumes of argument.

# THE PHILADELPHIA RECORD

Has the largest circulation of all the dailies published in AMERICA, with one exception. . . . .

Its circulation is a specific factor sold with its advertising, as through its perfect distribution by carriers and almost daily increase little if any, spasmodic fluctuation is experienced. In this respect attention is called to THE RECORD'S report of each issue. . . . .

The cost of advertising Real Estate in its columns represents but a very small fraction of a single cent per thousand copies of each issue, as the following figures will show: . . . . .

At 15 cents per line, THE RECORD'S price for Real Estate advertisements, divided by 150, the number of thousands sold daily (159,615 were the figures on Saturday, June 25 last), the cost is just ONE MILL for each thousand copies of its circulation. Surely no sensible business man can cavil at the cost, for nowhere else on this wide earth is it possible to find Real Estate Advertising at so small a cost. . . . .

THE RECORD is not only constantly adding new customers to its Real Estate advertising columns, but its customers—new and old—find a quick and more profitable return for the money invested than it is possible to obtain elsewhere.

Business men are never creatures of prejudice. Hence Real Estate advertising is a cold question of profit and loss. A trial of THE RECORD will soon convince you that there is more bread and butter within easy reach for you than you can be made to believe with many pages of advertising. . . . .

You are desired to try it. Results will prove convincing. Address—

**The Record**  
**Publishing Company**  
**917-919 Chestnut Street.**

# THE "EVANS" PURE AIR FURNACE.

The Air You Inhale Does Not Come in Contact with a Cast Iron Cylinder.

The cold air is taken in at the top and over the smoke pipe—THIS GIVING ADDITIONAL RADIATING SURFACE.

The joints are deep cut cup joints.—INSURING AGAINST GAS AND DUST.

This furnace runs with an absolutely cold casing and cool smoke pipe—NO FUEL WASTED IN HEATING THE CELLAR OR LOST IN THE CHIMNEY.

It has 50 per cent. more radiating surface, in proportion to size of fire, than any competitor—RADIATING SURFACE IS THE ONLY INDEX TO POWER.

SAVES 25 PER CENT. IN FUEL OVER THE BEST IN THE MARKET.

EVERY ONE WARRANTED AND GUARANTEED TO GIVE SATISFACTION.

MANUFACTURED ONLY BY

## STONE HARBOR—WHERE IS IT?

FOR upwards of half a century, not only to the residents of New Jersey but to the pleasure seekers from Philadelphia and vicinity, Stone Harbor has been well and favorably known as a resort for gunners and fishermen. As it is situate directly opposite the celebrated fishing grounds, and is a feeding place for game birds, it never fails to furnish opportunity for sport.

It is the gem spot of the celebrated "Seven-mile Beach" tract, and is situate midway between Atlantic City and Cape May, on the direct route of the West Jersey Railroad to Cape May, it being the site of the United States Life-saving Station.

It can be reached in less than two hours from Philadelphia, and within very much less time from Atlantic City and Cape May.

### AS A RESORT FOR HEALTH AND PLEASURE.

For health and pleasure Stone Harbor possesses advantages which are not to be found elsewhere on the Atlantic coast.

Its climate during winter and summer is of a most delightful temperature. On the east it faces the Atlantic Ocean, while on the west the waters of the noted Great Sounds pass in gentle flow to the Hereford Inlet.

### BATHING AND BOATING.

Its beach is wide and hard, gently sloping, free from holes and gullies, or undertow, and, as a result, bathing at Stone Harbor is most excellent.

The waters teem with fish in the greatest variety, and wild birds are to be found in abundance. Here neither the fisherman nor gunner need want for sport. Ocean sailing can be indulged in, or the timid can find pleasure in boating and sailing upon the quiet waters of the Sounds.

A commodious hotel, equipped with modern conveniences and styled Abbotsford Inn, with rates at \$2.00 per day, has been erected in accordance with plans prepared by Samuel Milligan, the well-known Philadelphia architect, to be completed and opened by July 1st, 1892.

### FISHING AND GUNNING.

Two of the great attractions at Stone Harbor are the fishing and gunning. Directly at this place can be caught sheep's-head, bluefish and weakfish, and crabs are to be had in abundance.

A steamer will carry visitors to the Great Fishing Grounds, which are directly off Stone Harbor, while the game birds, which frequent the place, furnish sport to the gunner. The rod and gun can be kept in constant use.

A large wharf is being built to allow the largest sail and steam-boats to be safely moored to it, and a basin or inner harbor with a depth of six feet, and an exit to Great Channel is being dredged to afford a safe refuge for steam-launches, sail and row-boats.

### THE ADVANTAGES OF STONE HARBOR TO INVESTORS.

The extent of available shore area on the Atlantic coast is very limited, as all know, and every year seashore property is becoming more valuable. The wisdom of investing in such property must be manifest. Nowhere are better inducements offered to investors than at Stone Harbor. This tract is well located. It is situate midway between the two celebrated resorts, Atlantic City and Cape May, and possesses attractions and advantages not to be found at either of those places.

Cottage and Clubhouse lots, which vary in frontage from fifty to sixty feet, have a depth of one hundred and ten feet each, and are sold at moderate prices. Reasonable building restrictions, which are imposed upon the lotholders, will guarantee a freedom from many objectionable features prevailing at other resorts.

The titles to these lots are guaranteed by the Real Estate Title Insurance and Trust Company, of Philadelphia, and on application, the fullest information and photographs will be cheerfully furnished by the selling agent, Mr. Thomas R. Fox, of the firm of Daniel M. Fox & Sons, the well-known conveyancers and real estate brokers. Room 40, Bullitt Building, Philadelphia.

This advertisement is for the purpose of placing our business before the readers of this paper. We believe the principal readers are architects, builders, real estate dealers, and buyers and sellers of real estate.

It would be to us money thrown away, were we to attempt to bring you to our store, if we bought clothing from other manufacturers, you would be expected to pay middle profits. Being the largest manufacturers of strictly good clothing, for retail and for the consumer, we invite you in confidence, knowing we can save you money in your purchase.

**WANAMAKER & BROWN,**

Sixth and Market Streets.

**Pay Envelopes Furnished by Application.**

---

Respectfully Addressed to Owners, Builders,  
Agents and those having charge of Estates.

---

GENTLEMEN:—

DAVIS & HARVEY'S method of selling Real Estate at Auction without cost or charges of any kind unless the sale is effected, merits your earnest approval and cordial practical endorsement and patronage.

It is not only a healthy, progressive innovation, beneficial to those having properties for sale, but it is a broad-gauge thoroughly established and successful system that finds a customer in almost every instance, either in the auction room or at private sale, as the great publicity given, as well as the careful personal attention each property receives insures success, not otherwise obtained.

Rapidly increasing business necessitate additional facilities for the coming fall and winter.

Correspondence solicited.

Address,

**DAVIS & HARVEY,**

*Auctioneers,*

514 Walnut Street.

# The Penn Mutual Life

It knows little about Advertising. Its business is Life Insurance; has been at it 45 years; knows much—is learning more; keeps full-abreast with every real improvement. Always has been and always will be conducted for policy holders by policy holders. Prudent people insure—the really sagacious insure where they own and control everything.

Learn the terms of membership.

JOHN F. BRISBANE, City Editor.

PHILADELPHIA, WED'Y, JULY 6, 1892.

The present number of THE REAL ESTATE RECORD is doubly interesting inasmuch as it contains, besides its regular amount of building news, important tables showing the number of new buildings constructed during the first half of the present year. These reports, which are presented three times each year, have become, through their well established reputation for reliability, a source of information to those engaged in the erection and sale of houses, as well as the owners of real estate, obtainable in no other way, and it is to the credit of Philadelphia journalism that in no other city in the country is there a single instance where reports of the same specific character are published. There are very few persons outside of journalistic circles who are able to comprehend the labor and care involved in work of this nature, for it is not as many suppose, a simple question of aggregates to be had for the asking, but is to the contrary, an exacting, daily duty to perform, commencing with the first day of each year and ending only with the last working hour of the last day, and it is only through the sympathy and assistance of architects and builders and the president and assistants of the Board of Building Inspectors that we are able to accomplish our task in its present correct and satisfactory shape. It is particularly gratifying to be able to acknowledge the decided recognition and assistance we now receive during the year from architects and builders, not only in this city, but through Pennsylvania, New Jersey, Delaware, Maryland, Washington, D. C., and at many other points in the West and South. Indeed, the success that we hoped for depended largely upon the recognition and assistance these gentlemen would give us; we have aimed to merit their confidence, and, after over six years of constant and uninterrupted business relations with them, we have never in a single instance betrayed confidence reposed in us.

**Wants.**

**TREASURY DEPARTMENT, OFFICE OF THE** Supervising Architect, Washington, D. C., June 29th, 1892. **SEALED PROPOSALS** will be received at this office until 12 o'clock P. M., on the 27th day of July, 1892, and opened immediately thereafter, for all the labor and materials required for the Erection and Completion (except Plumbing and Heating Apparatus) of the United States Post Office building at Ashland, Wisconsin, in strict accordance with drawings and specification, copies of which may be had on application at this office or the office of the superintendent at Ashland, Wisconsin. Each proposal must be accompanied by a certified check for a sum not less than 2 per cent. of the amount of the proposal. The right is reserved to reject any and all bids and to waive any defect or informality in any bid, if it be deemed in the interest of the government to do so. All bids received after the time stated will be returned to the bidders. Proposals must be enclosed in envelopes, sealed and marked, "Proposals for the Erection and Completion (except Plumbing and Heating Apparatus) of the United States Post Office building at Ashland, Wisconsin," and addressed to, W. J. Edbrooke, Supervising Architect.

**TREASURY DEPARTMENT, OFFICE, SUPER-**vising Architect, Washington, D. C., June 24th, 1892.—**SEALED PROPOSALS** will be received at this office until 2 o'clock P. M., on the 19th day of July, 1892, and opened immediately thereafter, for all the labor and materials required for concrete and stone footings, etc., for the U. S. Post Office Building at Washington, D. C., in accordance with the drawings and specifications, copies of which may be had on application at this office, or the office of the Superintendent on the building site. Each bid must be accompanied by a certified check for a sum not less than 2 per cent. of the amount of the proposal. The right is reserved to reject any or all bids, and to waive any defect or informality in any bid or in the requested letters to accompany bids, if it be deemed in the interest of the Government to do so. Proposals received after the time stated will be returned to the bidders. Proposals must be enclosed in envelopes, sealed and marked, "Proposals for Concrete and Stone Footings, etc., for the U. S. Post Office building at Washington, D. C., and addressed to W. J. Edbrooke, Supervising Architect.

**TREASURY DEPARTMENT, OFFICE SUPER-**vising Architect, Washington, D. C., July 2, 1892. **SEALED PROPOSALS** will be received at this office until 2 o'clock P. M., on the 21st day of August, 1892, and opened immediately thereafter, for all the labor and materials required for the excavation, foundations, cut stone and brick work, iron and wood floor and roof construction, roof covering, approaches, &c., for the United States Post Office building at Fort Dodge, Iowa, in accordance with the drawings and specifications, copies of which may be had on application at this office or the office of the Superintendent at Fort Dodge, Iowa. Each bid must be accompanied by a certified check for a sum not less than 2 per cent. of the amount of the proposal. The right is reserved to reject any or all bids and to waive any defect or informality in any bid should it be deemed in the interest of the Government to do so. All proposals received after the time stated will be returned to bidders. Proposals must be enclosed in envelopes, sealed and marked, "Proposals for the Excavation, Foundations, Cut-stone and Brick work, iron and wood floor and roof construction, &c., for the U. S. Post Office building at Fort Dodge, Iowa, and addressed to, W. J. Edbrooke, Supervising Architect.

**TREASURY DEPARTMENT, OFFICE SUPER-**vising Architect, Washington, D. C., June 23, 1892.—**SEALED PROPOSALS** will be received at this office until 2 o'clock P. M. on the 21st day of July, 1892, and opened immediately thereafter, for all the labor and materials required for the trench excavation, foundations, cut stone and brick work of the basement and area walls, basement columns, first floor beams, girders and wood joists for the U. S. Court House and Post Office Building at Tallahassee, Florida, in accordance with the drawings and specification, copies of which may be had on application at this office or the office of the Superintendent at Tallahassee, Florida. Each bid must be accompanied by a certified check for a sum not less than two per cent. of the amount of the proposal. The

right is reserved to reject any or all bids and to waive any defect or informality in any bid if it be deemed in the interest of the Government to do so. All proposals received after the time stated will be returned to the bidders. Proposals must be enclosed in envelopes, sealed and marked "Proposal for Trench Excavation, Foundations, Cut Stone and Brick Work, &c., for Basement and Area Walls of the U. S. Court House and Post Office Building at Tallahassee, Fla.," and addressed to W. J. Edbrooke, Supervising Architect.

**PHILADELPHIA'S**

**BUILDING OPERATIONS.**

IMPORTANT SUMMARY FROM DATA  
COMPILED WEEKLY BY

**THE PHILADELPHIA REAL ESTATE RECORD AND  
BUILDERS' GUIDE.**

Presenting the Building Operations by Wards and Months,  
with the Estimated Cost of the New Buildings  
Erected and in course of erection,  
Together with the Sales of Real Estate for the First Six  
Months of 1892.  
January 1st to June 30th Inclusive.

4451 New Buildings, costing \$16,812,350, exclusive of the  
cost of the land, an increase over the same months  
of last year of 545 New Buildings, and an in-  
crease of \$3,491,820 in the amount in-  
vested, a gain of 13.9 per cent. in the  
number of new buildings and 26.2  
per cent. in the investment.

The following report of building operations for the first half of 1892, will certainly be read with more than ordinary interest. In fact, in face of the serious falling off of 1891 when compared with 1890, amounting for the year, as per our annual report, published January 6th, 1892, to 3,398 new

buildings and \$9,714,176 in the cost of construction work, the recuperative powers of the building interest of this city as indicated by this year's figures is something remarkable. To recall the expressions of distrust as to the outlook for '92, which seem to be the general sentiment of every one during the commencement of the present year, the results we now record are simply surprising.

Of course, in preparing a business report, the statement must be confined to facts and figures, as criticism must be left to those who view the situation from an entirely different standpoint, and who are right to criticize as has done influences which have no place here, except so far as our own personality is identified with that of the general public in the beauty as well as the growth of the city in which we live.

We are fully alive to the importance of the influence of the packing system of house building will have in the future upon the general beauty of the city, and while it is to be deprecated, more particularly owing to the cheapness of land, when compared with its price in other cities, it is our duty in our reports to stop at facts and figures.

To realize that the present big increase follows closely after a year of financial peril, is to fully appreciate the elastic condition of those influences which control our building interests, for it must not be supposed that the present is an effervescent outburst of adventures with more money or credit than usual, but the contrary is the fact. As to the question, for many preceding times, the house building business was even in the hands of more solid and capable men than at the present time, and this is conceded by every one.

As the transportation problem in this city promises an early solution, great help to our builders is expected through that source, but the strong point is one of supply and demand, and it seems at present that the supply will be greatly in excess of the demand for some time to come, in small houses at least, although we have a right to expect a larger increase in population during the present decade, through the increase of business and manufacturing as a result of the greater activity of our business men, through the B. R. and Trades League organizations, it is too soon to speculate upon the results of their earnest efforts.

An attorney says that while the year thus far has not been up to the work of last year, the outlook is very good. Some of them have been exceptionally busy. Real estate agents and brokers have had a pretty good busy year thus far in sales and collections. The open house builders in general consider the present business good, for while there is not the popularity of recent months, yet there has been an abundance of the middle class of work equally satisfactory. Many in building circles are not satisfied with the payments this year are unusually prompt, as in litigation less than previous years, and the outlook is clear. No serious strikes have occurred and none are now likely to occur. Manufacturers and manufacturers have been fairly up and they have no cause for complaint.

It will be seen that our tables show an increase in three-story houses over the same months of last year of 545, while in two-story houses there is an increase of 245. In the matter of five-story houses it will be seen that a two and three-story dwellings erected this year represent twenty percent of the entire cost of construction work.

The Twenty-first Ward this year gives an increase of 94 two-story houses over 1891, while it is 73 behind the figures for 1890. In three-story dwellings there is an increase of 151 ahead of the corresponding months of last year and only 8 behind 1890.

West Philadelphia in its three wards gives us 332 two-story houses this year against 252 for six months of 1891 and 710 for the same months of 1890, a gain of 83 over last year but a decrease of 381 from the figures of 1890. In three-story houses West Philadelphia shows an increase of 79 over 1891 and a decrease of only 15 from the same months of 1890.

Four-story dwellings this year show a falling off of 6; office buildings over two stories this year show an increase of 2, although the latter cost is only \$800 over the two erected during the first six months of 1891. The number of school houses is greater by

2 than last year, while the expenditure is \$315 more. Of this amount the Girl's Normal School represents \$305,000.

The industrial buildings this year are slightly in excess of last year, and in cost \$112,820 more. There have been 6 more warehouses, 1 dry and dye house, 6 factories, 2 engine and boiler houses, while there are 6 less breweries and bottling houses and 6 less foundries and shops.

Alterations and additions this year show a decided increase, the figures being 1383, costing \$2,074,500, against 1158 last year, costing \$1,737,000. Miscellaneous buildings are 6 less than last year, although the cost is \$3,373,000 against \$1,713,000 for 1891. The Reading Terminal makes the great increase, as the station itself will cost \$1,250,000.

For the six months included in this report there have been 9864 transfers of real estate recorded, amounting to \$41,693,493.08. The mortgage incumbrance being \$9,194,338.15, or 22 percent. There were ground rents amounting to \$334,869.10, which is a six percent basis, represents a principal of \$5,580,151.66. Comparison will show that there are 552 less transfers this year than last, and that, while the number is considerably less, the money value of the property conveyed is \$2,745,501.37 more than that of last year. The mortgage incumbrance on the property conveyed this year is 1.6 percent less than last year notwithstanding its greater value.

Thanks to the heavy business done this year by the real estate auction house of Davis & Harvey, the properties sold at auction amount in value to \$469,677.79 more than last year. We lay particular stress upon the efforts of this firm because it has opened a way for real estate men to try their properties at auction, without cost of any kind unless a sale is effected. We emphasize these facts in the interests of this firm, as we feel that they justify merit patronage, and because of the particularly satisfactory manner with which it has treated the real estate men who have patronized it. The wide publicity given by Davis & Harvey to properties placed in their hands without cost to agent or owner, gives the strongest assurance of a buyer at satisfactory prices. Their sales this year are over three times more than their sales for the same months of last year.

We reprint the following table of building operations for the first six months of 1891 to give our readers an opportunity to make their own comparisons.

	1891.	January,	February,	March,	April,	May,	June,	Operations,	Estimated cost.
Two-story Dws,	101,217	518	643	54	524	2592		5,184,000.00

It is a table that can be used as a flat top from 2 ft. 6 in. to 4 ft. high. It is a table you do not have to lay on in order to reach the other side, but simply rock or slant the top, taking any thickness board. It has rule or straight edge that can be lifted off and replaced without the least change in lines. It can be set at any angle for perspective as in Machine Drawing. It has a positive movement. Its straight edge always moves parallel. It is not always out of order. It has no equal. It sells at \$35.00 and \$40.00 complete. It has extra boards at \$1.50 and \$2.00 each. It is just what you want and what you can have by sending your order to

**Architect Notes.**

Louis C. Hickman, architect, has taken a suite of rooms for professional purposes, in the Brown Bros. Building, Fourth and Chestnut Streets, where he will be pleased to meet clients and friends after July 5th.

James H. Windrim, architect, 132 South Third Street, has placed full plans on boards for estimate for erection of the office building, which he will erect at 1117 Walnut Street. The structure has been fully described in a former number of this journal.

Thomas P. Lonsdale, architect, Manhattan Life Building, Fourth and Walnut Streets, has made plans for a one-story mortuary or receiving dead house for the M. E. Hospital, Broad and Wolf Streets, and placed the same for estimates on boards of several contractors.

Furness Evans & Co., architects, 209 South Third Street, have been engaged to prepare plans for the Divinity school and parish house, for the Diocese, at Forty-seventh Street and Kingsessing Avenue. It will be of stone and brick, three or four stories high, and furnished with all modern conveniences on interior.

John C. Smith, architect, Kelker Building, Harrisburg, Pa., is preparing plans for a fine business block to be erected by the Olmes Estate, Altoona, Pa. The building will be four stories high, the first of which will be of Hummelstown brownstone, the remaining stories will be pressed dark buff brick with Indiana limestone trimmings. Bay windows of copper. The interior will be finished in wood, natural finish, steam heat, electric lighting and passenger elevators, lavatories and accommodations on each floor from basement upwards.

Messrs. Bailey & Truscott, architects, 138 South Fourth Street, have on boards plans for estimates on house of W. S. Blakeley, of Chester, Del. Co., Pa., and to be erected in that city. The structure will be of stone, three stories high, slate roof, electric bells, heat as yet undecided, hardwood finish on interior, and all modern conveniences. Also, estimates being made on a house for Edwin Osborne, at Rosemont, on main line of the P. R. R. Structure to be of frame, shingle roof, all to be finished in natural wood, with modern accommodations on interior.

Charles Balderston, architect, 316-320 Walnut Street, has just prepared plans for alteration of Dreer's Seed Store, 711 Chestnut Street, and will supervise the work when contract may be awarded. The front will be four stories high, buff brick, stone trimmings, copper bays, and will be quite ornamental in design. Mr. Balderston, it will be remembered, drew all the plans for the alteration of the Quaker City Bank building in the same square. The same architect has made plans for a large cottage to be erected at Atlantic City, N. J., for A. H. Phillips. It will be three stories high, frame, and all modern conveniences on interior.

John D. Allen, architect, 1017 Chestnut Street, having completed his plans for renovation and improvements at the Chestnut Street Theatre, has awarded the contract to A. Raymond Raff, 1327 Buttonwood Street, who will at once begin work. This will consist of new stairways running into the street, with a box office in centre of vestibule, which will be enlarged, fancy cut glass will be used in decoration of office doors and partitions, a new proscenium fire-proof wall will be erected between auditorium and stage, and many minor bits of decoration and upholstery will be done, all being artistic and strictly first-class work.

T. Roney Williamson, architect, 138 South Fourth Street, has completed all plans in detail for a block of stores and apartment houses at Grand Rapids, Mich. The first floor will be for stores and the remainder, two in number, fitted as apartments. Material will be brick with stone ornamentation, galvanized iron cornice, furnished with steam heat, electric work and all modern

conveniences. Also, drawings for a house for the West Chester Improvement Co., to be built at latter place, of stone and shingle work, three stories high, slate roof, interior to be in hardwood with best modern conveniences and will cost about \$6000. Also, a pair of twin houses for Griffith Bros., of West Chester, Pa., to be of press brick, slate roof, and best of modern conveniences on interior.

Miller & Smith, 219 Market Street, Harrisburg, Pa., report the following: Plans for fire engine house to be erected on South Cameron Street, Harrisburg, to be of brick, common press and ornamental, granite trimmings, stone foundation, galvanized iron cornice, plain, plate and stained glass, steam heat, yellow pine interior finish, iron beams, window guards, tin roofing, tile work, steel ceiling, stable fittings, washstand, water closet fixtures. The cost will be \$6000. It will be 25 x 117 feet and two stories high. Also, plans for an addition to the school building at Lykens, Dauphin Co., Pa. To be 40 x 80 feet, two stories high and to cost \$10,000. It will be of brick with stone foundation, and yellow pine interior finish, outside shutters, plain window glass, slate roof, school furniture, the kind not yet decided, and modern conveniences and improvements.

Lindley Johnson, Girard Building, Broad and Chestnut Streets, has prepared plans for the following: Frame colonial residence for Byron L. Smith, Chicago, Ill., overlooking the lake. Also, plans for a country residence for Senator William M. Stewart, of Washington, D. C., to cost \$18,000, stable and barn to cost \$8000. Also, plans for office building and three additional cottages for the Chevy Chase Land Co., of Washington, D. C. Also, for six frame and stone cottages for Francis G. Newlands, Esq., of Burlingame, California. Also, plans for a stable to be erected at Twenty-third and Filbert Streets, for the Quaker City Mortar Co., to accommodate one hundred horses. Also, plans for a Casino to be erected at Atlantic City, N. J., in connection with the Hotel Brighton, including a large tiled swimming pool and hot baths, bowling alley, shuffle boards, reading rooms, stage, concert hall and enclosed piazza.

John A. Duckworth, architect, 44 and 45 Coal Exchange Building, Scranton, Pa., has prepared plans for school building No. 25, that city. It will be Romanesque in style, with twelve class rooms, separate gymnasiums and a large assembly room, 64 x 64 ft. It is provided with the Fuller & Warren system of heating and dry closets. The tower, which is 90 feet high, will have a large clock, furnished by local residents. The cost will be \$35,000. Bids will be taken in a few days. Also, furnished plans for a brick and stone church for the Plymouth Congregation, main auditorium 64 x 64 feet, with rooms accommodating 400 opening into it. Cost \$20,000. Also, preparing plans for a residence for P. P. Smith, Esq., having large open tower and balconies, large hall and staircase, etc. Have finished plans for a stone residence for I. V. Megargle, containing several novel features, to cost \$16,000. Contract not yet awarded. Also, making large additions and rebuilding a block of three large brick residences opposite the city hall, property of J. W. Gamey, Jno. D. Kohl, contractor. Also, preparing plans for a hotel at Rindham, for D. A. Dougherty. Contract not awarded yet. Also, building the Presbyterian Church at Dunmore (a suburb), to contain several fine memorial windows, cost \$16,000, J. B. Woolsey & Co. contractors. Also, preparing plans for a brick four-room school building at the same place. Contract not awarded. Building the Public Hospital at Carbondale. Cost \$20,000, built of wood, heated with hot water, has three wards containing in all sixty beds, P. D. Manley contractor. Also, prepared plans for a brick morgue and ambulance stable in connection with the above. Contract not awarded yet. At the same place, building a four-story frame addition, 40 x 60 feet, to the Convent of St. Rose, for the Rt. Rev. T. F. Coffey, to contain refectory, large chapel, dormitories, etc., T. C. Robinson contractor. At

same place, building a three-story stone store building, with flats over, for Jno. Williams, Esq. G. H. Tyson contractor. Also, a three-story brick store building for Carl Seiveder, Esq., same contractor. Also, preparing sketches for a new city hall at same place.

Edward K. Mull, architect, 304 Schuylkill Avenue, Reading, Pa., has completed plans for the following buildings, to be erected in that city during the Summer: Five three-story brick residences, with brownstone trimmings, to be erected on Ninth Street, north of Robeson, for W. A. Griesemer. The dimensions of each building will be 18 x 58 feet. Ornamental slate roofs, hard wood finish, steam heat, etc. Also plans for six handsome three-story brick dwellings, to occupy a site on the south side of Buttonwood Street, west of Fifth, for the same owner. The buildings will have an aggregate frontage of 110 feet and a depth of 64 feet. Tin roofs, steam heat, electric work, etc. Also two three-story brick residences, with brownstone trimmings, 18 x 50 feet, to be erected on Moss Street, north of Elm, for Louis Battenfeld. Seven two-story brick dwellings, with slate cottage roofs, to be erected on the south side of Buttonwood Street, west of Fourth, for Jefferson Building Association, No. 4. Each building will have a frontage of 18 feet and a depth of 64 feet. All the latest improved modern conveniences will be introduced. Also plans for a first-class double mansion, to be erected on the northwest corner of Eleventh and Exeter Streets, for John C. Stocker, of the firm of Stocker & Roehrich, brewers. The building will be of brick and brownstone, 45x65 feet, two stories in height, with tile cottage roof. The edifice will be surrounded by ornamental verandas, and fitted up in a sumptuous manner with electric work, dumb waiters, stained and plate glass, hot water heat and special sanitary arrangements. Also plans for a handsome three-story brick and stone club house, to be built on the Southwest corner of Front and Hockley Streets for the "Nursery Literary Association." The building will be 28 x 60 feet, with metallic shingle roof. The interior throughout will be finished in quartered oak, and the whole fitted with all modern conveniences, such as steam heat, electric work, dumb waiters, elevator, wood mantels, art and plate glass, best of plumbing etc. Adjoining the club house on Hockley Street will be a triangular piece of ground, which will be enclosed with an ornamental iron fence, sodded and beautified with shade trees, shrubbery, statues, fountains, etc. Mr. Mull has also prepared plans for a stone and brick church to be erected at Orwig-burg, Schuylkill Co., Pa., for St. Paul's Lutheran congregation. The edifice will be 65 x 110 feet, with brownstone and galvanized iron trimmings. The tower will be 150 feet in height from pave to top of finial. The main audience room will have a seating capacity of 600. The interior will be finished in oak and ash and will contain, beside the audience room, a Sunday school room, and infant's room, pastor's room, guild room and library. The various apartments will be separated by glass partitions. The cost of the building will be about \$25,000 exclusive of the furnishing of the interior. Berry W. Fegley is Chairman of the Building Committee.

**Building and Real Estate Notes.**

The Art Club, on Broad Street, will make a number of improvements during the Summer, including new ranges for the kitchen, etc.

Dr. Jerman has purchased the property of William Carbey, on Main Street, Holmesburg, and will erect a double dwelling house thereon.

J. E. and A. L. Pennock, contractors, 305 Walnut Street, have been given the contract to erect the Odd Fellows' Temple, at Broad and Cherry Streets, for which Hazelhurst and Huckel, architects, drew the plans and will have supervision of the work.

CLYMER PAVING COMPANY

Removed to

2136 and 2138 Germantown Ave., Philad'a.

Station Agent Porter has sold his property on Longshore Street, Tacony, and will erect a new residence on his Washington Street lot next Spring.

T. D. Warrington, carpenter and builder, 1630 South Street, and 237 South Twelfth Street, has secured the contract for the erection of a new boiler house for the Philadelphia Watch Case Co., at Riverside, N. J.

Allen B. Rorke, contractor and builder, Drexel Building, has taken permit to start work upon the new Times Annex Building on Sansom, above Eighth Street. The structure will be only five stories high, and has been fully described in a previous number of this journal.

Dillon and Hudson, 1341 Cuthbert Street, have received a contract to erect for the United States Government, at Lewes, Del., a launchway, which is to cost about \$10,000. Also, a contract to make alterations and additions to 1119-21 Green Street. This building will be used as a sub-Post Office.

W. R. Dougherty, contractor, 1604 Sansom Street, has been awarded a contract to erect a four-story brick and stone hospital and home at St. Vincent's Home, west side of Woodland Avenue and Seventieth Street. The area covered by main building will be 80 x 120 feet, and by wing, 48 x 56 feet. All modern conveniences will be embodied in the construction of the work.

The Blasius Piano Company, of this city, has purchased the Hope Manufacturing Company building in Woodbury, New Jersey; and is to convert it into a factory and warehouse. The company, it is stated, also proposes to erect a number of dwelling houses in the vicinity, the plans for which were prepared some time ago and fully noted in this journal. The drawings were made by the designer of the Blasius Company.

It is understood to be the intention of the Divinity School of the Protestant Episcopal Church of this diocese to erect a Divinity School at Forty-seventh Street and Kingsessing Avenue, and ultimately place the Rev. Dr. Battin in charge of the parish and collegiate department. This will be done upon the recommendation of the trustees. The matter is now being considered by Bishop Whitaker and the officers in charge.

The Philadelphia Bourse has just completed title to all the property needed for the erection of the proposed mammoth business mart, and the amount expended to date is about \$66,000, July 1st being fixed upon some time since for the opening of the competitive plans for architects. In connection with the possession of the ground and buildings as they now stand, it is understood that sixty day leases are being granted stall renters in the old market until such time as that space may be needed.

John M. Sharp, builder, 1936 South College Avenue, has taken title to the property on north-west corner of Twelfth and Arch Streets from William Weightman, former owner, and is holding under consideration plans which have been prepared for a hotel of considerable dimensions. If the work should be decided on a very handsome and commodious structure may be anticipated, but at present matters have not assumed tangible shape.

W. J. McCahn & Co., sugar refiners, of 145 South Front Street, have received a permit to begin the superstructure of their new refinery on the north side of Morris Street, west of Delaware Avenue. The buildings will be two in number, and built of brick, stone and iron principally, cement and stone floors, general machinery, electric work, furnaces and general paraphernalia for the business will be placed. Work has been started.

A. M. Greene, contractor and builder, 331 West Cheltenham Avenue, Germantown, has prepared plans and contracted for the construction of an armory for Keystone Battery A., N. G. P., at

Forty-first Street and Mantua Avenue. The structure will be of brownstone and buff brick, and have two towers at corner, forty feet high, tops to be of stone castellated work. The gun room and reception parlors will be upon the first floor, and drill room and offices as well as committee rooms, on the second. Work will be started at once.

A complimentary trip to Allentown, Pa., with the special object of a visit to the Coplay Cement Co.'s Works in view, was given a number of architects, master builders and representatives of the press of Philadelphia on the 28th instant, and after a luncheon an inspection of the works was made, which proved highly satisfactory to those interested in that important branch of building material and in the development of its manufacture. Among those present were: Charles Warner, W. H. Albertson, George Roydhouse, Ralph Peverly, Frank R. Watson, Hazellhurst & Huckel, Lindley Johnson, E. T. Warner, John Atkinson, Frank Harris, Jr., John Stahr, George Roberts, S. R. Kirkpatrick, William Morgan and H. D. Davit.

Quite a conference took place in Mayor Stuart's office, in the City Hall, on the 29th inst., between Fred. B. Esler, Mr. Belmont, the well-known banker of New York, and His Honor, Mayor Stuart, relative to the conditions imposed by ordinance upon the construction of the Northeastern Elevated Railway; also, as to the prospects of future advantages to be derived if the required amount of money to build the road be raised. The inference drawn from conditions at present is that some definite and favorable action is at hand in regard to the completion of the road and its tributaries, and that almost an unlimited amount of money may be had, if proper security can be given and success financially assured in the way of revenue from traffic.

It was stated June 30th that the Pennsylvania Railroad Company would not make any additions to Broad Street Station this summer and probably not during this year. The removal of the block of buildings from Market to Fifteenth Street and Market Street north to the southern walls of the Broad Street Station, has given rise to the impression that the station would at once be enlarged; but Chief Engineer Brown, of the Pennsylvania Railroad, says that the work will not begin until the officials of the company can agree upon one of the many plans presented for their approval. Mr. Brown adds that the enlarging of the station is not as important as the problem of more track room. It is probable that provision for laying more tracks will be made before the work of enlarging the station begins. The increase in local travel on the Pennsylvania Railroad has been so heavy that sixteen tracks are needed at Broad Street. There are twelve at the Pennsylvania Jersey City Depot, and the Reading will have thirteen at its new Terminal Station.

In the matter of the construction of the Pennsylvania Railroad branch of Y. M. C. A. building at Forty-first and Westminster Avenue in West Philadelphia, we find that the Building Committee is prepared to receive estimates for such material as will be used in the work; after which proposals for the labor will be considered. These are being received by W. N. Multer, Secretary. The Building Committee is composed of the following names: J. S. Stackhouse, Ticket Receiver, P. R. R.; Chas. E. Pugh, General Manager, P. R. R.; W. J. Latta, General Agent, P. R. R.; Jos. T. Richards, Assistant Chief Engineer, P. R. R.; W. D. Garrett, Master Mechanic, P. R. R.; A. Feldpauch, Architect, P. R. R.; S. G. Grone, Station Master, P. R. R.; S. H. Wallace, Ticket Agent, Broad Street; W. A. Patton, General Assistant to the President; W. H. George, Operator; S. H. Wallace, Ticket Agent; A. McMinn, Locomotive Engineer; E. W. Killey, Locomotive Engineer; R. F. Buffington, Superintendent Spring Garden Round House; W. B. Wilson, Freight Agent, Kensington; S. J. Barclay, Superintendent Mantua Transfer; and the Architect is Thomas P. Lonsdale, Manhattan Life

Building, Phila. A full description of the building has been given in this journal.

The master builders of this city held a stated conference meeting at the rooms of the Exchange on the 28th inst. President Murrell Dobbins was in the chair, and William Harkness acted as secretary. The subject under discussion was the relative merits of direct contracting with the architect or owner, or the policy of sub-contractors making their contracts with the owner or architect instead of with the general contractor. A large number of prominent builders and sub-contractors expressed their individual views on the subject. The consensus of opinion was in favor of the sub-contractors making their contracts with the general contractor. The strongest argument made in favor of the sub-contractors making all contracts with the general contractor was advanced by Stacy Reeves, who said that a builder must of necessity know more than either the architect or owner. Several of the sub-contractors expressed a fear that they were in danger of losing their personality as builders if they became merely bidders under the general contractor. General Contractor George Watson said he had no objections to any trades representative becoming a general contractor, whether he be a painter, plumber, carpenter, or bricklayer, provided he possessed the ability and capital to push the enterprise through. The other speakers were James Johnson, Franklin M. Harris, Charles Onderdonk, F. F. Black and Samuel Hart.

### Through Pennsylvania.

*When any of the following are not post office towns they will be so designated.*

—At Ashland, Schuylkill Co., William Horne will erect a three-story frame dwelling.

—The School Board of North Union township, Fayette Co., will erect two brick school houses.

—At Swarthmore, Delaware Co., \$8,500 has been subscribed for the erection of a girls' gymnasium.

—The School Directors of Redstone township, Fayette Co., will erect two new school houses this Summer.

—At Braddock, Allegheny Co., it has been voted to increase the city debt \$100,000 for street improvements.

—At West Newton, Westmoreland Co., an electric light plant will be constructed by W. H. Saam, of Irwin.

—Dunbar Township, Fayette Co., will erect two or three more school houses during this summer and autumn.

—At Lebanon, Lebanon Co., a new school house will be erected. Mr. Funck is chairman of the Building Committee.

—At Bellefonte, Centre Co., a new railroad will be constructed by the Reading Railroad Co. to run from Bellefonte to White Deer.

—At Braddock, Allegheny Co., the Borough has voted to increase its debt \$100,000 for street improvements and a system of fire protection.

—At Carlisle, Cumberland Co., John D. Meek will erect a dwelling.—Mrs. Margaret J. Swales and Newton Swales will erect dwellings.

—At Ardmore, Montgomery Co., the "Chestnutwald" tract, which is owned by Mr. John E. Shaw, of Philadelphia, will be improved, and the avenue laid out will be macadamized.

—At Point Marion, Fayette Co., Pittsburgh and Uniontown capitalists will erect a glass factory. The Baltimore & Ohio and the Pennsylvania Railroads will both be extended to the town.

—At Mahanoy City, Northumberland Co., William D. Hill, of Pottsville, has prepared plans for St. Joseph's Roman Catholic Church. Joseph M. Miller, of Mahanoy City, can give information.

## These Ranges and Heaters

Represent the highest possible type of mechanical and scientific construction. For reliability and durability they are positively without a superior, they truly represent the minimum of cost and the maximum of quality.

The small size of the **PROMPT RANGE** is just the thing for Builders of small Houses. It is compact in form and possesses all the advantages and requisites of the larger size. Builders, Owners and Agents having charge of properties should inspect these Ranges and Heaters before ordering.

For sale by all Dealers. They can be seen at the Company's Ware-rooms.

123 N. 2d St., Philadelphia.

## PHILADELPHIA BOURSE.

AUTHORIZED CAPITAL, \$1,000,000.

The subscription books are now open for the remaining \$200,000 of unsubscribed capital, and the privilege of becoming stockholders and members is offered to all men doing business in or with Philadelphia.

Shares are \$50 each. The minimum subscription received is for four shares.

Subscribers to four shares or more will be entitled to all the rights and privileges of membership. There will be no annual dues or assessments.

The offices in the Bourse will be very desirable and are already in demand. The capital invested in this building will pay large returns, and it is expected that stockholders will not only receive great business advantages, but a fair interest on their investment.

SUBSCRIPTION BOOKS ARE OPEN AT THE EXECUTIVE OFFICES.

—At Zionsville, Lehigh Co., a new school house will be erected.

—At Reading, Berks Co., A. J. Fink will erect two two-story brick dwellings.—G. F. Baer will erect a two-story brick dwelling.—D. E. DeHart will erect four two-story brick dwellings on Eleventh Street.

—At Coatsville, Chester Co., it is stated that a number of Philadelphia capitalists are negotiating with W. H. Kurtz & Sons for the Valley Iron Works for the purpose of establishing a tin plate manufactory.

—At Barnsley, Chester Co., the East Nottingham township citizens have a movement on foot for the erection of a hall in connection with the new school building. Walter Reynolds can give further particulars.

—At West Conshohocken, Montgomery Co., Gult Lodge, No. 525, I. O. O. F., has purchased a building lot 120 x 126 feet on Matson Ford road and Josephine Avenue, and will erect a building thereon to cost about \$1900.

—At Ambler, Montgomery Co., plans have been accepted for the new Baptist church, and the contract will be awarded in a short time. The structure will be handsomely finished, and will accommodate about four hundred. The estimated cost is \$10,000. Rev. Thomas G. Denchfield is the pastor.

—At Elwyn, Delaware Co., a new building, to be known as the Workshop, will be erected at the Williamson Free Manual Training School. It will be of brick, three stories high, 107 x 42 feet. The upper floor will be fitted up as a gymnasium. Councilman Frank I. Taylor, of Media, Pa., has been awarded the contract.

—At Norristown, Montgomery Co., Guest, Grater & Co. have been awarded the carpenter work for the new building to be erected by the Norristown Woolen Co. on Main Street. The new building will be four stories high and 66 x 100 feet. The estimated cost is \$15,000, including the engine and boiler house.

—At Downingtown, Chester Co., plans have been received for the new building which is to be erected on the site of the Masonic hall recently destroyed by fire. The new structure will be of brick and stone, handsomely finished on the interior, and fitted with modern conveniences and improvements. The lower floor will be used for business purposes and the upper floors for lodge purposes. H. B. Sides, of Downingtown, can give information.

—At Chester, Delaware Co., the Building Committee has recommended that B. D. Ayars be awarded the contract for the erection of the proposed new hospital, for which P. A. Welsh, of Philadelphia, drew the plans. Ayars & Son's bid was \$21,885.38. The Building Committee consists of Col. S. A. Dyer, C. B. Houston, Mrs. S. B. Fliteratt, Miss Mary Shaw, Mrs. Joseph Deering, Mrs. J. Frank Black and Mrs. Joseph R. T. Cotes. The work will be under the supervision of the above committee, with power to award sub-contracts.

—At Pittsburgh, plans have been prepared by J. E. Oult, 5-7 E. Avenue, for a brick hotel, to be erected at Kensington, at a cost of \$9000. F. J. Kost is the owner. The same architect has prepared plans for two frame dwellings for S. I. and G. W. Beggs to cost about \$7000.—James T. Steen, Sixth Avenue, has prepared the plans for Kaufmann's annex, on Fifth Avenue, which will cost about \$100,000. Also plans for brick residence for Joseph Brown, to cost \$14,000, also brick dwelling for L. H. Voight, to cost \$10,000, also for stone residence for J. H. Gailey, to cost \$30,000; also for fifteen brick dwellings for D. P. Reighard.—Plans have been prepared by F. C. Sauer, Liberty Avenue, for St. Francis R. C. Church and parish house at Homestead, Pa.

### Through New Jersey.

At Woodstown, Salem Co., it has been decided to construct a water works. Bids will be asked for.

At Bergen, Hudson Co., Igou & Dunn have been given the contract to erect an addition to the school house.

At Collingswood, Camden Co., A. K. H. Dougherty has received the contract for the erection of the Methodist parsonage.

At Rahway, Union Co., the Second Methodist Church will erect a new edifice to cost \$18,000. It will be on Main Street.

At Westfield, Union Co., it was decided by vote last week to bond the town for \$49,000 for the purpose of erecting water works.

At Plainfield, Union Co., the Board of Freeholders has decided to erect an iron bridge at South Plainfield. The estimated cost is \$1300.

At Wilburtha, Mercer Co., Common Council has passed a resolution to bond the town for \$10,000 for the purpose of erecting a public hall.

At Berkeley Heights, Union Co., A. J. Cammeyer will erect a handsome summer residence. Mr. S. Sales is also having plans drawn for a new house.

At Tenafly, Bergen Co., a new town hall will be erected at a cost of about \$16,000. J. Hall Browning, president of the Northern Railroad Co., can give information.

At Orange, Essex Co., a site has been purchased by the Riding Club, upon which it is proposed to erect a club house. Also, to construct a riding ring. The location is on Halstead Street.

At Jersey City the trustees of the German Evangelical Lutheran Church, of Fifth Street, have been authorized to procure estimates for a new church edifice. A large amount of iron will be used in the construction. The cost including furniture and a large organ will be about \$30,000. The estimates will be received until September.

A large tract of land has been purchased between Westfield and Crawford, in Union Co., and a number of industrial plants will be erected. One of them will be the Boston Car Wheel Co., of which Major J. C. Paul, of East Fifth Street, Plainfield, N. J., is the President. An electric railway will also be constructed. To accommodate the new workmen to be employed in the different plants to be erected, a new Roman Catholic church will be erected at Westfield. A number of stores and dwellings will be erected for employees also.

At Camden, at a recent meeting of the Property Committee of Council, it was decided to have Benson Street, between Seventh Street and Haddon Avenue, paved with Belgian blocks. It was recommended by the committee that Washington Street, between Seventh Street and Haddon Avenue, be paved also.—The Pennsylvania Railroad Co. has purchased the Third Street Methodist Episcopal Church for the sum of \$65,000. The trustees have bought a site at Sixth and Stevens Streets, upon which a new and handsome church edifice will be erected.

### Through Maryland.

At Elkton, Cecil Co., it is probable that an electric plant will be erected. A number of prominent citizens have visited Media, Pa., to inspect the plant at that place.

At Baltimore, G. H. White & Co., have sold to John Kuper, one hundred and seventy-six feet of land belonging to the Hoffman estate, situated on Linden Avenue, north of North Avenue. Mr.

Kuper will erect eleven dwellings thereon, which will be finished throughout in hard wood with fine mantels and will contain all modern improvements.

—The most important building permits issued to date are as follows: to B. F. McVey, to erect eleven three-story brick dwellings; to the Board of Police Commissioners to erect an additional story to the station house at Calhoun and Pratt Streets; to J. Saum, to erect seventeen two-story brick dwellings; to T. F. Locke, to erect thirteen two-story brick dwellings; to Fleishman & Co., to erect a two-story brick building; to the Hebrew Orphan Asylum, to erect a frame and glass hot house.

### Through Delaware.

At Port Penn, New Castle Co., Senator Cameron has introduced a bill in Congress to establish a range light northward of Reedy Island, near Port Penn Wharf, on the Delaware river. An appropriation of \$10,000 is asked for the purchase of the site and the erection of a suitable building.

At Wilmington, Lewis T. Grubb & Son have taken out a permit for the erection of seven two-story dwellings on Rath Street, near Front Street. They will be of brick.—The Friends' School building at Fourth and West Street, will be improved at a cost of about \$1500. John B. Johnson is the contractor.—A church parlor and Sunday school room will be added to the Unitarian Church. It will be one-story high and 39 x 36 feet. The outer walls will be of slate. William Austin is the contractor.—At a recent meeting of the School Board, the motion was laid over to buy a lot on Walnut Street, above Eleventh, from Heald & Co., for \$3,487.50. The matter will be considered at the next meeting. Frank R. Carswell will prepare the plans for the new building to be erected on Sixth Street near King. It will contain rooms for the accommodation of the Board of Education, the City Tax Collectors and the City Solicitor.—A charter has been applied for under the name of the Wilmington Hard Wood & Stone Imitation Company with a capital of \$40,000. The officers of the company will be Bernard Beste, president; Daniel Beckin, vice-president; Joseph Beste treasurer, and Dr. H. Hoegelsberger, secretary and manager.—The plans of E. Rowley have been approved by the congregation of Epworth M. E. Church. The structure will be erected at Tenth and Lombard Streets.—Extensive improvements will be made to Grace M. E. Church, including electric lights, steam heat, new carpet, etc. The cost will be about \$8000. William M. Field, President of the Board of Trustees, can give information. Rev. John Y. Dobbins is the pastor.

### Washington, D. C.

Plans have been prepared by Victor Mindelef for a handsome dwelling to be erected at 1630 Nineteenth Street. It will be of brick and stone, with loggia copper cornice, tile roof, interior finish of white pine, electric lights, tiled bathroom, hard wood floors, modern improvements. The cost will be \$17,000.—Littlefield & Alvord will erect a large brick stable and storage warehouse at Twenty sixth and D Streets, to cost about \$10,000. Accommodations will be provided for about one hundred and fifty horses. The latest stable furniture and sanitary plumbing will be introduced, also an elevator.—Plans are being prepared by A. P. Clark, Jr. for an operating amphitheatre to be erected in the rear of the Administration Building of the Freedman's Hospital. It will be of brick and Hummelstown brownstone, tin roof, steam heat sanitary plumbing, etc.—The trustees of the Bayne estate will erect a large building on Pennsylvania Avenue, east. It will be under the supervision of Owen Donnelly, who will make all the sub contracts.—General D. W. Flagg-r has given the contract to John Lane for the erection of a handsome residence.

## A Few Quiet Words with House Builders and Owners.

If the kitchen of your house is small, you need to economize room. You can do this by using a range with elevated boiler, such as the

### "FIDELITY."

It will reduce the cost of plumbing also. We make them with seven inch or eight inch boiler holes, ovens on right or left of fire, with or without hot closets, and also to heat an upper room. Splendid bakers. Hot water in abundance. The latest and best of their class.

FIDELITY HOT AIR RANGE WITH HORIZONTAL BOILER.

Excelsior Double Oven Range.

If the kitchen is roomy and large, cooking capacity is sought. You will want a brick-set range with a vertical circulating boiler, set in the usual way. The

### "EXCELSIOR RANGES"

are acknowledged all over Philadelphia, in which city and vicinity some 75,000 have been sold as the standard brick-set range. They are furnished with ventilated ovens, oven-door pedals, rocking grates, and all modern improvements. Made in seven and eight inch sizes; single, double and hot-air ranges. Send for descriptive pamphlet, entitled "PERFECT COOKING."

MANUFACTURED BY

### JUDGMENTS.

#### PHILADELPHIA.

##### ABBREVIATIONS.

Where there are no figures to indicate the amount of the judgment, the damages have not been assessed.

The name first mentioned in each line is that of the judgment debtor.

A star (\*) denotes judgment confessed or bond and warrant conditioned.

The figures 1, 2, 3 and 4 immediately after the name of the plaintiff indicate the number of the Court. The term of the Court is indicated as follows: D, for December Term; M, for March Term; J, for June Term and S for September Term.

# A BUILDING ITEM WITH A DOUBLE MEANING.

In these days of magnificent business projects, involving the investment of millions of dollars, with the confidence and complacency that the investment of a few shillings would represent many years ago, it is something of more than ordinary interest that merits a passing notice. To build through a whim, caprice or as a monetary venture is one thing, but to build and to extend to the amount of hundreds of thousands of dollars through the relentless demands of necessity is quite another; for, while the first proposition represents an investment, it fails in expressing that true sentiment of progress which embrace business reasons based upon those cardinal elements of strength which vitally enter into the thrift and energy of the nation itself. As no man foolishly enlarges his manufacturing plant without a just reason, neither is the justness of the reason wisely founded unless based upon the merit of the product manufactured and its popularity with consumers. The F. A. Poth Brewing Co.'s magnificent plant now covering about three acres, is to be enlarged, as has been reported already in the columns of this journal as a building item; this mere statement justly brings out prominently before the public the reason for the extension of their magnificent works to more than three times their present capacity.

The following advertisement, clipped from the columns of *The Philadelphia Record*, so thoroughly embraces the true reasons, that it is presented here.

## TIVOLI EXPORT.

As an invigorating tonic, this beer is without a peer. Its reputation as a healthful beverage has been so thoroughly established, that it is now conceded to be the American Beer, par excellence.

It contains no deleterious substances, being brewed from the highest grades of Malt, Hops and Rice, and contains none of the many injurious corn products which form the body of so many American beers.

It is endorsed by the medical profession as a gentle stimulant for the weak and aged, and it really commands the first place among families for home use.

The F. A. Poth Company, owing to the increasing demand, will soon be compelled to enlarge its plant, for notwithstanding the unparalleled increase in its product from 20,000 barrels in 1882 to 120,000 barrels this year, with an increase already this year of 15,000 barrels, it can readily be seen that the future demand will necessitate vigorous efforts to meet it.

Its standard for quality, purity and excellence is not only the highest, but it is maintained from year to year without the slightest deviation, its maturity or ripening process being carefully observed. Positively no beer is marketed until it is in the best possible condition for immediate use, and this is guaranteed.

When it is understood that each individual brewing of this popular beer is under the personal supervision of Mr. F. A. Poth, Jr., it can be better appreciated that, inasmuch as no single subordinate in the employ of the Company has any direct control whatever in the manufacturing, it is possible for the Company to substantiate its claim by the excellence and purity of its product.

Of course the general direction and supervision of the Company's business affairs, as well as the manufacturing, is under the direction of Mr. F. A. Poth, Sr., President, who for a quarter of a century has devoted his whole time and attention to the brewing industry, and who was the originator of the Tivoli Export Beer, as well as the Company's immense plant.

In short, the success of the Company's business affairs, as well as the great popularity of **TIVOLI EXPORT BEER**, is solely due to the determination of the President, at the inception of the business, to produce the best **BEER** in the world, and he has succeeded in doing so.

F. A. POTH BREWING CO.,

31st and Jefferson Streets,

PHILADELPHIA.

To the readers of the **REAL ESTATE RECORD**, the following statement will no doubt be of great interest: The new plant of the F. A. Poth Brewing Company to be erected under the supervision of architect Otto C. Wolf of this city, will represent a capacity equal to three times that of the present plant. In other words, whereas, at the present time, the output of the brewery amounts to 3600 barrels weekly, with the increased facilities the Company's product can be made to equal 11,200 barrels weekly, or 582,400 barrels per year. When completed the enlarged plant will consist of an addition of a brew-house, containing two new kettles of 300 barrels capacity each, and all the latest and most improved machinery. The building will be 46 x 55 feet, four stories high. Also, a machine shop, in which two new boilers will be placed, making a total of 750 horse-power for the plant and in which ice will be manufactured, the refrigerating machinery being equal to the production of three hundred tons of ice per day; also, a malt storage house, with a storage capacity of 100,000 bushels, and with bins 14 feet square and 40 feet high; also, a mill house, which will be fitted with general mill machinery for preparing the grain for brewing purposes. These improvements are all opposite the present plant and as soon as erected, the old plant will be altered into a cold storage warehouse for the output of the new brewery. The two will then be connected by an iron bridge spanning Jefferson Street at about the height of thirty-five feet from the pavement. And when completed the F. A. Poth Co.'s brewery will have the greatest capacity of any brewery in the State of Pennsylvania. The office building containing the counting room and private offices of the concern, is one of the handsomest buildings of the kind to be found in any city; it was erected two years ago at a cost of \$25,000, and is a distinctive feature of the business, being separate from the other buildings.

ESTABLISHED 1844.

**PEERLESS COLORS,****For Mortar are the Best, Cheapest and most Durable**

colors manufactured for mortar. They have stood the test of time and never fail where properly used. Architects should specify FRENCH'S PEERLESS COLORS FOR MORTAR, and thus secure a permanent article that will harden mortar and not wash out and deface the wall.

MANUFACTURED ONLY BY

**SAMUEL H. FRENCH & CO.,**

York Avenue and Callowhill Street, Philadelphia.

# The Acme Mortar Manufacturing Co.

(INCORPORATED.)

This company manufactures all kinds and grades of BUILDING PLASTERING and COLORED MORTARS, through the aid of new and improved machinery, at a cost which is trivial when compared with that of hand labor. The machinery is of a special character and controlled by patents. The mortar it produces, according to scientific as well as practical authority, is FAR SUPERIOR to that made by hand. The advantages of machine-made mortar are such as to command for it ready sales.

1. Superior quality.—2. Made on scientific principles.—3. Uniformity.—4. Thoroughly mixed and blended.—5. Cheapness.—6. Delivered as required, and in using form at any stage of the thermometer.—7. The absence from building fronts of piles of sand, mixing rings, slaking tubs, barrels of lime—all the impedimenta, in short, used to make mortar by the methods now in vogue.

## THE ACME MORTAR MANUFACTURING COMPANY

having located the first plant in this city, will deliver a more thoroughly mixed mortar than is possible by hand, one that will not "pop" or "blister," and of such quality that will induce all architects to recommend it, the owner to demand it, and the builder, after once trying it, will forever discard the annoyance and use of "hand-made" mortar.

The Company with its extended capital, can run four sets of machines, and yet, with but two in operation, it can furnish sufficient mortar to undersell competition and yet earn for the company a clear profit of TWENTY PER CENT.

EIGHT PER CENT. GUARANTEED.

The Acme Mortar Manufacturing Company is a corporation whose capital stock is \$200,000; par value of shares, \$10 per share. The Company offers a limited number of shares of its stock for sale at par.

In order to demonstrate to possible investors that the Company will fulfill all promises made, it may be announced that arrangements have been made with one of the leading Trust and Safe Deposit Companies of Philadelphia, by which it will act as register of stock, and will guarantee a dividend on each certificate of treasury stock issued, of 8 per cent. for the first year, payable semi-annually.

The guaranty of the Trust and Safe Deposit Company will be stamped on each certificate of stock sold.

# THE PHILADELPHIA Real Estate Record AND BUILDERS' GUIDE.

DEVOTED TO REAL ESTATE, BUILDING, ARCHITECTURAL AND INSURANCE INTERESTS.

[ ENTERED AT THE PHILADELPHIA POST OFFICE AS SECOND CLASS MATTER. ]

VOL. VII.—No. 28.

PHILADELPHIA, WEDNESDAY, JULY 13, 1892.

PRICE 15 CENTS

We present to our readers a cut of the new front addition to the Philadelphia College of Pharmacy, which is now being erected on Tenth Street above Cherry. This institution was established in 1821, and the first lectures given in the old German Society Buildings, now the Master Builders' Exchange, on Seventh Street above Chestnut. At a later date the trustees erected what they supposed to be a commodious building on the south side of Filbert Street above Seventh, and about the year 1868, finding the building too small, they built the lecture hall on the present site, but for economy sake allowed the residences to remain on the Tenth Street front. They were compelled however soon afterwards to increase the facilities by the erection of a large four-story building running back to Elvin Street.

The institution has been ably managed by a Board of Trustees, who recently decided to erect the new addition, of which we give an illustration, and for the first time in the history of the college to make a show to the world of the size and importance of the institution, which does great credit to our city. The Philadelphia College of Pharmacy is not only the largest and oldest institution of Pharmaceutical learning in the United States, but upon the completion of the new building, will be the largest in the world, educating between 600 and 700 students annually.

The new building will be six stories high and constructed in the most substantial manner. The first story and trimmings are composed of Seneca Red Stone while the upper stories are of Pompeian Brick, made of a particular shade especially for this building. The first floor will be occupied as a library and actuary's office the second and third floors will contain a museum 65 feet x 50 feet x 34 feet high, while the fourth floor will be occupied

The Lecture Halls and Laboratories have been remodeled and the former furnished with opera chairs arranged in amphitheatre form, and every modern convenience and facility has been added for the convenience of both the male and female students.

The building will be lighted with electricity and heated by steam and ventilated by the fan system, so that the air in the lecture halls can be changed every twenty minutes. An elevator will be placed in the hall-way with every precaution taken for safety.

The hall-way will have its floor and side walls tiled and the appointments of the college throughout, will be thoroughly first class and in keeping with its exterior finish. Director James H. Windrim was originally the architect, but the plans have been completed by his son, John T. Windrim, and the contractor is Allen B. Rorke.

The entire work is in the hands of a committee composed of Howard B. French, Chairman, Prof. Joseph P. Remington, Prof. S. P. Sadtler, James T. Shinn and Charles Bullock.

The improvements will cost the College about \$80,000. The membership of the College who annually contribute towards its support, embrace many of the most prominent Pharmacists in the United States, and the institution deserves the support

of all liberal citizens. The branches taught are Pharmacy, Chemistry, Materia Medica (Botany), Microscopy, Analytical Chemistry and Practical Pharmacy.

by the American Journal of Pharmacy, Editorial Rooms, Alumni Rooms and Janitor's Quarters. The fifth and sixth floors will be used for the general purposes of the college.

**JOHN F. BRISBANE, City Editor.**

PHILADELPHIA, WED'Y, JULY 13, 1892.

We are under obligations to Wm. H. Felton, clerk, Committees on Highways and Surveys, for manual of Councils for 1892-93. A most useful and valuable book for reference.

We are in receipt from the Dixon Crucible Co., of Jersey City, N. J., of a package of Dixon's American graphite pencils, which can be recommended for both use and beauty.

The Equitable Trust Company has just declared a second dividend of one dollar per share (4 per cent. per annum), payable on August 1, 1892, to stockholders as they appear of record on the books of the company on July 9, 1892.

With commendable energy, owing to increase in business, the Jarden Brick Co., of Philadelphia, is now having constructed a brick machine which will rival the world in the manufacture of that article in the matter of speed, efficiency and the general quality of the output in tensile strength. This new piece of machinery will be operated under a pressure of six hundred tons to the square inch, and will produce a correspondingly compact and neat brick, besides the superiority in other directions.

Every year it becomes more apparent that the average American must forego business for a short time at least, and find, somewhere or other, a spot best adapted for recuperation, and that it is not to be had at the crowded fashionable resorts goes without saying. Among the many places that appeal to those in search of rest, combined with rational enjoyment, there is none possessing more solid and substantial advantages than Stone Harbor, the "gem spot" of Seven Mile Beach, and conveniently situated midway between Atlantic City and Cape May, and reached in less than two hours from Philadelphia on the West Jersey Railroad. There may be found excellent hotel accommodations at the new Abbotsford Inn, together with a delightful climate, fine bathing and boating and an abundance of good fishing and gunning. A large num-

ber of lots have been sold to private parties, but quite a number yet remain to be disposed of. These are available for cottages or club houses, and, considering the many advantages of situation and facilities, are very moderate in price. Certain building restrictions have been imposed upon purchasers in order to eliminate any objectionable features that might otherwise creep in, and to insure at all times pleasant and agreeable surroundings. The Real Estate Title Insurance and Trust Company, of Philadelphia, guarantees the titles to these lots, and the fullest information, as well as photographs, will be cheerfully furnished by the selling agent, Mr. Thomas R. Fox, of the firm of Daniel M. Fox & Sons, conveyancers and real estate brokers, Room 40, Bullitt Building, Philadelphia.

**Architect Notes.**

Samuel Milligan, architect, 708 Chestnut Street, has made plans for a new hall building to be erected at Downingtown, Pa. It will be three stories high, built of brick and stone and latest improvements on interior.

G. W. and W. D. Hewitt, architects, Bullitt Building, Philadelphia, have prepared plans for considerable interior alterations to the Hotel Stratford, Broad and Walnut Streets, and work will be started at an early day.

J. F. Stuckert, architect, 524 Walnut Street, has made plans for a factory at Thirteenth and Wood Streets. It will be of brick and stone trimmings and will be utilized for the manufacture of children's hats and caps. It will be fitted with modern improvements.

Will H. Decker, architect, Hale Building, has made plans for an alteration and addition to restaurant and cafe of Boothby and Kugler, at 1233 Chestnut Street. These consist of lavatories, toilet rooms and some minor work. Estimates are now being made by city contractors.

It is understood that the physical laboratory for the Lehigh University, at South Bethlehem, Pa., will be estimated upon and built from plans prepared some time ago by Addison Hutton, architect, 400 Chestnut Street, Philadelphia. These have been fully described in previous numbers of this journal.

Isaac Pursell, architect, 119 South Fourth Street, has prepared plans for erection of a new church for the First Moravian Congregation at Seventeenth and Spring Garden Streets. The former place of worship was at Franklin and Wood Streets. The structure will be one story, stone, slate roof, and fitted in the most approved manner on interior.

William H. Free, architect, 27 North Juniper Street, has made plans for a stone dwelling for J. M. Geckeler, at "Fairview Grove," Clifton Heights to be three-stories high, slate roof, first floor in hard-wood and all modern improvements introduced. Also, plans for a dwelling, for Homer C. Stewart, at Lansdowne, Pa., to be of stone, three stories high, surrounded by a large porch, slate roof, and interior to have all modern improvements. Also, plans for a brick and frame house, for Frank Strickland, at Morton, Pa.; the latter is under construction.

Day & Coates, architects, Drexel Building, have made plans for two houses to be erected at Forty-fifth and Spruce Streets. To be three stories high, of Port Deposit stone, and finished on interior in finest of hardwoods, halls and dining room in quartered oak, china gloss work in parlor and sitting room. These will be a fine class of houses, having electric work, tile work and all modern conveniences. Also, plans for small alteration for J. W. Leamy, at Forty-first and Haverford Avenue, being a three-story back building, with all modern conveniences.

James H. Windrim, architect, 132 South Third Street, has prepared elaborate plans for alteration and additions to the "Hotel Bellevue," at Broad and Walnut Streets. These consist of raising the structure to seven stories above ground, and much internal improvement. The roof will be of slate, and tin work for gulleys and spouts. The cellars will be cemented, steam heat will be introduced throughout, new lavatories, bath rooms, toilet rooms and closets of the most approved pattern, electric work, and all modern improvements will be placed. Estimates are being made.

T. P. Lonsdale, architect, Manhattan Life Building, Philadelphia, has made plans for a new church for the North Baptist Congregation, of Camden, N. J. The structure will have a mosque-shaped tower and be constructed of stone and brick and slate roof. The auditorium will be in amphitheatre shape, the basement will be fitted for entertainments and committee rooms; at the rear of the main building will be erected a robing department for both sexes, a large baptistry and space for a choir. On the whole the edifice will be one of the most imposing in that city.

Hazelhurst & Huckle, architects, Drexel Building, have made plans for Bank Street public school at Bridgeton, N. J. Structure will be two stories and basement, and in area 72 x 84 feet. Material will be Trenton stretcher brick and terracotta ornamentation, cost about \$30,000. Also, plans for a country house at Oak Lane for J. G. A. Fisher. To be built of local stone and frame, with shingle roof, colonial style of architecture and with all modern conveniences. Also, plans for a cottage at Asheville, N. C., for R. G. Pearson, to be frame. Also, plans for a colonial house two and a half stories high, for N. B. Musselman, at Stratthallan Park, Rochester, N. Y. Cost about \$7500. Also, plans for a stable at Germantown, to be of buff brick and two and a half stories high, with all modern conveniences.

**Building and Real Estate Notes.**

An operation will be started at once of twenty houses at Fifty-fifth and Oxford Streets by G. W. Sherman, all to be of press brick, stone facing and best interior work.

The Germantown and Chestnut Hill Railroad has purchased a tract of four and one-half acres in the Twenty-second Ward, on the line of the railroad, from David Hey. The price paid was \$20,000.

The Charles Warner Steamboat Co., of Wilmington, Del., have bought the wharf property on the northwest corner of Delaware Avenue

THE FOLLOWING TABLE shows the building operations in the respective Wards for four weeks in June, 1892, for which permits were issued. WEEKS ENDING SATURDAYS 4th, 11th, 18th and 25th.

and Walnut Street, which will now be adapted to uses of the company.

To B. D. Ayres will be awarded the contract for the erection of the new hospital to be erected at Chester, as the building committee has so ordered the recommendation. The plans were made by P. A. Welsh, of this city.

James A. Brandin, contractor, 2015 Sansom Street, has the contract to rebuild the fronts of 718 and 724 Chestnut Street, and will at once begin the work. This will consist of setting back the fronts as per ordinance of Councils.

James Mole, 1718 Cayuga Street, is about to start the erection of ten dwelling houses, 15 x 48 ft., three stories high, on the North side of Denie Street, West of Germantown Avenue, all to be of best material, press brick, stone trimmings, etc.

W. S. P. Shields, builder and real estate operator, 735 Walnut Street, has started nine houses Northwest side of Greenway Avenue, South of Fiftieth Street, to be of the usual standard of houses built in that vicinity by the same gentleman.

John O'Donnell, contractor, 1161 South Thirtieth Street, will at once make additions to the hotel, corner of Broad and Locust Streets, also northwest corner of Dean and Morris Streets. All to be of brick, and fitted with latest conveniences.

Ralph & Gregg, contractors, 1233 Olive Street, will at once begin work upon interior alterations and additions to 40-42-44 North Eighth Street. The additional structure will be 16 x 19 feet, three stories high and fitted on interior with all modern conveniences.

John M. B. Morrow, 1525 South Broad Street, the well-known builder, will at once break ground for twenty-four two and three story houses on south side of Cross Street west of Twenty-third. All to be of press brick, stone facings and best modern conveniences.

Murrell and Prettyman, builders, 25 North Juniper Street, will at once begin an operation of ten dwellings, two stories high, on Eighteenth Street, North of Snyder Avenue. All to be of press brick, stone trimmings and best modern improvements on interior.

Messrs. Hughes & Patterson, iron manufacturers, will at once begin the work of enlarging their plant, by erecting four more rolling mills. They are to be of iron and brick construction. One will be two stories high, 40 x 253 feet, and the remainder one story and of various sizes.

The Third Street M. E. Church, of Camden, N. J., has bought a lot of ground at Sixth and

Stevens Streets for the purpose of building a new church in lieu of the one sold to the P. R. R. at Third and Federal Streets. Plans will at once be prepared and the work pushed to completion.

A. W. South, phosphate manufacturer, at Greenwich Piers in the first ward, is making preparations to enlarge his plant by erecting two new buildings at that point, one to be four stories high, 60 x 144 feet and the other two stories 48 x 100 feet. Each to be of stone and brick and to cost about \$15,000.

W. T. B. Roberts, builder, 1433 North Twentieth st., will at once start an operation of fifty two and three-story dwellings for T. H. Campion near Upsal Station, near Germantown. These are to be of best quality of brick, with stone facings and steps, the interior work of best workmanship and modern improvements.

John Duncan, carpenter, 905 Chant Street, has a contract to remodel the front on Chestnut Street of the store of John B. Morley, merchant tailor, South-east corner of Eighth and Chestnut Streets, and will at once begin the work. This, like all others in the same row, will recede from the present line about four and a half feet, under ordinance of Councils.

The property recently purchased by the Mannerchor Society on Fifth Street, below Green, is to be partially demolished prior to the construction of a club house. The front is to be remodelled and a building one-story high, with a basement, for a banquet hall and bowling alley. A garden for Summer use is also to be laid out. The proposed cost is \$20,000.

The Quaker City Mortar Company, are about to start the erection of a five-story mixing house, at Twenty-third and Filbert Streets, structure will be of brick and stone fitted on interior with steam power and machinery for the manufacture of ready mixed material for brick, stone and plaster work. This company have made rapid progress under the present able management.

O. W. Buckley, builder, 1736 North Twenty-second Street, has just made excavation for cellars for nine two-story houses on South side of Redwood Street, West of Twenty-fifth. Also nine more on North side of Oxford, West of Twenty-fifth Street, and eight others on East side of Twenty-sixth Street, below Redmond, all to be of press brick, stone facings and steps, with best modern conveniences.

Savidge & Smith, 608 Chestnut Street, have purchased from the Fidelity Insurance, Trust and Safe Deposit Co. a large piece of ground on Fifth Street and Glenwood Avenue. They have also purchased from the Provident Life and Trust Co. another large piece of ground, bounded by

Sixth Street, Westmoreland Street and Glenwood Avenue. The ground will be improved at once by the erection of suitable stores and dwellings.

Frederick J. Amweg, contractor, Hale Building, has received the contract to erect a seven-story office building for Thomas E. Baxter at 1414 South Penn Square. It will cost about \$25,000, and be fitted throughout with all modern conveniences. The drawings for this structure were made by Yarnall & Goforth, architects, 14 South Broad Street, and noted in full on June 15th, 1892, and specify a structure seven stories high, a single passenger elevator, electric work, steam heat, tile roof, etc.

Geo. F. Payne & Co., contractors, 401 South Juniper Street, have been awarded the contract for the erection of the Institute of Biology and Anatomy Building, at the University of Pennsylvania, Woodland Avenue and Spruce Street. The plans were prepared some time ago, by G. W. and W. D. Hewitt, architects, Bullitt Building, and fully noted in a previous number of this journal. The same contractors will rebuild the fronts of 714-16 Chestnut Street, setting them back to line established by ordinance of City Councils.

The contract to raise the inter-county bridge which spans the Schuylkill river at Manayunk has been awarded to the Pencoyd Iron Works. The bridge will be elevated about four feet from the centre to the east end so as to allow freight trains on the Venice branch of the Reading Railroad to pass under it. After the structure is raised, it is expected that the shipments over the railroad will increase. The railroad requires an overhead clearing of fifteen feet, but now it is only twelve feet. The improvement will be made at the expense of the Reading Company.

Both houses of Congress have passed the bill appropriating money for a new U. S. Mint for this city, and in order to become a law, now only awaits the signature of the President, which is already assured. The amount named in the bill is understood to be \$520,000, to which will be added \$180,000 of a unexpended balance, which will be quite adequate to purchase the site previously indicated in the recommendation of the board appointed to select a location, which is the block bounded by Sixth, Seventh, Sansom and Walnut Streets, and which will now be condemned by the government and paid for, after which plans will be made for the building by and under the direction of W. J. Edbrooke, Supervising Architect of the Treasury Department, and future appropriations asked for the building.

At a meeting of the Trustees of the Academy of Natural Sciences on the evening of the 5th inst., a resolution was unanimously passed directing
